

MINING, BUSINESS AND STOCKS

MINES OF SILVER PARK DISTRICT.

Jesse Knight and Associates Preparing to Do Some Extensive Work in Nevada Camp.

MAY ALSO BUILD A MILL.

Nevada-Park Mine Was Once a Note Producer—Yielded Large Returns To Former Owners.

Special Correspondence.

Provo, April 8.—Jesse Knight and C. O. Newell, of the Nevada-Park Mining company, will leave in a few days for Silver Park, Nevada, where they will commence operations on their property.

An assessment has been levied on the capital stock, and the treasury is supplied with sufficient funds to erect a hoist and to also build a mill on the company's property, which it is the intention of doing, and institute a vigorous campaign to develop the mines, which years ago yielded rich returns for, comparatively, little work.

FORENOON ON 'CHANGE.

Daily-West and Butler-Liberal Hold Their Strength Well.

The total sales of the forenoon on the Mining Exchange amounted to 4,435 shares of the value of \$4,797. Daily-West and Butler-Liberal maintained their strength well, while Century displayed a tendency to decline.

The sales were posted as follows:

THE HIDDEN TREASURE.

Encouraging Values Obtained From Mine Near De Lamar, Nevada.

Jake Johnson came in from the west a few days ago with samples of ore from the Hidden Treasure mine, of which he is one of the owners. The samples assayed as follows: No. 1, gold \$1.30, silver 91 ounces; No. 2, gold \$1.44, silver 19 ounces; No. 3, gold \$1.85, silver 18 1/2 ounces; No. 4, gold \$3.20, silver 451 ounces. The average in lead is 4 1/2 per cent.

The group consists of four claims and is located in the La Quinta range, about 75 miles west from De Lamar, the ledge from which the samples were taken being 5 1/2 or 6 feet wide. The vein dips to the east at an angle of about 45 degrees and both walls are well defined. The ore is of the silver type, following the vein down. It is owned by Johnson, Sharp & Richards—De Lamar Lode.

BINGHAM CON. COMMENT.

Believed American is Trying to Get Control of Stock.

A letter sent out by a Boston brokerage firm, which was received in yesterday's late mail, has the following to say about Bingham Consolidated: "The great improvement which has taken place in the value of the company's ore bodies through the purchase of the Eagle & Blue Bell and other acquisitions, and the fact that the American Smelting & Refining company is keenly desirous of securing the control of the Bingham company and thus eliminate competition, which has been increasingly evident in the Bingham camp during the last three or four years, makes the company's position a very strong one."

"The American Smelting & Refining interests have made propositions to the Bingham company looking toward the securing of a stock control, but their figures have to date not sufficiently represented what the Bingham people believe to be the actual value of their property. The smelters company and the Bingham people, however, are now in close working relations, so much so that arrangements will shortly be perfected whereby the American Smelting & Refining company will abandon its project of erecting a \$1,000,000 copper smelter in Utah and the Bingham company will abandon the erection of a lead smelter. Under these arrangements the two companies will exchange their ore—the American Smelting & Refining company to secure the lead ore of the Bingham company and the Honorable company, and the Bingham company to secure the copper smelting contracts of the American Smelting & Refining company.

"In view of the improvement of the position of the Bingham it is possible that the \$1,000,000 convertible bonds recently authorized by the board of directors will not be issued for some time. Although the company has notes outstanding the Bingham company is in no urgent need of funds and is borrowing its money at a cost cheaper than would be the case were the bonds issued to the public."

DRIVING TUNNEL THROUGH BIG SLIDE

Alta Mining Operators Complain That County Commissioners Have Been Slow to Respond

TO REQUESTS FROM CITIZENS

Who Expected Some Assistance in Clearing Little Cottonwood Canyon Road.

The producers of Alta do not feel very kindly towards the county authorities whose business it is to look after the public highways.

When the recent snowslide came in Little Cottonwood canyon, a week or so ago, the county commissioners were notified and the assurance was given by them that the county would render every assistance possible in opening the avenue at the earliest possible date so as to allow the movement of ore, which had been temporarily suspended. The commissioners failed to do a thing, it is said, so the teamsters who have been transporting the ore from the various mines down the canyon took a hand in the matter and, being supported by the owners of the principal mines, are now clearing away the obstruction. On each side of the slide long trenches have been dug and where the snow is the deepest a tunnel is being driven; it is now finished to over 50 feet in length and will probably require 50 feet more to make the connection through the slide. This done, shippers will begin moving ore down the canyon again.

Manager J. A. Jacobson of the South Columbia Mining company came down from camp last night and states that when he came over the top of the slide about 20 men were at work in the road. For several days past traffic has been carried on with the camp in a small way, it being necessary to transport everything at the lower end of the slide and, on being "snaked" over it, reloaded onto sleighs and thence carried on into the camp.

Mr. Jacobson says the interference with the movement of ore has not caused any letting up in the work going on at the mines. He did not visit any of the properties outside of the one over which he has charge—the South Columbia, but at this property the main tunnel has been completed to the length of 350 feet, and is being pushed towards the vein at the most rapid rate possible without the assistance of machine drills. Several fissures have been cut, but no attention will be paid to them until the main ore body of the property is encountered.

E. D. WATERMAN HERE.

Pleased With Developments at His Wyoming Coal Mine.

E. D. Waterman, formerly a prominent figure on the floor of the Salt Lake Stock & Mining Exchange, but who is now located at Sioux City, Iowa, surprised his friends by making his appearance on the streets again this morning.

He is interested in the development of a coal proposition near Rock Springs,

which, he says, is showing up beyond all expectations. Being so close to his old home he decided to take a run over this way and will be here for a day or two.

UP FROM STATELINE.

James F. Muldoon Says the Camp is Quiet at Present.

James F. Muldoon, the well known State line mining operator, is up from the southern camp for a few days' recreation. Excepting the work going on at the Johnny mine there is little doing in the camp at the present time. There are less than 100 men employed in the mines of the district.

Prospectors and claim owners are preparing to get busy, however, with the opening of spring.

STAR CON. ANNUAL.

Meeting is Scheduled for Next Tuesday—The Financial Statement.

The annual meeting of the stockholders of the Star Consolidated is scheduled for next Thursday. It is said that the stockholders will make a demand on the management to make a complete financial statement. Undoubtedly the latter will be glad to give them such information as they might desire on this subject.

SUNRISE STOCKHOLDERS.

Held a Meeting Yesterday—May Build a Milling Plant.

The annual meeting of the stockholders of the Sunrise Mining company with properties in Park Valley, was held yesterday afternoon and a board of directors was chosen for the ensuing year, which organized with Sig Simon, president; A. Lochwitz, vice president, and general manager; E. M. Friedman, treasurer; Harry Twomey, secretary.

The report of Manager Lochwitz showed that during the past year 1,650 feet of ore was developed, the same maintaining a fine average.

The matter of building a mill at the mine was discussed and was looked upon with favor and one will probably be installed during the present year.

CONCENTRATES.

The Wabash delinquent sale has been postponed until the 16th inst.

Manager Davly of the Bingham Copper Belt railway is inspecting that road today.

A message from New York announces the arrival of Willis McCormick in that city from Paris.

J. G. Brown and Vasso Dockelstich, who are engaged in mining at Fay, Nev., are in the city today.

Superintendent George Wilson of the Sheba mine in Humboldt county, Nev., departed for camp again last night.

A. S. Thompson, the well known Pioche business and mining man, is up from the southern Nevada camp.

George Nesbitt, who is engaged in mercantile and mining pursuits at De Lamar, Nev., is in the city for a few days.

The ore and bullion settlements reported late yesterday were as follows: Crude ore and concentrates, \$12,500; base bullion, \$27,600.

Manager Walter C. Orem of the Utah-Apex Mining company, is in Bingham today, inspecting the properties of that corporation.

Manager C. W. Whitley of the American Smelting & Refining company is expected to reach home from Montana tomorrow.

General Manager M. J. Dailey of the Silver King came down from Park City last evening to be in attendance at the Republican state convention.

General Manager A. E. Hyde, Jr., of the Annie Laurie mine at Kimberly, after a stay of several days' duration in the city, returned to camp again this morning.

A pamphlet has been issued announcing that the Moore Cyanide company has given the Allen-Chalmers company the exclusive right to manufacture its alkaline plant machinery.

It is reported that the Southern Nevada will put in a cyanide plant of 100 tons daily capacity, to handle the tailings which have accumulated there—De Lamar Lode.

General Superintendent John A. Kirby was operated upon yesterday for appendicitis at the Holy Cross hospital. His condition was reported as being favorable today.

Manager Bothwell has returned from a trip to the Sacramento mine at Mercur, where he found 230 tons of mercury ready for shipment which has a market value of about \$13,000.

At a meeting of the directors of the Galena King Mining company, held yesterday afternoon, it was decided to commence a most vigorous campaign of development at once. The present working force is to be increased.

The directors of the Victor Consolidated held a meeting yesterday afternoon and levied an assessment of 1 1/2 cents a share. If all is collected, the assessment will bring into the treasury \$11,500.

A special meeting of the stockholders of the Bingham-New Haven Mining company has been called for the 20th inst., at which time the proposition to issue \$200,000 worth of 6 per cent gold bonds to run for five years commencing June 1, will come up for consideration.

B. Macready, acting for a party of Los Angeles capitalists, has taken a bond on the Forney & Hilbish property. The group comprises five claims and lies just south of the Spokane group of the Southern Nevada company. This week a small force of men have been engaged in doing surface work prior to beginning active development—Searchlight, Nev., Searchlight.

A Portland, Or., dispatch says: Involving a consideration of \$750,000, all but \$150,000 of which is in actual cash, the Allen mine, a copper-gold property located on Rogue river, three and a half miles south of Galloway creek has been sold by C. J. Allen of Portland and his associates to Charles D. Autremont of Duluth, Minn., and others of a company of middle western capitalists, many of whom reside in Michigan.

Best Cough Medicine for Children

When you buy a cough medicine for small children you want one in which you can place implicit confidence. You want one that not only relieves but cures. You want one that is unquestionably harmless. You want one that is pleasant to take. Chamberlain's Cough Remedy meets all of these conditions. There is nothing so good for the coughs and colds incident to childhood. It is also a certain preventive and cure for croup, and there is no danger whatever from whooping cough when it is given. It has been used in many epidemics of that disease with perfect success. For sale by all druggists.

Utah Industrial, Bank and Mining Stocks

BOUGHT AND SOLD.

BIG DEALINGS, SMALL CHANGES.

Seven Thousand Shares of U. S. Steel Sold at Last Night's Quotations.

SELLING ORDER OF THE DAY.

Disposing of Stocks to Realize Had Effect of Depressing the Market.

New York, April 8.—There were heavy dealings in a few stocks at the opening today, at advances, but the majority showed small changes with a sprinkling of losses. Seven thousand shares of United States Steel changed hands at unchanged quotations from last night. Running sales of 3,000 shares of Atchison were made at 74 1/2 and 74, compared with 73 1/2 last night, and the price subsequently touched 74 1/2. Two thousand, four hundred shares of Amalgamated Copper were transferred at an advance of 1/2, the price subsequently rising 3/4. A sale of 1,200 shares of U. S. Steel preferred was made at an advance of 1/2. Brooklyn Transit and Metropolitan Street railway rose large fractions and Westinghouse Electric sold to realize, notably of Union Pacific, Baltimore & Ohio and United States Steel preferred turned prices downward. The above mentioned stocks declined from 1/2 to 3/4 under yesterday's close, and a number of other active stocks also sold a fraction below. Amalgamated, Brooklyn Transit and Atchison showed good resistance, the first named touching 23 1/2, in the face of pressure elsewhere. Anaconda advanced 1/2, and Great Northern preferred 3/4. Prices gave way decisively after some wavering and fell generally below last night's closing except for Atchison, Amalgamated Copper and Brooklyn Transit in which gains were reduced to fractions. Rock Island, Northwestern and Realty preferred lost a point. The market rallied and became dull.

Bonds were irregular at noon, United States Steel second five's suffering from realizing. The Rock Island bonds rose sharply and then reacted.

Unusual activity at advancing prices developed in Consolidated Gas, this stock touching 23 1/2, a gain of 3/4. Brooklyn Union Gas also jumped 3/4. Other local stocks were not affected and made in general showed little change. Rock Island preferred declined 1/4 from the highest and recovered fully. The common, however, remained heavy.

Feeble rallies proved unavailing in holding the market, and the downward course was resumed. United States Steel preferred, St. Paul, the Pacific and Baltimore & Ohio bore the brunt of the selling and suffered to the extent of a point. Union Pacific lost 1/4. Brooklyn Union Gas added 1/4 to its previous rise.

LIVE STOCK.

CHICAGO.

Chicago, April 8.—Cattle—Receipts, 2,000; market steady. Good to prime steers, 5.25@5.45; poor to medium, 3.75@4.00; stockers and feeders, 2.75@3.00; cows, 2.00@2.25; heifers, 1.50@1.75; calves, 2.00@2.25; bulls, 2.25@2.50; calves, 2.00@2.25; Texas fed steers, 2.00@2.10.

PRODUCE.

CHICAGO.

Chicago, April 8.—The opening in July wheat was 1/4 higher at 87 to 87 1/2, but the price fell away to 86 1/2, the market turned suddenly strong. Reports from the northwest were exceedingly bullish, heavy snow having fallen during the night in the Red River country. July advanced to 88 1/2, but reacted on realizing. The market closed strong.

NEW YORK PRODUCE.

New York, April 8.—Butter, steady. Creamery, 16 1/2; state dairy, 15 1/2. Eggs—Firm. Western storage selected, 15; western firsts, 17 1/2. Sugar—Raw, steady. Fair refining, 3-5-3; centrifugal, 36 test, 3-10-3; molasses sugar, 2-10-3. Refined is quiet. Crushed, 4-10; powdered, 4-10; granulated, 4-10. Coffee—Firm. No. 7 Rio, 6 1/2.

WOOL.

St. Louis, April 8.—Wool, steady. Territory and western medium, 18 1/2; fine medium, 19 1/2; fine, 19 1/2.

"Now good digestion waits on appetite, and health on both." If it doesn't, try Burdock Blood Bitters.

FEDERAL COURT.

The bankruptcy petition of George Taysman has been dismissed. Frank E. Dorrington, N. D. Cook and W. F. Smith have been adjudicated bankrupts.

The attorneys in the majestic receivership matter have agreed to a continuance until April 20, to give the stockholders an opportunity to pay the debts.

The Tintic Mining and Development company, in a bill of complaint filed in the United States court, asks for an injunction to restrain the Utah Copper company from using the water from Furr's Fork at Bingham.

Is your every want supplied? If not, see if you can't find something you want in the Want columns.

Closing Out

Of The Lace House

GREAT BANKRUPT STOCK.

Saturday Morning Specials.
