NOT OF SCOTCH DESCENT. The Late President Heber C. Kimball's

Genealogy Submitted by His Son.

Salt Lake City, Utah, June 19, 1901. To the Editor:

In a recent Saturday issue of the 'News" is found the following paragraph, which was taken from Bishop iltney's Life of Heber C. Kimball: The Kimballs were of Scotch descent. Their ancient name, it is believed, beng Campbell, Heber's grandfather and a brother came from England in time to assist in gaining the independence of the colonies." This is a mistaken idea that has crept into our father's history through the force of circumstances, one that I will endeavor

The Kimballs were not of Scotch descent, and their ancient name is not believed to be Campbell. Neither did Heber's grandfather and brother come from England in time to assist in gaining the independence of the colonies This erroneous idea was brought about in the following manner: When our father, Heber C. Kimball, joined the 'Mormon' Church in 1832, those of his elatives who were in possession of his records, became so embittered towards him on this account, that he was unable thereafter to get access to them, and consequently could not find out who his grandfather Kimball was, In later years he became very desirous of ascertaining these facts, and en-gaged Colonel Kane and our brother lliam II, to take the matter in hand. with a very limited knowledge genealogical work, undertook the task, and in a few months traced the name Kimball to Scotland, and conected with a family by the name of Campbell. They reported these facts to our father, and convinced him that

such was the case; and this idea has prevailed in our family ever since. Prof. S. P. Sharples, of Boston, Mass., whose wife is a Kimball, and Prof. L. A. Morrison, of Windham, New Hampshire, (whose mother was a Kimball, also), both expert genealogists, pub-lished in 1597 a genealogical history of the Kimball family of America in two volumes, comprising 1,300 pages, and finely illustrated. Many thousands of dollars were spent in bringing this work forth, and upwards of ien years lime was consumed in compiling it. is considered to be one of the mon perfect works of this kind that perfect works has been published in the United It establishes the fact that States. Kimball is strictly an English name and that every Kimball in the United States, and Conada, are descendants of and Henry Kimball, brothers who came to America in 1631 on the ship Elizabeth. Prof. Morrison went to England and visited many of the old Kimball homes there. ing those in the parishes of Rattlesdon, Hitcham, Groton, Boxford, Bildeston and Persham, all of Suffolk county, and traced the line of descent as far and traced the line of descent as far back as 1460. At that time the name was spelled Keymboulde and a hundred years later Kembould. In 1600 it was Kemball and is spelled that way in England today. Soon after Richard and Henry emigrated to America, they spelled their name Kimball, as it is spelled now. Heber C. Kimball's line of descent Price, 50 cents. Z. C. M. I.

This Richard had Benjamine, born 1637; he had David, born 1671; he had Jeremiah, born 1707; he had James, born 1736, and he had Solomon F., who was the father of Heber C. corrected.. The Kimballs of America and the Kemballs of England, are rais. ing a fund to enable Prof. Sharples to continue his genealogical research into England, and he will trace the ancestors of the Kimball family as far back as it is possible to go. The Kimball Family News, which is

published in the United States, is doing a good work in comenting the family together and keeping them posted on all Kimball family affairs, Many prominent English families are

becoming interested in the work, among them being Major-General J. S. Kem-ball of the British army, and his brother Charles Gurdon, who have recently hunted up the ancestry of their family and have traced it to Hitcham, Suffolk county, which is close to the town where Richard and Henry Kimball came from, before emigrating to America.

Cholera Morbus a Dangerous Disease. In many instances attacks of cholera morbus terminate fatally before medicine can be procured or a physician summoned. The safe way is to keep at hand a reliable medicine for use in such cases. For this purpose there is nothing so sure as Chamberlain's Colle, Tholera and Diarrhoea Remedy, W. E. Bosworth, of LaFayette, Ala., says: In June, 1900, I had a serious attack of choiera morbus and one dose of Chamberiain's Collc, Choiera and Diarrhoea Remedy gave me relief in fifteen minutes."

nd due to the influence of the Holy Spirit. The speaker once heard an eminent historian deliver a lecture in the State of Montana, The latter was an enthusiast over the Sabbath day question and had made close investiga-tion of that subject. That man assert-ed that a very small percentage of people who observed the Sabbath went

After reading from the epistle of Paul to Timothy wherein the Apostle says that in the last days perilous times shall come, etc., the speaker sald that the judgments of God do not come upon the earth to please the Elders The Elders are not pleased with the calamities that are visited upon the people. If the people remain wicked and the judgments of God come upon them, the Elders cannot help it. the city of Jacksonville, Florida was almost destroyed by fire, after the peo-ple of that city had been warned by Elders whom they had maitreated, and they were told if they did not repent the judgments of God would com upon them, the Elders could not help The same in regard to Galves-It was the Spirit of God ton. prompted the Elders to speak those words, and as sure as He lives His judgments will continue to befall the wicked.

The speaker went on to describe the poverty-like condition of the people who inhabit the former homes of the Saints in Ohio and Illinois. "Whe God fearing people are divested of their homes and driven out by mobperacy, in a land of liberty, I want to tell you that God has a controversy with the people that formed that mob." A Catholic priest who is living in the home formerly owned by Apostle Parley P. Pratt at Nauvoo testified to the speaker that if the "Mormon" people had remained there the city would have had over a million inhabitanis. Elder Cowley went on to testify that the Latter-day Saints are not the scum of the earth, that they are composed of some of the best people om all nations. The manner in which the Elders go out to preach the Gospel without hire, was explained in a lucid manner. Some people complain that the methods of the Elders are so simple and they appear so unlearned that highly respectable people do not feel like remaining to hear them. But no matter how eloquent an Elder is or argumentative the only thing that can properly convert the people is the spirit of God. Before a man can be an effect-ual preacher of the Gospel he must be born of the water and the spirit. There distinction between the Spirit Christ that lighteth every man that is born into the world and the gift of the Holy Ghost. When people are con-verted to the Gospel it is by the spirit f God and not the eloquence of mi There are tens of thousands of people in this land who feel that there is a upernatural force connected with 'Mormonism'' but they do not attribute God, nor do they believe Joseph Smith was a prophet of God. These people are trying with determined sincerity to keep the Elders from reaching the ears of the people. Yet all people have the opportunity of stibracing the Gospel and testing its truths for themselves, and although th Elders of Israel are simple in their ways their testimonies are not made nil by their simplicity and the judg-ments of the Lord will come upon the people as sure as He lives for He has spoken it. Elder Cowley warned the people against the sin of Sabbath breaking, indolence and inordinate pleasure seeking. The time will soon

ome when the Saints will have to obey a higher law than tithing, the law of consecration. The land of Zion will consecration. come into the hands of the Saints: the ten tribes of Israel will come from the north country and the Lamanites will embrace the Gospel with a mighty Gospel with a mighty shout that will rend the earth. The speaker then read a passage from the

Doctrine and Covenants relating to the return of the ten tribes, and their overcoming of their enemies. Aposite lowley concluded by bearing his tes-
