WHO JENNINGS WAS.

Was Born at Levan, Utah, and Had Been Working in Idaho.

(Special to the "News.") Provo, Sept. 5.—Mrs. Jennings, wife of the man killed in Salt Lake City last of the man killed in Sait Lake City last night is a Provo girl, the daughter of Mr. and Mrs. C. H. Hansen of the Sec-ond ward of this city. The young cou-ple were married here about one year ago. Recently Mrs. Jennings has been with her husband in Idaho. She re-turned home on Tuesday last and expected to be followed in a day or two later by her husband who had stopped to collect some money that was due to him and to attend to some matters of business. It is stated that he was a sober and reliable young man. That he rarely ever drank liquor beyond taking a glass of beer. The presumption is here that he probably took a glass of beer at the road house yesterday and that it was drugged in order that he should be rendered insensible that he might be the more easily robbed. The young wife is in an exceedingly delicate condition and rapidly approaching ma-ternity.

RECOVERED OVER \$100.

That is the Amount of Money Found On Eckstein and Witnesses.

It was ascertained at the office of Sheriff Naylor today that the amount of money recovered on Eckstein six witnesses who were placed under temporary arrest at the time he was taken into custody was a little more than \$100. It is understood that Eck-stein claims that a portion of this was the proceeds of his day's business.

stories of a number of eye-witneses who saw the shooting is to the effect that shortly after 9 o'clock they were all lined up at the bar drinking and Barney Eckstein, the proprietor of the place, was waiting on them, when Jennings waiked in the door and de-liberately confronted Eckstein and said in a loud voice:

"I am going to do something quick! "I am going to do something quick!" He drew a 32-caliber revolver from his hip pocket, it is said, and placed it against Eckstein's breast, cocking it with his thumb and, placing his finger on the trigger, was about to fire when Eakstein grabbed his own revolver, which was lying on a shelf under the bar, and fired two shots in rapid suc-The first bullet went through something over \$3, was found in his the man's breast just to the right of the heart, and the second struck him in the left cheek passing upward through the brain and coming out on the right side pockets. New London, Conn., Sept. 5 .- Maj. Gen. MacArthur, commanding the department of the east, this noon mate putlic a statement of the progress of last night's engagements, between Forts Wright, Michie and Terry and Admiral Higginson's fleet. The staten ent says that Fort Wright fired 349 shots of all calibres, the fire commander claiming the destruction of the eatire fleet by three or four times the

number of points required. Fort Michie's batteries fired at all the ships until the last one was out of range and claims to have put out the Brooklyn, Indiana and Alabama. Fort Terry in the meantime was engaged at

long range. The statement adds: "It was a very clear and bright star-light night and even if all of the searchlights are ruled out by the fire from the cruisers, the battleships were easily seen and suffered severely from the batteries at Wright and Michie."

Shortly after 6 o'clock the battleships passed through the race, returning ab-parently to Block island. At 9:40 Fort Adams reported the fleet in line of battle, heading in at 12:000 yards. At 12:28 Fort Adams reported the Prair[c entering the harbor flying a flag of truce truce.

C. M. I. is satisfied with the stoker, the Utah Light & Power company will adopt it. Mr. Campbell states that there is a instead of above, the coal terms is no by a steel worm, so that there is no by a sceel worm, so that there is no green coal whatever on the top of the fire to make a great smoke; and by the time the coal reaches the fop of the fire where the flame is, the consumption is practically perfect, and no unconsumed gases are thrown out, as all have been burned up and the extra heat utilized The adoption of this device will shortly do away with the column of smoke that has been wont to roll out of the Z. C. M. I. stack. So altogether it looks as though the smoke problem might be shortly solved. Mr. Campbell states that there is a growing and very heavy draft on the company's plant, largely because of the

> Honolulu has no city government or organization, the city being governed by the governor and a board including the heads of the various territorial de partments. But a municipal organization is expected when Congress meets. Mr. Crozier says C. S. Desky. formerly of this city, made a pile of money out of real estate, but of late has experienced severe losses. How-ever, he expects to pull out all right. A cable is looked for, by November, when the islanders will no longer be compelled to take their continental news with white whiskers on it, but get it hot of the Asociated Press plate eve ry day.

DELICATE QUESTION.

Violation of Sunday Liquor Law Oceasions Legal Dilemma.

The council committee on license today obtained an opinion from City Attorney Neye in regard to the liquor license of George Dahlstead, one of the violators of the Sunday closing ordinance to whom it is intended to deny a renewal of license. It was the opinion of some parties that Dahlstead, who had already paid a quarter's license to the city treasurer, could continue to do business until the end of that quarter notwithstanding the fact that he has not been granted a license by the com-mittee. City Atty. Nye states that the mere fact that Mr. Dahlstead has paid the amount of license regulred into the city treasury, does not entitle him to continue his business. He says that undoubtedly a compaint will be sworn out against Dahlst ad charging him will selling liquor without a license and that his place of business will be closed

Diehl's court on the charge of vagrancy, and sentenced to 30 days in the city jail. Williams is a morphine flend, and this morning he begged Jailer Kimball for some of the "dope." After tak-ing the "shot" he called Mr. Kimball to one side and told him he wanted to make a confession of a crime he com-mitted about four months ago in Reno,

Nev. He said that with a companion, he blow open a safe and secured about \$500 worth of money and valuables and he knew where some of the property could be recovered. After cracking the safe, he and his companion separated

and he has not seen him since. Wil-liams says that recently he learnel that a man had been arrested at Reno for the crime and was now languishing

in jail, and he says he does not want an innocent man to suffer. 'I was one that blew the safe open," he said to Jailer Kimball, "and now I

want to make a clean breast of the whole thing and go back there and take my medicine." Jailer Kimball laid the matter before
