

FRAGMENTS.

Milton Nobles will appear at the Theatre on Sept. 24th and 25th.

THOS. A. SHIVER, of the Ogden Co., is in this city on business.

Ray H. Satt will go to Denver via the Union Pacific to-morrow.

The Sunday school concert in the Twenty-first Ward comes off this evening.

R. S. WATSON, purchasing agent of Z. C. M. I., has returned from the east.

The Primary Fair, now being held in the Social Hall, closes to-morrow evening.

A case of diphtheria is reported in the family of George Morris, in the Eighth Ward.

D. C. Bond and wife will start for Canada to-morrow, going via the Union Pacific.

The Relief Societies of this State are holding their conference in the Assembly Hall to-day.

Mrs. MARY E. BAILEY and daughter, of this city, leave for St. Louis to-morrow, via the D. & R. G.

The Willard base ball nine will play with the Salt Lake boys on Washington Square to-morrow.

WM. McCREHAN was arrested last night for drunkenness and profanity. He was fined \$10 this morning.

J. M. SMITH advertised to do all kinds of stone repairing, and furnish sash weights and heavier castings.

ALEX. JACKSON, city passenger agent of the D. & R. G. at Denver, and wife, start for home via the D. & R. G. to-morrow.

THE Young Ladies Improvement Association of this State will hold a conference in the 14th Ward meeting house to-morrow afternoon.

J. L. A. THOMAS, general western agent for the Bee Lumber, accompanied by his wife, will leave for their home on a narrow gauge train.

A case of diphtheria is reported in the family of Joseph Donnell, at the corner of Sixth South and Second West streets, in the Sixth Ward.

L. CONN, of Col. Bros., dry goods merchants of this city, returned from a successful business trip to New York last night, looking well and happy.

E. D. SWENKY, special correspondent of the *Alta California*, came in from the west this morning, and will go over the scenic route to-morrow, destined for Chicago.

WM. NIXON was arrested this morning for disturbing the peace and quiet of Isaac Snyder. The additional charges of drunkenness and profanity were also booked against him.

On Tuesday, a man named John Alier was found dead in his bed at Butte, Montana. The coroner's jury returned a verdict that the deceased came to his death from heart disease produced by the excessive use of stimulants.

Yesterday afternoon, a two-year old son of Wm. Wheelright, of Ogden, fell into a ditch. He was discovered soon afterwards by his mother, climbing a bridge to keep his head above water, and was taken from his perilous position.

The morning papers to-day published an account of a daring highway robbery said to have been committed near the D. & R. G. W. depot last Wednesday afternoon. G. D. Hughes, a clerk in the railroad freight office was said to have been the victim to the amount of about \$13. The real facts in the case are, that a couple of young men named G. K. and K. K. had perpetrated a joke on Hughes, and forcing him to take out of his pockets the three then went to a saloon and "squirted" the affair.

LOCAL NEWS.

Going to California.—Mr. James T. Harwood, the rising young artist, of Lehi, Utah County, intends starting for San Francisco in a couple of weeks. He goes to continue the study of his chosen profession, in which he is destined to make his mark.

Primary Conference.—The Primary Conference of the State will convene to-morrow morning, at 10 o'clock, in the Assembly Hall, in this city. A full and punctual attendance is desired, and the children who have the S. S. Union Music Books No. 3 are requested to take them with them to the meeting.

Fine Peaches.—The finest peaches we have seen this year were exhibited in our office by Brother John Wilcox, of the Fifth Ward, as the product of his own garden. They were tempting to look upon, and would not doubt be equally pleasant to taste, though not having sampled them, we cannot vouch for the flavor.

Mines Still Closed.—By correspondence from Almy, dated yesterday, we learn that the coal mines at that point are still closed, and no one there knows when the work in them will be resumed. The excitement that recently existed there over the killing of the Chinese at Rock Springs has subsided, and peace and quiet again reign.

Under Bonds.—Yesterday evening Deputy Marshal Scott brought in from Tooele City, Mr. William Pickett, whose arrest on the charge of unlawful cohabitation with his wives was chronicled a few days since. Mr. Pickett was taken before Commissioner Gleason and gave \$1,000 bonds to await the action of the grand jury, John Pickett and Theo. Burmeister being sureties.

Looking for Dr. Hughes.—Last evening seven deputy marshals presented themselves at the Desert Hospital, and demanded admission. They were there, they said, with the purpose of searching the hospital in hope of finding Dr. Mattie P. Hughes, whom they wanted as a witness. No search warrant was shown, but two of the deputies went through every room in the building, while the other five remained on guard. The object of the search was not to be found, however, and the disappointed herds took their departure.

District Court Proceedings.—In the Third District Court yesterday afternoon, in the case of the London Bank of Utah vs. Flagstaff Dist. S. M. Co., the motion of defendant that plaintiff be excluded from giving any evidence on account sued on at trial, was overruled.

D. B. Bristol vs. W. S. Hullinck; demurrer to plea sustained.

Raddon vs. Raddon; ordered that defendant be cited to appear on Sept. 20, to show cause why he should not be attached for contempt.

Callias vs. Dickinson et al.; demurrer withdrawn, and order for default, judgment and decree according to prayer.

BISHOP JOHN SHARP PLEADS GUILTY

AND AGREES TO OBEY THE LAW AS INTERPRETED BY THE COURTS.

At three o'clock to-day Bishop John Sharp came into Court and his attorney, R. L. Williams, said:

If your honor please, in the case of the United States vs. John Sharp, who has been indicted in this Court for unlawful cohabitation, under the Edmunds law, your honor will perhaps remember, and the record shows, that the defendant has been arraigned in this Court heretofore. He is in court, and desires to withdraw that plea of not guilty and enter a plea of guilty. I ask that the plea of not guilty be withdrawn and the defendant plead to this indictment.

Court—You desire to withdraw the plea of not guilty?

Williams—Yes.

Court—Let the plea be withdrawn. Mr. Williams—I move, your honor, that the Court take the defendant's plea.

Clerk—What is your plea to this indictment, guilty or not guilty?

Bishop Sharp—Guilty.

Williams—In connection with this plea, if your honor please, the defendant himself draws up a brief statement, that he desired to make to the Court, and after that is presented, he is subject to any further inquiry that your honor may see fit, under the circumstances, to make; and at his request, and with the permission of the Court, I will read this statement, which has been handed to me by Mr. Sharp.

Court—Read it.

Mr. Williams then read Bishop Sharp's statement of reasons for his action, which was handed to a Tribune reporter, and the News reporter was unable to obtain a copy of it.

Court—Do you wish to say anything further?

Mr. Sharp—Nothing, I believe, sir.

Court—I understand from your statement, Mr. Sharp, that you propose to obey the law of the land as interpreted by the courts, and you don't propose to advise other people to violate it?

Mr. Sharp—No, sir.

Court—It is gratifying, of course, to the Court and to all law-abiding citizens, that a man of as much influence in the community and the Church to which he belongs as you have, should take this stand. The example, I trust, will have an effect upon society in inducing others who are disposed to violate this law by bigamy or unlawful cohabitation to submit to the law.

You are ready to have the judgment of the Court pronounced against you?

Mr. Sharp—Yes, sir.

Court—In view of the statements which you have made, I am disposed to exercise the discretion which the law gives me, so as to not impose any imprisonment.

Your example to-day, I think will have a better effect on society than any imprisonment the Court could impose; and the object of the punishment is, of course, to protect society from the crime which is prohibited and which is punished, and when that is reached by the example and conduct of the party, his assurances and his intentions as expressed by him, I don't think the law requires me to impose any severe punishment.

The law authorizes the Court to impose a fine of three hundred dollars and imprisonment for six months. I will simply impose a fine of three hundred dollars and costs.

Williams—Whenever the clerk furnishes a statement of the costs and hands it to me, I will be paid to the clerk, I suppose the defendant need not remain in Court.

Court—No, sir.

Bishop Sharp then left the Court room.

A Useful Contrivance.—Charles H. Tackfield, of the Eighth Ward, has commenced the manufacture of his combination candlestick, a description of which was given in the News at the time the article was patented. Three kinds are now made by the patentee: brass finished, \$1.50; bronze, \$1.00; japanned, \$1.25. The combination comprises a candlestick, match safe, match lighter, handy lantern and bread toaster.

The candlestick is so arranged that the holder keeps the candle perfectly upright, preventing the dripping of wax, and can be landed without soiling the hands or soiling any inconvenience. The candle can be entirely burned out, leaving the socket ready for the insertion of another candle. For carrying a light around the house instead of the dangerous lamp, the contrivance is absolutely safe.

The base of the candlestick contains a match receptacle, where matches can be carried, ready when required, and without the slightest danger. A match lighter of brass wire netting, is underneath the base.

To transform the candlestick into a lantern, it is only necessary to insert an ordinary No. 2 crimped top lamp chimney, top down, between the two cups on the holder. The light of the candle is thus securely protected from the wind, and all the advantages of a lantern obtained. When covered in this way only enough air is admitted to cause the flame to burn brightly.

When used as a bread toaster, the pans are detached from the holder, and a six tined circular fork attached to a cross arm. The stand can then be placed in front of a grate or stove, with the fork adjusted to the necessary height, where it can be left until the bread is toasted. Altogether the candlestick, etc., is most ingenious and handy contrivance.

Commissioned.—The Governor, to-day, issued commissions to the following officers, elected last August:

S. P. Anderson, surveyor, Box Elder County; John D. Peters, county superintendent of district schools, Box Elder County.

H. H. Smith, marshal; J. K. Fowler, recorder, Corinne; Alex. Taylor, A. P. Grook, A. P. Barnes, D. D. Ryan, Joseph Keller, M. E. Campbell, R. G. Welch, Councilors; D. D. Ryan, assessor and collector; Ammon Green, selectman, Weber County.

Herman Cummings, selectman, Wasatch County; T. H. Giles, county clerk and county recorder, Wasatch County.

David Cameron, probate judge, Garfield County; James W. Pace, sheriff, Garfield County; R. G. Clark, prosecuting attorney, Garfield County.

Allen Frost, president of the town of Kanab, Kane County; Zadock Addis, Jr., Wm. H. Clayton, Wm. S. Lewis and Alonzo L. Stewart, town trustees.

The Primary Fair.—The Primary Fair which is being held in the Social Hall to-day is not receiving the patronage which the merits of the exhibit and its worthy object demand. The price charged for admission is merely a nominal one, being ten cents for adults and five cents for children, and the display is well worthy the attention of any one who is interested in the welfare and advancement of the young.

In view of the fact that many persons who would like to attend are prevented from doing so through being otherwise engaged through the day, it has been decided to keep the fair open until ten o'clock on Saturday evening, and give every one a chance to be present before it closes.

PACIFIC COAST NOTES.

COLLECTED FROM WESTERN EXCHANGES.

Last Saturday night, on Cross Creek bridge, two miles south of Travel, Cal., two men named "Dick" and "Paddy" were attacked by two masked men, who presented revolvers and said, "Hands up." "Dick" struck his horse with a whip and they broke into a run. At the same time two shots were fired, and one passed through "Paddy's" right forearm, making a slight wound. The highwaymen took their parting shot without other effect.

The boarding-house at the Standard Sugar Refinery, Alvarado, Cal., caught fire on the 13th, and burned to the ground. There was no wind blowing, and the fire burned very slowly. Most of the furniture was saved, but in the excitement it was badly broken. The cause of the fire is unknown. The loss is about \$2,500; no insurance.

Three masked men entered the residence of Michael Griffin, north of Portland, Ore., about 1 o'clock Saturday morning, and awakening Mrs. Griffin, placed a revolver at her head, and forced her to give up what money there was in the house, about \$85.

H. C. Cull, of Livermore, Alameda Co., Cal., choked his wife to death during the night of the 13th, then hunched up his car and drove off. He was found the next morning about a mile away, asleep in his car. He was probably insane.

Frank Westrate, of San Rafael, Cal., and his 18-year old son, went hunting deer on the 13th, and having occasion to separate the father saw what he supposed to be a deer and fired. To his horror the shot was followed by a piercing scream, and on running to the spot the agonized man found his son in the last throes of death. He had shot him.

Likeness of the Prophet.—We mentioned some time since that C. W. Carter, the photographer of this city, had secured a daguerreotype portrait of the Prophet Joseph Smith, taken in Nauvoo in 1845, from which he intended to make photograph copies. The photograph being rather dim with age, he found it necessary to touch the copies up with India ink to give them tone, and this to some extent deprives the picture of a natural appearance, but the copies which we have seen of cabinet size will doubtless give one a better idea of the venerated original than any of the other pictures of him in existence. Mr. Carter has copyrighted the picture, and now has it for sale.

Shot in Mistake for a Deer.—Our Eagle Rock correspondent, R. L. Bybee, sends us an account of one of those casualties that occur every hunting season from men shooting their companions in mistake for game.

On the 8th instant, about 10 a. m., while James Carr and Robert Dinsdale were out hunting near Menan, on the south fork of Snake River, Idaho, he might have been a very serious accident occurred, while Mr. Carr was crawling through the brush, which is very thick and heavy along this stream, Mr. Dinsdale saw him and thinking he saw a deer, shot Mr. Carr in the right thigh. The ball which is a 30-caliber Spencer passed through his pocket book, hit his knife, entered the flesh at the back, passed round the thigh bone and lodged on the inside of the thigh. Dr. Hill of this place probed for the ball, but did not deem it wisdom to take it out until the inflammation subsided. Mr. Carr is a powerful man, and although suffering severely is doing as well as could be expected under the circumstances.

Left quotations, New York, per 100 lbs., \$4.25.

McGinnis & Co. to-day received to-day one car Hannau ore, value, \$2,000; two cars Stormont ore, value, \$2,000; two cars Queen of the Hills ore, value, \$1,400; total, \$5,400.

FROM A MISSIONARY IN TURKEY.

CONSTANTINOPLE, August 20th, 1885.

Editor Desert News:

As there are many Germans and Swiss in this great city and some of them show an interest for our cause, and are willing to send some information back to their native countries, and I remember a prophecy of Jesus Christ: "The truth shall make you free," I have written a pamphlet, and had 1,000 copies printed, one of which I have written to you, in order that you may know what is going on out here.

The *Standard*, the largest newspaper here, published in French, also most the whole of the court of the First Presidency and the petition, and this great gazette, with others found fault with the present way of the United States in dealing with the saints.

The *Standard* also, after a first easy to read, and the best of published my answer and the last testimony of Mr. David Whitmer.

Many are wondering now the present crusade will turn out, and say: "If the Lord saves the Mormons this time too, then they must be his people." I prophesy to them that He will.

We hear of wars and rumors of wars; two days ago it was whispered about that there was to be a great alliance between England, Turkey, Persia and China against Russia. People who don't understand are beginning to fear, but those who look forth for the coming of the right King are cheering up.

Respectfully, J. SPONT.

THE ONLY CORRECT PHOTOGRAPH OF THE PROPHET JOSEPH SMITH.

The Cabinet Photographs are now for sale at 25cts. each, to be followed by \$1.00 and \$1.14, copied from the original daguerreotypes taken in 1845, and kindly loaned to me by Joseph Smith. The photographs are copyrighted. Send 25cts. in stamps for one.

Arbogast is still alive and on hand to supply his customers with the famous Boston Ice Cream, for the purity and richness of which he is ever ready to vouch; having his own ice-houses and farm, he is ready to combine with all. He intends to make his house the headquarters for all kinds of first-class refreshments.

Call and try his pure cream, delicious ice cream, sparkling soda water, or any of the many delicacies of the season he has in his complete establishment.

THE BLOOM OF BEAUTY.

On her brow indicates the glow of health within. What a change from the invalid of a few months ago. Do you know the secret of her renewed health? We will tell you. When you found that the pleasant liquid from the Syrup of Figs is as agreeable to the taste as it is effective in its action, and the system, and the mind, and the body, and the soul, and the heart, and the liver, and the kidneys, and the bowels, and the stomach, and the lungs, and the throat, and the nose, and the ears, and the eyes, and the mouth, and the tongue, and the teeth, and the hair, and the skin, and the nails, and the bones, and the muscles, and the nerves, and the brain, and the spinal cord, and the rest of the human system, and the whole of the human body, and the whole of the human mind, and the whole of the human soul, and the whole of the human heart, and the whole of the human liver, and the whole of the human kidneys, and the whole of the human bowels, and the whole of the human stomach, and the whole of the human lungs, and the whole of the human throat, and the whole of the human nose, and the whole of the human ears, and the whole of the human eyes, and the whole of the human mouth, and the whole of the human tongue, and the whole of the human teeth, and the whole of the human hair, and the whole of the human skin, and the whole of the human nails, and the whole of the human bones, and the whole of the human muscles, and the whole of the human nerves, and the whole of the human brain, and the whole of the human spinal cord, and the whole of the human system, and the whole of the human body, and the whole of the human mind, and the whole of the human soul, and the whole of the human heart, and the whole of the human liver, and the whole of the human kidneys, and the whole of the human bowels, and the whole of the human stomach, and the whole of the human lungs, and the whole of the human throat, and the whole of the human nose, and the whole of the human ears, and the whole of the human eyes, and the whole of the human mouth, and the whole of the human tongue, and the whole of the human teeth, and the whole of the human hair, and the whole of the human skin, and the whole of the human nails, and the whole of the human bones, and the whole of the human muscles, and the whole of the human nerves, and the whole of the human brain, and the whole of the human spinal cord, and the whole of the human system, and the whole of the human body, and the whole of the human mind, and the whole of the human soul, and the whole of the human heart, and the whole of the human liver, and the whole of the human kidneys, and the whole of the human bowels, and the whole of the human stomach, and the whole of the human lungs, and the whole of the human throat, and the whole of the human nose, and the whole of the human ears, and the whole of the human eyes, and the whole of the human mouth, and the whole of the human tongue, and the whole of the human teeth, and the whole of the human hair, and the whole of the human skin, and the whole of the human nails, and the whole of the human bones, and the whole of the human muscles, and the whole of the human nerves, and the whole of the human brain, and the whole of the human spinal cord, and the whole of the human system, and the whole of the human body, and the whole of the human mind, and the whole of the human soul, and the whole of the human heart, and the whole of the human liver, and the whole of the human kidneys, and the whole of the human bowels, and the whole of the human stomach, and the whole of the human lungs, and the whole of the human throat, and the whole of the human nose, and the whole of the human ears, and the whole of the human eyes, and the whole of the human mouth, and the whole of the human tongue, and the whole of the human teeth, and the whole of the human hair, and the whole of the human skin, and the whole of the human nails, and the whole of the human bones, and the whole of the human muscles, and the whole of the human nerves, and the whole of the human brain, and the whole of the human spinal cord, and the whole of the human system, and the whole of the human body, and the whole of the human mind, and the whole of the human soul, and the whole of the human heart, and the whole of the human liver, and the whole of the human kidneys, and the whole of the human bowels, and the whole of the human stomach, and the whole of the human lungs, and the whole of the human throat, and the whole of the human nose, and the whole of the human ears, and the whole of the human eyes, and the whole of the human mouth, and the whole of the human tongue, and the whole of the human teeth, and the whole of the human hair, and the whole of the human skin, and the whole of the human nails, and the whole of the human bones, and the whole of the human muscles, and the whole of the human nerves, and the whole of the human brain, and the whole of the human spinal cord, and the whole of the human system, and the whole of the human body, and the whole of the human mind, and the whole of the human soul, and the whole of the human heart, and the whole of the human liver, and the whole of the human kidneys, and the whole of the human bowels, and the whole of the human stomach, and the whole of the human lungs, and the whole of the human throat, and the whole of the human nose, and the whole of the human ears, and the whole of the human eyes, and the whole of the human mouth, and the whole of the human tongue, and the whole of the human teeth, and the whole of the human hair, and the whole of the human skin, and the whole of the human nails, and the whole of the human bones, and the whole of the human muscles, and the whole of the human nerves, and the whole of the human brain, and the whole of the human spinal cord, and the whole of the human system, and the whole of the human body, and the whole of the human mind, and the whole of the human soul, and the whole of the human heart, and the whole of the human liver, and the whole of the human kidneys, and the whole of the human bowels, and the whole of the human stomach, and the whole of the human lungs, and the whole of the human throat, and the whole of the human nose, and the whole of the human ears, and the whole of the human eyes, and the whole of the human mouth, and the whole of the human tongue, and the whole of the human teeth, and the whole of the human hair, and the whole of the human skin, and the whole of the human nails, and the whole of the human bones, and the whole of the human muscles, and the whole of the human nerves, and the whole of the human brain, and the whole of the human spinal cord, and the whole of the human system, and the whole of the human body, and the whole of the human mind, and the whole of the human soul, and the whole of the human heart, and the whole of the human liver, and the whole of the human kidneys, and the whole of the human bowels, and the whole of the human stomach, and the whole of the human lungs, and the whole of the human throat, and the whole of the human nose, and the whole of the human ears, and the whole of the human eyes, and the whole of the human mouth, and the whole of the human tongue, and the whole of the human teeth, and the whole of the human hair, and the whole of the human skin, and the whole of the human nails, and the whole of the human bones, and the whole of the human muscles, and the whole of the human nerves, and the whole of the human brain, and the whole of the human spinal cord, and the whole of the human system, and the whole of the human body, and the whole of the human mind, and the whole of the human soul, and the whole of the human heart, and the whole of the human liver, and the whole of the human kidneys, and the whole of the human bowels, and the whole of the human stomach, and the whole of the human lungs, and the whole of the human throat, and the whole of the human nose, and the whole of the human ears, and the whole of the human eyes, and the whole of the human mouth, and the whole of the human tongue, and the whole of the human teeth, and the whole of the human hair, and the whole of the human skin, and the whole of the human nails, and the whole of the human bones, and the whole of the human muscles, and the whole of the human nerves, and the whole of the human brain, and the whole of the human spinal cord, and the whole of the human system, and the whole of the human body, and the whole of the human mind, and the whole of the human soul, and the whole of the human heart, and the whole of the human liver, and the whole of the human kidneys, and the whole of the human bowels, and the whole of the human stomach, and the whole of the human lungs, and the whole of the human throat, and the whole of the human nose, and the whole of the human ears, and the whole of the human eyes, and the whole of the human mouth, and the whole of the human tongue, and the whole of the human teeth, and the whole of the human hair, and the whole of the human skin, and the whole of the human nails, and the whole of the human bones, and the whole of the human muscles, and the whole of the human nerves, and the whole of the human brain, and the whole of the human spinal cord, and the whole of the human system, and the whole of the human body, and the whole of the human mind, and the whole of the human soul, and the whole of the human heart, and the whole of the human liver, and the whole of the human kidneys, and the whole of the human bowels, and the whole of the human stomach, and the whole of the human lungs, and the whole of the human throat, and the whole of the human nose, and the whole of the human ears, and the whole of the human eyes, and the whole of the human mouth, and the whole of the human tongue, and the whole of the human teeth, and the whole of the human hair, and the whole of the human skin, and the whole of the human nails, and the whole of the human bones, and the whole of the human muscles, and the whole of the human nerves, and the whole of the human brain, and the whole of the human spinal cord, and the whole of the human system, and the whole of the human body, and the whole of the human mind, and the whole of the human soul, and the whole of the human heart, and the whole of the human liver, and the whole of the human kidneys, and the whole of the human bowels, and the whole of the human stomach, and the whole of the human lungs, and the whole of the human throat, and the whole of the human nose, and the whole of the human ears, and the whole of the human eyes, and the whole of the human mouth, and the whole of the human tongue, and the whole of the human teeth, and the whole of the human hair, and the whole of the human skin, and the whole of the human nails, and the whole of the human bones, and the whole of the human muscles, and the whole of the human nerves, and the whole of the human brain, and the whole of the human spinal cord, and the whole of the human system, and the whole of the human body, and the whole of the human mind, and the whole of the human soul, and the whole of the human heart, and the whole of the human liver, and the whole of the human kidneys, and the whole of the human bowels, and the whole of the human stomach, and the whole of the human lungs, and the whole of the human throat, and the whole of the human nose, and the whole of the human ears, and the whole of the human eyes, and the whole of the human mouth, and the whole of the human tongue, and the whole of the human teeth, and the whole of the human hair, and the whole of the human skin, and the whole of the human nails, and the whole of the human bones, and the whole of the human muscles, and the whole of the human nerves, and the whole of the human brain, and the whole of the human spinal cord, and the whole of the human system, and the whole of the human body, and
