# THE TAXABLE PROPERTY OF THE PR MINING, BUSINESS AND STOCKS.

# APRIL RECORD OF DIVIDENDS

Six Utah Mines Distributed \$293, 000 During the Month.

PARK CITY LEADS AGAIN. A DRIFT WILL ALSO BE RUN

Unprecedented Activity Reing Displayed in the Camps-Metal Market In a Gratifying Condition.

Exclusive of a number of close corporations, from which no reports are received, a half dozen Utah mines declared dividends during the month of April. This "big six" distributed among

The Daly-West, \$108,000; Silver King. Central, \$25,000 Annie Laurie, \$25,000 and the Sacramento, \$5,000.

These contributions came from four camps, Park City, Mercur, Tintic and Gold Mountain.

If the output of some of the close corporations were known, together with larly, the "velvet" record for the month would probably have reached \$500,000. The minlng industry was never in a more prosperous condition than it is today. Nearly every camp is enjoy-ing prosperity and at no time in the his-tory of the state has so much activity been displayed in the way of development. This is particularly true of Park City, Bingham, Alta, Gold Mountain

The metal market this month has wan in a very gratifying condition The mine owners have received more for their ores than has been possible for months past. The lowest point reached by silver was on the 4th inst., when it was quoted at 49 cents per ounce. The highest price paid for the metal was 54% cents on the 28th inst. Copper has held around 14 cents per pound and better, while lead remained at the stationary figure of \$2.90 per hundred

#### STOCKS LOWER TODAY. Effected by Decline in Silver - New York Creates a Stir.

Mining stocks were effected by a further decline in silver today. Nearly all of those which displayed so much buoylower. Daiy-West sold down to \$47.20 on the open board, which was just \$1.30 under yesterday's highest figure.
Lower Mammoth fell from 64 to 61 cents during call. California tumbled to 17 cents and May Day was also a mem-

One stock displayed unusual activity on the board this forenoon. One of the mber of the exchange, began buying. This was occasion for the starting of nors of a "strike." Manager Wilson, when seen, made the admission that a stringer of very good ore had appeared ing in the way of developments at the mine justified anyone getting the least The quotations and sales posted were

# ERIE SHAFT TO GO DEEPER

Contract Let to Send It Down to

300-Foot Level.

This From the 250-Foot Station-Ores Reing Extracted Are Identical With O.B. Product.

Secretary L. G. Brown, accompanied by a party of eastern shareholders, re noon. While in camp Mr. Brown let a its shareholders just exactly \$293,000, as contract to sink the main working saft 50 feet deeper. It is now down to 251 feet. He also let another contract \$100,000; Con. Mercur, \$20,000; Grand to run a drift off from the 250 foot station.

> Conditions have never looked better at the Erie, Mr. Brown stated today, and he has every confidence that the inine is going to develop into another O. The entire bottom of the shaft is in ore which will average between 6 and 8 per cent copper. This vein has been followed for a distance of 57 feet. The ores are exide in character and contain considerable native copper.

> The new hoist, installed recently, is performing its functions very satisfactorily and all in all good progress is being made with development work.
>
> The Erie company sets up the claim that an extension of the O. K. vein penetrates its ground from the east nd so far as development has gone appears that there will be no disapntment. The ores being taken out of shaft, Mr. Brown says, are almost identical with the O. K. product, which goes further to demonstrante the con-rinuity of the vein to the westward.

> > FROM THE MAJESTIC.

Senator Lewis Left Eastern Party at Mitford.

Senator A. B. Lewis, President and oseph Henshaw, secretary of the Majestic Copper company, returned this morning from Milford, where they esorted the party of eastern shareh holders about places of interest on the Majestic properties.

Senator Leves stated that the excur-

sionists are delighted with the gress of development and with the advances being made in the construction of the new smelter and other buildings. The excursionists will probably reach the city tomorrow morning and proceed towards Denver in the evening, to be in attendance at the annual meeting on Monday.

Utah's Big Assays.

A letter from the Utah mine at Fish Springs, received today, stated that assays of ore taken from the sixth level show values of 53 per cent lead and 160 ounces silver. The ore came from the recent strike made on the level

Machinery Contracts Let. Chief Engineer James W. Nelll ofthe Tintic Mining & Development company has let the machinery contracts for the

Clark's New Butte Smelter.

An Associated Press dispatch from Butte says: It is reported on excel-lent authority that Senator W. A. Clark will treat copepr ores of which zinc is t component part. There are many good properties here and hereabouts, the ores of which are hard to treat because of the zinc contained in them.

MINING CONCENTRATES.

The ore and bullion settlements made late yesterday afternoon and reported by McCornick & Co., were: Ores, \$17.-200: base bullion, \$23,400. Total, \$70,600.

The delinquent sale of California stock is scheduled for next Saturday. Manager Morris Dusseldorf left this norning for the Comstock mine, Park Word has reached Salt Lake of an im-

portant strike reported made in the heckmate mine in the Pearl district da. A five foot vein of very rich gold ore is said to have been opened up on the lower level of the property, which s owned by a syndicate of Utah rall-

OFFERINGS SOON CEASED.

This Had Effect of Encouraging a Bidding Up of Prices - Speculation Was Very Liteless.

New York, April 30.-Prices advanced fraction on an average, on quite animate dealings. Reading was in good demand on the earnings statement for March, and was lifted %. Room traders followed the lead of profit-taking sales in Eric and pu out moderate selling orders in the genera list, driving prices below yesterday close. The National Railroad of Mexico stocks, Eric first preferred, People's Ga and Amalgamated Copper declined a point and some of the railroads a good fraction Business was practically suspended at the

The entire cessation of offerings at the decline encouraged a bidding up of prices but at about last night's level the offer-ings were renewed and prices fell back to the lowest. Bonds were irregular at the noon hour. Speculation was almost lifeless and the professional element did little in the absence of any aggressive lead.
