Manager Joseph Greatly Pleased With

Recent Developments.

Ranager Joseph Greatly Pleased with Recent Developments. Harry S. Joseph, manager of the Sil-ver Shield Mining company in Bing-ham, is exulting over some substantial developments made in the property of that corporation during the past fort-night. Mr. Joseph makes the assertion that one of the best strikes in the his-tory of the mine has been made in an upraise from the main tunnel level. It was not entirely unexpected, however, for it will be recalled that some time ago the company broke into a good looking ore body on the upper levels, but on account of water interfering it was not made readily accessible. It was not made readily accessible. It was then determined to drive the main tunnel ahead and upraise. The dis-tance between the tunnel and the level from which the miners were driven is 750 feet. The ore was encountered after raising 300 feet. The connection made in the manner indicated will ef-fectually drain the mine and render possible the breaking of ore and re-moval to the surface at minimum ex-pense. About 300 tons were broken down yesterday. Mr. Joseph says much of the ore exposed is of a shipping grade, but the balk of it will require mill treatment before being sent to the smelters. Thursday the entire face was in ore that assayed 31 per cent land, 12.6 onnces silver, 15 per cent day afternoon.

M. C. Morris Has Become Manager of The Horn Silver.

Announcement has been made of the resignation of Philo T. Farnsworth as manager of the Horn Silver mine at Frisco, Beaver county and the ap-pointment of M. C. Morris to the position. Mr. Farnsworth has been in charge of the Horn Sliver for a good many years and during the same period Mr. Morris has served as local secreand treasurer. He is therefore thoroughly familiar with the com-pany's affairs and is eminently fitted to fill the position of responsibility to which he has been called.

MORE MEN NOT NEEDED.

No Scarcity of Miners at Present in Camp of Butte.

Camp of Butte. Butte, Mont., March 14.— President P. J. Duffy of the Eutic miners' union states that circulars posted in other mining camps and in leading citles of the northwest, to the effect that 10,000 men are wanted in Butte, are mislead-ing. The supply of labor naw here fai exceeds the demand. Moreover, un-skilled labor is not comployed in the mines at Butte at any time. Duffy says that, misled by faise employment are now in the city.
