back of blood is almost always as-sociated with neuralgia. One medical authority has defined neuralgin as "the cry of the nerves for better blood." This is true because the nerves receive their nourishment through the blood. Build up the blood, the impoverished nerves are fed and the neuralgia pains disappear:

nerves are fed and the neuralgla pains disappear. Thus it is seen of how little perma-nent benefit a focal or external appli-cation can be in the treatment of neu-ralgia or sciatica, which is a form of neuralgia. It also shows how exact-ly suited to the cure of neuralgia and sciatica is such a remedy as Dr. Wil-liams' Pink Pills which acts BC TH on the blood and the nerves. Besides Iiams' Pink Pills which acts BCTH on the blood and the nerves. Besides their direct action on the nerves, which affords temporary relief from the sciatic pains, these pills build up the blood, enabling it to give proper nourishment to the nerves, and pre-vent the further development of the disease or a return of it, so long as the blood is kept rich and red. Mrs. George Henderson, whose ad-dress is R. F. D. No. 1. Wynantskill, Rensselaer Co., N. Y., says:
''A few years ago I strained my left hip by a fail and later was troubled for nearly a year with sciatic rheuma-tism. The pains ran from my left hip down to my heel and were so terrible that I had to scream when trying to CTH on Besides

I took the pills for a while longer to make sure of a per-manent cure and have never been torubled with rheumatism since. I can now work as well as anyone." RHEUMATISM A good liniment or plaster, or some good home remedy will usually give temporary relief from the pain of Rhenmatism, but the disease is more than skin deep and cannot be rubbed away, nor can it be drawn out with a plaster. Such treatment neither prevents nor cures; the excess of acid, 500 125 1.000 which produces Rheumatism, is still in the blood and the disease can never be cured while the circulation remains saturated with this irritating, pain-producing uric acid poison. The trouble will shift from place to place, set-tling on the nerves and causing pain and inflammation at every exposure or after an attack of indigestion or other irregularity. When neglected or improperly treated, Rheumatism becomes chronic and does not depend upon climatic conditions to bring on an attack, but remains a constant, painful trouble. S. S. S. drives out Rheumatism by neutralizing and expelling the excess of acid from the blood. It purifies and invigorates the circulation so that instead of an acid-laden stream, constantly depositing uric acid in the joints, muscles, nerves and bones, the entire system is nourished and made healthy by rich, life-giving blood. Chicago, March 27 .- A special from Two million pounds of tinned meat. Two million pounds of tinned meat, valued at \$100.000, have been reshipped to New York from London during the last few weeks as a result of the scare-ity of meat in America. As a conse-quence of the recent (inancial crisis, American farmers who were unable to effect loans placed their cattle on the market instead of stall feeding them, with the result that the price of meat fell while its consumption increased. From this fact has resulted the un-usual apectacle of England feeding America, with its own meat, "even with the result to pay twice across the At-lantic."
