

Today's Ogden News

CONVENTION OF U. C. TRAVELERS

June 7, 8 and 9 Will be Gala Days in the Junction City.

SUIT FOR \$20,000 DAMAGES.

Against O. S. L. For Death of Thomas Murphy—Funeral of Mrs. Small—More County Teachers Named.

Ogden, May 4.—At a meeting held last evening at the Weber club parlors, attended by representatives of the club, the businessmen and newspapermen it was unanimously decided to put forth a united effort to make the convention of United Commercial Travelers to be held in Ogden, June 7, 8 and 9, a gala event long to be remembered.

It is estimated that fully 10,000 people will visit Ogden on these three days, and the meeting last evening was for the purpose of discussing plans for the entertainment of so large a crowd, a committee composed of Mayor E. M. Conroy, President Gilson of the Weber club and Joseph Snowcroft, was appointed to co-operate with the committee of the U. C. T. in arranging for the event.

At the meeting last evening George Goddard and Mr. McCallister of the Salt Lake lodge were in attendance, and stated that the railroad companies have agreed to give extra low rates on all the lines for these three days. They have decided to make the astonishingly low rate of \$15 for the round trip from Butte to Ogden or from Boise City to Ogden, and rates in proportion from all other points in Utah, Montana and Idaho, the three states which form the jurisdiction of the U. C. T. grand council.

Not alone will the 400 commercial travelers of Utah hold their annual convention here, but the grand lodge meets here also, and Ogden must put on its holiday attire for the occasion. The Weber club and Elks' club rooms have been offered the traveling men for their use.

The traveling men will have from six to 10 bands in Ogden on these days, to furnish plenty of good music. Arrangements are under consideration for an excursion one day over the Ogden-Larkin cut-off, also for an outing to Canyon for one day. There will be one of the best horse meets ever held in Ogden, as some of the fastest horses in these states will be brought here to participate in the races. Bicycle races will be held every evening at the saucer track, with all the riders from Salt Lake City. There will also be baseball games and numerous other attractions. The committees will meet again next Tuesday evening to further complete their arrangements. This will be another opportunity for Ogden to show herself equal to the occasion and make the commercial travelers want to visit our city again and often.

\$20,000 DAMAGE SUIT.

Brought Against O. S. L. Ry. Co For Accidental Death.

Ogden, May 4.—Summons has been served on the Oregon Short Line Railroad company in a \$20,000 damage suit to be brought against it by Mrs. Eliza Murphy of Park City, for the death of her son, Thomas Murphy, on April 2. The young man was employed by the railroad company in putting up the bridge at the foot of Thirtieth street, and in endeavoring to place a stringer on the bridge, it slipped and

fell against the scaffold, on which the young man was standing, knocking him into the water below, and in falling it is alleged he struck a part of the bridge with his head, sustaining such injury that death ensued in a short time. The accident, the plaintiff alleges, was caused through the carelessness of the railroad company.

FUNERAL OF MRS. SMALL.

All that was mortal of Mrs. August Small, wife of Samuel J. Small, who died Monday evening, was consigned peacefully to the silent tomb in the family burial plot yesterday afternoon. Impressive funeral services were held at the family residence, 758 Twenty-fourth street, commencing at 2 o'clock. Elder Charles Thilston presiding. Solos and duets were furnished by Mrs. May Farley and William Pickett. Consoling remarks to the bereaved husband and family were made by Mr. E. A. Larkin. The services were well attended and the numerous beautiful floral tributes were silent expressions of the love and made by Elders, Wm. J. Hancock,

NEWS OF THE STATE

SESSION OF CITY COUNCIL.

District Court Business—Movement For Weekly Half Holiday.

Special Correspondence. Logan, Cache Co., May 3.—The case of the State vs. E. R. Davis, which came up in the district court yesterday, was postponed until June 3. Davis was not in attendance and his attorney tried hard to have the case dismissed but failed, but succeeded in having it continued, claiming his client was out sheepherding and was hard to reach.

The case of Bently vs. Bassard et al comes up for trial today.

HALF HOLIDAY MOVEMENT.

At the meeting of the directors of the Commercial club last night, representatives of the state Sunday school presented the matter of a half holiday during the week and urged the club to take some action towards having all business houses close accordingly. The directors decided to call a meeting of all interested for Wednesday evening next to take definite action.

The city has put its rock crusher to work and crushed stone is now being put down on that part of Main street which is to be macadamized.

The Logan and Richmond Canal company has just about completed the weir at the head of its canal. The cost will be about \$500.

W. J. Dowdle has bought an interest in the Logan Furniture company and will hereafter be associated with that firm.

CITY COUNCIL SESSION.

The Logan city council met in regular session, President Lundquist in the chair. Mayor Robinson explained that the Logan and Hyde Park Canal Co. claimed two and one-half rods right of way along its canal through

eastern in which she was held in this community.

The teachers' committee of the Weber county board of education have decided to present the following list of names Saturday for appointment as teachers in the county school for the coming school year:

Inez Stock, Louise Kannally, Nellie Anderson, Ethel Allen, Olga Thompson, Amelia Mannink, Hattie Reeder, W. H. Walton, George E. Fowler, A. C. Patterson, James R. Beus, Estella Holland, Delphia Hetzler, J. C. Neal, John Wheeler, Julia Hallen, E. E. Robinson, G. W. Dale, C. W. Kunz, Pearl Jones, Pearl Swift, Wealthy Lake, Marion Belnap, Thomas R. Jones and Samuel Biddulph.

Plans for the building of the two school houses at Plain City and Hooper will be opened Saturday and acted upon.

SHAW ESTATE INHERITANCE TAX.

According to a report filed with the county clerk the estate of the late Ambrose Shaw is valued at \$25,000.49 and that there is charge against this amount of \$11,082.50 leaving over \$13,917.99 subject to the state inheritance tax assessment, and the court is asked to order the administrator of the estate to pay to the state the sum of \$696.27. The administrator also desires permission to raise \$700 with which to pay the taxes on the property belonging to the estate.

Atty. Gen. Breeden and State Treasurer Christiansen were in Ogden in the interest of the state's rights to an inheritance tax on the estate.

MISSIONARY SOCIAL.

Tonight at the Mount Fort hall a missionary entertainment will be given for the benefit of John L. Wilson, Jr., and Joseph F. Barker, who depart May 15 on missions to England. A comedy drama in two acts entitled "Hickory Farm," will be presented.

the city and that in a number of instances property owners had improved the matter and see if some other means of cleaning the canal cannot be devised. The committee on Public grounds will look into the matter.

Mr. Larsen of the firm of Mouritzen & Co. has asked the council to transfer to the O. S. L. railway the franchise granted the firm for a switch across Sixth street to its coal yard.

By request of Officer King the time of ringing the curfew bell will be changed to 9 o'clock p. m. instead of 8 o'clock.

A resolution creating water main extension district No. 18, on Second south street, west of Third West street, was passed.

The fire and police committee recommended that the plans and specifications of the new fire hall be modified if necessary, and that the committee be authorized to advertise for bids and proceed with the erection of the hall. The recommendation was adopted. The estimated cost of the building is \$7,000. A protest against the extension of water mains on Fourth North street was filed.

The county attorney reported that the Utah Independent Telephone company has 27 phones in use in this city on which rental should be paid to Logan City, as provided by the franchise.

Alfred Plost was granted \$44 water scrip in consideration of certain conditions.

The streets committee reported that in consideration of the compromise of the cases of the city vs. C. Petersen and John Johnson, pending in the district court, the committee agreed to pay Mrs. Petersen \$33.80 costs of court and to furnish Johnson \$50 as an equivalent to fencing made necessary

by the opening of the street. Joseph E. Wilson, Jr., was awarded the contract for putting down the pavement walks on East Center street and First East street.

The streets committee also recommended the creation of a paving district on the east side of Main street on the island.

The waterworks committee recommended that the mains to be put down in the Seventh ward should be taken from the old line on Fourth East street, east of the Temple and run down the hill south. This line, in the judgment of the committee, was cheaper than to construct the line from the canal near the old Woolen mill.

An ordinance levying a tax in water district 17 was passed.

An appropriation of \$2,345.99 for current bills was made.

The committee on streets was authorized to procure a steam roller from Ogden or Salt Lake, enough to complete the macadamizing of that part of Main street now being improved.

FOR WOMEN ONLY.

There are good and substantial reasons why intelligent people and physicians as well, employ Dr. Pierce's Favorite Prescription for the cure of diseases and weakness peculiar to women.

In the first place, it is not a cure-all, serving only a single class of diseases only—those peculiar weaknesses and maladies incident to women. Besides it is the only medicine put up for sale through druggists for the cure of such maladies, all the ingredients of which have the endorsement of leading medical authorities and writers, as being the very best known remedies for the ailments for which "Favorite Prescription" is advised. All this will be learned to the reader's full satisfaction by perusing a booklet of extracts compiled by Doctor Pierce from standard authorities of the several schools of practice, and which will be sent free on any address on request for same, mailed to Dr. R. V. Pierce, Buffalo, N. Y.

In the second place, Dr. Pierce's Favorite Prescription is the only medicine for women's peculiar weaknesses and affections, all the ingredients of which are printed upon the bottle wrapper in plain English, so that all who take it may know exactly what they are getting. The further reason for the unprecedented popularity of Dr. Pierce's Favorite Prescription for the special use of women, is to be found in the fact that it contains not a drop of alcohol, no pure, triple-refined glycerine, of proper strength, being used instead, both for extracting and preserving the medicinal principles extracted from roots of native medicinal forest plants, as are employed in its make-up. The printed formula will also bear witness that it contains no narcotics or other harmful or habit-forming drugs, being entirely made up of glyceric extracts of native, American plants of marvelous efficacy in the cure of the diseases peculiar to women.

Now, in this connection, it is well to bear in mind, that, curious as it may seem, yet it is a fact that Dr. Pierce's Favorite Prescription is the only medicine for the cure of women's peculiar weaknesses and maladies that does not contain alcohol and that too in large quantities. This fact can be easily proven by the fact that it is sold in all the best physicians' drug stores, even in small quantities, when long continued is very harmful, and especially so to weak, invalid, nervous women. While the effect of spirituous wines and liquors, sold under various enticing names may at first be to exhilarate, brace-up and unduly support the system for a brief time, yet a reaction comes sooner or later and the patient is worse off than before. Besides, a craving for alcoholic stimulants has gradually fastened itself upon the poor, deluded, suffering woman—a malady generally more to be dreaded than the original affliction.

Furthermore, Dr. Pierce's Favorite Prescription has a record of cures extending over a period exceeding one-third of a century and embracing more genuine cases of full and complete recovery than any other medicine in its line can boast of. Thousands of cases will bear witness to the operating table and the surgeon's knife by the use of this marvellously efficacious medicine for women's ailments. Other thousands have escaped the disagreeable ordeal of the doctor's questioning, and offensive examinations by taking this remedy and being cured in the privacy of their homes. It has cured thousands of bad, obstinate cases, which doctors had failed and in which cures were thought to be impossible.

What it has done for others it will do for you, if you are similarly afflicted, and you give it a good, fair and faithful trial.

In favor of Dr. Pierce's Favorite Prescription being regarded as above the secret patent medicines of our time, is the

A COLD BLOODED MURDER.

Maj. W. T. Bowdre of Memphis Shot Down Near His Home.

Memphis, Tenn., May 3.—Maj. W. T. Bowdre, a prominent cotton factor and director of the Commercial Appeal of this city, was shot and instantly killed by an unknown person tonight while walking toward his home. No motive is known. When Maj. Bowdre was killed he was within 50 yards of his home in one of the most prominent residential sections of the city and was returning from a visit to relatives. So far as known there were no witnesses to the killing. The only plausible theory advanced is that he probably was intercepted by footpads and refusing their demands the shooting resulted. The bullet pierced his heart and death was instantaneous.

REPUBLICANS CARRY PHOENIX.

Phoenix, Ariz., May 3.—The election held here today resulted in a victory for the entire Republican ticket. L. W. Coggins was elected mayor.

DRIGGS, IDAHO.

Dairying and Sugar Beet Culture Special Attraction. Good Land and First Class Water Right at \$10 to \$25 per Acre. No Other Country Can Offer as Good for the Money.

WE ARE situated in the eastern part of Fremont County, Idaho, and joining the western boundary line of the State of Wyoming, lying 35 miles East of the Snake River valley, from Sugar City. The valley is fifteen miles wide by thirty miles long, and is surrounded by picturesque timber covered mountains, from which flow beautiful streams of clear water sufficient to irrigate the whole valley and still have a surplus to turn down to the people living in the lower country. The valley slopes to the center from either side, dipping slightly to the north, in the center of which flows the Teton River. There are nine prosperous little settlements in the valley, the center of which is Driggs. This is the center of attraction and is building up very fast. Business property has gone up 125 per cent within the last six months, but is still cheap.

Timber is close and of easy access. In these mountains are found the Red pine, White pine, Bird Eye, Balsam and Mahogany, etc. It just takes a good day's work to get a good load of wood to your door, in most any part of this valley. Building material is very cheap here, rough lumber is worth \$12 per thousand feet at the mill. Finishing lumber ranges from \$15 to \$20 per thousand feet. There are large quantities of splendid building stone and lime rock. The demand for lime indicates that there will be a large industry worked up in converting this lime stone into merchandiseable lime.

But this is an agricultural district, which is attested by the 200,000 bushels of good grain raised in the valley in the year 1905. Fields yielded from 35 to 45 bu. per acre, and we are not intensive farmers, either. The immense stacks of alfalfa and timothy hay speaks for itself both in quantity and quality.

In certain kinds of fruit we excel, such as currants, raspberries, gooseberries, strawberries, etc. Also, apples, cherries, pears and plums are an assured success. In flavor these varieties of fruit are not excelled by any.

The surface of this valley is covered by quite a variety of soil. In the center, running from north to south we find a gravelly formation which is admirably adapted for a county road, but as you leave the main thoroughfare going east or west, the soil becomes freer from gravel until you find great bodies of it that are from three to ten feet in depth, without a stone, covered with sage brush or grassy sod. This strong land holds the moisture well and yields immense crops. Usually it is, I suppose, a sandy loam, though there are localities next the foot hills that possess a heavy black clay soil. Our swampy or pasture lands are a deep black sedimentary formation, covered with a heavy growth of meadow grass that makes a good quality of hay or pasture. This country is the dairyman's paradise. Teton Valley creamy butter is much sought after, and facilities for producing this splendid article are within the reach of all fanciers of the gentle "butter."

The altitude of this valley is 6,000 ft. above sea level, and on account of the protection of the surrounding mountains, severe weather of either heat or cold is the exception and not the rule. Our summers are delightful, adverse winds are almost unknown, and when we are visited with frosts it does not snow the upper Snake River valley. Sleighing is always good in the depth of winter, though we notice the snowfall to be growing less from year to year as time goes on.

The question of water rights is a serious question with prospective settlers. As stated in the beginning we have ample water for this valley in the thirteen creeks that flow from that many canyons to the valley below. Some of these creeks are veritable rivers during the irrigating season, so swift and high that a horse cannot ford them. By the latter end of this high water season all grain should be fully watered. Most of our land needs but one watering to mature grain, and the second crop of lucern should be watered once before this high water fully subsides. Besides this a large portion of this valley sub-irrigates, so that in many places water is becoming more plentiful every year; and this seems to be the case where water was the least plentiful, so that crops never fail for the want of water.

That this valley will be a vast coal producing region some day and that not very far hence, is an assured fact. The local market is being supplied with a first class article. Bishop Porter of Sunnyside gave this coal a thorough coking test; he says that as a coke it cannot be surpassed at Sunnyside. This statement coming from a practical coal miner, means a great deal for this coal and this valley, just as soon as the railroad gets here these mines will begin to supply the Montana market with coke, as the distance saved in hauling coke from Utah and Wyoming will insure the speedy erection of a coking plant. The O. S. L. Railroad company will construct a railroad into this valley just as soon as they can get men and materials together to build with. General Manager W. H. Bancroft assures us that the route will be determined just as soon as the surveyors can get into the field in the spring. Also the Chicago and Northwestern Railroad Co. are pushing their road from Lander west, and will push their line through this valley to the coast. Should this happen, values in real estate will increase \$50 per cent.

In conclusion, I wish to say that we raise good wheat, rye, oats and barley, potatoes and all sorts of fruit, that our climate is moderate, that we have the best dairying country in the world, that our building material is handy and good, that our coal and limestone deposits are inexhaustible, that we have the best watered valley in the Rocky mountains, that our soil is up to the average of any in Idaho. We are right on the verge of a big boom and now is your chance to get a good home cheap. Hoping to hear from you again, we are yours.

YOUNG & WINGER.

The Greatest Hosiery Sensation of the Season Saturday!

TWO HUNDRED and FIFTY DOZEN Pairs of HOSIERY!

"The Paris."

The Entire Sample Line of the J. V. Farwell Co. of Chicago Purchased by the Paris at 50c on the Dollar and Less
