## Nine Persons Killed On Utah Passenger Train.

### AWFUL WRECK ON UNION PACIFIC.

Passenger Train No. 3, Due Here This Morning, Piled Up in Wyoming.

### GRANGER OPERATOR BLAMED.

### ACCIDENT 175 MILES FROM OGDEN

Wrecking Crew Sent Out From Salt Lake—All Traffic Is Temporarily Stopped—List of Victims.

Shortly after midnight passenger train No. 3, Union Pacific, due to arrive here at 8:30 this morning, collided head-on with a freight special at Azusa, Wyo., 175 miles east of Ogden, with the result that from latest reports received at General Manager Bancroft's office there were nine killed and five injured. The names of the dead so far made public are:

WILLIAM MURRAY, engineer of passenger train.  
B. F. EGGLESE, Evanston, engineer of freight train.  
BERT SHERMAN, mail clerk, Cheyenne.  
SAM EPPERSON, car inspector.  
JOE LOWHAM, Evanston, head freight brakeman.  
Two passengers in the chair car.  
Freight fireman missing.  
Brakeman missing.

### INJURED.

John B. Winslow of Evanston, Pacific messenger, was fatally injured. Among the injured are three passengers, the baggage man and a mail clerk. While there is nothing definite forthcoming as to the cause of the wreck it was officially stated this morning that the blame lay on the shoulders of the operator at Granger and not the train dispatcher.

Both trains were going at a good rate of speed at the time of the accident and there is nothing in the report sent into headquarters to denote that there was a curve at the point named. Officials deny that the cars rolled down the embankment. They say that it is a bad wreck and admit that traffic is temporarily blocked.

General Superintendent E. Buckingham, as soon as the serious nature of the wreck was wired in, left Salt Lake this morning early on a special and ordered the wrecking outfit to proceed from Ogden to the scene. Everything was sidetracked and the special with doctors made record time. Mr. Buckingham is now on the scene superintending the picking up of the wreck and getting things into shape.

The section of the Union Pacific on which the wreck occurred is under the operating jurisdiction of the Oregon Short Line.

It is the worst wreck, from the point of loss of life, that has occurred in this section to date.

When the posse charged Jackson and his friends, the latter drew their guns and beat back the posse, who retreated. The greatest excitement prevails.

On Sunday, Nov. 6, the seventy-seventh anniversary of the birth of that worthy veteran, Henry W. Naishitt of this city, was fittingly celebrated at the residence of his son, Fred C. ### THE GOOD THROW OFF PINK

Ambitious Men, Orange; Deep Thinkers, Deep Blue; An Anxious, Depressed Person, Gray.

### New York, Nov. 12.—Experiments

numbering over 300, conducted over a term of three years, have formed the subject matter for a communication from a physician to a well known medical journal, says a Herald dispatch from London, to the effect that the rays emitted by the human body differ in color, according to the character and temperament of the person. The following particulars are given by the writer:

"The rays emanating from a very passionate man have a deep red hue; one whose keynote in life is to be good and do good, throws off pink rays. The ambitious man emits orange rays; the deep thinker, deep blue; the lover of art and refined surroundings, yellow; an anxious, depressed person, gray. "One who leads a low, debased life throws off muddy brown rays; a devoted, good meaning person, light blue; a progressive minded one, light green; and a physically or mentally ill one, dark green."

### RUSSIAN SQUADRON.

Japan Has Not Protested Against Coaling in Neutral Ports.

London, Nov. 12.—The Japanese legation denies that there is any truth in the report published by the Birmingham Post to the effect that Japan has communicated in strong terms with several European governments on the subject of the Russian second Pacific squadron coaling at neutral ports, which, it was added, Japan considered to be a serious breach of neutrality. The legation has taken no steps in the matter, and has not heard of any such communications or protests.

Port Said, Nov. 12.—The vessels of the Russian second Pacific squadron will only be allowed to take on board sufficient coal and provisions to reach the next port. Arrangements are being made to pass them through the canal as quickly as possible.

### AN ENJOYABLE OCCASION.

Republican Workers Held Reception At State Headquarters.

An occasion almost entirely lost sight of in the humdrum of election affairs, was the reception given Wednesday night at Republican state headquarters, when many nice things were said by men who know how to say them. The social was under the auspices of the workers at state headquarters, and in addition to spicy speeches by Chairman Spry, Secretary Sanford, George A. Smith, Judge Frick, E. H. Callister and John P. Meakin, there was an excellent musical program and delicious refreshments. During the evening Chairman Spry was presented by the workers with an elegant gold-headed umbrella, speeches appropriate to the occasion being made by Bryant Young and A. H. Nash respectively. In a few well chosen words George A. Smith presented to Mr. Spry, with the good wishes of Judge James A. Miner, a beautiful gold-headed cane, for all of which gifts the recipients expressed many thanks. The gathering included many of the successful candidates, and hearty good will characterized the entire proceedings.

Tramps and Hoboes Are Drifting Into The Suburbs.

Quite a number of tramps and hoboes are now drifting into Brigham Junction and other small towns near this city and the officers of those places are kept busy looking after them and sending them on their journeys. Two of the wanderers were jailed at Brigham Junction yesterday and given 30 days for vagrancy. About 30 others were run out of town by the deputy sheriffs and ordered not to return. They will be kept on the move and thus the county will be rid of the criminal element among them.

### THE PRESIDENT'S PERSONALITY.

English Newspapers Regard It as The Prime Factor in the Republican Victory.

### SPLENDID TRIBUTES TO HIM.

Spectator Says His Election is "A Subject for Congratulation Throughout English-Speaking World."

### VIEW OF THE SATURDAY REVIEW.

Thinks It Delusion to Always Applaud Republican Victories and to Look Askance at Democratic Ones.

London, Nov. 12.—The weekly newspapers issued today devote considerable space to the presidential election in the United States and all dwell lengthily upon the personality of President Roosevelt as the prime factor in the Republican victory. The most notable article appears in the Spectator, which includes a splendid tribute to the president with the admission:

"For ourselves, we do not profess any special liking for the Republican party," while in the same paragraph it says the result of the election is "a subject for congratulation throughout the English-speaking world." The Spectator then asks:

"What will he do with it?" and proceeds to credit Mr. Roosevelt with an ideal program for the next four years, the standard of which will be "reason, justice, moderation and common sense."

Discussing the prospective policy of the American government in relation to foreign affairs the Spectator says President Roosevelt will not be afraid to insist that the United States shall hold her own among the great powers of the world, but he will not seek foreign entanglements. The paper continues:

"If the Monroe doctrine is not to be consigned to the political waste paper basket it must rest in the last resource upon naval and military power, and if America has not a fleet strong enough to say 'thus far and no further' to those who shall challenge the doctrine, that doctrine in the future will not prove worth the paper on which the presidential message of 1923 was written."

After predicting that the Panama canal will be completed by President Roosevelt, the Spectator says:

"In the far east and in all that concerns the future of China we may expect the president, acting under the advice of Secy. Hay, who is now unquestionably one of the ablest, if not the ablest, of living diplomats, to maintain the attitude already adopted."

Concluding, the Spectator says:

"We believe his administration will leave indelible traces upon the larger part of the English-speaking race and that for the whole of that race will be a lesson in and a sound example of sound, sane government."

The Speaker and Saturday Review take a less enthusiastic view of President Roosevelt's foreign policy. The Speaker says it is represented by a determination to "get there just the name, which, involving, as it does, a disregard of treaties and the employ of armed force upon the slightest provocation or pretext, represents a grave danger."

The Saturday Review says:

"We have often expressed the conviction that this country has little to gain in the end from a translation into action of President Roosevelt's views of foreign affairs. It has been the fashion among us of late to applaud Republican victories and encourage the idea among Americans that we look upon the Democratic party as less friendly to us than the Republicans. This we believe is a delusion only one degree more mischievous than the notion that an enterprising foreign policy upon the part of the newly elected president will necessarily insure to our benefit."

### COMMITTEE WON'T OBEY MR. DUBOIS.

The Senatorial Investigation Body Refuses to Jump at Crack Of His Whip.

### IS EVIDENTLY CATCHING ON.

Associated Press Says It Went Come To Utah to Conduct Inquiry as Heretofore Announced.

### Chicago, Nov. 11.—A hitch has

occurred in the Reed Smoot "Mormon" investigation, which was to have been resumed by the special sub-committee of the committee on privileges and elections of the United States senate immediately after the election of last Tuesday. The members of the sub-committee were to meet in Chicago this week and proceed to Utah, but the trip has been declared off.

United States Senator Dubois of Idaho, who is a member of the committee, reached Chicago Thursday night. He received a message from Senator Burrows of Michigan, chairman of the sub-committee, informing him that it was impossible to get the members together. It is believed, therefore, that the plans for gathering testimony among the "Mormons" before the meeting of Congress next month will be abandoned.

While the reason for the change is not given in the above dispatch, it is understood that a majority of the committee refused to go on the trip for a reason that they did not propose to be dictated to by Senator Dubois, at whose suggestion, it seems, Chairman Burrows had arranged for the trip to Utah.

### GEO. L. WATSON DEAD.

He Was Famous as a Designer Of Yachts.

Glasgow, Nov. 12.—George Lenox Watson, the yacht designer, who has for some time past been ill, died at his residence in Glasgow today of heart disease. His condition was reported to be better yesterday but in the night he suffered a relapse and passed away. He was born in 1851.

He added that it was his intention to confer with the national and state committee of his own party before returning to his home in the south.

"Have you conferred with the leaders of the Democratic party?" Mr. Watson was asked.

"No," he replied. "The statements given out by both Mr. Bryan and Mr. Hearst precluded anything like that, however willing I should have been to hold such a conference."

Mr. Watson said he had not sent a message of congratulation to President Roosevelt on his election.

"I differ with the gentleman who believes in the propriety of such messages," said Mr. Watson, "but do not wish to criticize them. They have a right to their opinions and I hope I have a right to mine."

### VOTE IN MARYLAND.

Counting of Ballots Has Not Been Completed.

The count in the 23 counties has been completed except in two, but it is expected that these will be sent in today. In one of these there is a charge of fraud in one precinct and a difference of opinion as to whether the ballots in that county shall be counted in the cause of delay.

### NEW PARTY ORGAN.

Republicans Will Have One With Goodwin as Editor.

It has been reported for some days that Salt Lake was to have a new daily newspaper. It has further been said that it will be an out and out Republican organ and that it would fight the Tribune and all that it stands for. Chairman Spry when questioned about the matter today said:

"Yes, we intend to start such a newspaper and expect to have it going by the first of the year."

"Who is to be the editor-in-chief?"

"Judge C. C. Goodwin, I think." Asked about the desirability of securing a telegraphic service Mr. Spry said: "We have reason to believe that it is not impossible to get an Associated Press franchise. We expect to send a representative east at once to see about it, and to learn some other things that may be very vital to the publishing of the new venture which will be a morning paper. Our plans are about all matured and the paper will be a go."

### COAST DEFENSES OF UNITED STATES.

Washington, Nov. 12.—Gen. A. Mackenzie, chief of engineers of the United States army, in his annual report to the secretary of war, presents an exhaustive review of the work accomplished by his corps during the fiscal year ended June 30 last, and submits estimates of appropriations required for the fiscal year beginning July 1 next.

The report says that the sea coast defenses of the United States are now somewhat more than 50 per cent completed and that existing projects comprise 361 heavy guns, 1,296 rapid-fire guns and 324 mortars, while up to the present time provision has been made for acquiring 324 heavy guns, 65 rapid-fire and 376 mortars. The most important of the sites to be acquired is the one at the southern entrance to New York harbor rendered necessary, it is stated, by the new deep water entrance under construction. Improved methods of construction have necessitated modifications of the earlier constructed fortifications in order to modernize them. The new works constructed in connection with the scheme of sea coast defenses to the present time represent an expenditure of \$25,000,000 for engineer work alone.

The estimates of appropriations required for fortifications work are as follows:

Gun and mortar batteries \$10,000,000; manufacturing and equipment, \$34,250,000; installation of range finders, \$500,000; forts for fortifications, \$500,000; searchlights for harbor defense, \$500,000; preservation and repair of fortifications, \$300,000; seawalls and embankments, \$300,000; casemates, etc., for submarine mines, \$500,000; construction of sea coast batteries in insular possessions, \$2,000,000; sites for defenses on Hawaiian Islands, \$326,100.

The expenditures for river and harbor work during the past fiscal year aggregated \$2,825,094. Estimates for the ensuing fiscal year have been made as follows:

Under continuing contracts, \$3,442,356; rivers and harbors (general), \$21,441,357; examinations, surveys and contingencies, \$300,000; prevention of derelicts in New York harbor, \$600,000; enlargement of Governor's Island, N. Y., \$100,000. The estimate of the Mississippi commission was reduced by the chief of engineers to \$2,575,000.

Gen. Mackenzie states that the following amounts can be profitably expended in the next fiscal year in the districts named:

Deep water harbor at San Pedro bay, California, \$40,000; Wilmington harbor, Cal., \$100,000; San Luis Obispo harbor, Cal., \$50,000; San Pablo bay, Cal., \$31,600; Coquille river, Or., \$55,000; canal at Cascade Columbia river, Or., \$100,000; Willamette river, above Portland, Or., and Yamhill and Long Tom rivers, Or., \$60,000; Columbia and Lower Willamette rivers, below Portland, Or., \$450,000; mouth of Columbia river, \$776,000; improvement of Yellowstone National park, \$183,000; road in Mount Ranier National park, \$100,000.

### BLEW OPEN SAFE.

Burglars Then Got Away With Several Sacks of Coin.

Tehama, Cal., Nov. 12.—Burglars entered the general merchandise store of D. Small and Son during the night, by forcing one of the side doors. Then, using iron bars and dynamite, they entered a brick vault two feet thick and blew open the safe. It contained several sacks of coin, which were taken, but the amount is not yet known. It is probably large, as a number of people had made deposits with the firm. The robbers made their escape, leaving numerous checks and papers on the floor. There is no clue to their identity. Several citizens heard the noise of the explosion, which wrecked the safe, but thought it was caused by a stampede of horses in a lively stable.

### TROOPS FOR THE FAIR.

The Germans took the aggressive. They started singing the "Wacht Am Rhein" with uncovered heads and demanded that all the other students remove their hats. The Italians, Slavs and other non-Germans refused to do so, whereupon the Teutons forcibly knocked off their opponents' headgear and trampled their hats and caps in the dust. The Italians then started a counter demonstration on the university steps and sang the national hymn of Italy. The Germans then attacked the Italians and drove them from their position. Sticks and umbrellas were freely used and many heads were cracked, but no arrests were made, as the fighting was confined to the university precincts.
