neuroll of light describes a spiral of short pitch, the light and shade of the picture causing the selenium cell to produce variations in an electric current passing to the receiver. The cyl-inder at the receiving end is covered with a photographic film, and a pencil of light from a vacuum lamp-fluctu-ating with the variations of the electric current-describes a spiral regis-tering the light and shade of the orig-

tification the sum of one hundred and fifty dollars for each and every band of six thousand or less, to cover cost of investigation and inspection. Any sum remaining after the cost of such investigation and inspection is paid shall be returned to such person, company or corporation. All bucks entering the State shall be

passing from the forward glass to the rear one-shown by suitable gradua-tions-indicates the force exerted and in the same way the instrument, when placed on its side, make evident the jerk or centrifugal force in rounding a

The amount of albumen necessary in man's food has been proven by French physiologists to be much less than has been supposed. From 3 to 5 ounces daily was once thought to be required, but later investigators found that 2½ and even 1½ ounces would suf-fice. In the new experiments, contin-ued for 38 days, the real need was shown to be less than an ounce per shown to be less than an ounce per

A new Swize watch contains a tiny hard rubber phonograph plate which calls out the hours loud enough to be heard 20 feet away. Sentiment can be added by having the words recorded on the plate in the tones of a dear friend as the solution of a dear friend -as those of a man's wife or children.

A surveying kite is an Englishman's A surveying fire war-time use. It consists of an aeroplane kits, to which is attached an automatic photographic camera, and this kits can be flown to a distance of four miles. In its outto a distance of four three, in its out-ward passage and its reeling in, a com-plete photographic map is made of the country traversed. The camera obser-vations are absolutely accurate and re-l'able, and they are superior to balloon observations in being less dangerous to the and limb and less dangerous o life and limb and less liable to dis-

Some years ago it was discovered that in the ultra-violet portion of the spectrum many ants perceive two or three colors that are invisible to man. Recent observations show that one spa-Recent observations show that one spa-cles-stenamma fulvamseessees only these-ultra-violet colors and is blind to all ordinary light. As these ants know only the light that affects the photo-graphic plate, it is suggested that they may be conveniently studied under or-ange or ruby glass, where they seem to themselves to be in absolute darkness.

An interesting piece of ancient engi-neering is reported by H. Doat as still in use in Versailles. It is a cast-iron water main, which has a total length of 15½ miles, and which dates from 1664 to 1668. The pipes are of two sizes -20 and 12½ inches in diameter and 15% inches and 5% inch in thickness. They are in lengths of 40 inches, coupled by means of flanges and bolts, and the only repairs have consisted in replacing the bolts at long intervals.

FOUND A CACHE.

A box of clothing containing also se other articles of value, was found meterday by Nightwatchman Baker of the Union Pacific concealed in some wash near the tracks a little way from mained the tracks a fittle way from wer Twenty-eighth street. The box intained letters addressed to Majsijo rancisico, Beowawa, Nev. There was physical powers. The following couples have been ind express money order for \$20.60 man by that name had sent \$102 to sise a money belt, empty. The find mas evidently the cache of some thief,

Every mother feels a great dread of the pain and danger attendant upon the most critical period of her life. Becoming

mother should be a source of joy to all, but the suffering and danger incident to the ordeal makes its anticipation one of misery. Mother's Friend is the only remedy which relieves women of the great pain and danger of maternity; this hour which is dreaded as woman's everest trial is not only made painless, but all the danger is avoided by its use. Those who use this remedy are no longer despondent or gloomy; nervousness, nausea and other distressing conditions are evercome, the system is made ready for the coming event, and the erious accidents so common to the critical

apar are obviated by the use of Mother's Friend. "It is worth its weight in gold," hys many who have used it. \$1.00 per MOIDCP'S tile at drug stores.
