EDITORIAL NOTES.

Lord Palmerston once said, speaking of the Turks, "What energy can be expected of a people with no heels to their shoes?" If I am had been living now he would have changed his opinion. The "energetic" subjects of an "effeminate" monarchy, have energy enough to "knock the socks" off the invading Russians, and drive the "hardy" Norwegians before them with no shoes to their heels.

Don't call the Utah Northern and Utah Western "narrow gauge" railroads any more. A Massachusetts paper says: "The two-foot gauge railway between Billerica and Bedford will soon be finished, and its passenger cars, now building at Laconia, N. H., will be a decided novelty, as they will have a row of single seats on each side. The road is eight miles and a half long, and will cost about \$50,000, or less than \$6,000 per mile, being only one-eighth the cost of ordinary railways."

Hypophosphite of soda is a sovereign remedy for erysipelas. A Boston physician has been using it with marked success in diphtheria. He gives doses of from five to fifteen grains in syrup, every two or three hours, according to age and the requirements of the case. Five drops of the tincture in milk, for a young child, is a convenient method of administering it, the dose being increased according to age up to half a drachm.

Green corn is said to be excellent for diarrhoea and flux, and Deseret root, which has such a prolific growth in this Territory, has been used by experienced persons for thirty years in the above diseases without fail. It should be made into a tea and drunk freely. "The bane and the antidote are both before you." Melons and cucumbers and green corn, green apples and green Deseret root flourish in close proximity. When you go for green apples and half ripe melons, get your Deseret root teapot ready.

Major Powell, the explorer, describes all that country lying west of a line drawn through Minnesota, Iowa and Kansas as "arid, in which farming cannot be successfully carried on." What is Powell thinking about? What of the grain fields of Nebraska, Utah, and the surrounding Territories? Powell must be dreaming of the past. To-day the "Great American Desert" has disappeared. "Mormon" travel and colonization made the first marks which have transformed it from the maps.

"Lo the poor Indian" is an apt scholar, particularly in learning deviltry from the Christian (P) pale face. The noble red men of the Platte tribe played a "dead open and shut game" on the Shoshones in Nevada recently. Two Plutes bought all the playing cards in Austin, and after taking them to their camp and marking them, went back to town and, complaining that they were "heap broke," sold them for a trifle. The Shoshones purchased these cards from time to time, and why the Plutes cleaned them out at poker, every game, was one of those things they could never understand.

Apologies of the Hilton-Selgman controversy, which is still pending, a case of equal bigotry has occurred in England. The Vicar of St. John's, Taunton, has written to the Mayor of that town, requesting the latter, whom he learns with horror is an unrepentant person and not a Christian, to resign his position as Mayor. The Hebrew Mayor, Myer Jacobs, replies in a dignified manner declining the request, expressing his pride at living among a people who make no religious distinctions in electing men to office, and coming off more than conquer in the controversy.

Hadley D. Johnson of Salt Lake takes the editor of the Omaha Herald to task for advocating an increase of the United States standing army to 50,000. He says, "Ours is not and never was intended to be a government of force. It is true that we need a small army to protect our frontier settlements from savage aggressions, but the State militia is, and ought to be, sufficient to keep the peace in the several States, and experience has shown that the volunteer system has been amply sufficient for the emergencies of war." Mr. Johnson speaks the mind of the majority of the Democratic party, of which he is a representative man, and a great many others not connected with that party. The Herald publishes the letter, but sticks to its own view of the subject.

Ngou Ngh Leang is the remarkable name of a Chinese mandarin who, two years ago, came to the United States in an official capacity, and made his home in Hartford, Conn. He brought two ladies with him, of high rank, who were noticed to be very much attached to each other, and it was supposed by the Hartford ladies who watched them with much interest, that one was his wife and the other his sister. But the recent birth of two infants in Mr. "Ow" establishment (he calls himself "Mr. Ow") caused inquiries which have disclosed that those affectionate ladies are "Ow's" two wives. Of course, Hartford is scandalized. And now the question is, what is to do with Ngou Ngh Leang for living in the United States with two wives lawfully married to him in China.

FOR JUDAH, NOT FOR THE POPE.

A new programme for Palestine is on the tapis. It is a Jesuit movement. Dr. de Haas, an authority on these matters, says a project is on foot to make Jerusalem the headquarters of the Latin Church. Commissioners have been appointed to negotiate for the territory; engineers have surveyed a railroad from Jerusalem to Jaffa; money is being collected for the erection of a magnificent palace for his Holiness on Mount Zion, to which the wealth of the Vatican is to be transferred. There the successor of Pius IX is to be installed, and the "City of the Great King" is to be the future head of the Pontifical See.

We are of the opinion that those who are engaged in this scheme will find another illustration of the adage "Man proposes, but God disposes." Jerusalem is for Judah, not for Rome. The temporal power of the Papacy is broken beyond repair. If the Pope cannot rule in Italy he will not preside in Palestine. The genius of Catholicism hovers over the Vatican and centres in the city of the seven hills. The traditions of its Church emanated from and cluster round the fabled seat of St. Peter. Its wealth and power and gorgeous edifices are massed in Italy. The land of Tyre and Sidon, of Galilee and Samaria, of desolation and the Dead Sea, are foreign to it in every respect, and the City of David is no place for the palace of the "Holy Father."

These are the "times of restitution spoken of by all the holy prophets since the world began." The purposes of Jehovah cannot be frustrated. The descendants of His ancient covenant people will reap the fruits of the promises planted in the hearts of the fathers. The signs of the times point to the speedy redemption of Jerusalem, and the spirit of the great gathering is beginning to take hold of the Jewish heart. The war now raging will be one of the instruments in the hand of the Omnipotent to pre-prepare the way before the feet of the sons of Jacob, and the Hebrew, not the Latin, will come in upon the land like a flood.

There are no people who watch the events transpiring in the old world with greater interest than do the Latter-day Saints. The gathering of the Jews to Palestine is one of the important incidents of the work to which their lives are devoted. Their destiny is associated with the ultimate triumph of Judah. And the fulfillment of the predictions of ancient prophet and modern seer is taking place so rapidly and significantly, that they are almost ready to proclaim: "Speak ye comfortably to Jerusalem and cry unto her that her warfare is accomplished, for she hath received of the Lord's hand double for all her sins." No. Jerusalem is not to be given to the Jesuits, Palestine is not to pass under the power of the Pope. The soil is reserved for Judah and "the mighty God of Jacob" will turn and overturn until the dominion is established. The dispersion of the House of Israel was clearly predicted by their prophets, and they literally became "a hiss and a by-word among all nations." "He who scattered Israel will also gather them."

The prophecies concerning the restoration are just as clear and definite as those in relation to the dispersion. If the latter have been fulfilled, have we not good reason for expecting the accomplishment of the former? The great theme of the inspired Jewish bards and seers was the latter-day glory of their nation. The events which they associated with the restoration and the re-building of their ancient capital, are now transpiring and we therefore look for the complete fulfillment of their sayings concerning the triumph of Judah.

This re-establishment of an old and once powerful nation upon the site of its former splendor and dominion, is one of the important scenes in the great drama of the last days, and a precursor of the "consummation of all things." It will surely be accomplished, and will aid in the vast revolution that is about to be inaugurated by the powers on high, which will result in the "end of the world" or, in other words, the destruction of man's misrule, and the setting up of His kingdom whose right it is to reign, whose dominion shall be everlasting, and whose sway shall be "from the rivers even unto the ends of the earth. He is the 'Lion of the tribe of Judah'; he will sit upon the throne of his father David, and all nations and kingdoms will serve and obey him.

FOR WESTERN UNION TELEGRAPH LINE.  
Last Night's Dispatches.  
EASTERN.  
Yellow Fever Cases.  
NEW ORLEANS, 17.—A letter from the Consul General of Havana says, the sanitary condition is satisfactory. Twelve cases of yellow fever were reported on board American and British vessels in the harbor, and of these four were fatal, the remaining eight are in the hospital, and will probably recover. In the city hospitals, so far, about forty cases are reported, which is comparatively a small number for this season of the year. There are other cases in military hospitals and private practice. The disease is of a mild type compared with former years.

The Silk Smuggling.  
NEW YORK, 17.—The steamer Despatch, loaded by the government with silks and laces by subordinate officers, sailed to-night, the steamship Spain, of the same line, having been substituted in her place.  
Spain will satisfy any U. S. Complaints.  
WASHINGTON, 17.—The Spanish Minister Mantilla officially assures the acting Secretary of State that the government of Spain is disposed to satisfy any complaints which the United States may desire to make in regard to the cases of the *Blowing Sun* and *Ellen Espino*, even when they are formulated, and to prevent further any cause for similar ones arising. It appears the acts complained of were committed by the same officer, a subaltern of

the rank equivalent to that of coxswain in our navy.  
Workingmen's Party Organized.  
CUMBERLAND, Md., 17.—The workingmen's party organized today. A platform was adopted opposing the national bank system and advocating the issue of all money by the general government; opposing legislation and unequal taxation; favoring legislation making paper money of equal value with specie; favoring tariff to protect domestic industries.

WESTERN.

The Chinese Commission.  
SAN FRANCISCO, 17.—The senatorial committee appointed to inquire into the Chinese question, have embodied information obtained on the subject in a memorial to Congress, which was to be presented to Governor Irwin to-day. It is understood that the memorial takes strong grounds against Chinese immigration, and suggests a remedy which it is hoped will obviate further trouble on that account.

FOREIGN.

GREAT BRITAIN.  
Eastern War News.  
LONDON, 17.—Two iron clads, with 2,600 men, are about to leave Constantinople for Crete. It is believed that Midhat or Server Pasha will be appointed Ottoman ambassador to Vienna. Midhat Pasha has lately been proposed for the Paris ambassadorship, but does not wish to take the post. Seven thousand four hundred Turkish prisoners have passed through Roumania. Bismarck is expected in Berlin next week for a conference with the Emperor.

The railways from St. Petersburg to Kischeneff are now carrying 12,000 men daily. One of the piers of the railway bridge at Barboechi has given way, causing great delay. It is reported that Prince Hassan, is in Dobruza, marching rapidly with his Egyptian Troops with the object of cutting off the communications of the Russians with Bessarabia. Simultaneously, eight Turkish steamers have received orders to disembark a force north of the Danube mouths with the same object.

The Montenegrin outposts report that a Turkish army, twelve battalions of regulars and several thousand irregulars, have begun a movement on Drobnjak. The Montenegrin force, utterly inadequate to oppose them, will fall back for the protection of the inhabitants, until reinforcements arrive. Every detail of preparations how the Russians have made up their minds for a long war, and are preparing great depots of firewood. The Roumanian government is also asking tenders for the supply of great quantities and quantities of stores. A rain of less than twelve hours duration rendered the roads at Sistova, over which the Russian supplies are transported, a sea of mud, with gaping holes at frequent intervals. It will require a long time for the Russians even to maintain their armies between the Balkans and the Danube when the summer weather breaks up.

TO-DAY'S DISPATCHES.

EASTERN.  
Workingmen's Union.  
COLUMBUS, O., 18.—The Central Ohio Executive Committee of the Workingmen's Industrial Union have issued an address, setting forth the platform of their principles, and recommending that conventions be held in the several counties to nominate county officers and establish industrial union clubs in every township and voting precinct, and that they select one delegate to the State convention to be held in this city September 13th, to adopt a platform and nominate State officers.

Steamer blown up.  
FORTRESS MONROE, Va., 18.—The steam tug *Mat White* blew up on James River, this morning. The captain, engineer and one fireman are missing.

Knights of Pythias.  
CLEVELAND, O., 18.—The Supreme Lodge of the Knights of Pythias adjourned last night, to meet in Indianapolis on the fourth Tuesday of August, 1878.

Considering an Epileptic Patient.  
NEW YORK, 18.—There is considerable excitement in the suburbs because Col. Smith, son-in-law of Horace Greeley, recently cowhided a man at Chappaqua, who proved to be an epileptic patient and irresponsible. Col. Smith, it seems, has apologized, not knowing the state of his opponent's health.

W. H. Vanderbilt's \$100,000 gift.  
Isaac P. Chambers, general auditor of the New York Central and Hudson River Railroad, has just completed the appointment of \$100,000 given by Wm. H. Vanderbilt to the employees of the road. Of the 11,000 men on the rolls, 8,904 will get: passenger conductors, \$20; train baggage men, \$10; brakemen, \$8; freight conductors, \$15; engine men, \$30; firemen, \$15; flagmen, \$8; switchmen, \$8; laborers and watchmen, \$7; mechanics, \$14; foremen, \$16; track foremen, \$11; all others \$9 each.

Mexican Outlaws.  
The Herald, editorially, our correspondent at San Antonio telegraphs that Gen. Benavides has captured three of the eight outlaws who recently broke open the jail at Rio Grande City, and hopes to get the others. He also telegraphs that one of the jail breakers only five were residents of Mexico, and two were Texans. This shows, what we supposed, that the break-open of the jail was the plot of the criminals to help some of the confederates, and was not blameable on the Mexicans as such.

Partial Shooting Affair.  
Thomas Harding, aged forty-five years, shot his housekeeper, Mrs. Woods, aged twenty-six, at his residence on 10th Street this morning, and then put her pistol to his own head and fired twice. He died instantly. Mrs. Woods's wound is thought to be fatal.

The Russo-Turkish War and British Interests.  
The Times London special says, the attempt to create a feeling against Russia by the publication of Layard's correspondence, has failed, because it comes at a time when the people are satisfied with atrocities, and when the Russians are crippled by the Russian revolution. The military situation permits no immediate apprehension as to the effect upon British interests of the success of the Russian schemes. The compromise party is growing rapidly, and the demands of European diplomacy will be brought to bear on the belligerents to conclude peace upon the basis of the autonomy of the Christian provinces of Eastern Turkey, and neutralizing the Dardanelles. It is feared that the Turks are too elated and the Russians too enraged to listen to the suggestion. The defensive policy of the Turks is based upon a desperate reliance on the Russian winter, when sickness and the difficulty of procuring supplies will injure the Russians more than the loss of several great battles, and the
