### NEW LINE OF POLICY.

large circulation, considerable ability and strong democratic proclivities. It is no admirer of the present administration. It is bitterly opposed to Presi-dent Grant and his Cabinet, and would resort to almost any means to bring the Administration into disfavor with the American people.

The World for some time has been pursuing a line of policy to accomplish this, that is somewhat unique. A series of communications on the people of Utah, ostensibly written from this City, has been appearing in its columns. It would be no easy matter to find a greater number of outrageous slanders compressed into the same space. Everything that can be tortured into the form of an accusation against the people of this Territory; nearly every calummy that has been invented and published before, is repeated; and the vilest falsehoods given as facts, make the correspondence in the World a mass of infamous mendacity such as can scarcely be found in any other journal claiming to be respectable. Having very strong evidence for fathering these communications in the right quarter, and satisfied that a paper as influential as the World would not endorse, by publication, such statements on any other subject, coming from a source so utterly irresponsible, the object to be accomplished is clearly revealed.

If the World, by the means adopted, can influence the Administration at Washington to adopt measures against the inhabitants of Utah, such as are being urged in several quarters, it knows the odium which would inevitably follow would operate heavily against the party in power, and would be a material point gained for the party tend and increase from year to year of which it is an organ. However until our works shall be counted abundmuch of a popular cry there may be made by unthinking and unreflecting least," in the great confederation of people whose prejudices are roused by States. interested and cunning individuals against the Latter-day Baints, there is not a doubt that the dragooning, driving and wholesale robbing of over a hundred and fifty thousand peaceful. industrious, moral and earnest people would bring down upon the heads of those guilty of it, the condemnation and execration of the civilized world. And this is evidently what the World sent. is trying to goad on the Federal authorities to do. To specify in detail the broad, glaring faisehoods which have lately appeared in its pages would be a work of no little labor; for the vilest allegations that Territory of Utah, }ss. have been made for the last twenty years, and over, are rehashed and pub lished as having come under the observation of the writer, or as having been received on good authority. Charges that have been refuted and exploded again and again, are resurrected with the air of having been given existence for the first time; and so flagrant are they that their authors could not for a moment have supposed they would mislead anybody but those who were utterly unacquainted with the people of Utah and their history. That a community should be as vile as the citizens of Utah are represented to be, and yet present so many evidences of honest industry, peace, morality and good citizenship is past belief with any reflecting mind. We are here: our works here for nearly s quarter of a century are before the world; and though no other evidence were produced to rebut the infamous accusations made against us, the condition of our people and Territory is an irrefragable one which can not be buried by any amount of lying. A people as poor as were the Latter-day Saints when they came to Utah, could not have accom-plished the great industrial labors which are here seen on every hand, without assistance, and in the face of difficulties of the most disheartening character, had they been the vile, de-praved, licentious, murderous crowd they have been represented by such calumniators as the World has given 15th. SHOOTING AT CHEYENNE.-The Leader of the 3rd instant says that a sanguinary row occurred at the Keystone Hall, on New Year's eve, resulting in the shooting of two men, one seriously and the other slightly. The Leader then goes in quite heavily and pertinently on the practice of carrying firearms, and expresses the hope that the authorities of Cheyenne will make

The habit complained of by the Leader is very reprehensible, especially among white men, and should be stopped. It was, excusable years ago, in the Rocky Mountain regions, when they were unset-tled, but it is no longer necessary. Few but ruffians and rowdles wish to continue the practice, and their being allowed to do so is very often the cause of unnecessary bloodshed and loss of life; and if the su-thorities of Cheyenne and other localities carry out the suggestions of the Leader. and it is a question of who can hold out carry out the suggestions of the Leader, and heavily fine those who are guilty of it in towns and cities the result can not but be beneficial.

The Capital Removal Question.

Sr. Louis, 7.-There was a large meeting at the Southern Hotel last night, to consider the Capital removal question. The chairman was authorizd to appoint a committee to visit Washington to use their influence in getting the removal question before Congress, and especially to prevent fur-ther appropriations for Government buildings at Washington. Letters from BLACK, Congressmen were read stating that there is a Congressional organization at Washington, which two weeks ago numbered near eighty members, and which is constantly increasing, whose purpose is to defeat appropriations generally, and to agitate the removal question.

Governor's Message---Charges against Auditor Wieliffe.

NEW ORLEANS.-Gov. Warmouth's message congratulates the legislature upon the improved condition in public affairs and the good feeling existing between the people of both races. He takes a cheerful view of the political situation, and speaks of the general prosperity of the State. He advises coprosperity of the State. He advises co-operation, with Arkansas, Mississippi, Louisiana, and the General Government for the assessment of special taxes for leves purposes. He favors the encour-agemetn of great works of internal improvement, education and emigration. He recommends the immediate repeal of the licensed gambling law. A large portion of the message is devoted to the consideration of the State finances.

Gov. Warmouth yesterday sent a special message to the legislature, making a grave charge against Geo. M. Wieliff, auditor of public accounts. His offenses he says, against the Con-stitution and laws of the State have seriously embarrassed the government and rendered it difficult to pay the in-terest on the State bonds. He has been guilty of numerous acts, involving ex-tortion against individuals, against the charitable institutions of the State and also involving fraud against the com-monwealth, through collusion with evil disposed persons to defraud the same, dc.; He has extorted sums of money from the creditors of the State as a condition precedent to the issuance of certificates of indebtedness, or warrants to which they were entitled.
