Franklin, Cassia Co., June 29.—The
Oakley-Goose Creek reservoir and
irrigation project is now an assured
fact, the papers having been signed at
Boise during the past week by the state
land board and the local representatives
of Messrs. W. S. Kuhn and Brother of
Pittsburg, Pa. This is a Carey act
project and will open acres of excep-
tionally good land lying between Bur-
ley and Oakley. This land is being sur-
veyed for settlement and will probably
be opened some time during July. The
price decided upon is \$55 per acre, land
and water. Two lines of railroad will
traverse this tract—one an electric line
from Milner to Oakley, and a branch
line from the C. & N. from Burley to
Oakley, each of the companies have

large outfits of surveyors in the field,
so that the people of this valley feel
confident that within a year they will
be able to enjoy modern means of travel.

Negotiations are being entered into
whereby the Kuhn Brothers will ac-
quire some 200 acres of patented farm
lands south and west of Oakley, where
they contemplate laying out an exten-
sion of the present town. These town
lots, when platted, will be sold at
reasonable figures and on easy terms.
Mr. R. W. Paris, the chief contractor,
has been largely instrumental in get-
ting the town established at Oakley,
thus removing all danger of strife and
jealousies by contending towns, and the
people appreciate the good work done
by Mr. Paris and associates. It is to
be hoped that the two roads about to
enter our pleasant and future great
city will not make the same mistake
so many roads have made in so many
cities, that of selecting depot grounds
and in erecting stations in different
places. Experience has demonstrated
that where different roads enter a town
they should select and agree upon some
common point where they should erect
a union depot. It is said that work is
to begin on the reservoir and canals
about July 1.

Messrs. T. R. Cutler of Salt Lake and
Mark Austin of Sugar City made a trip
of inspection through our valley last
Friday and Saturday, going from here
to Twin Falls.

GOV. BRADY PRESENT.

For the Sunday program, July 4th,
religious observance will dominate all
else.

Governor Brady and his staff, besides
many other leading men will be pre-
sent, and numerous commercial bodies
from nearby Idaho points, to help
give Blackfoot the liveliest day in its
history. Two trainloads of Epworth
League delegates en route to the great
international convention at Seattle
will be stopped for the day at the
Blackfoot meeting, one of these trains
from Ottawa, Canada, the native land
of Mr. Lee, makes this celebration in-
ternational in its scope. Eminent men
from all parts of the country will
speak, and one Nez Perces Indian
preacher has a place on the program.
A great Indian encampment will be
opened at Central Park for the benefit
of visitors who want to look across the
vista of years and behold conditions
and peoples as they were seventy years
ago.

PROGRESS OF EVENTS.

In 1836 the Presbyterians sent Marcus
Whitman to establish a mission among

the Nez Perces. In 1839 Rev. Mr. Spaul-
ding purchased a printing outfit in
Honolulu and printed an Indian Bible
in north Idaho. In 1842 Marcus Whit-
man crossed the continent to Washing-
ton, and in 1843 guided a large colony
to Oregon. In 1846 the ill-starred Don-
ner party crossed the plains to Donner
lake, California.

In 1847, Brigham Young led the Mor-
mons into the wilds of Utah, for the
great work since witnessed there.

In 1849 was the discovery of gold in
California, after which the grand rush
was on, which has never ceased.

HOSPITABLE BLACKFOOT.

Blackfoot with her usual magnanim-
ity is inviting all real estate men of all
places to bring their literature on Id-
aho, and place it for distribution in the
great booth of information, and for the
protection of the people, rigid restric-
tions have been placed upon firecrack-
ers, as well as to insure automobiles
from the danger of explosions, and all
autoists of eastern Idaho are being im-
ported to join in the great specta-
cular parade.

Excursion rates are effective from all
points, and special trains will run from
Pocatello and St. Anthony.

J. T. Carruth, secretary of the Black-
foot Commercial club, has written a let-
ter to the editor of the Deseret News,
expressing his pleasure at learning of
the editor's intention to visit Blackfoot
on the occasion of the Diamond Jubilee
celebration. John P. Meakin, also of
Salt Lake, has been invited to attend
to take part in the program. Mr. Car-
ruth continues:

"On Sunday there will be three re-
ligious services held. The one in the
morning at the Methodist church, at
2 p. m. a mass meeting is scheduled in
the open air, and in the evening one
meeting at the Methodist church and
one at the L. D. S. church. The Meth-
odists are expecting some of their
prominent church workers here. Nephi
L. Morris of Salt Lake City is expect-
ed to be one of the speakers on Satur-
day at the public services, and it is the
intention to have him speak at the L.
D. S. church on Sunday evening, and I
am sure the people would be glad to
have Prof. Meakin also take part in
this service."

THE "BLACK RICE."

It is difficult to estimate how many
of the Chinese have acquired the use of
opium. Various estimates, according to

the Nez Perces. In 1839 Rev. Mr. Spaul-
ding purchased a printing outfit in
Honolulu and printed an Indian Bible
