FOREIGNERS GOING HOME.

FOREIGNERS GOING HOME.

Every day the Union depot reminds one of Castle Garden with all its foreigners. The difference in this case is that the foreigners are going home to stay, "may be for the winter and may be forever." Not to be caught in the United States another winter without means of support as they were last winter, the foreigners have been very saving during the summer months and have laid aside enough money to get back to their native country and have a few dollars besides. Most of the people who are homeward bound are Italians, Frenchmen and Greeks, who as laborers on the railroads of the west have been supplanted by Americans.

Americans,
Saturday and Sunday afternoons the
eastbound trains on the Union Pacific
were crowded to the guards with Italians who in a joylal and high spirited
manner proclaimed to fellow countrymen at the depot that they were going
to "Sunny Italia." In every case the
foreigners are en route to New York,
where they will take a French or Italian line steamer for some port in Italy.

NO ABATEMENT IN BUILDING BOOM.

The building boom which Ogden has been experiencing during the past several months has not abated in the least regardless of the approach of election. During the past week building permits to the amount of \$14,300 were issued by the city engineer. Most of the intended structures are for residences in desirable locations of the city. A, week ago the city engineer issued building permits to an amount similar to this sum. From the outlook in building crease the indications are that there will be more building done in Ogden during the coming winter than has ever before been carried on in winter months.
