Washington, Jan. 4 .- Senator Foraksr, a member of the committee on milltary affairs, in executive session today submitted a brief in favor of Brig .- Gen. Wood's confirmation to be major-general. Eight of the 11 members of the committee have concurred in this report. The committee met today for the purpose of acting on the matter of recommending or disapproving confirmation. Senators Hawley, Proctor, Foraker, Quartes, Warren and Alger, Republcans, and Cockrell and Pettus, Democrats, voted for a favorable report, while Senators Scott, Republican, and Blackburn, Democrat, voted against confirantion. Senators Hawley and Proclor were absent and voted by proxies, and the vote of Senator Bate will be recorded when he returns to Washington tomorrow.

DEALS WITH ALL THE EVIDENCE.

Senator Foraker's report contains more than 100 printed pages and dea, with all the evidence introduced in the exhaustive investigation conducted by the senate committee on military aftairs. It also covers the 167 army neminations held pending action on Gen. Wood's nomination. In his report Senator Foraker quotes the charges which were filed by Maj. Estes G. Rathbone against Gen. Wood, and says that every witness before the commission was allowed to testify as to any fact of which he might have knowledge, but that with all this latitude the witnesses had been unable to support the charges ide, while in most instances the fact had been brought out that the witnesses were holding real or fancied grievances against Gen. Wood which made them blased in their views to an extent ap-parent to the members of the commit-

EACH CHARGE TAKEN UP.

Each charge is taken up by Senator Each charge is taken up by Senator Foraker in its turn. The orders Gen. Wood is said to have issued to the courts in the Rathbone case, it is ar-gued, were wholly within the province and duty of Gen. Wood as governor-general. In the postal cases it is de-elared that the testimony showed Gen. Wood io he following the instruction Wood to be following the instructions issued by the secretary of war. The report declares that no evidence was offered to the committee to show that Maj. Rathbone was not given a fair

of the Young Woman's Temperance Association of Buffalo, N.Y., strongly advises all suffering women to rely, as she did, upon Lydia E. Pinkham's Vegetable Compound.

" DEAR MRS. PINKHAM :-- Your medicine is indeed an ideal woman's medicine, and by far the best I know to restore lost health and strength. I suffered misery for several years, being troubled with menorrhagia. My back ached, I had bearing-down pains and frequent headaches. I would often wake from restful sleep, and in such pain that I suffered for hours before I could go to sleep again. I dreaded the long nights as much as the weary days. I consulted two different physicians, hoping to get relief but, finding that their medicine did not seem to cure me. I tried your Vegetable Compound on the recommendation of a friend from the East who was visiting me.

"I am glad that I followed her advice, for every ache and pain is gone, and not only this, but my general health is much improved. I have a fine appetite and have gained in flesh. My earnest advice to suffering women is to put aside all other medicines and to take Lydia E. Pinkham's Vege-table Compound." - MISS NELLIE HOLMES, 540 No. Division St., Buffalo, N.Y. - \$5000 forfeit if original of above letter pro-Wing genuineness cannot be produced.

same time nominated to fill the two vacancels then occurring, to be major-generals. Gen. Sumner had been confirmed. Only one vacancy in the rank of major-general remains and that is the one to which Gen. Wood has been appointed.

APPOINTMENT JUSTIFIED. 'It would seem to be enough in view

of his good record to justify the president in giving him this appointment that he is now the ranking brigadiergeneral and naturally the first man to be consdered in the whole army in connection with such an appointment. Senator Scott is preparing a state-ment which will give the reasons of the minority members of the commit-tee for voting against a favorable report on the nomination.

Adopts Repressive Measures.

New York, Jan. 5.-Repressive measures are being adopted by the gov-ernment, says a Herald dispatch from Montevideo, Uruguay, to repress the revolutionary inovement just started by the so-called nationalist party.

The estensible cause of the move-ment is the presence of two regiments of cavalry in the department of Rivera, which the government sent there dur-ing the conflict between Uruguay and

Brazilians along the boundary line. The nationalists, who have a major-ity in that department, say there is no necessity for the troops to remain long. but the true cause seems to be th decision of the government to break wn the influences of Saravia, a petty cal chief, who enjoys great popularity nd influence in Rivera.

The movement up to the present had been without importance, though there were already several collisions.

JAPANESE AND RUSSIAN WARSHIPS BUILT IN THE UNITED STATES.

In the event of war between Japan and Russia it is not at all improbable that two vessels built in the same shipyard in Philadelphia may meet in a battle to the death. These two vessels are the Japanese protected cruiser Kasagi and the Russian protected cruiser Variag, toth built in the Cramps' shipyards. The Russian ship, on paper, would seem to be the more formidable. She is 400 feet long, has a tonnage of 6,500, and her annament consists of twolve 6 inch quick firers, twelve 12 pounder quick firers, eight 3 pounder quick firers and two 1 pounders. She carries six torpedo tubes, of which two are submerged. The Kasagi is 405 feet long, but her tonnege is only 4,784. Her armäment consists of two S inch quick firers, in shields, ten 4.7 inch quick firers in beavy sponsons, twelve 12 pounder quick firers, six 216 pounder quick firers and four machine gans. She carries four torpedo tubes, all above water. The Kusagi's speed is about 2212 knots an hour, while that of the Variag is about two knots greater.

GIFT TO GEN. WOOD.

In regard to the gifts which Gen. Wood accepted from the Jai Ali compay, the report says that "in the mere fact that Gen. Wood accepted gifts from the Jal Ali company there is nothfrom the Jal All company there is noth-ing to be criticised," and adds that Gen. Wood's acceptance was with the full knowledge of Secy. Root. The question of the admission of the silver service to Cuba free of auty is summed up in one paragraph taken from the tes-Umony of Gen. Taskar Bliss, as fol-

"It was admitted free of duty, but] take all responsibility for that upon myself. I never heard a word from Gen. Wood on the subject."

RUNCIE ARTICLE.

Reference is made in the brief to the conflict of testimony in regard to the Runcle article, and the word of Maj. Rancie is placed against that of Ray Stannard Baker, the magazine writer and Gen. Wood, both of whom have de-clared that the article was not talked of dinner at Santiago as reported by Maj, Runcie

The charges made by Maj. Rathbone that Gen. Wood had been unduly inti-mate with an ex-convict, Capt. Bellairs, are pronounced by Senator Foraker to be seemingly only spiteful and maliclous decigrations, made without excuse of any kind, in a spirit of re-venge and wanton villification. Senafor Foraker says that many persons high in social and army circles had trusted Bellairs, and that it was natur-

al Gen. Wood should do the same. Testimony of Secy, Root is quoted at shgih to refute the charge that Gen. Wood had improperly, if not corruptly granted what is known as the Casten-

FREYE'S CHARGES.

Charges made by A. E. Frye, former merintendent of schools of Cuba, form interesting part of the report, and Snator Foraker gives as a reason for differences between Frye and Gen. Wood that the former had employed sachers wholly incompetent and many cases women who were leading immoral lives. As to reductions of tachers' salaries Senator Foraker says that the testimony of Mr. Frye showti on the face that he is emotional, excitable and unreliable as a witness, and that the inferences he had drawn from actions of Gen. Wood were absurd and ridiculous.

The Santiago accounts of 1898 are covered in the general statement that the accounts had been declared correct the last dollar by Secy, Root and by accounting officers.

GEN, BROOKE'S CHARGES.

It is declared that the charges made y Gen. Brooke that Gen. Wood was fully of insubordination were proven to be with foundation and it is added "that Wood was fully sustained by the war department and the president is to all points of difference between him and Gen. Brooke."

Mr. Olney was introduced as a diplomatist who had never followed the polcy of wandering around the world seeking quarrels with weaker nations, and as the "pride of New England, but enthroned in the hearts of all his coun-trymen." Mr. Olney said:

In matters of foreign policy the Democratic party will stand for inter-national morality and decent internal conduct; for observance of treaties and obedience to international law; for re-spect for the rights of every nation. however small; for refusal to take by stealth or by robbery what we have no right to get except by consent of the owners: for continuing our traditional role as the defender of the weaker

states of this hemisphere instead of becoming their spoilator; for minding our business generally, without meddling with internal affairs of foreign countries, and without making rumors and trivfal events the pretexts for military demonstrations in foreign ports. "In matters domestic the Democratic party will repudiate the 'stand pat not policy and will advocate both economy in expenditures and such tariff reform and revision as industrial conditions

and the interests of the country at large demand. On that view it will stand for a reasonable relation between overnmental revenues and governmenal requirements; for clean administration and official conduct free from every suspicion of graft: for amendment of existing tariff schedules in the interest of the country. "The Democratic party could ask for

"In regard to the money ducation."

he went on, "our differences are greatly exaggerated and much misrepresented. There ought not to be any difficulty at this time in framing a financial plank acceptable to every intelligent and rea-sonable Democrat. The logic of events has cleared the situation. It is not beleved that any further monetary legislation is now desirable. If a speci-fle plank on this subject is needed, then simple declaration in favor of international bimetallism to be secured by in agreement between the leading naons of the world, in the event that further coinage legislation becomes necessary would be unobjectionable." Planks for the election of United States senators by direct vote; rigid dherence to the Monroe doctrine and he avoidance of an eastern policy pre-venting its consistent enforcement; the idmission to statehood of Oklahoma New Mexico and Arizona; and opposi-tion to the "maintenance of American ossessions of colonial systems of gov-rnment analogous to the British colon-
