CONGRESSIONAL.

SENATE.

Sumner presented a memorial, asking for the adoption of a motion, by which all questions may be decided without the arbitrament of the sword, and urging that, in the points at issue between Great Britain and the United States, every effort be made to avert war between the two countries. Under the rule of the Senate prohibiting general business the memorial, instead of being referred to a committee, was laid on the table.

Sumner offered the following:

"Whereas it is represented that Frederick Douglass and his son were excluded from the common privilege of travelers on the mail steamer between Aquia Creek and Washington on account of their color, therefore be it resolved that the committee of the District of Columbia are hereby instructed to inquire into the facts of this case, and prevent a repetition of such treatment on account of color." The vice-president stated that the resolution, not being one of inquiry, was inhibited under the rule limiting business, and could not be received without unanimous consent. Bayard objected and the resolution was not received.

Kellogg asked unanimous consent to introduce a resolution directing the committee on foreign relations to inquire into and report, at the next session of Congress, whether the Territory of Lower California and the Mexican States of Sonora and Chihuahua, or either of them would be a desirable acquisition to the United States. Sherman objected.

Upon the expiration of the morning hour the Senate resumed consideration of the unfinished business of yesterday, being the resolution of Sumner on San Domingo. Howe continued his reply to Sumner's indictment of the President.

HOUSE.

Shallabarger, from the select committee on the President's message, reported a bill to enforce the Proclamation of the 14th Amendment to the Constitution of the U. S., and for other purposes; it was done and the debate ensued.

WASHINGTON, D. C.

Excursion of the High Commission and Cabinet—Indignity to Fred. Douglass.

WASHINGTON.—All the members of the Cabinet, Secretary Delano and the Attorney General accompanied the Joint High Commission on a trip to Mount Vernon this morning, there was consequently no Cabinet meeting today.

The San Domingo commission were all at the Executive Mansion to-day, and had a consultation with the President.

General Spiller, who has been seriously ill, is somewhat better to-day.

Senator Wade, of the San Domingo Commission, is quite ill of the palsy.

The report of the Commission is still incomplete and assigned, but all points have been decided and it will be submitted to the President within a day or two.

While the Commission was coming up on the Aquia Creek steamer yesterday, Fred. Douglass was detained at a seat at the dinner table by the officer of the boat on account of his color. The commissioners indignantly left the table.

CALIFORNIA.

Jury Filled—Change in the Grand Jury—Important Cases—San Francisco.

SAN FRANCISCO, 28.—In the San Francisco murder case the jury was completed at seven at 11 a. m.

Judge Rising, of Virginia City, Nevada, yesterday, charged the Grand Jury to inquire into the facts of the hanging of Arthur T. Hoffman by the vigilantes, and to indict all parties concerned with the organization for murder.

The Daily Enterprise, this morning,

In a leader, justifies the action of the vigilantes, and advises the jury to find no indictments, and probably none will be found.

The sale of the California Steam Navigation Co.'s property, to the California and Pacific R. R., includes eleven side-wheel and thirteen stern-wheel steamers, forty barges, and twenty wharves and depots in various parts of the State.

The first mortgage of the Southern Pacific road of California, for \$25,000,000 to D. O. Mills, and P. C. Calhoun of New York, secured by bonds at six per cent, paid semi-annually in New York, and payable in 1901, was recorded to-day. It recites that the company proposes to build the road through the counties of San Francisco, San Mateo, Santa Clara, Monterey, Fresno, Tulare, Kern, Bernardino and San Diego, to the Colorado river, seven hundred and twenty miles.

NEW YORK.

Fenian amusements—Stocks—What the "Times" intends—Another report about annexation.

New York.—The Tribune's Washington special says a rumor is current that the administration has decided to drop the San Domingo business for the sake of harmonizing the party. An inference is drawn from the remarks of Morton in the Senate yesterday, that if the Fenian report is correct, it is favorable to annexation, he should favor the abandonment of the project. This declaration is thought significant in view of the fact that correspondents with the commission all announce the report as unanimously in favor of annexation. Another correspondent says it seems to be the general opinion of the commissioners that annexation is certain to result. The report is that the commissioners in their visit to that portion of the island. The impression is that the report of the Commissioners, when presented to Congress, will be really more unfavorable than otherwise to annexation.

Geo. Jones, the publisher of the Daily Times, publishes a card emphatically denying that he has offered to sell the "ring" to the management, and that he will sell under no circumstances and at no price, until the Times' war against the "ring" shall have secured a honest city government. In the meantime, if by New York corrupt judicial proceedings, be such as to practically confiscate the property of foreign holders of the Erie bonds, and the Times could be purchased and tied up by a receivership, so as to silence its assaults upon the "ring," he pledges himself, associates and staff to immediately establish another journal which, with the public would still be the Times, even though under a new name. A majority of the Times stock is known to be in the hands of Jones and certain partners who have bound themselves, under a heavy penalty, not to sell a share to outside parties; it is rumored however that a small minority interest may be controlled by the enemies of the management, and used as a pretext to ask for a receivership and thus place the concern under the control of some friend of Judge Barnard or Cardozo, this course having been threatened unless the Times shall cease its attacks on the local government and judiciary.

New York, 28.—The Fenian convention adjourned yesterday. The new elected commissioners will convene as soon as possible, when they will enter upon their duties by the election of chairmen of the finance, judiciary and executive committees, who will be executive heads of the brotherhood. Opposition to Canada, and awaiting England's becoming involved in war, are the controlling points of the future of the brotherhood.

There was a snow storm yesterday throughout the New England States. In some parts of Massachusetts six inches of snow.
