"When I asked my doctor what that eruption was which came under my right ear, and which had refused to yield to home treatment, he said it was a bad case of

eczema and that it would take a long time to cure it. Another doctor said it was about the worst case he ever saw. I fol-governed accordingly. There was such about the worst case he ever saw, 1101-lowed their advice for 16 months, and still decided improvement at the end of that the eruption would not heal. The fact that several of them were in the inquisitorial cham-ber but a few minutes gave rise to the report that they had refused to testify. This was not confirmed. A detail of the charge to be pursued by the prosecution is that the original bribe agreed upon by each of the 18 supervisors was \$750, but that when the Parkside corporation, shortly after the great fire, decided that it wanted a trol-ley instead of a cable franchise, the price was raised to \$1,000 each, and that the raise was consented to. It is fur-ther charged that, the bribery-graft prosecution getting under way at about this time, the effort to have a fran-chise granted was postponed indefinite-ly—and that Ruef retained the \$30,000
