# MINING, BUSINESS AND STOCKS

# OPTION GIVEN ON THE CARISA

Control of Tintic Property Tied Up on the Basis of Forty-Five Cents a Share.

#### FIRST PAYMENT COMES IN JULY

The Last One in October-Local Attorneys Represent Eastern Clients in Transaction.

On a basis of \$225,000 for the property, it was learned from a trustworthy source today that an option has been given on a control of the stock of the Carlsa Mining company, which is being operated in the Tintic mining district under the management of Harry S. Joseph. Any more than that the document has been executed in favor of Frick, Edwards & Emith, the well known attorneys, nothing has been given out bearing on the identity of the parties who hold the money bag. The attorneys only represent a client in the transaction. Nevertheless, the

in the transaction. Nevertheless, the terms of the option are known and provide for an initial payment of 5 cents a share on July 10; 15 cents a share in August and the balance, or 15 cents a share in October, or a total of 45 cents a share.

The Carisa mine has been subjected to examination by a number of experts during the past few months. Some of them have represented the American Smelting and Refining company, others F. Augustus Heinze, while still others have been there who are said to be connected with the Lewishons of New York. It is hardly probshons of New York. It is hardly probable, however, that the Lewishons would want to buy the Carisa and if the report that their men have examined the mine is true, the work was

The Carisa has shipped considerable ore in the past and some extensive bodies of mill stuff have been devel-

#### ON MINING EXCHANGE. Daly Judge Closed the Week in Good

Order-Today's Sales.

This week's sales on the floor of the Salt Lake Stock & Mining exchange amounted to the transfer of 207,902 shares of stocks for \$118,729.50, against 147,992 shares for \$26,657.90, during the corresponding period a week ago. There has not been a very heavy demand for the cheaper stocks this week and the sales of the higher priced ones have not been heavy. The Park Citys have been the most attractive and the week closes with Daly Judge recovering from a slight reaction. The company has all its bonded indebtedness cleared now and is in shape to prepare for divi-dends. A few shares of Daly West changed hands around \$16, while Thompson displayed considerable asstocks Lower Mammoth furnished the This stock has advanced on the strength of a copper strike on the lower levels which bears indications of

#### RETURNS FROM NEVADA. John Dern Greatly Impressed With Goldfield and Other Camps.

John Dern has returned from a pilgrimage to some of the scuthern Ne-vada camps. He visited Tonopah and had an opportunity, as a guest of Gen-eral Manager Kleth, to make an in-spection of the Tonopah Mining company's property, with which he was greatly impressed. He says the ore bodies are large and well defined, and that there is not the slightest doubt about the property having a very bril-

While in Goldfield, Mr. Dern went in-to the Mohawk mine, recently the scene of some good strikes. The Hayes and of some good strikes. The Hayes and Monette lease, he says, contains the largest exposed body of ore at the present time, but that several other leases are paying well. Hayes and Monette are shipping 125 tons a day; said to average three ounces in gold to The lowest level of the mine

Of the Goldfield district in general, Mr. Dern says he was very favorably taken up with it and declares that the present development of the mines there has taken it just the doubtful stages. He is of the opinion that the time will come when nealry all the ores produced in the camp will be reduced on the

to Silver Peak in an automobile with a party consisting of W. P. O'Meara, Thomas J. Lynch and Martin L. Effinger. With the latter he took a look at the old Blair mine, now in possession of the Pittsburg-Silver Peak Gold Mines company, one of the promotions of Mr. Effinger. The showing at the Blair property. Mr. Dern says, is very good in the deal, and he is of the opinion that it will become a gold producer of

He was unable to go over to the Val-cada property of the O'Mera-Lynch company, but was teld that a body of ore had been recently encountered there which contains overage gold values of The trip to Silver Peak, a distance of 45 miles was made from Tonopah in two and a half hours.

# WILL INSPECT UTAH MILLS.

T. S. Lewis, a Mexican Operator, Here To Study Ore Dressing Methods.

T. S. Lewis, mapager and director of the Crenguita Copper company, operating in the state of Sonora, Mexico, is a visitor in Salt Lake today, and before leaving will make an inspection of some of the Utah mines and reduction works. The company which Mr. Lewis represents contemplates the erection at an early date of a large concentrating plant. The visitor seems to have formed a very good opinion of Mexicans, with whom he has been associated in a business way for a number of years. has of course employed a great deal of Mexican labor and says he has found them to be a very law-abiding lot

"The troubles of miners in Mexico," said Mr. Lewis, "have their origin, not among the Americans primarily, but because of the deadly hatred existing between the Mexicans and the Yaquis Mexican has driven them off their reservations, and they have become desperate. All men are their enemies, in reach, because they are starving and must have food. My long connection with the Mexican people gives me a good opinion of them, and I have never known them to arong anyone who dealt bonestly with them." they think, and so attack all who com-

# WILL START WORK AGAIN.

Development work will be resumed on the Alta-Heckla property at Alta to-morrow. A party of shareholders con-sisting of J. H. Watson, F. L. Sheets, Brooker Lindsey and S. H. Lynch, will leave for camp tomorrow morning with a force of men.

A new shaft is to be sunk to open the contact vein, one shaft, down 60 feet, shows ore containing lead-silver

# LEAD ORE FROM MORGAN COUNTY

Carbonate Hill Mine is Marketing an Average of Forty Tons Every Two Days.

COPPER IN LOWER WORKINGS.

Manager Daugherty Advised That A Strike Has Been Made-Will Push Development.

The Carbonate Hill mine, near Peterson, Morgan county, has become a regular shipper to this market and the management is sending out ore on the basis of 40 tons every two days. Five four-horse teams are kept on the road | al days. every day to move the ore from the mine to the nearest shipping point on the Union Pacific.

Manager Matt Daugherty, who is in the city today to draw down the pro-ceeds from three cars which are at the smelters, states that the present shipping record can be kept up definitely and that he had been advised by the foreman of the mine that some good copper ore had begun to show in the lower workings, which goes to indicate that this metal will probably fig-ure conspicuously in the composition of the ore when more depth is attained. The ore now being marketed is of character greatly desired by the smel-ters to use as flux for the silicious

ores coming from Nevada camps. The lead valus run from 60 to 70 per cent and the fron from 30 to 23 per cent. The Carbonate Hill company is pre-paring to carry forward a very vigor-ous development campaign. The new ous development campaign. The new compressor plant will be installed short-ly and it is not improbable that an aerial tramway will be built to facili-tate the movement of ore.

#### TRAMWAY FOR FORTUNA.

Bingham Mine is Soon to be Equiped With Onc.

Manager Sidney Bamberger of the Fortuna mine at Bingham states that it has been decided to equip that Bingham property with a tramway. It is yet undecided whether the ground or aerial system will be used. Mr. Bamberger is rather in favor of using the former and employing electrical energy in the movement of cars. The proposed line will be about three-quarters of a mile in length and will connect the mine with the new line of the Rio Grande Western how being built in Bingham

## BIG OZOKERITE MINE.

Chicago Capitalists Operating Property Near Soldier Summit.

William Lowe and John A. Vorhees and associates are developing a great ozokerite property at a point about three miles west of Soldier Summit in Spanish Fark canyon, says the Price Advocate. Chicago capital is behind the proposition, which promises to attain considerable magnitude during the present year. The main workings are on the left side of the Rio Grande Western railroad coming east, about a quarter of a mile from the track.

The property has so far been devel-oped by a shaft which is down about 78 feet, but with the arrival of ma-chinery now on the way a tunnel will be driven on the main vein into the mountain 1,200 feet. There are two veins of two to three feet of milling ore, and the third one of 13 inches is mined and shipped in its natural state. Electrical machinery has been or-dered for a mill and it is the intention to have everything of the most mod-ern type in and around the workings. A saw mill is going in at once to get out mining timbers for the company's own use. The company has 1,500 acres of choice ground, and already patents for the same have been applied for.

John A. Vorhees, the manager in charge of the work, is from Colorado Springs, while William Lowe is an old these to High ground Springs will id-timer in Utah around Springville. A railroad station has been established

# MAY RESUME SOON.

Ozokerite.

company's ground, known as

From Goldfield Mr. Dern went over M. F. Murray is East to Consult With Gold Development Officials.

According to the Reaper of Richfield, Lorenzo Nielson, who has charge of the tunnel work for the Gold Development company, says that he expects to receive orders soon to resume opera-tions at the property in Bullion can-yon. Manager M. F. Murray left a few days ago for Philadelphia, presumably to consult with the officials of the company, and upon his return it is expected that another season's active work will be inaugurated.

Work was suspended on the property during the winter on account of deep snows, which made it impossible to work to advantage, and it has not been practicable to resume work since. The tunnel on the Gold Development

ground is equipped with an air pressor and drill, and when operations are resumed good progress made. This property is expected to respond in a very gratifying manner to another season's campaign.

# CONDITIONS ON THE COAST.

California Camps Still Suffering From Effects of Earthquake.

Mining conditions in California are not very satisfactory just new, and it may take a good many months to get them back to normal again. A San Francisco writer sizes up the situation pretty well in the following contribuion to the Engineering & Mining Jour-

While the disaster in San Francisso will not permanently retard the minfor the time being rather depressing. course the stoppage of operation and calling off of projected enterprises is temporary, but for the ilme the result is almost as bad as though it would prove permanent. Mine owners have become cautious pending the clearing of the financial situation. In some cases, work has been stopped, and in others forces reduced. Promoters, also, have been compelled to go slow.
But this partial stagnation will not last long. In various parts of the state the stage liens and hotels show the effect of the quiet times, few passengers are carried compared with the annual travat this time of the year, and hotels have little transient business in the mountain towns. Only mining machinery and supplies actually needed are being ordered at the old mines, and few ow mining enterprises are being startfrom San Francisco for these purposes is now needed in the city for the re-building of the business and residence districts, the baying of stocks of goods and the returnishing of homes. A large share of the mines on this coast are

owned in full or in part by citizene of

# for mining supplies. Therefore when money is scarce here it is apt to be in the mines of both California and Nevada. The regular producing mines are, of course, all right; but those in course of development or needing equipment will have to wait until the financial situation gets in better shape."

#### TINTIC ORE SHIPMENTS.

# GOV. HOCK'S APPEAL.

Wants Eight Thousand Harvest Hands For Kansas.

Topeka Kan, June 23.—Gov. E. W. Hoch sent the following dispatch to W. J. Black, traffic manager of the Santa Fe Railway company, at Chicago, today, also to E. S. MacLoud, chairman of the Western Passenger association vs. Chicago. association at Chicago: "Ransas must have 8,000 harvest "Kansas must have 8,000 harvest hands within a week or much grain will be lost. Help MacLoud to get cheap rates. I apepal for help."

Up to 2 o'clock no word had been rescribed in grayers.

# IN THE MARKET

Prices Opened Lower While Volume of Dealings Was Rather Small.

DECLINES ORDER OF THE DAY.

Attempt to Rally on Bank Statement Didn't Succeed-Closing Weak At Lowest.

New York. June 21 .- Opening prices in the stock market today were lower than last night and succeeding transactions exded the declines. Anaconda dropped 17s. Reading 17s. Pennsylvania, Union Pacific, St. Paul and Brooklyn Transit about a point, and Northern Pacific and Amalgamated Copper large fractions. The volume of dealings was moderate.

Partial recoveries running to a point in Reading resulted from the demand of the short interest. Business which had at no rime been large, became generally smaller on the recovery. The market their smaller on the recovery. The market then declined again with several new weak spots uncovered Union Pacific, Pennsylvania, Colorado Fuel and Brooklyn Transit fell lig. Amaigamated Copper 1%, and Southern Pacific, the United States Steel steeks, Smelting and Interborough Metropolitan preferred 1, Great Northern preferred, after a temporary gain of 1%, fell to below last night. Consondated Gas improved.

to below last night. Consolidated Gas improved.

There was some rally in anticipation of the favorable bank statement in which B. & O. rose I above last night, and Pacific Mail also rose I. Attempts were made to realize by selling on the bank statement and prices yielded weakly to a lower level than before. Anaconda dropped 5%, Wells-Fargo 4. Amalgamated Copper 1%, Brooklyn Transit 3, Smelting Ps. International Pump and Reading 2%, Colorado Fuel and Union Pacific 2, St. Pani and L. & N. 1%, Southern Pacific 28, Pani and L. & N. 1%, and Atchrson, Illinois Central, Northern Pacific, American Car, American Locomolive Interborough Metropolitan and some others a point. The closing was weak at the lowest.

### ST. LOUIS MERCHANTS MAY BE SUED FOR TAKING REBATES

Kansas City, June 23.—Proceedings may be brought against the shoe and drygoods merchants of St. Louis, Omaha, and Kansas City on a charge of eccepting rebates from railways se-cured for them by George L. Thomas, the New York freight broker, who, with his chief cierk, L. B. Taggart, in the federal court here yesterday, were fined and given a penitentiary sentence.

A. S. Van Valkenburgh, the district atterney, intimated that the matter

probably would be brought to the attention of the grand jury next fall.

Judge C. M. Spencer, general solicitor for the Burlington, said today of the statement credited yesterday to Atty.Gen. Moody at Washington in discussions the Arman City contribution.

ng the Kansas City convictions:
"If the statement of the attorneygeneral is true it will be very embar-rassing to try future cases of this kind n Missouri and have the judgment ren dered by the attorney-general. I refer particularly to the attorney-general's statement that 'after giving it careful consideration, I concluded that the extent of the discriminations practised showed that it was a case where the sentence of imprisonment was especially destrable, and I directed the district attorney to urge on the court, in case of their conviction, the desirability of

Mr. Thomas and Mr. Taggart left today for their homes in New York.

#### WILL PROTECT CHINESE.

San Francisco, June 23.—The Oak-land and San Francisco branches of the Chinese society at Chew Hung Tong held a meeting in Oakland last Thursday, and decide to take steps to protect their members who were in and suffered loss by fire in the city, from infair treatment at the hands of the

nsurance companies. The Chew Hung tong is the largest Chinese secret society in the world, and 100,000 Chinese in this country constitute part of its membership. It is credited with far-reaching information in all parts of the world. In proceeding to the appropriate to the appropriate and his procession to the appropriate to the appropriate the control of the propriate to the appropriate the control of the propriate to the appropriate to the appro non in all parts of the world. In pro-portion to their number and business, they represented before the fire, it is said the Chinese carried in the aggre-gate more insurance than any nation-ality in San Francisco. Their losses amount to several millions of dollars.

#### BRICKLAYERS STRIKE. Salinas, Cal., June 22 .- The bricklay-

ers employed in making repairs on the Sifreckles sugar factory, four miles from here, have struck, owing to the manager reducing their wages from \$1 to \$6 a day. The men claim that they can get \$7 anywhere,

# CONFESSED TO MURDER.

John Eickhoff Says He Killed a Boy In Mistake for a Man.

Sheridan, Wyo., June 23 .- John Elckhoff, an employe of the Burlington railroad, has confessed to the murder Walter Oelslager, a 10-year-old boy, whose body was recently found near the watertank at Ranchester. Eickhoff said that he mistook the boy in the darkness for another employe, against whom he had a grude, and shot him.

#### JURY FINDS GREEN AND DOREMUS ARE NOT GUILTY.

Washington, June 23 .- The jury the Green and Doremus postoffice de-partment conspiracy and bribery cases etired at 11:30 a. m. today. The jury found Green and Doremus

not guilty on both charges of conspir-acy and bribery.

The jury came in at 1:50 p. m. From the start it stood 11 to 1 for acquittal, one man holding out for the purpose of obtaining certain explanations regard-ing the evidence. Court adjourned immediately, after

which Messrs. Green and Doremus were warmly congratulated. Neither Mr. Green nor Dist. Atty. Baker would make any statement. There is one more case against Green, but the intention of the government regarding it is not known.

# BRYAN ADDRESSES DELEGATES

Trondhjem, June 23.—The NorwegianAmerican delegates to the coronation of
King Haaken held a meeting this afternoen in the garden of the old archidshop's
palace, under the shadow of the cathedraf, and invited William J. Bryan to address them. When Mr. Bryan appeared
he was presented with American and Norwerian flags and the crowd cheered him.
Mr. Bryan said that judging Norway by
her soms who came to America he wanted
to offer her his congratulations. He de-

clared that Norway had achieved high civilization without losing any of her ear-ly, rugged strength, a thing tations rare, ly achieved. He hoped the country's pros-perity would be as long as her days were
