DAUGHTERS MEET AT LION HOUSE

Notable Gathering of Descendants of Hardy Men and Women Who Made Utah.

MEETING LAST OF SEASON.

Many Reminiscent Addresses by Pioneers Themselves-Interesting And Varied Program.

A notable gathering assembled yesterday in the Lion House when the Daughters of Utah Ploneers held their last regular meeting of the season. It was an open seasion, all sons and daughters of pioneers being bidden to be present and response to the invitation was a splendid gathering of the descendants who make tangible the fair dreams which led the hardy men and women of

which led the hardy men and women of a generation ago across weary deserts to their promised Zioa. Mrs: Susa Y. Gates, a daughter of the foremost pioneer, presided as president of the society, and at her side sat Sena-tor Reed Smoot, president of the Utah county branch of the Sons of Utah Pioneers, Apostles Heber J. Grant and Francis M. Lyman, President John M. Winder and Angus M. Cannon, Solomon F. Kimball and Milando Pratt, a son of Orson Pratt, while baside them sat the daughters of two of the notable wo-men who first entered the valley, Mrs. Jeannette Young Easton, daughter of Clara Decker Young, and Mrs. Rosalia Kimball Edwards, daughter of Ellen Sanders Kimball, the only surviving daughters except one of the first pio-neer woman. The other, Mrs. Harriet Decker Hanks, a daughter of Harriet Decker Young, was absent in the Teton basin and could not be present. TWICE A FIONEER.

TWICE A PIONEER.

The meeting was opened with prayer by Mrs. Ann Cannon Woodbury of St. George, who is a ploneer in a double sense, having come into the Salt Lake valley as a child, and afterward being one of the first to colonize St. George in the southern part of the state.

SENATOR REED SMOOT.

SENATOR REED SMOOT. Mrs. Gates made at address of wel-come introducing the prominent people present and expressing her joy at so pleasant a reunion. She called upon Senator Smoot who congratulated the Pioneer society upon its organization, and said that in his opinion there should be a union of the two societies, the sons and daughters respectively, in a general organization which might meet together from time to time in en-jorable reunion. He suggested that steps be taken at once in the aspoint-ment of committees for that purpose, and the discussion resulted in the ap-pointment of a committee of six from each organization for effecting a gen-eral society. One of the near plans for a reunion is a joint celebration at some suitable spot on July 24 of this year.

year. ELDER F. M. LYMAN.

Senator Smoot was followed by Apostle Lyman who gave a touching sketch of the hardships endured by the pioneers, their faith, courage and endurance un-der the severest tests, and ended by expressing his deep interest in th or-ganizations devoted to honoring their memory, and a benediction upon their efforts.

Apostle Heber J. Grant spoke also of his deep interest and sympathy in the movement, and said that it was his desire to aid the enterprise in every possible way. The history of the plo-neers always touched the tenderest chords in his nature, and the ploneer hymns especially he could never hear without emotion. He hoped the project would grow and the societies togethes, complete a valuable work in their chosen calling. chosen calling,

Tell Them You Know! You may tell your friends, on our "say-so," that when they buy a package of the genuine Arbuckles' Ariosa Coffee they get the best of the coffee trade.

No coffee of equal quality can be sold in this town for the same price, whether it be sold out of a bag or a bin, or under some romantic trade-mark. You may tell them you know and that Arbuckle Brothers, the greatest coffee dealers in the world, will stand for it. ARBUCKLE BROS., New York City.

make a pass at his eye, twitch his nose and hit him in the ribs with a handy tall in less time than it takes to tell it and all at once. The boy surrendered the limb and tried to nab the monkey from below. The animal promptly wrapped his tall around a limb and was again on a level with his enemy. The boy tried to get him by the tail but that curled up and with it came four little claws and the rest of Mr. Monk. The monkey drew first blood and the sight of this put an end to what little determination pad gameness remained reside in many states and territoris. The call for a special meeting follows an extensive correspondence in which the move has been approved by practicthe move has been approved by practic-ally the entire membership. The meet-ing is called in Chicago in order that a may be easily accessible to eastern as well as to western members, and rep-resentatives of both the east and of the west will be in atindance. The National Irrigation congress has met annually for years and has been a very important factor in bringing about the present national policies with ref-erence to the arid lands and the forests of the country. It is proposed to make

erence to the artid lands and the forests of the country. It is proposed to make the coming session a factor in a larger development along similar lines, as well as in the wise direction of the present

sight of this put an end to what little determination and gameness remained in the boy. He slid to earth. The monkey turned a few 'skin-the-cats," hung by one hand and did other "stunts" to show how fresh he was. Of the 100 persons standing on the pavement below, several were men weighing nearly 200 pounds, not one volunteered to bring that six pounds of monkey down to his master. Finally "Joe" held out a corocaut and down the monkey came. He was nestling in his master's arms contentedly as the crowd dispersed. "G-r-r-r-t-augh!" said one of the parrots, "Oh rats!" development along similar lines, as well as in the wise direction of the present policies. There seems to be a demand for a discussion of the whole proposition of governmental conservation and devel-opment of the national resources of the country and it is proposed to meet this demand and make the Irrigation con-gress a still larger factor in national progress by inviting a discussion along very broad lines at the fifteenth ses-sion.

These and Other Reasons Given as Grounds for Decree of Divorce -Other Court News.

Because her husband left her at home with their baby while he visited other women and took them to dances and places of amusement, Olive L. Fielding has filed suit for divorce in the district court against William F. Fielding, whom she married on Nov. 8, 1904. She also alleges that her husband has struck and abused her husband has struck and abused her on several occasions and has falled to support her. His conduct became such that she was campelled to leave him on March 15, 1907. After she left she alley is that he took a woman by the name of Mabel Harris to their home and introduced her to his em-ployers as his wife. She also alleges that he fraudulently induced her to sign a deed to a lot which they owned, valued at \$500 and in addition to a divorce she asks that the deed be set uside, and that he be required to pay her \$40 per month alimony and \$75 as attorney's fees. She further asks for the custody of their child.

SAYS HE IS INSANE.

SAYS HE IS INSANE. Alleging that her husband, Joseph Schlicht, is insane and hence in-capable of transacting his business. Annie Schlicht has filed a petition in the probate division of the district court asking to be appointed guardian of his person and estate. He has a bakery and real estate in Eureka valued at \$5,000 and real estate in this county valued at \$1,500 in addi-tion to various mining stocks, the value of which is not known ro pe-titioner. titioner.

DECISION AFFIRMED.

Judgment in Favor of Keith-O'Brien Company Will Stand.

Company Will Stand. The judgment of the lower court in the case of H. A. Nelson, appellant, against the Keith-O'Brien company has been affirmed by the supreme-court in an opinion handed down yes-terday afternoon. The action was brought to enjoin defendant from selling 22215 shares of stock belong-ing to Nelson because of the non-payment of an assessment levied upon it by the board of directors. In Feb-ruary, 1904, the stockholders amend-ed the articles of incorporation au-thorizing the board to levy an assess-ment whenever the company was in-debted to an amount exceeding 10 per cent of the outstanding capital stock. Or March 2, the board levied an as-sessment of \$50 per share on the stock and appellant refused to pay his assessment. His stock was or-dered sold in due course of law and Nieson applied to the courts for an injunction. The lower court ruled that the assessment was legal and this decision has now been affirmed by the supreme court. The opinion of the court was written by Justice straup.

Straup.

COURT NOTES.

Suit for divorce has been filed in such for divorce has been hird in the district court by Anna D. Rey-nolds against Walter Reynolds on the ground of non-support. They were married in this city on June 15, 1904, and have one child, of which plain-tiff asks the custody. iff asks the custody,

east. T. H. Fltzgerald and associates have about three weeks longer to pay \$900,-000 on the Sanpete Valley railroad. Ten per cent has been paid down and the rest will be deposited in good time. The easterners interested in the project are expected to arrive here from New York today and elect direc-tors for the new company. conditions were placed before the in-terstate commission with the view of having them incorporated in a law that would be mutually pro-tective and it was agreed that a draft, of the bill of lading and conditions would be submitted to the railroads and commercial interests of the country early in July.

Thousands of Cars to be Added to Equipment of Railroads,

New York, June 27.—The Harri-man, Gould and other large railroad systems have placed car contracts within the last few days calling for an expenditure of upward of \$15,000,000 and orders are pending for others to the value of fully \$10,000,000. Heavy contracts are also about to be given for locomotives for use on eastern lines.

WILL SPEND MUCH MONEY.

The principal contracts call for 14.

The principal contracts call for 14.-100 freight cars. The Harriman lines have ordered 6,000 refrigerator cars. The Missouri Pacific has contracted for 7,000 freights. Most of these will be delivered this year. The most important contracts pend-ing are for the New York Central lines. It is understood in rallroad equipment circles that specifications are being prepared for 6,000 cars. 3,500 of which will be ordered within the next few weeks. The Rock Island system, it is stated, is also about to order 3,000 freight cars.

Linemen's Strike May Result in Gen-Montana's entire aggregation of labor

attract the attention of railway men. It is a device whereby train orders can be delivered to a moving train any-where on the line no matter at what speed it may be moving. The operation of the mechanism is on the principle of mail pouch delivery for trains in mo-tion, though different in detail. The device consists of a revolving post with two arms holding catchers to which are attached small pouches or bags

Mrs. Emmeline B. Wells responded to the call of the president in a brief speech in which she recalled some per-sonal experiences of her youth illus-trating the kindness and nobility of the ploneer families, and stating that she had memories of that journey across the desert, which could not be told without tears.

PRESIDENT WINDER.

President John R. Winder followed with a short talk upon the topic "Our Ancestors," and said it must have been Ancestors," and said it must have been through mistake that he was called for that topic, since he could not be said to have any ancestors, at least among the pioneers. He was the only one of his family who had embraced the gospel his family who had embraced the gospel and in speaking upon the tople he would have to speak of "Your Anczs-tors." Of them every son and daughter had reason to be proud for no nobler nor hardler stock ever lived than that from which they had sprung. They were men and woman of stalwart worth, and it was the duty of their descendants to honor their memory. He ended by invoking a blessing on the organiza-tions devoted to that cause.

VARIED PROGRAM.

VARIED PROGRAM. During the progress of the meeting beautiful musical selections were given by the pioneer choir under Mrs. Flora Horne, and a number of soloists, includ-ing a piano arrangement of "The Old Oaken Bucket." by F. H. Meakin, a son of John P. Meakin, and songs by Mrs. J. P. Meakin, Misses Edna and Ivy Evans, Nettie Raleigh, Ida Horne White and Nettle Raleigh. At the close of the meeting seven new members were voted in by acclama-tion, and refreshments were served, a number of the daughters of the society assisting.

assisting

a institute of this committee, to be held ir. Chicago, July 6. The congress will be held in Sacramento Sept. 2-7, and this preliminary meeting is for the pur-pose of laying plans that will make it national in scope and to outline a pro-gram that will cover the interests of the entire country.

two arms holding catchers to which are attached small pouches or bags containing the train orders. One of these pouches is for the engineer, and one for the conductor of the train in question, and grabs attached to the en-glne cab and the baggage car catch the pouches from the extended arms. The engineer and the conductor immediately read their orders, which may sidstrack them at the next station or let them go through at full speed. It is interesting to know that the train dispatchers' an-nual convention held at Boston last week unqualifiedly endorsed this inven-tion and recommended its adoption by all railroads. The inventor is M. C. McKeffe who is president of the Rail-way Time Saving association which controls the invention, and the treas-urer is Byron Groo, and the secretary. J. M. Stull. The capital stock of the company is \$50,000. A. D. F. Reynolds of this city is the promoter of the enterprise.

ANCIENT ROME

ANCLENT ROME Is now meterly a memory of the past. Ballard's Snow Liniment is the family liniment of the twentieth century. been keeping in touch with conditions in that state. Charles A. Elmore, special representa-tive sent by grand officers from Oakland to handle the strike situation here, is still here but the linemen in this city are still out and the breach between them and the Rocky Mountain Bell and Independent companies is as wide as ever. No settle-ment is looked for until Grand Prevident MeNuity reaches this city and hears both sides. Mr. McNuity's whereabouts is not known although he is thought to be on his way west from the east, hence the date of his arrival is not certain. Mr. Lynn reports affairs in bad shape in Montana. Labor is dissatisfied with present conditions and an absolute walk-out affecting all lines is not altogether improbable. The girl operators employed by the Bell in Montana outside of Butts may follow the example of their isiter-workers in Butte and join the linemen in their strike. This would shut Montana telephonic communication is concerned. The girls in this city are not organized as their ioining the linemen here is very improbable.

probable. The telegraph strikes in the west and set are not affecting Salt Lake. Manager W. Long of the local office of the extern Union, in discussing local coudi-

A. W. Long of the local condi-tions says: "We have a wire to Oakland that is working well. Our westbound business is well up. I understand that Oakland has wires to the principal points on the coast. Of course, there is some delay in way business (local traffe). So far as I have heard, there is no office other than Oak-land out. I do not believe we will be af-fected-at least not for a long time-even if the sirike does spread."

WATCH COFFEE And Watch it Carefully

Any brain worker who depends on thought for his success in life, uses up energy, by brain work, a varying amount of the delicate particles of phosphate of potash and albumen of which the brain and nerve centers are remnosed.

phosphate of potash and about stress are composed. The fine, microscopic particles of phosphate of potash are found in quantities in the pores of the skin after the brain has been used actively. This must be replaced from food, or brain fag and nervous prostration set in. This breaking down of the little cells each day, from brain work alone, is a natural process, and the cells can readily be rebuilt from the right sort of food, if the system is not inter-ferred with by drugs, but if an in-creased amount of cells are broken down by the use of coffee, trouble then begins. Trequently it first shows in dyspen-sia, lack of power of the bowels to operate properly, palpitation of the heart, or some other lack of vitality and healthy vigor. There is but one thing for a sensible man or woman to do,—quit coffee absolutely. "Hard to do,—quit coffee absolutely. "Hard to do," you say. Take up Postum Food Coffee, use it regularly, have it well made, so it tastes good. You will find a well defined, unmistakable change in your health, and there's a reason for it. You have become free from the breaking down force of coffee, abd ou

Bathing at Saltair this year is per-ect. Water is warm and plenty of it.

WILL BE BIG WEEK.

Everybody, Everywhere, is Coming to Salt Lake to Get Acquainted.

The "Get Acquainted Week," being aranged for the second week in July, promises to be a great occasion—a real bounding, bouncing hummer, with a hum that will work wonders for Utah in a commercial, industrial and every other way. The idea has been nurtured by the merchants, but every citizen is expected to take a hand and boost the scheme. Hundreds are larged lending heir hand and enthusiasm and big things are to result. Sait Lake will not only invite but ask every citizen to visit her during "Get Acquainted Week," and talk things over in a good old friendly way.
The merchants and manufacturers, wholesale and retail are offering substantial inducements to their patrons throughout the state. Liberal discounts are to be allowed on all sales made during the week, one store offering to cut off 10 per cent of goods purchased between July's to 12, inclusive.
July 19 will be a "Utah-Made" day. Merchants will fill their windows with home-made products and push their sale. The following day is Real Estate day, always the event of the year. The annual prize drawing in the evening has never failed to aitract thousands to Saitair. The prize the this year, is to be larger, longer and better this year, is to be larger, longer and better this were. Or Poterson, George S. McAllister, William G. Lambert. John E. Bruff, Theodore Nystrom, A. H. Cook and C. O. Harris. ng, bouncing hummer, with a hum that

8 E.

Chicago, June 27.—The Record Her-ald today says: The Rock Island and the Union Pa-cific roads have made a loan to the Alton road of \$1,400,000 and have agreed to make a further loan if ne-cessary not to exceed \$600,000. The loan was negotiated by the Alton to pay for "extraordinary" im-provements which it is desired to make this year. The Alton preferred gei-ting the loan from the two roads nam-ed rather than to go into the money markets at this time. It is probably the first loan of this kind by one rail-road to another, to obviate the neces-sity of asking the public to take any more railroad securities. The loan is secured by notes which will mature in 15 years. Five per cent. interest will be paid. The improvements contemplated by the Alton include track elevation in Chicago, numerous yard improvements to cost several hundred thousand dol-lars, and cutting down grades and improving curvature on several por-tions of the system.
