SILVER SHIELD THE STAR ACTOR

Bingham Stock Recorded Some
Big Advances During Today's
Calls on 'Change.

UNCLE SAM CON. GOES HIGHER.

Butler-Liberal Continued in Good
Form—No Demand for New York
—Closing Quotations and Sales.

This was a good day for Silver Shield. The Bingham stock made some startling advances during the early calls of the Mining Exchange and sold up to 37 cents, a rise of 20 cents a share over Saturday's closing quotations, much to the sorrow of a few brokers who have allowed themselves to get on the short side of the market. When the stock was first called into the pit an offer of 34 1/2 cents was promptly accepted. Apparently investigations made over Sunday were quite satisfactory to those who inspected the mine for the shares were in big demand and brokers were not afraid to bid for it. May Day changed but little, scarcely any, but Uncle Sam Consolidated moved up several points. Yankee Consolidated also was in better form. Columbia Consolidated fell into line, selling at \$1.15, an advance of fully 15 cents a share over the closing quotations of Saturday. Butler-Liberal remained firm, a board lot going at 18 cents. Victoria stiffened some, too, while Beck Tunnel found a buyer at 9 1/2 cents. Altogether, the market was satisfactory and the sales reached a larger volume than for some time.

The closing quotations and sales were:

MAMMOTH SMELTER.

Splendid Progress Being Made With Construction of California Plant.

G. K. Fisher, constructing engineer of the U. S. Mining company, returned last evening from California where he was called to look after matters pertaining to the construction of the new Mammoth smelter in Shasta county.

Good progress, Mr. Fisher says, is being made by the new plant. Material and machinery is arriving rapidly and it is expected that the construction of the new Mammoth smelter in Shasta county will be completed in a few months.

IN PARK CITY CAMP.

Work Progressing Favorably at Mount Masonic Property.

Work at the Mount Masonic is going ahead at the rate of 120 to 140 feet per month, and it is expected that in the course of a very short time now, the cross-fault will be encountered. When this point is reached developments will doubtless be very interesting.

Among other promising prospects which will be worked during the year is the Columbus, into which about \$12,000 is to be dropped. This property is located some distance south of the Naldriver and New York and with little work has already been done. It is well worth developing and prospecting to a considerable extent.

The long drift being run from the Little Bell to the West Quincy is progressing at the rate of about 100 feet per month, and it is expected that in the course of a very short time now, the cross-fault will be encountered. When this point is reached developments will doubtless be very interesting.

REHEARING OF KEMPTON CASE.

Judge of United States Court of Appeals at St. Louis Denies Application.

INVOLVES BINCHAM PROPERTY.

Of Value of \$1,500,000—Col. Wall's Attorneys Will Carry Controversy To U. S. Supreme Court.

A message received from St. Louis during the day conveyed the information that an order had been entered in the office of the clerk of the United States Court of Appeals in the case of the United States Mining company, appellant, vs. Leonides M. Lawson et al, denying the petition of appellees for a rehearing without an opinion and directing slight changes to be made in the opinion filed Nov. 23, 1904.

The case is the one involving title to the Kempton lode mining claim in Bingham, and which is purported to have a value attached to it of a sum aggregating at least \$1,500,000. The property has been in the possession of and its ownership has been claimed by Col. Enos A. Wall.

In the lower courts Wall won; it was then carried to the St. Louis court, where the judgment was reversed. Now that an application for a rehearing has been denied, the next move of Col. Wall's attorneys will be to carry the case to the United States supreme court.

MAKING GOOD PROGRESS.

Supt. Dwyer Rushing South Columbus Tunnel Ahead Rapidly.

Word comes from Alta to the effect that work is progressing very favorably in the driving of the long tunnel at the South Columbus mine. It is now in something over 300 feet, and Superintendent Dwyer is pushing it ahead at the rate of about three feet a day. The ground is breaking some easier and on the whole, conditions are satisfactory.

FORTUNA LEAD ORES.

Shipments coming in at Rate of 20 Tons a Day.

Sidney Bamberger, manager of the Fortuna mine of Bingham, has returned from camp and reports that the payroll now contains the names of about 40 persons and that the development campaign there is being pushed vigorously. Shipments of ore are being made at the rate of 20 tons a day. A lot being sold during the day on consignment showing values of 33.3 per cent lead in addition to the associated gold and silver, the iron excess making it a very desirable ore at the smelters.

One day last week Mr. Bamberger visited the property of the Boston Consolidated, with which, he declares, he became very much impressed. He says Supt. Louis S. Cates has matters well in hand there and that he is making a splendid showing in the campaign of development being carried on. The tunnel being driven into the copper bearing porphyries is revealing some tremendous tonnages, which will find treatment at the mill which the company contemplates putting in this year.

PAY ROLL COMPANY.

Articles of Incorporation Filed With Secretary of State.

A copy of the articles of incorporation of the Pay Roll Mining & Smelting company of Provo, was filed in the office of the secretary of state today. Its capital stock is \$25,000, divided into shares of the par value of 25 cents each. W. H. Brereton is president; Walter Adams, vice president and secretary; John Marwick, treasurer.

NEW LIFE CO. TO BE LAUNCHED.

It Will Be Controlled by Local People and be Purely a Home Institution.

CAPITAL HALF A MILLION.

President Joseph F. Smith Will Probably be the President of the Company.

A new local life insurance company with a capital of \$500,000, organized and controlled by Utah, Idaho and Arizona people, is to be launched in the immediate future. The name of the new company is not yet decided upon, though the "Western Life Insurance company" and the "Beneficial Life Insurance company" are both titles that have been suggested.

The old Home Life Insurance company, organized by Mr. Heber J. Grant, in the early 90's, only remained in existence a few years and wrote but few policies. Its investments were specially fortunate, however, and on retiring from business its stockholders were paid a handsome profit. The new proposed organization will start out under very favorable auspices, as it is known that the business of life insurance in the west has grown very profitable. The business will at present probably be restricted to three states, Utah, Idaho and Arizona, and the board of directors will be composed of prominent residents in the three districts. The subscription list to the capital of the company, which is now being actively signed, has been handled by Lorenzo N. Stahl of Brigham City, John Stringham, manager of Heber J. Grant & Co., and N. G. Stringham of the Home Fire. They have been so successful in their solicitations for stock in the new company, that up to the present time, after only a month's work, they have secured signatures to nearly \$200,000 out of the \$500,000 required. Subscriptions are limited in each case to \$5,000 and among those who have already affixed their signatures for stock are the following:

Joseph F. Smith, John R. Winder, A. H. Lund, Francis M. Lyman, Heber J. Grant, John Henry Smith, Rudger Clawson, C. S. Burton, B. F. Grant, Richard W. Young, John C. Sharp, Dr. S. B. Young, Henry Stringham, George Romney, Jas. Chipman, J. G. Kimball, S. H. Allen, Jos. Nelson, John C. Cutler, T. A. Clawson, L. M. Cannon, of Salt Lake.

Jas. P. Smith, Edward I. Rich, Edward C. Rich, John Watson, Adam Patterson, James Mack, N. C. Fygar, of Ogden.

John A. Smith, David C. Budge, John A. Whitson, J. H. Linford, T. H. Smart, W. D. Cranney and others of Logan; Geo. C. Parkinson, Preston, Ida; Wm. L. Rich, Paris, Ida; Elias S. Kimball, Blackfoot, Idaho; E. Bassett, Jas. P. Sharp, Rexburg; Mark Austin, Jesse City; C. W. Nibley, Perry, Ore.; Jesse M. Smith, E. P. Ellison, and others of Layton; Wm. H. Smart, John E. Austin, Albert Hatch, Joseph R. Murdoch, and others of Heber City; Orson Saunders, Murray; Lafayette Holbrook and others of Provo; Geo. D. Snell, Jr., of Spanish Fork.

While none of the officers or agents have yet been chosen, it is understood that President Joseph F. Smith will be requested to act as president of the company.

HEAVY DEALINGS, SHARP ADVANCES.

New York, March 12.—The stock market today opened with heavy dealings and sharp advances in the speculative favorites and the general list was a fraction high in sympathy.
