L. D. S. Business College Holds Big Meeting.

PRESIDENT SNOW PRESIDES

Future Success of the College Predieted-Flag Presented-Lunch, Music, and Festivities.

Today has been a notable occasion in the history of the Latter-day Saints' College. As the "News" goes to press, the meeting for the dedication of the new building is still in progress, and the banquet will follow from 4 to 8 p. m. The assembly room was very tastefully decorated. The stand was decorated with flowers and bunting of the national colors. Above the stand hung life-size photographs of the First Presidency and a group picture, in Paris panel, of the Twelve Apostles. On the opposite wall hung the Presidency of the Stake also life-size. On the eastern and western walls hung pictures of Dr. Maeser, of the Church Board of Education, and of the college board. Of this kind of decoration one of the most attractive

today. At an early hour this morning the business college committees were at lows

ble to Him, and there will His choice blessings rest. If, as Zachariah has predicted, there should be inscribed up-on the bells of the horses in Zion, "Holiness to the Lord," surely temples of learning in Zion reared by the peo-ple of Zion, should be worthy of such a elemiteent insertion and should be significant inscription, and should be held sacred to His holy name. "I make bold to state, and I know

whereof I speak, that the foundation of this College was laid in the name of the Lord, and that name has been honored in the main, by trustees, faculty, and students, up to this day. And I feel safe in predicting that in its future growth and development, that sacred name will be paramount.

"The building in which we are now assembled, as its name implies, is the business department of the Latter-day Saints College, Its appointments and furnishings are in keeping therewith. In order to meet present needs there science, literature and the arts can be as practicable where mechanic arts. however, that the initiative be taken at once in the collection of material for both of these. It will take some time to gather the necessary volumes for our library; and much more time will be needed to secure the vast variety re-

has taken in late years requires many buildings erected for special instruc-tion among which we might name, chemistry, medicine, surgery, dentistry, botany, geology, architecture, survey-ing, music and many others. It may be said that these more properly belong to a university; yet there will be re-guired a corresponding enlargement of our college facilities as well as studies, for college preparation must be proportionate to the demands of our universities.

"These are our present needs, as well as the needs of the immediate future. What about the more distant future? For this comes within the scope of the subject before us. Shall I use the word pupermost in my mind the word 'Mormon' in this connection? Yes; and with pride, Viewing the future then from a 'Mormon' stand point let me assume the role of prophet, and say: That, in the not very distant future, there shall be found in Zion such pre-paration, qualification, and educational ability that shall not only obviate the necessity of our sons and daughters going abroad to qualify themselves in literature, science and art, but the scale will be turned and the sons and daughters from abroad , will come to Zion instead to receive instruction and to qualify themselves in all the branches of learning now known in the ducational world, and many others of which we have today no conception whatever.

"The true keys to many of the sciences have been lost ages ago, and learned scholars as well as students have been wandering in the midst of uncertaintiy and doubt. Many of the so-called facts of yesterday, said to be sustained by evidences altogether in-controvertible are discarded and de-

TRAIN WRECKED, SIX PEOPLE DEAD.

Many Passengers Hurt-Accident Occurred on the Erie, Near Greenville, Pa.- Cause, Breaking of a Strap Near Rail Joint.

Greenville, Pa., Feb. 7 .- While run- | cuers were quickly at work and surning at high speed, passenger train No. on the Erie railroad was wrecked near here today. Five passengers were killed outright and ten injured.

THE DEAD

Leek, Somerville, N. J., seriously,

The injured were taken to Meadville hospital by a special train.

The train was running very fast at the time and was derailed by the break-ing of a strap at the rail joint. Where the accident occurred is a sharp curve and a very steep embankment. About forty feet below is the Little Shenango river, and from the track to the top of the hill is about sixty feet. The train was made up of mail and express cars, ombination baggage and smoker, and four Pullman coaches. The engineer had whistled for the Greenville station when the engine left the rails followed by the mail car, combination car and one of the coaches, After running about the length of the train, the engine struck the hill and almost buried itself.

geons were on hand as soon as the first body was taken from the wreck. Charles Henry, baggage master, died after being taken to the hospital, mak-ing the number of dead six.

NUMBER 67.

THE COMPANY'S STATEMENT.

New York, Feb. 7 .- The following statement of the Erie rallroad wreck at

statement of the Erie railroad wreck at Greenville, Fa., was given out at the company's office here: "Erie, N. Y., and Chicago, limited train, No. 5, leaving New York at 2:29, was wrecked at 6:10 this morning be-tween Amasa and Greenville. The cause has not yet been discovered, but it was probably either a broken flange or a broken rail. Eight passengers were killed. The passengers injured were taken to a hospital at Meadville."

PENNSYLVANIA LIMITED WRECK.

Pittsburg, Feb. 7 .- The Pennsylvania limited express train ran into the rear limited express train ran into the rear of the Cleveland express on the Penn-sylvania line at the Allegheny avenue crossing this morning wrecking the engine of the limited and the rear sleeper of the Cleveland express. The pas-sengers on the limited were shaken up but not injured. Only one passenger on the Cleveland express, Henry Lub-lang of Naw York were shaken up lang, of New York, was seriously in-jured, but several sustained slight bruises. Fallure to flag the limited is said to have been the cause of the collisi

A LEHIGH VALLEY WRECK.

Easton, Pa., Feb. 7 .- The Lehigh Valley milk and paper train from New York was wrecked at Greenbridge, N. J., four miles below here early today. The train was running sixty miles an hour and when it approached the bridge, a structure 120 feet high, the main rod strap of the locomotive broke, dropping the big steel rods that connect the driving wheels and throwing the engine and everyone of the ten cars in the train off the ralls. The locomotive and several of the cars went bumping over the ties, threatening every moment to go over the side of the bridge. The engine and cars crossed the bridge in safety and ran 300 yards The mail car telescoped the combina-tion car and that was where all the fatalities occurred. The engineer and fireman escaped by jumping. Many res-

BUILDING ACCEPTED.

Bishop Geo. Romney made some appropriate remarks in which he told of the labors of the building committee, **NEW TELEPHONES** and then formally turned over the building to the care of the college trus-

> President Angus M. Cannon, in accepting this trust, said:

"The duty of responding to the chair-man of the building committee, and of new telephone promoters has occasioned accepting from him the care and the responsibility of the management of this beautiful building, has devolved upon myself as chairman of the board phonic communication. Not only is the of trustees. In succeeding to the management heretofore exercised, so ably so conscientiously, and so successfully by the building committee. I desire first in behalf of this institution I have so fact, the interest of the latter is of the long represented, as chairman of the board, to thank the building committee, for this happy termination of their la-bors, for the erection of the first college building.

pany this morning. The reporter on en-"I also desire to say that while thus tering Mr. Wallace's sanctum saluted accepting with thanks, the completed work of the committee on the first building, it is the desire of myself, as him with a pleasant good morning. Mr. Wallace's salutation was not quite so chairman, and of all the members of the college board, that the present building committee continue their la-bors for the erection of the second, of the series of college buildings, and that they proceed, at once, to devise ways

and means for so doing. "To commence with, I am authorized by Trustee Heber J. Grant, to say, he will furnish \$500.

"In accepting the present beautiful structure we take it in light of a sacred trust, to be held for the use of the youth of this people, to aid in giving them the skill, the knowledge, the character that will fit them for the duties of this life, and for the responsibilities of all eternity."

PREST. SNOW TALKS.

President Snow said that he felt grateful to the Lord for the opportuni-ty of witnessing what we do this day. It was in July last that the first though of the building of this house entere into the minds of the Presidency of the Stake. And now in so short a time the house is finished. He congratulated the Latter-day Saints' college, the Stake board and the building committee for the result accomplished. It was the intention of the Presidency, he said, that two more buildings be erect dif ed in the near future. The only fculty arising in the matter would be that of the finances of the Church; and he added, "it does not much depend on

that either He hoped that the students of the college would continue to appreciate the advantages afforded them. They had, according to reports of them who knew, been diligent in their studies.

PRESIDENT TAYLOR TALKS. Elder Joseph E. Taylor of the Stake

presidency, said: "Mr. President and friends assembled

published statement they say the Bell companies only have 3,741 telephones. here today to take part in the dedica-"Personally, and I believe I speak for a great many of the old residents tion exercises of this College building; also the faculty and students of the Latter-day Saints College: I have been and business men of this town, I am unable to see how two telephones can requested to offer a few remarks upon operate satisfactorily in any place. "What is your objection to the Counthis very auspicious occasion. The subject assigned to me is "The Future of cil granting a franchise to the new the College," to which I cheerfully re-

'I have endeavored to answer that "If the foundation stones of the Latin the advertisement, but will repeat ter-day Saints College in Salt Lake City have been well and securely laid, now-No city council today will grant an over-head telephone franchise, but they insist, and we think rightly, that then we may confidently hope that a structure shall be reared thereon altoall poles should be taken from the business streets, and if the judgment of gether worthy of the name it bears.

"The temples of learning erected by the Latter-day Saints, whether they the City Council is that this city can stand the affliction of another telephone are seminaries, academies, colleges, or universities, should have for their foundation the spirit and genius of the mpany, it seems to me that they should be only granted a right to put wires underground. Please do not ask Latter-day Gospel. When these struc-tures are completed under this influence me any more questions because, as I said at the beginning of the interview. I am a little too cross to be polite, even we are justified in offering them to our to a newspaper man-the best of good

clared false today. This has been going on during the centuries of the past but must not, neither will it continue forever. For be it known, God has spoken and declared, 'a time to come in which nothing shall be withheld but

all shall be made manifest.' 'God revealed to Father Abraham the true science of astronomy. I will make a bold statement here, which I am satisfied the future will sustain. Nothing but fragmentary portions of that science as well as many others remain with us today. Hence the necessity of new revelation along these lines. In speaking of the bounds set to the heavens or to the seas; the dry land also, as well as the sun, moon, and stars, the Lord says: 'All the times of their revolutions, all the appointed days. months and years, and al glories, laws, and set times their shall be revealed in the days of the dispensation of the fulness of times To whom will this fulness of knowledge be imparted? Speaking to his church he says: "God shall give unto you knowledge by the power of his spirit, yea by the unspeakable gift of the Holy Ghost, that has not been revealed since the world was until now."

"This is a promise made to us, a leg-acy bequeathed. Will we qualify our-selves to become the repositories of this advanced knowledge and in every way prove ourselves worthy of its posses sion? I answer: yes, we will. It is from this standpoint that I have spoken with such assurance in reference to the future of the Temples of Learning and the educational institutions in Zion For in Zion, true science and true re ligion will join hands in an inseparable union, no more to be torn asunder, "The Church board of education, the

Stake board of education, the building and financial committee, the donors to this building, the trustees of the college the faculty, the students and all who have aided in the accomplishment of present results cannot feel otherwis than amply paid for every effort they have made

'If we will only preserve the spirit of this dedication of which we have this day partaken; if we will continue to honor God and magnify his name glorious future results reckoning from today cannot be described by pen or tongue.'

STUDENTS PRESENT THE FLAG.

Student A. H. Derbyshire, in making the flag presentation, spoke as follows: "Members of the Faculty:-It becomes my pleasant duty, at this time, in half of the students of this institution. to present through you, to the college the emblem of our country. Upon its glorious folds there rests no stain. Justice, equality, and liberty follow in its wake, Wherever it wayes in the breeze we find a people enjoying a greater de gree of liberty than any other peopl on earth. It stands for all that is just and right, and we can feel justly proud When we gaze upon it our hearts of it. swell with emotion and there bursts up on our mental vision a panorama of the stirring events of our national history We see our great forefathers signing the Declaration of Independence George Washington with his gallant band of citizen-soldiery fighting the battles which won for us our freedom and Paul Jones dealing the death-blow to British oppression on the high seas We see it waving at the head of our victorious army in the war with Mexico, again beneath its starry folds, we see the army of the North in that great civil conflict which threatened to dis nember our Union, go on to victory. In 1898 we see it planted on the islands of Cuba and Porto Rico, sounding th death knell of tyranny and oppression on those fair isles. We see it establishe in the fertile islands of Hawail, then casting our eyes across the vast ex-panse of the mighty Pacific, we see it flung to the breeze above the grim bat tiements of Manila, where for three hundred years the inhabitants of those

tropic islands had suffered under the gailing yoke of Spain. "We believe the education of ne We believe the American complete until he has been

that this flag be unfurled from the top of this magnificent edifice, and ever wave an index to the spirit of this institution and the student body compos-Accept it, therefore, as a token of

the reverence with which we regard our flag and country."

PREST, PAUL'S RESPONSE. President J. H. Paul accepted the flag

in the following words:

"My fellow students, and younger brothers and sisters, for such these students always seem to me, in behalf of the college, and as a representative of the faculty, I accept with feelings of pride and a deep sense of gratitude, this beautiful testimonial of your esteem, and the love and affection which you, as students, bear toward your Alma Mater-which, in some respects, is more to you than a mother can be. In the good will and the sentiment of reverence which go from the students with this appropriate gift, the emblem of our country, from many a young heart whose impulses are noble and in which only pure thoughts have as yet a dwelling place, I know there rises silent wish that the institution shall stand forever in the great work which constitutes its calling.

'Inese students are like donors to the insutution; but whereas, the donors nave given of their abundance, have given all that they have. And hose who from force of circumstances have to deny the institution their gold, for they have none, yet they are willing to give their heart. And whereas the donors are blessed because of their liberality in giving, these are doubly blessed because of their gratitude and generosity in loving. "This noble emblem of our country

will shortly float from the top of this building as proudly and as patriotically as it does anywhere in all the glorious land of Washington.

'Flag of the free hearts' hope and

By angel hands to valor given Whose stars have lit the welkin dome, And all whose hues 'were born in heaven.

shall signify the veneration which the sons and daughters of Latter-day Saints have always been taught to feel and to manifest for this chosen land. the land of Joseph, wherein no tyrant rule as long as human hearts shall beat true to the principles of human rights, and as long as human tongues shall plead for a true, rational and constitutional liberty; and wherein no foreign foe shall triumph as long as the inspired Constitution of our fath-eriand shall continue to be the bulwark human liberties. And even as been in the recent wars to which my younger brother, himself a volunteer and a soldier in war, has alluded in his speech of presentation, so shall victory forever be ours if we remain as a nation and as a people true to ourselves.

"And thus he it ever, when free men shall stand, Between their loved homes and the

trust: And the Star Spangled Banner forever

O'er the land of the free and the home of the brave."

THE COLLEGE FURNITURE.

The Latter-day Saints' College is one of the best equipped institutions of its kind in the West, and no part commands greater admiration that its furniture fixtures which were put in by the H. Dinwoodey Furniture company of this city. Every piece is constructed of the best materials and shaped for Father for His acceptance. "Let me here say; all that is done in His name and for His glory, is accepta. The the father in the father is built in the father is built in the best materials and shaped for taught to reverence the flag which it is all modern and up-to-date in ap-pearance. The business department is and will take it under advisement.

furnished with desks sufficient to ac commodate 200 students. The penmanship room has forty solid golden oak desks, built so that no shaking can hinder the writer. In the assembly rooms are 400 opera chairs with patent perforated cecil backs and seats. typewriting department has ten new typewriting desk cabinets in its speed oom, besides some forty other machine ables. The shorthand department is tables. furnished with forty new single desks. Aside from all these conveniences for students, each teacher has a beautiful oak desk and easy chairs.

AUERBACH SALE CONTROVERSY.

The hearing on the confirmation of sale of the Frederick H. Auerbach estate's half interest in the dry goods business of F. Auerbach & Bro., which was continued over from yesterday till ten o'clock this morning, was on consent of all the interested parties, again continued till February 16, 1901.

The executors of the estate have filed their return on the court's order of sale, stating that the property in question was offered for sale and sold on February 2nd, in pursuance of an order of court at private sale, to R. G. Wilson, who was the highest bidder; and they further state that the sale was legally and fairly conducted.

Some time ago the court appointed Spencer Clawson, Wm. Saunders and Arthur Parsons appraisers of the estate's interest in the Auerbach business, and they placed its calue at \$53,-269.35. At the private sale referred to Mr. Samuel H. Auerbach, the surviving partner in the business, bld \$54,000, which was \$2,269.35 less than Mr. Wilson's bid, but was \$730.65 more than the appraised value of the estate's interest in the dry goods business; and as the will of the deceased member of the firm provides that in winding up the business, the interest of the surviving partner is not to suffer injury or hardship therefrom, Mr. Samuel H. Auerbach thinks his bid should be accepted by the court in preference to Mr. Wilson's, Accordingly he raised his bid from \$54,000 to \$60,000, and tendered the amount to the court. On second consideration Mr. Auerbach has con-cluded it would be to his interest to pay On second this additional amount, rather than have a new member in the firm, which would, he thinks, result in a division and sale of the property, to his injury.

TO AVOID PUBLICATION.

- Taken Under Advisement.

The following petition, signed by fifty members and legal firms of this city. was handed to Judge Hall at the opening of his court this morning:

"The undersigned members of the bar respectfully represent: that in many estates it is entirely unnecessary to publish any notice whatever in the public newspapers, sufficient notice in many cases may be given by posting and mailing notices, and thus a great expense is saved to many estates

"Wherefore it is prayed that when a request is made to dispense with publication that the court give the matter consideration according to the merits, without allowing the clerk in every instance to order notice to be given by

His honor ordered the petition filed
