I am about to impart to you, gentle render, in confidence, a misfortune of an unusual character, an accident which will make you smile as it fell to my lot, but would have made you laugh on the other side of your mouth if you had yourself been its victim.

There is a certain journal in circulation, dedicated expressly to the theatres and the movements of the stage, the columns of which are filled with theatrical advertisements, and the dramatis persons of each representation. There was much wisdom in the observation of M. Vantour—'when a man finds that he can't pay his rent, he ought to live in his own bousehold.' Whether the journal was, or was not able to pay its printer, I cannot take upon me to decide; but, at all events, it purchased a printing office, but a second-hand affair, made upof the sweepings and refuse of other offices—the press was asthmatic from age and exhaustion—the type were worn out and brakon—fix without a cross, c's without a hoad, and a mass of shapeless, ctippted, and incomplete hieroglyphics.

One of these mornings, as the principal editor was

head, and a mass of shapeless, crippled, and incomplete hieroglyphics.

One of these mornings, as the principal editor was bustly occupied in the important duty of preparing his copy, the foreman made his appearance, pale, we begone, and big with some mysterious and awfol secret. Requesting a private conference, he addressed his principal to this effect:—

"We shall not be able to get the paper out to day, sir. There are some infernal scoundreds in the world!"

"What is the matter now, pray?"

"A parcel of worthless secure."

"What do you mean?"

"Thieves."

'What do you mean?'
'Thieves.'
'Where are you driving?'
'People without dolicacy, honor, or principle?'
'How now?'
'Enemies of the press.'
'Good heaven! what is the matter?'
'I conoclasts of thought, vandals who set their faces against the march of mad '
