

EVENING NEWS. Wednesday, March 1, 1882.

FLOATING FRAGMENTS.

Cloudy and dull to-day.

The Carney-Bane libel suit is still in progress.

We give details of daring burglaries at Kayaville.

Cases of pneumonia are numerous in the city just now.

The recent attempted burglaries show the presence of professional "locksmen" in our city.

The mortality in this city was unusually heavy last month.

President Arthur has nominated Frederick S. Johnson, Missouri Surveyor-General for Utah.

Typhoid fever has almost disappeared from the city. There are probably not more than two or three cases.

Water in the mains on Second Street, between First and Sixth East, will be shut off to-morrow. See notice.

Nothing will make a man feel cheaper than to suddenly look up from his morning paper and find everybody present at his hearers' feet and then find that his hearers are not the least attentive to him, they having read all about it in their evening paper of the day before.

Yesterday a tramp at Ogden tried the social party umbrella dodge with a coat. In a saloon he took a good garment, put it on, hung up his hat and coat in exchange and walked away. In police society such incidents are denominated mistakes. When the vulgar do it it is called stealing. He was put in limbo.

We imagined book agents in this section of the world were up to a thing or two, but they are, according to the following story, a little behind even in other parts. In a small German town an enterprising agent of a book-peddler's importation, bought an almanac from him, and putting it into his pocket, left the town, his wife just coming in to see the almanac. The woman was to take his place. He wanted one of my almanacs, but I really can't give you my train for that. You can give me half a dollar and take the almanac to him. The porter paid the money and carried the third almanac to the innkeeper.

LOCAL AND OTHER MATTERS.

Australia.—At the 17th Ward School-house, at 7 o'clock to-night, Brother W. W. Day will deliver a lecture under the auspices of the M. I. A. of the Ward. Subject—Australia.

Board of Trade.—The monthly meeting of the Salt Lake Board of Trade will be held in the Council House, on Friday evening, March 3d, at 7 o'clock.

JOHN C. CUTLER, Secretary.

Homicide at Laramie.—At Laramie, on Sunday afternoon, Henry Nerten amused himself by throwing glasses around the saloon of Emanuel Gerber. The latter and his wife tried to stop him and in the row that ensued Mrs. Gerber threw a heavy match safe at him, hitting him on the head. Nerten picked the article up and threw it back, striking Mr. Gerber with such violence that he shortly after died. There has been considerable rufianism in Laramie lately.

Taxation of Mining Products.—Yesterday Mr. Hatch introduced in the House of Representatives of the Legislature a bill providing for the taxing of the products of mines. In other Territories and States, laws of that kind exist, and there is no valid reason why Utah should be an exception to the rule. The mining industry is a prolific source of wealth to many engaged in it. It employs all the benefits, in common with every other pursuit, of all the safeguards thrown around property by good government. There is no reason why the mining industry should be exempted from bearing its proportion of the public burdens, especially as its prosecution causes at least a proportionate share of public expenditures. We understand that some of the most substantial mining men have no objection to offer to such a measure as that presented by Mr. Hatch.

Water.—The superintendent of waterworks, Mr. G. M. Ottinger, has a very feasible theory in relation to increasing the capacity of the waterworks. His plan is simple, apparently practicable, and has the advantage of gradual adoption, thus avoiding a large immediate outlay of money. It consists of by degrees constructing tanks, or small reservoirs, up City Creek. Another good feature of this method is its safety, many people being inclined to nervousness over the existence of one or more reservoirs of mammoth dimensions, although for the matter of that, the safety or danger existing from the proximity of a large body of water embanked by artificial barriers depends entirely upon the materials used and construction applied. From such tanks as constitute our waterworks, however, danger is absent from the fact that they are mostly below the level of the bed of the stream.

Escaped.—This morning the janitor of the city jail was made the victim of misplaced confidence. John Nash, the boy who was committed a few days ago for attempting to shoot another lad, was so far trusted as to be handed a pair of shoes to take outside the building to empty. Nash walked out, put down the pan and fled the scene. The janitor pursued, but had not proceeded far before he recollected that the prison door had been left unsecured. He returned minus Nash to find that two other birds had flown, who were being held at the instance of the military for desertion pending their removal to Fort Douglas. Off went the janitor again, who succeeded in getting the two men wanted at camp. Nash is still at large, but will probably shortly turn up. If he does the perplexed janitor will not select him in future to empty the shoes.

BURGLARY AT KAYAVILLE.

THE KAYAVILLE CO-OP. ROBBED OF \$300, AND MR. WEINER, OF A TEAM AND WAGON.

Last night, the co-operative store at Kayaville, Davis County, was entered by burglars. They gained ingress by the back door, which they burst open by using a plank for a battering ram.

After gaining the interior of the building, they submitted the safe to the same kind of treatment as that given to Mr. Culmer's, of this city, on Monday morning. They employed nitro-glycerine, with which, in this instance, they were successful in shattering it, so that it was broken open. The robbers carried away the cash contents, \$300, and several notes. Taking a small axe with them, the burglars, on leaving the store, proceeded to the barn of Mr. Weiner, the Kayaville miller, and broke in the door. They took a team and light wagon belonging to that gentleman, with which they left the place.

In the hope that a description of Mr. Weiner's horses might aid in their recovery and in the arrest of the robbers, we give it: One horse is sorrel, with white hind feet, and the other a bay with one white fore foot.

It is not improbable that the burglars are the same gang who made several unsuccessful attempts upon premises in this city lately. It is not likely that they came this way from Kayaville after last night's depredation, but more likely that they would make for some point on the railroad, with the intention of leaving the team and taking to the train.

Later—Since the foregoing was written, we have learned that Mr. Weiner's team and wagon have been found in Ogden, but no clue to the robbers has been discovered.

About \$250 of the money stolen belonged to Kayaville City, and the balance to the store. The promissory notes stolen amounted to \$7,400, but fortunately were not negotiable. The robbers wrapped up a quantity of silk handkerchiefs and neckties at the store, but failed to carry them away. They took with them a quantity of cigarettes and other articles.

New Zealand Mission.—We have perused a letter to President Taylor from Elder W. M. Bromley, President of the New Zealand Mission. According to a report submitted at a conference lately held it was shown that the mission comprises six branches and 230 souls, including 85 children. Fifty members had been added during last year by baptism, and 61 had emigrated to Utah.

Prejudice against the Saints was becoming less strong, with Christchurch as an exception. At that place it had been found impossible to obtain a hall in which to hold services, and the brethren were likewise prohibited from preaching on the streets. Since a late visit there of Elders Bromley and Groesbeck the place had been shaken by heavy earthquake shocks, which, among other damage wrought, injured the new cathedral.

The Maories are investigating the Gospel; one of the King's counselors, an influential chief, has embraced it, and the King is reported to be favorably disposed.

Brother Bromley states that a ridiculous belief is current in New Zealand, to the effect that all correspondence written here has to be submitted to the Church authorities for approval or condemnation. A number of the people who have emigrated from there to Utah, having failed to fulfill promises to write to their friends, appears in the judgment of some to give color to this view. We hope that parties who have been thus negligent will correspond with their friends according to agreement.

Legislature.—In the Council this afternoon, the committee on judiciary reported on the petition of Beaver County for \$352 for keeping Ben Tasker 82 days, adversely, but favored appropriating \$150 for this purpose; also recommended \$350 for the capture and arrest of the notorious thief and murderer, Ben Tasker. The committee on counties reported a bill to extend the boundaries of Washington County, to cover the portions of Potosi and Ogden. The bill for changing the time of closing stock as estrays from 18 to 12 months, was discussed, and measures adopted, to require notices of roundups and drives to be given to the nearest poundkeepers, who shall attend such drives and take charge of and brand all unclaimed stock.

The Libel Suit.—The Carney-Bane libel suit is still pending before Commissioner Pearson. Yesterday, after the evidence for the prosecution was concluded, the defense moved for a dismissal, on the ground that the prosecution had failed to prove the existence of malice, and that the petition for Bane's removal was a privileged document.

This morning the court overruled the motion, and the case proceeded. After the examination of a couple of witnesses for the defense the case was continued till to-morrow.

Ninety-Five.—Monday was the 95th anniversary of the birthday of Mother Ann Greenway, of Tooele. Bishop Thomas Atkins, Jr., and the Relief Society made it the occasion of an old folks' reunion. At 1 p.m. there was a fine dinner, in which 229 guests, 80 of whom were 70 years old and upwards, participated. The company were waited upon by 21 neatly dressed, handsome young maidens. The time was consumed till four o'clock in making speeches, singing, etc. At night there was a dance.

Bear Lake Stake.—The Democratic speaker at the proposed Bear Lake Stake Tabernacle.

The feeling manifested at the Priesthood Meeting on the 14th inst., was unanimously in favor of its immediate construction, and considering in whose hands the matter is left (the Presidency of the Stake and Bishop Pearson, and Price), we anticipate the speedy erection of a most creditable edifice.

Burglarious Theft.—On Monday, George Miller, a tramp, burglariously entered the house of Mr. Job Pingree, of Ogden, abstracted \$12 from a drawer and walked away. The Herald of that town says he was caught and will remain in jail 68 days.

Heavy Mortality.—The report of Sexton Taylor for February, shows an excess of twenty-two deaths over the corresponding month in any year since the settlement of Salt City. The highest number in the month of February heretofore, was thirty-eight.

Suicide at Silver Reef.—Silver Reef, 28.—Mrs. Adolphie, wife of Fritz Adolphie, proprietor of a shooting gallery at Salt Lake several years ago, and afterward in the hotel business at Alta, committed suicide at her residence here about 3 o'clock this morning. The tragedy was not discovered till this evening, when she was found in her night dress lying on the floor in a pool of blood, a revolver close to her head with one barrel empty. The indications show that she must have placed the pistol in her mouth and dropped the ball passing through the top of her head and into the ceiling. She had been late in a very despondent condition, which, together with the two frequent indulgence in liquor, was the probable cause.

Mortality Report.—Following is the City Sexton's report for February, 1882:

Accidental	1
Anthrax (chronic)	2
Apoplexy	1
Bleeding from lungs	1
Cerebral spinal meningitis	4
Consumption (influenza)	4

d w

DRUGGISTS AND PHYSICIANS.

A physician, complaining bitterly about dull times, went to his drug list to find out the reason why, at this season of the year, his practice was not so extensive as formerly; who to find out the reason why, he consulted his brother medicine offered to attract away his patients. He was startled when his druggist answered as follows: Doctor, coughs and colds are very prevalent, but every one is purchasing Hale's Honey of Horse-hound and Tar, and recover so rapidly that there is no necessity for calling in a physician. Again, the reason that Dr. F. on 14th Street, is having so many patients is owing to the frankness he adopted in prescribing in every case of Coughs, Colds, etc., in a bottle of Hale's Honey of Horse-hound and Tar, and finding it successful, he has concluded in future that all his patients when troubled with any disease of the lungs, shall immediately commence taking Hale's Honey of Horse-hound and Tar.

The druggist's advice was snapped, and the almost discouraged physician now is considered a successful practitioner. His claims are based upon the virtues of the medicine he adopts, which in all cases is Hale's Honey of Horse-hound and Tar. Sold by all druggists. Price 50 cents and \$1. Large size much the cheapest.

Pike's Toothache Drops cure in one minute.

dead & w

CHEER! Attractive Winning! These expressive words are often and properly applied to the fair ladies of our favored land, who keep their hair abundant and natural in color and lustre by the timely use of *Ayer's Hair Vigor*. The Vigor is safe and agreeable, and its effects are very lasting, making it the most economical, and at the same time the most beneficial and elegant of toilet preparations.

MEDALS AND TESTIMONIALS.

IT IS A MATTER OF GENERAL KNOWLEDGE that many houses have relied for their reputation, in their several lines of business, upon the obtaining and advertising of medals, diplomas and testimonials, and that the obtaining of the same has become an affair of management, intrigue and often of downright bribery, rather than a question of intrinsic merit, is well understood by those who have had even the smallest amount of personal experience in competitive contests; and the fact that the awards obtained are made the subject of the

Grossest Misrepresentation can but be apparent to the general public, the thinking portion of whom understand and appreciate these matters at their true value. The many direct and indirect charges of fraud, favoritism and collusion in reference to the awards at our late

CENTENNIAL EXHIBITION, and the very general method pursued by the majority of exhibitors, successful and unsuccessful alike, in regard to the value of awards distributed, afford only further corroboration of the views long held by many of our most advanced thinkers, that the whole system of competitive awards is radically wrong, and that instead of its being a fair test of the merits or qualities of the articles in competition, it is but a source of

JEALOUSY, CORRUPTION AND FALSEHOOD.

This principle now so generally understood has been recognized and acted upon by **GEORGE WOODS & COMPANY** from the beginning of their business career; and they have

NEVER EXHIBITED THEIR INSTRUMENTS TO COMPETE FOR PREMIUMS, and for similar reasons have never solicited or published a testimonial from professional musicians. That they have acquired such an enviable reputation without the aid of such efforts as many of their competitors have found necessary to adopt, can but be considered as not only an indication of the superiority of these instruments, but of the

CORRECTNESS OF OUR VIEWS UPON THIS IMPORTANT AND OFTEN MOIST QUESTION.

We sell these Instruments for Cash and on Installments, at marvelously Low Figures.
