

DISCUSSION OF FOREST RESERVES.

Their Extent and Location Con- sidered at a Meeting Held In Provo Today.

GIFFORD PINCHOT WAS THERE.

Government Forestry Expert, Senator Smoot and Congressman Howell Meet With County Representatives.

RESERVES SAID TO BE TOO LARGE

The Objection is Also Made That in Some Places They Cover Ground Where There is No Timber.

(Special to the "News.")
Provo, Sept. 19.—Through invitation of Senator Smoot a large number of representative men of various parts of the state, interested in the proposed forest reserves, met in the courthouse here today for the purpose of meeting Mr. Gifford Pinchot of the govern- ment forestry department, Senator Smoot and Congressman Howell, and talking over the question of the extent and location of forest reserves, in order that Senator Smoot and Mr. Pinchot might learn the desires of the people in the matter, the opinion being held that the reserves are too large and in some places cover ground where there is no timber. Among those present were Senator Smoot, Congressman Howell, Mr. Pinchot and Collector E. H. Gifford. The counties were represented by the following:
Utah—C. E. Looze, W. O. Creer, J. S. Page, Jr., J. B. Miller, James C. Gove, J. Gardner.
Wasatch—A. C. Hatch, J. R. Murdock, J. M. Murdock, John E. Austin.
Tooele—John C. Shields, John P. Gordon, Hugh S. Gowan, J. L. Wrathall.
Sevier—J. S. Jensen, George T. Stearns, W. Crane.
Sage—W. D. Livingston, D. C. Oakland, John Seely, Fred Jensen, Ben Jackson, Thomas Kearns.
Salt Lake—John P. Charles Adams, Earl Jones.
On account of the train on which Mr. Pinchot was coming from Ogden being several hours late he did not arrive till this afternoon. However, the forenoon was taken up in informal talk among the representatives of the different counties in regard to the extent and location of reserves and incidentally of the comparative injury by sheep and cattle.

IN LOGAN TODAY.

Six Hundred Delegates Pay a Visit to The State Agricultural College.

Ogden, Sept. 19.—Six hundred of the visiting delegates to the eleventh National Irrigation congress left this morning for a trip to Logan, Utah, to visit the state agricultural college. The trip was made in a special train at no expense to the delegates, the train and all arrangements for the trip having been furnished by the Oregon Short Line. The day will be spent in a drive about the valley, an inspection of the agricultural college, where luncheon will be furnished and general sight-seeing. Governor Bradford Prince was called some today by urgent business, and Senator Perkins and Senator Newlands of Nevada are detained in Ogden by Nevada officials in regard to the Tonopah outrages.

PANAMA CANAL TREATY.

Only Four Days Remain in Which To Ratify It.

Washington, Sept. 18.—Only four days remain in which the ratification of the Panama canal treaty must be changed. Dr. Herran, the Colombian chargé, transmits promptly to the state department such details of proceedings in the Colombian congress as come to him, but what their nature is he declines to reveal.
He realizes the severity of the situation but he has not had any instructions to request any extension of the time for ratification nor has the American government intimated so far as is known that it is anxious to grant it. The state department is simply waiting. It was stated today that official advice is being given to the Colombian congress that it is to ratify the treaty. It was also said that these advisers are to the effect that the object in introducing the radical amendments to the treaty was not with the hope of their being adopted, but in order to force the concession of certain minor amendments. It cannot be learned whether there is any foundation for these claims.
In some quarters the suggestion is made that a real stumbling block to the ratification of the treaty might be removed if the Colombian congress would consent to a stipulation of the treaty to the effect that the American government will not have the right to expropriate any property along the route of the proposed canal. According to the bill proposed to the Colombian senate the government wants \$10,000,000 of this money, but it is believed by some persons that the South American affairs might be accepted by Colombia.
The latter government thinks she is entitled to some portion of the money. It is also suggested that the Colombian might be willing to forego insistence on some of the other important amendments which have been proposed if she were compensated by the Panama canal company.

A REMARKABLE CASE.

Woman Made to Speak After Being Dumb Three Years.

New York, Sept. 19.—A remarkable case, in which a woman has been made to speak after having been dumb for three years, is that of Miss Emma Lewis, 35 years old and lost the use of her voice through paralysis. A local physician has restored her voice through the use of electrical applications of varying power to her throat. She has been able to speak for the first time in three years.

GOING TO LOS ANGELES.

Accounting Department of the Clark Road Leaves Tonight.

The accounting department of the San Pedro, Los Angeles & Salt Lake today concentrated energies on packing up records and furniture prior to removal to Los Angeles tonight. The offices occupied by them will be vacated in the exception of that of J. A. Goss, local auditor of the Salt Lake Route, who will remain here with one clerk so as to get accounts into shape prior to forwarding them to Los Angeles.
The move has started the rumor that the general offices of the road are to be moved to Los Angeles one by one. It is stated, however, that General Manager R. E. Wells and his force will remain in Salt Lake until the completion of construction, if not longer.

TEXANS TALK.

Appeared Before the Electrical Workers and Boomed Things.

The Electrical Workers' convention listened this morning, to addresses from members of the Texas delegation to the irrigation convention, who extended a cordial invitation to the Brotherhood to hold next year's convention in the Pass City, and assuring them that the town would be theirs, and everything done to make their stay pleasant. The speakers included Hon. J. A. Smith, chairman of the delegation, Captain Juan S. Hart editor of the El Paso Times, Mexican Consul Francisco Mallen, and others. The visitors made an excellent impression, and were well received. The Mexican band serenaded the convention from the street, and the visitation was enjoyed. The convention considered quite a digest of the attractions and advantages of the city, and gave some attention to the constitution. It was not decided this noon, just when the officers would be chosen, but it was expected early in the week.

SERENADED THE "NEWS."

The El Paso band of native Mexicans, escorted by a number of the El Paso delegates to the irrigation congress, paraded the streets of Salt Lake today and treated a number of principal institutions to a serenade. They left him them as souvenirs of the city which secured next year's irrigation convention, a number of neat cards detailing the attractions and advantages of El Paso. Its opening paragraph reads: "El Paso is the biggest city, in the biggest country in the biggest congressional district in the biggest state in the biggest nation on earth."
The Deseret News was the recipient of a charming serenade from the band and a pleasant call from Messrs. J. W. Felt, A. W. Clifford, J. A. Smith, and Francisco Mallen, latter Mexican consul. All the gentlemen promised to give Salt Lake the "Time of their lives" if they joined in the procession to El Paso next year.

WOOLLEY'S APPOINTMENT.

Made Complete by Forwarding Him Bonds to Fill Out.

(Special to the "News.")
Washington, D. C., Sept. 19.—The appointment of Woolley as assayer at Boise has been practically settled, a blank form of a bond was sent him several days ago by the treasury department for him to fill out and return to the treasury. The secretary of the treasury this afternoon announced the appointment of H. Smith Woolley as assayer at the mine in Boise, vice Cunningham, resigned.

SUNDAY SCHOOL OPENING.

That for the Special Accommodation of Students, Begins Tomorrow.

The Deseret Sunday School Union board announces the opening of the third annual session of the University Sunday school on Sept. 20, at 10 a. m., in the Brigham Young Memorial building, L. D. S. university.
This Sunday school is organized for the accommodation of the students of high school and college grades, and especially for those whose homes are not in Salt Lake City. However, anyone not associated with the ward Sunday schools is respectfully invited to attend. Courses will begin as follows:
First year—Modern Church history. Prof. P. J. Jensen and Maud May Babcock.
Second year—Book of Mormon. Prof. John M. Mills.
Third year—Bible history. Dr. Joseph P. Merrill.
Fourth year—Articles of Faith. Dr. James E. Talmage and Elder James H. Anderson.

MILTON BENNION, DRYAN S. HINKLEY, JOSEPH L. HORNE, Superintendent.

HAY-HERRAN TREATY.

Its Rejection Not Caused by Minister Beaupre's Notes.

New York, Sept. 18.—Members of congress who arrived here from Bogota today deny, says a Panama dispatch, that the rejection of the Hay-Herran treaty. The minister's notes, they say, did not influence the senators, all of whom were opposed to the treaty except Senator Obolensky.
Rejection, therefore, was a foregone conclusion. There had, however, been an intention to permit the treaty measure to pass the first reading for the sake of conventional courtesy.
Minister Beaupre, it is reported, will probably ask for his passports as soon as he is officially notified of the rejection of the treaty and finds that there are no hopes of its renewal.
The latest advice from Bogota says that the central government has no intention of sending further military reinforcements to the isthmus, as under the present circumstances such action would be injudicious and would precipitate matters.
It is considered in Bogota that the isthmus is sufficiently guarded by the present garrison of 500 men. There are also three gunboats on the Pacific already ready for any emergency. Besides, it is held that the presence of a large number of troops on the isthmus would raise the mortality rate and would cause much cash outlay which was not expected.

TRIPLE TRAGEDY AND A SUICIDE.

Detective Hutchens of Evansville, Ind., Shoots Two Policemen and Then Himself.

RESULT OF OLD TIME QUARREL

Shooting Occurred at Tri-State Fair in Presence of Five Hundred People.

Evansville, Ind., Sept. 18.—After shooting and probably fatally wounding Chief of Police Fred Houck and Capt. Brennecke of the police department, and seriously wounding Frank Lutz, a councilman of Booneville, Ind., Detective Thomas Hutchens tonight shot and killed himself. The tragedy was the result of a long-existing quarrel between Brennecke and Hutchens. The cause is not known.

The shooting occurred in a tent at the Tri-State fair grounds, in the presence of at least 500 people. Neither Chief Houck nor Capt. Brennecke had an opportunity to defend themselves.

Patrolman Crow was sitting at a table near the entrance of the German village with Hutchens when Chief Houck and Capt. Brennecke entered. Crow jumped to his feet and started for the detective as soon as the first shot was fired. He did not reach him, however, until both the chief and the captain had been struck. Hutchens then fired the shot which killed him.

Whether he intended the shot for Houck or Patrolman Crow is not known. Both men were in the line of fire, and it is probable that he intended to kill Crow for attempting to interfere. After he had fired the shot, Hutchens walked outside of the tent, and, saying "No man will ever live to see me tried," placed the revolver at his right temple and sent his last bullet into his brain.

Six years ago Hutchens shot at Brennecke in a saloon, but the bullet lodged in the ceiling. It is believed that the conviction this afternoon of William "Fido" of the men who took part in the riots of July 5 and 6, had some- thing to do with hastening the tragedy. Capt. Brennecke has been one of the most active workers for the state, and it is said that his activity against the rioters increased Hutchens' animosity.

CONVICTED OF RIOTOUS CONSPIRACY.
Evansville, Ind., Sept. 18.—William Trimble, aged 45, was found guilty today of riotous conspiracy. Sentence was not passed on him. Several other alleged rioters will be tried next week.

SPECIAL PICTURE DISPLAY.

How Utah Art Institute Will Settle Dispute Over the \$300 Prize.

The burning question as to the award of the \$300 cash prize offered by the state, for the best painting submitted by a local artist, is to come up again in the immediate future and to be settled once for all. The business managers of the Deseret News, Herald and Tribune have been solicited by the art institute to name the judges who will decide this important question, a question, it will be remembered, which was not settled at the last exhibition by the judges then appointed, as they said, because no picture in competition was entitled to the prize offered by the state. Early in November Mr. Whitney, of the "News," Mr. Iglehart of the Herald and Mr. Heath of the Tribune, will each name a competent person to act as a judge. These judges, whose names are to be held entirely secret until the time arrives for them to act, will inspect all the paintings offered in competition by local artists in the rooms of the Commercial club, where the Utah Art Institute will give an exhibition commencing Nov. 23, and running some weeks. The display will be supplemental to the regular exhibit of this year that closed with so many unpleasant features arising out of the failure to award the \$300 prize. An effort will be made to smooth out and settle all differences and make the showing one that will reflect credit upon the work of the home artists whose talents are known to be of a high order. To the end that it may be made as successful as possible the institute officials are consulting with the Commercial club committee of art and literature which has promised every possible assistance.

STOPPED PAVING WORK.

Roots of Trees Find Their Way Into State Street Sewer.

Paving operations on State street north of the Eagle Gate have been brought to a temporary halt by the necessity for overhauling the sewer pipes on the west side of the street. An interesting spectacle is to be seen there at any time of the day. The work consists of complaints of the stoppage of the sewer pipes in that section, and it was decided to take up the old pipes to see where the trouble lay. It was found by the workmen that the connecting club joints had been done in poor fashion and that the roots of the trees which grow on the sidewalk had grown through the joints into the interior of the pipe. With the lapse of years the growth had gone on and the holes had been widened till there was an entire obstruction to the interior of the pipes. All the old piping is now being taken up and thrown away and replaced with new piping for the entire block. This is a slow and expensive job, the cost of which, of course, falls upon the city. It is now well under way, however, and the paving operations will not be retarded much longer.

CHAMBERLAIN MAY COME BACK.

He May Re-enter the Cabinet if An Appeal to the Country Returns Balfour to Power.

HE WANTS A PARTY OF HIS OWN

Premier Severely Criticised for Selling Pamphlet Giving His Views, Thereby Making Profit Out of Politics.

London, Sept. 19.—The Associated Press learns from authoritative sources that Mr. Balfour expects Mr. Chamberlain to re-enter the cabinet in the event that an appeal to the country returns Mr. Balfour to power. Both desire, however, that the elections be postponed so long as possible in order to give Mr. Chamberlain the opportunity to impress his views on the people. If the government is returned, or if a weak Liberal ministry is retained in power only a short time, Mr. Balfour anticipates that he and Mr. Chamberlain will reorganize a new ministry. According to an authority thoroughly cognizant of Mr. Chamberlain's plans, Mr. Balfour might then find Mr. Chamberlain unwilling to join him.
"It has been Mr. Chamberlain's purpose," said the person quoted, "to form a party of his own and he may take advantage of the present opportunity to carry out his intention. His reputation as the only public man in England with a definite policy coupled with his strength of will and ability may enable him to achieve his ambition. In case of the success at the elections of his advanced program of preferential tariffs he would form his own cabinet and probably displace Mr. Balfour as premier."
Mr. Balfour and Lord Lansdowne both went to Balmoroe, Ireland, on Monday. Mr. Balfour's resignation of the premiership is still the topic of discussion in the United Kingdom. Premier Balfour is expected to have an audience with King George V. on Tuesday. The Queen, it is said, will present the nominations for the cabinet vacancies. The exact nature of these appointments still continues a matter of varied surmise. Regarding the eventual result of the upheaval, the Spectator forecasts that Mr. Balfour, when he appeals to the country will be beaten and succeeded by a Rosebery cabinet which will not last long, at least in its present form.

A curious phase of the situation is the severe criticism regardless of party lines, bestowed on Mr. Balfour's action in publishing his views and selling them in pamphlet form. The pamphlet is in current phraseology, "The Outlook," which is far too deeply appreciated by all parties to ever permit the suggestion that he purposely adopted the doubtful practice. By Mr. Balfour's own admission, "I have written this pamphlet," and his inexperience in business affairs now appears to have put him at the mercy of the publishers of the pamphlet, who are coining money over the vital issue of the present day.

Mr. Balfour will devote his portion of the proceeds to some charity is generally assumed, but it is regretted that he did not mention some such intention in the preface to the pamphlet. The train which will be the personal direction of D. Jay Colver, who has written to Manager J. E. Langford of the Salt Lake route for cuts of Salt Lake, the Temple and Tabernacle in order to illustrate the itinerary. The train will come by way of Denver, Colorado Springs, Glenwood and Salt Lake to San Francisco. Returning on Oct. 14, going to San Francisco and returning Nov. 30. It will be on account of the American Bank- ers' National convention, which takes place Oct. 20-23, and will be known as the "Bankers' Tour."

TRAIN DE LUXE.

"Banker's Four" to Run from Cleveland to San Francisco.

What will probably be the finest passenger train ever seen west of the Missouri river will leave Cleveland, Ohio, on Oct. 14, going to San Francisco and returning Nov. 30. It will be on account of the American Bank- ers' National convention, which takes place Oct. 20-23, and will be known as the "Bankers' Tour."

TURKEY AND BULGARIA.

War Between Them Not Now Regarded as Imminent.

London, Sept. 19.—The Associated Press learns that war between Turkey and Bulgaria is not now regarded as imminent by the foreign office or other diplomatic centers in London. It is stated that under no circumstances will the powers permit Turkey to occupy Bulgarian territory, hence Turkey has nothing to gain by hostilities.

CHAS. GREEN ARRESTED.

One of Most Important Witnesses In Curtis Jett Case.

Lexington, Ky., Sept. 19.—Sheriff Woodson McCord, of Clark county, who arrested Curtis Jett for the Marcus murder, today arrested Charles Green the chief witness in the Curtis Jett case at Cincinnati. Jett's fatal shot, it has been learned from the officers, was fired when he was going to Canada to keep from being assassinated by Jett's friends, but went to his father-in-law's home at Cincinnati instead. When McCord called Gentry Green's father, in-law said that Green was not there. McCord insisted on searching the premises and the most important witness for the commonwealth in the pending trial.

HOTEL DE ORIENTE.

Philippine Commission Buys It for Use of Federal Authorities.

Manila, Sept. 19.—(S. P. M.)—The United States government has just completed the purchase of the Hotel de Oriente, on the Plaza de Calderon de la Barca. The building, one of the best of its kind in this city, will now be adapted to the requirements of the federal authorities, with suites of rooms arranged as offices for the various departments. In this respect it is admirably located in immediate proximity to the customs house and other of the more important offices of the government. The price paid for the property is said to have been \$213,000.

RIO GRANDE REACHING OUT.

Stockholders Will Authorize Purchase of Crystal River Road Next Wednesday.

PREFERRED STOCK INCREASE.

Will be Raised from \$44,000,000 to \$50,000,000, to Make the Purchase.

Denver, Sept. 18.—A special meeting of the stockholders of the Denver & Rio Grande Railroad company has been called for Wednesday, Oct. 21, in this city, for the purpose of authorizing the purchase of the Crystal River railroad. It is proposed to increase the first preferred capital stock by \$5,000,000 for the purpose of making the purchase and for future capital requirements. The increase will raise the total first preferred capital stock from \$44,000,000 to \$50,000,000. The purchase of the Crystal River railroad will be made by acquiring the capital stock and obligations of the company at book value.
The Crystal River road leaves the Denver & Rio Grande at Carbondale, Colo., and runs through Redstone to Puerco and Coal Basin, a total distance of 33 miles.

RIOGRANDE ANNUAL REPORT.

Net Earnings of Gould System Show a Decrease Over Last Year.

Denver, Colo., Sept. 19.—The seventeenth annual report of the Denver & Rio Grande Railroad company has just been issued. The gross earnings of the road for the year were \$13,324,558, an increase of \$267,731 over the previous year. The operating expenses, \$10,629,850, showed an increase of \$298,307. The net earnings were \$2,694,708, a decrease of \$30,760.

Grading on the Salt Lake Route is going rapidly forward at both ends. All the men that can be used are being employed below Centerville as well as from the end of the road near Los Angeles, coming east. Tracklaying will not begin until the grading is so far along that the work of construction will not be interfered with. The work at both ends is doing a good business.

PROVO TO BRIGHAM.

Estimates on Equipment for Proposed Trolley Line Being Prepared in N. Y.

(Special to the "News.")
New York, Sept. 18.—The Westinghouse Electric and Manufacturing company are preparing plans and estimating on contracts for the complete electrical equipment of the proposed new trolley line to be built between Provo and Brigham City, Utah. At the Westinghouse office here, further particulars were withheld except that the plans provide for the latest models and best of standard equipment for a first class service as the line runs through a section of great business traffic. No figures of estimates and contracts are given out nor will be till the contracts are approved and executed. Senator Reed Smoot, and E. C. Looze are the parties interested in promoting the line with and between Provo and Salt Lake City capitalists.

CONVENTION TOMORROW.

Mutual Improvement Workers Will Hold Sessions in Barratt Hall.

A convention of the Young Men's Mutual Improvement association of the Salt Lake stake will occur in this city tomorrow, meetings being held at 10 a. m. and 2 p. m. in the Barratt hall. The program will be as given in the "News" a week ago and includes a list of subjects of great importance to Mutual Improvement workers. There will also be a special musical program under direction of Stake Chorister Thomas Asplund. The singing meeting will be held conjointly with the young ladies and is set for 8 o'clock in order not to interfere with the regular ward meetings. All stake and ward officers and special missionaries are urgently requested to attend all the meetings.

WHAT ECCLES SAYS.

Would be Bad "Business Policy" to Take Stock in Lewiston Factory.

(Special to the "News.")
Ogden, Sept. 19.—Your correspondent had a talk today with Mr. David Eccles relative to his reported connection with the Lewiston sugar factory. That gentleman stated that under present conditions neither the Amalgamated nor the Logan companies would take any stock in the concern, nor would the Havemeyer interests, for it was felt that Logan and the surrounding country had practically all they could do now to furnish beet sufficient for one factory. Mr. Eccles further stated that if he or his colleagues took stock in the Lewiston company, it would be like taking it in a concern antagonistic to their own interests, and he did not believe it would be good business policy so to act. He had not talked with Mr. Nibley and therefore was not able to say whether that gentleman would build the factory on his own account.

STREET IN PLASTER.

South Temple in Fine Terrace Design by Spencer Clawson.

A well designed plaster model of a design for the improvement of South Temple street east of State, is on exhibition in the front window of the Utah National bank. The design is by Chairman Spencer Clawson of the board of public works, and is an excellent suggestion for a way out of a puzzling dilemma. It shows the street terrace, with one streetcar track on the upper part of the street, and the other track on the lower section of the thoroughfare. Between the two is a handsome terrace, parked and made to look very attractive. The sidewalks on either side are also parked, and if the scheme is carried out, the unsightly conditions that have always obtained there will disappear. The design is drawing a good deal of complimentary attention.

TEXANS STAY A DAY.

Delegation From the Lone Star State Leth to Leave Utah.

The Texas delegation are a lively and interesting aggregation. It was their expectation to go east last night on Rio Grande No. 4, but it was finally settled with the help of General Agent I. A. Benton to remain over until tonight's No. 4, and then resume their journey. The Texans in their Mexican hats, and covered with badges were escorted over the city by Senator Smoot in a special street car, taken to the Tabernacle, out to Saltair, and in the evening, dinner was served to the delegation, and the Mexican band of 24 pieces played in the hotel rotunda. Considerable attention was attracted on the way up from the depot in the evening, by the band playing on the street car as it passed through the center of the city. Later in the evening, the delegation went down to the Salt Palace where the band was given something of an ovation.

The Mexican musicians were particularly interested in the great organ in the Tabernacle, one of the Senior Souffle who has been in Paris, saying that he never saw the like of it excepting the immense organ in the church of St. Sulpice, Paris. The instrument was reserved for them, and they will never forget it as long as they live. The Mexicans play very well, and their leader, Senor Concho was formerly the solo clarinet player of the Eighth cavalry regiment of the City of Mexico. They are all picturesque attired, and would be an attraction anywhere. With the delegation are Mexican Consul Francisco Mallen, one of the most and most efficient consular officials ever sent to this country by the Mexican government. He is also a popular man on the border, and was a prominent figure in the reception to President McKinley. Then there is Senator Juan S. Hart of the El Paso Times, a captain of volunteers to Cuba and who was retained by Gen. Brooke for a long time as interpreter at Cuban headquarters in Havana. Cashier Williams of the First National Bank of El Paso is along, also Lindford Fisher of the Sheldon hotel, Park Pittman, El Paso county clerk, Judge Harper of the county court, E. C. Pew, J. Monday, A. Courchesne and other prominent citizens of the Pass City. Chairman J. A. Smith of the delegation was detained in Ogden last night, being a member of the executive committee, but he is in town today, and enjoying himself. The Texans are making themselves at home here and enjoying themselves.

SAFE CRACKER AT WORK.

"Blow" the Big Cash Box of Rowe, Morris & Summerhays.

It seems the professional safe cracker who were here a few months ago have returned. Sometime last night a couple of robbers broke into the office of Rowe, Morris & Summerhays, and the Utah Tanning company at 61 South Third West, and with a heavy charge of nitroglycerine blew the safe, belonging to the tanning company to pieces. The men secured entrance to the office by prying open the front door with a jimmy. They then used a sledge hammer to knock the combination knob off the safe door. After inserting the nitroglycerine, they covered the safe with hides and furs to deaden the noise. The shock must have been a terrific one, as it completely demolished the safe. The office, however, was uninjured and not even the windows were broken by the explosion. The affair was not discovered until 7:30 o'clock this morning, when one of the employees, T. J. Donkin, entered the office. The police were at once notified and the office was broken open by the police. The robbers left absolutely no clue to their identity, but two suspicious characters were noticed hanging about the place on Thursday afternoon. Officers have been detailed on the case and hope to obtain some trace of the fellows.

INCREASE IN BIRTHS.

This Week's Record Slightly in Excess Of Last Week's—Typhoid Report.

The report of births to the board of health for the week ending Sept. 19 shows an increase of two births over the week before, and a decrease of two as compared with the same week last year. The total number reported was 40, of which 17 were males and 23 females. The death rate for the same period is higher than either last week or the corresponding week of 1902, 20 deaths having been reported, 13 males and 7 females, having an excess of the preceding week, and more than double the same week last year, when 9 deaths were reported. The mortality this week was greatest among adults over 40 years of age, 9 deaths having occurred among people over that age.
At the close of the last report there were five cases remaining in quarantine. Of this number three recovered and were released, and one died. In the report of this week, one case of diphtheria is now in quarantine, this being one of the two held over from last week; no new cases having been reported. This leaves the city on the verge of immunity from this disease. For the same week of last year there were eight cases in quarantine. The smallpox situation was checked by the importation of a presumably discharged case from Soda Springs, Ida., making a total of four cases in quarantine, the same number as reported a year ago.
The new cases of typhoid fever reported during the week make the weekly aggregate just double that of a year ago; there were 28 cases reported during the week, with two fatalities, making a total of 30 cases reported since Sept. 1.

MORGAN NATIONAL BANK.

Authorized to Begin Business With \$25,000 Capital.

(Special to the "News.")
Washington, D. C., Sept. 19.—The First National bank of Morgan, Morgan county, Utah, has been authorized to begin business with a capital of \$25,000.

STRUCK BY A CAR.

Messenger Boy Has a Thrilling Experience on East Temple Street.

A Western Union messenger boy named Hawk had a "head end" collision with a street car shortly before 2 p. m. today, in front of the Constitution block. He was crossing the railroad track with a blanket in his arms, when the blanket got loose, the ends caught in the wheel, and while trying to gather himself up, the boy collided with a street car. The fender threw him off into the roadway, and picked up the wheel and the blanket. Hawk landed on his head, which was considerably bruised, as was also his leg. He was taken into Johnson & Pratt's drug store, where he was found to be but little injured, and in fact, after the application of a restorative the boy was able to mount his wheel and ride away. But for the fender on the car he would have gone underneath and been fatally man-

UNION LEADERS UNDER ARREST.

At Midnight Soldiers Visited Altman Free Coinage Union, Arresting Prominent Men.

NO SPECIFIC CHARGES MADE.

Prisoners Are W. F. Davis, M. A. Shidler, T. C. Foster, V. Poll, P. H. Mullane, E. S. Johnson, C. R. Beckman.

THEY ARE HELD BY THE MILITIA

Members of the Executive Committee in Charge of the Strike Are Confined in Military Guardhouse.

Victor, Colo., Sept. 19.—At midnight 200 soldiers visited the meeting of the Free Coinage Union at Altman and arrested seven of the most prominent union men in the district. The prisoners are W. F. Davis, M. A. Shidler, T. C. Foster, Victor Poll, P. H. Mullane, E. S. Johnson and Charles R. Beckman.

A guard was thrown around the meeting place and the officers announced that every man before he would be allowed to depart, would have to submit to an examination. No specific charge has been placed against the prisoners. They are held under the same conditions as the other men who have been arrested since the arrival of the militia in the district.

All three members of the executive committee in charge of the strike, Ken- nelson, Parker and Davis, are now confined in the military guardhouse and other men have taken charge of the strike.

FIREMAN THROWN.

George Harris Hurt by a Fractious Department Horse.

George Harris, one of the firemen stationed at No. 2, met with an accident this morning which will keep him lame for a few days. He was exercising two of the horses when one of them became unmanageable and began to buck like a thoroughbred broncho. Harris was thrown to the ground but managed to cling to one of the horses. The refractory animal went on toward the Warm Springs but was captured later. Harris received a bruised hip and a sprained ankle, but will be around all right in a few days. Dr. Witcher said that no bones were broken, and that the injury was not serious.

INCREASE IN BIRTHS.

This Week's Record Slightly in Excess Of Last Week's—Typhoid Report.

The report of births to the board of health for the week ending Sept. 19 shows an increase of two births over the week before, and a decrease of two as compared with the same week last year. The total number reported was 40, of which 17 were males and 23 females. The death rate for the same period is higher than either last week or the corresponding week of 1902, 20 deaths having been reported, 13 males and 7 females, having an excess of the preceding week, and more than double the same week last year, when 9 deaths were reported. The mortality this week was greatest among adults over 40 years of age, 9 deaths having occurred among people over that age.
At the close of the last report there were five cases remaining in quarantine. Of this number three recovered and were released, and one died. In the report of this week, one case of diphtheria is now in quarantine, this being one of the two held over from last week; no new cases having been reported. This leaves the city on the verge of immunity from this disease. For the same week of last year there were eight cases in quarantine. The smallpox situation was checked by the importation of a presumably discharged case from Soda Springs, Ida., making a total of four cases in quarantine, the same number as reported a year ago.
The new cases of typhoid fever reported during the week make the weekly aggregate just double that of a year ago; there were 28 cases reported during the week, with two fatalities, making a total of 30 cases reported since Sept. 1.
