

EXCHANGES CLOSE FOR ARBOR DAY.

No Business Through the Regular Channels Tomorrow.

DAYS WORK BY MINING MEN

Only the Special Feature of Each Call-Beard with Meritless Persistence.

It was announced on both exchanges today that tomorrow, Arbor Day, would be a holiday for the mining industry. The regular call would be suspended with the exception of the regular channels tomorrow, although some little business would be done by men who prefer stock trading to the planting of trees.

MARKET QUOTE ACTIVE.

Good Demand for Good Stocks on the 10th Exchange Today.

The well-known strength of members of the Salt Lake exchange today, reflected in the sale of 25,000 shares for the sum of \$12,500. The market for the day was a whole, was one which demonstrated an active market and a good demand for good securities. Prices generally, however, were downward as the day before.

A leader in the trading was Daley, which felt the effects of a severe price cut and a sharp decline in the market. The price for a share of the stock was \$1.00, while the price for a share of the stock was \$1.00.

Four new shares of stock were sold at \$1.00, while the price for a share of the stock was \$1.00. The price for a share of the stock was \$1.00, while the price for a share of the stock was \$1.00.

The closing figures were as follows:

HOME CURE FOR BLOOD POISON.

Beware of the Doctors' Patchwork; You Can Cure Yourself at Home.

There is not the slightest doubt that the doctors do more harm than good in treating Contagious Blood Poison; many victims of this loathsome disease would be much better off today if they had never allowed themselves to be dosed on mercury and potash, the only remedies which the doctors were given.

The doctors are wholly unable to get rid of the disease, and only attempt to lead up the outward appearance of the system—the skin and eruptions. This they do by dosing the patient with the disease, and endeavor to keep it shut in with their constant doses of potash and mercury. Their work and their other delicate parts (the blood) are thus made worse, and the light is continued indefinitely, the drugs doing the most harm.

It is a valuable time thrown away to expect the doctors to cure Contagious Blood Poison, for the disease is beyond their skill. See the following:

Dr. J. H. Moore, 100 Mulberry St., New York, N. Y., says: "I had spent a hundred dollars with the doctors, when I realized that they could do me no good. I had large spots all over my body, and these spots broke out in
