

## EXTRA FREIGHT CREW HELD RESPONSIBLE

For Accident on the Missouri Pacific in Which Twenty-Nine Lives Were Lost.

## ASLEEP ON THE POST OF DUTY.

Train Dispatcher Ordered Out Wrecking Crews Before the Collision Happened.

Warrensburg, Mo., Oct. 11.—The evidence before the coroner's jury, which is investigating the Missouri Pacific collision near here yesterday, when 29 lives were lost and over 50 persons injured, tends to fix the responsibility on the freight crew, three of whom went to sleep and failed to know that the ill-fated passenger had not gone by before they started out from Mount Serrano. The examination of W. W. McFarland, the train dispatcher, showed that the fact that the train dispatcher at Sedalia ordered out wrecking crews, section men and doctors before the two trains came together. The crew of the extra freight is held responsible for this disaster by the coroner's jury, which returned a verdict tonight. The verdict charges the crew with disobeying orders and with sleeping at their post of duty. No recommendation was made as to the punishment of the crew.

## ROBBED DEAD COMRADE.

## BARBAROUS SUPERSTITION.

Causes West Indian Negroes to Murder a White Child.

Kingston, St. Vincent, Oct. 11.—Barbarous superstition which prevails among a portion of the population of West Indian islands is the cause of a ghastly and extraordinary crime which has come to light in the island of St. Vincent. The finding of the heart and hands of a white child in the possession of an old negro sorcerer, led to the discovery that the child had been murdered and the body mutilated in order that the superstitious natives might through possession of portions of the body be able to work spells.

## Saloon Held Up.

Bellingham, Wash., Oct. 11.—A special to the Herald tells of a hold-up at the small town of Bow, in Skagit county. Sunday night, in which a masked highwayman entered the saloon and held up with two big revolvers, held the bartender and three other men at bay. The bartender could not open the safe, and the robber departed after having secured only \$7.50. He left no trace of his identity.

## JUST IN TIME.

A motorman in Chicago ran his car onto the approach of an open bridge but stopped it with the fender actually overhanging the gulf below. He wouldn't wait to repeat the experiment because the chances are that he'd never again have the same good fortune.

Once in a while some one who has traveled to the very edge of the danger line of stomach disease stops just in time to save his health. But the majority of people go across the line, and slight symptoms of indigestion grow to disease of the stomach, involving the other organs of digestion and nutrition. Indigestion and other forms of stomach "trouble" are perfectly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery. It lengthens the whole body by enabling the perfect digestion and assimilation of food.

**\$3,000 FORFEIT** will be paid by the World's Dispensary Medical Association, Proprietors, Buffalo, N. Y., if they cannot show the original signature of the individual volunteering the testimonial below, and also of the writers of every testimonial among the thousands which they are constantly publishing, thus proving their genuineness.

"I have been suffering for about eight years," writes Mrs. H. Pierce, of Millington, Ky. "I have had considerable trouble with indigestion, weakness and other stomach trouble, but received no relief. When I wrote you for advice I was hardly able to work, and you advised me what to do. I took nine bottles of your Golden Medical Discovery, four of 'Favorite Prescription,' also two of the 'Pellies.' Dr. Pierce's medicines will do all that you claim for them. Believe I would have been in my grave if I had not taken them."

The concluding address of the day was delivered by Rev. James G. Gregg, D. D., of Colorado Springs, Colo., and related to the indebtedness of the American Board of Western Colleges.

## ROMANCE OF WAR.

Former Foes Now Study Side By Side.

Chicago, Oct. 12.—That two students of the University of Chicago, at present working together in amity, were formerly pitted against each other in battle, is the discovery made by John B. Keane, formerly an American soldier and Frederico Sarabia, a native Filipino, both of whom are working their way through college.

In the early part of 1899 Keane was a member of Young's sons. Sarabia at the time was a sergeant in the First Manila regiment, which formed a part of the first division—"Aguinaldo's own"—under command of the Filipino Gen. Pinar.

The forces of which the men were members met in conflict at the battle of Manila, San Isidro and Tarbou bridge, in each of which the Manila regulars were defeated.

## PRIVATE CAR TRAFFIC.

Plea Set up That Concern is Not a Common Carrier.

Chicago, Oct. 11.—Attorney Levy Mayer, representing Street's Western Car line, made an unexpected move in the inquiry of the interstate commerce commission today regarding private car traffic. He set up the contention that the car concern was not a common carrier, and that its officers need not divulge its methods of business. Commissioners Clements, Yeomans and Prouty, who presided, took the matter under advisement.

John Leverone, a Cincinnati fruit merchant, testified before the inquirers that Armour & Co. sold pineapples in Cincinnati at prices which could not possibly be made by competitors on order to produce dealers into using the Armour refrigerator cars. Leverone declared that Armour & Co. not only charged fruit shippers arbitrarily high prices for the use of their cars, but through arrangements with fruit carrying lines like the Louisville & Nashville, practically compelled consignees to use the Armour cars. Then, having forced dealers to hold their goods at high prices to cover excessive transportation costs, the Armour cars in the bait, he averred, of turning about and underselling dealers to a degree that debars the latter from doing business in any particular line of goods.

J. S. Leeds, manager of the Santa Fe fruit dispatch, was one of the principal witnesses of the afternoon session. "Did you ever give shippers rebates?" was asked Mr. Leeds.

"Well, in northern California we gave the shippers a remittance of \$25 on each car," said the witness. "We had to do it to compete with the Armour line."

## Eight-Hour Law Void.

Milwaukee, Wis., Oct. 11.—Judge Haley, in the circuit court of Milwaukee, handed down an opinion in which he declares that the eight-hour law, as applied to the city contracts, is illegal. The case is one in which the city advertised for bids on a city contract specifying that the contractor was to be on a basis of the eight-hour workday. The contract was awarded to an Ohio firm, where the eight-hour law was in force, in preference to a Milwaukee firm whose price was lower, but whose workday exceeded eight hours.

Judge Haley declares that the city charter provides for contracts being let to the lowest bidder. The case will be appealed.

## LONG COURTSHIP RECOMMENDED.

Should be Extended Enough to Test the Quality of Love.

## SAYS REPORT ON MARRIAGE.

Rock River Conference Committee Maintains a Contract Should be "Until Death Doth Part."

Chicago, Oct. 12.—After prolonged discussions, lasting nearly a week, the report of the committee on marriage and divorce was presented at the last moment at the closing session of the sixty-fifth Rock River conference of the Methodist Episcopal church at the Evanston avenue church last night.

The report recommended a long courtship—long enough to test the quality of love. The importance of the permanence of the marriage (it was emphasized as having a direct bearing on human development. The committee was unanimous in maintaining that a marriage was contracted "until death doth part." The bond was declared to be indissoluble and never to be entered into irretrievably or unadvisedly.

The principal contention that divided the committee was upon the question of recognizing as a candidate for second marriage the innocent party to a divorce decree. The decision was a compromise. A resolution was adopted to the effect that legislation ought to be adopted for the purpose of prohibiting the remarriage of the guilty party during the life time of the innocent party to the contention.

Stamping divorce as a species of selfishness the report condemned the "free lover" who "39 times out of 100 seeks divorce that he may have more marriages."

The proper conception of matrimony was declared to be the basis of a pure and anticipatory life, as well as the best deterrent from evil.

The conference voted to join with other churches in an attempt to secure the enactment of uniform divorce laws in every state.

## PROPOSED NEW CANON ON MARRIAGE AND DIVORCE.

Boston, Oct. 11.—The proposed new canon on marriage and divorce was on the order paper for discussion when the tri-annual general conference of the Episcopal church resumed its sessions today.

The archbishop of Canterbury, who will leave Boston tomorrow, appeared at the convention for the last time. At the conference by the woman's auxiliary on "The Training of Missionaries," Bishop William Hobart Hare of South Dakota made an address.

In the house of deputies a discussion occurred as to whether the term "in the United States" meant that territory between the Atlantic and Pacific or included the insular possessions as well. The dispute report was finally referred to the committee on constitutional amendments.

The committee on canons, in charge of the proposed new canon on marriage and divorce submitted a lengthy report through its chairman, Rev. D. P. Davenport of Memphis, Tenn. This present canon on the question permits the re-marriage of the innocent person in a divorce case wherein a decree was issued by the civil courts on the ground of infidelity. There has been considerable dissatisfaction over this canon, many clergymen favoring a law to prevent the re-marriage of any divorced person while the former partner is living.

The majority of the committee appointed at the convention to report on the subject favored this idea. They recommended the following amendments:

"If any minister of this church shall have reasonable cause to doubt whether a person desirous of being admitted to holy baptism or to confirmation or to the holy communion has been married, otherwise than as the word of God and discipline of this church allow, such minister, before receiving such person to these ordinances, shall give judgment thereupon; provided, however, that no minister shall, in any case, refuse the sacraments to a penitent person in immediate danger of death, nor any person who shall solemnly aver that he or she is the innocent party in a divorce for the cause of adultery."

"No minister shall solemnize a marriage between any two persons unless, by inquiry, he shall have satisfied himself that neither person has been or is the husband or the wife of any other person then living, from whom he or she has been divorced for any cause arising after marriage."

"If any question shall arise under this canon in a diocese or episcopate jurisdiction in which there is no bishop, such questions shall be referred to some bishop to be designated by the standing committee and the bishop to whom such questions have been referred shall thereupon make inquiry in such manner as he shall deem expedient and shall deliver his judgment in the premises."

The report was signed by Chairman Davenport, Rev. Dr. J. Eccles of Baltimore; Rev. Dr. John Fulton of Philadelphia; Rev. Dr. George M. Fiske of Providence; L. B. Lyman of Chicago; W. H. Lightner of Minnesota; F. L. Stetson of New York; Charles G. Saunders of Boston; C. H. Stanley of Washington; and F. A. Lewis of Washington.

A minority report signed by Dr. J. Lewis Parks of New York, Rev. Henry S. Nasto of Cambridge, Mass., and R. H. Battle, was presented as follows:

"Questions touching the fact of any case arising under this canon shall be determined by the record of the civil court which adjudged or decreed the divorce, a copy of which, under the seal of said court, shall be furnished the minister requested to solemnize the marriage."

The effect of the minority report, if adopted, would be to leave unchanged that part of the old canon permitting marriage of the innocent party in a case of infidelity. The minority, however, desired to provide for greater safeguards in the shape of civil court testimony, when "innocent persons" who have been divorced desire to be re-married.

After the presentation of both reports a discussion ensued as to the method of procedure. After some debate it was voted to consider the proposed amendment prohibiting the re-marriage of divorced persons. The fight against the amendment was opened by Rev. Dr. Parks of New York.

Company Commanders Make Complaint of Their Practice, Especially in San Francisco.

Washington, Oct. 11.—Brig-Gen. F. S. Rodge, paymaster general of the army, in his annual report recommends legislation, if possible, to the end that soldiers' deposit books should not be sold, pledged, assigned or transferred except after a discharge and when accompanied by the soldier's final statement and that such disposition should be made a military offense for which the soldier may be retained in the service for trial. He recommends that the retention of a soldier's deposit book by any person as security for a loan to the soldier during the period of his service shall work a forfeiture of such deposits. The paymaster general said:

"Much complaint has been made by company commanders of the practice of money lenders, especially in San Francisco, who it is believed not only loan on the security of their deposit books, but file in wait for them when discharged, especially to confiscate or extort a large percentage of what is due them from the government. The evil is a crying one, and clearly akin to that which exists in any large resort, where seasons are stripped of their hard earnings by boarding house runners and touts. If the deposit book can be made without value in case of such use it will be of benefit to the service as well as to the soldier."

An increase in the allowance for commutation for quarters of officers is recommended. "A major general's
