Editor Deseret News:

On the 21st of October, 1879, I left Salt Lake City on a mission to Europe, being called at the October Conference and set apart by a Apostle G. C. Rich. He said that the Lord should protect me on land and on sea, and that I should be able to do all that I should desire to do.

think we shall have a good supply of water for irrigation this summer.

Our day school has been inaugurated. This winter by Brother Barlow Purinton, a graduate of the Brigham Young Academy, a rising young man, who will, we have no doubt, make an honorable mark in the world.

Your brother in the gospel of peace. GEORGE DARLING.

Woman Suffrage in France.

"Then it is really serious, your demand that women vote."

"Neither more nor less."

"But would you take from them all their graces, all their charms, women?"

"Oh, here you come with your platitudes, but don't worry about it. The women will vote, and you will create some amusement; for you know, we French must always begin with a laugh. But let them laugh, let them vote, let them have a ballot-box, universal suffrage, and political equality."

At first it will make a sensation, and will become fashionable; after that a habit, then an experience, then a duty, and at last a blessing."

Be it as it may, it is already a right. A few prominent ladies of this city, some rich dowagers in the provinces and some of our robust farmers' wives will set the example, and the rest will soon follow.

They will have meetings, assemblies, clubs, as we have; they will say and do a great many absurd things, as we do; they will regret them, as we do, and regret with little they will learn to correct them.

By mixing more in the politics of the country they will do less to encourage that of the Church, which will not be a bad thing.

Finally, women, that is to say, the mother, wife, daughter, this half of ourselves in all things of life, having as well as we do, responsibilities and duties, this living being, thinking, loving, suffering, having a brain, a heart, a soul just as we have (if surely we have one), has also necessities and aspirations, special interests to be promoted, improvements to accomplish, and a right to be maintained.

Establish this new law of woman suffrage as you may think wisest, with all necessary precaution suitable to this country so we need to make certain qualifications if you think best, but pass the laws. There must be in the Chamber of Deputies some of the women of France.—Alex. Dumais.

Editor Deseret News: I am pleased to say our Sabbath School is well attended, and quite a number of our young men and young ladies are taking part in teaching the several classes.

Brother Nuttall is the superintendent of our Sabbath School, but some time ago he was called to another place, and Elder George Darling was appointed to be his successor.

Our young men and young ladies are all doing a good work. The health of William E. Stoker, who is at the present, with the exception of colds, I do not know of any bad cases of sickness. One family, that of William E. Stoker, has been sorely afflicted with the grippe. Wm. E. Stoker was taken sick last November, he lingered in great agony until the 15th day of March, 1881, at which time he expired. He was born Jan. 4th, 1841. He now reposes by the side of three other children, who all died within a short time of each other. All the children died of that malignant disease diphtheria. Wm. E. Stoker was born Nov. 17, 1875, died Jan. 23, 1881. Parker was born Sept. 18, 1874, died Feb. 5, 1881. Elsie Stoker, born Oct. 27, 1877, died Feb. 10, 1881.

A few days ago a little three year old daughter of Bro. B. G. Clark got hold of a vial containing carbolic acid, and came near drinking some of it, but fortunately it began to burn her lips soon as she touched it, and she was taken to the hospital, where she was treated, and she is now recovering.

The weather has been very fine and favorable for the time of year. Crops are mostly a good prospect. A heavy snow storm is now in the mountains, so I think it is not unlikely that it will storm in the mountains, so I
