

## PLENTY OF WORK FOR NEW BOARD

Appointments Will be Made by The Mayor Within Next Few Days.

## BEAUTIFY SALT LAKE CITY.

Park Commissioners to See That Trees Flanking Streets Are Trimmed and Tended.

Preparation to Plant Lawns Throughout the City and to Generally Make it a Beauty Spot.

Salt Lake is to have its board of park commissioners and the appointments will be made within the next few days by Mayor J. S. Bransford. The ordinance creating the park board was passed July 29 of last year to become effective Jan. 15, 1908. The powers of the commission are wide and comprehensive and contemplate a "City Beautiful" plan. The Civic Improvement League is in great measure responsible for the ordinance and at the time it was presented to the council, it had been considered by members of that organization and preliminary plans were adopted.

San Francisco years ago provided for park commissioners and after the board had supervised the planting and trimming of shade and fruit trees, grass plots in street centers and at curb lines and public parks in general, a marked improvement was seen in fact, there was almost a new city. One of the first steps taken by the mayor of the city by the sea was to look about for an artist to sketch looking when the name of Will Clauson was reached. In that artist took no small amount of pride. Will Clauson was made a member of the commission and he, with his associates and men to execute their plans, made a city of much beauty with its parks, lawns, trees and lawns. Salt Lake has prided herself many times on the achievements of her artists and to Will Clauson, although he adopted San Francisco as his home until the earthquake, and, according to praise for his work well done. To her artists at home she looks for accomplishments and views with satisfaction their excellent work.

The ordinance creating a board of park commissioners requires the mayor to appoint five members, not more than three to be of the same political party. The members shall be residents and householders of this city.

### DUTIES OF THE BOARD.

The duties of the board are to regulate the planting of trees, shrubs and plants in public parks, streets, sidewalks, avenues and public grounds in the city. In order that a uniform system of planting be carried on the commission shall determine the class of trees to be planted in tree planting and parking districts to be established by the council. When a parking or tree planting district is created by the council, the board of park commissioners, in the manner provided for other public improvements, is required to advertise for 20 days the notice of intention. The board is vested with the power to condemn and remove all dead, decayed, unsightly or diseased trees at the expense of the abutting property owners.

When the council creates such a district, the board of park commissioners is required to submit to the council the recommendations for the proper improvement and an estimate of the cost of the work to be done. The council then makes a levy to raise the fund necessary to do the work.

### OTHER APPOINTEES.

In addition to the board of park commissioners, there will be a superintendent of parks, who must be a competent and experienced landscape gardener. His salary is to be fixed by the council. A park keeper is also provided for to be paid \$33.33 per month and an assistant park keeper at \$25 per month. Both must be experienced florists. The landscape gardener is to live at Liberty park in a house provided by the city. To do the necessary work, the board may receive the services of such persons as may be needed. The board is to have a secretary, a chairman and the city recorder is to be secretary of the board.

Property owners along many of the city streets have been planted and others trimmed and already a sample has been shown of what the city could look like if united action were taken. In the last statement is found the fact that is responsible for the creation of the park board. The incentive is to be given to the planting of trees by the citizens. Salt Lake may truly become a beautiful city.

### PARKING OF STREETS.

The city will maintain the parking in the centers of streets, the property owners the parking at the curbs. The greenhouse and conservatory are situated in Liberty park and it is there that the flowers and plants will be grown. The park a beauty spot are given.

### PERSONNEL OF BOARD.

Mayor Bransford has not decided the personnel of the board of park commissioners. Several names are before him for his consideration. Former Mayor Thompson, former Mayor Atwood, Mr. J. M. Wells, A. Fred Wey and others are among the ones who may receive the appointments. For the place of superintendent of parks there are "twice to choose from." David E. Law and James Williams have been mentioned as possible appointees. There are others who may have the qualifications and whose names will be considered when presented. H. F. Heath, the present park-keeper, and John W. Smith, his assistant, are mentioned for other places in the board.

### PRIZES FOR YARDS.

When the board is appointed it will have at its back, ready with strong support, the Civic Improvement League. This league will start an active campaign for private gardens to be in having prizes to be provided for the public places. A prize competition for the best front and back yards is among the plans. The commissioners and the league will work together for a beautiful city and will expect the appointment of all citizens. They point out, and

## PARK COMMISSION TO BEAUTIFY SALT LAKE.

WHERE THE CITY'S FLOWERS AND PLANTS COME FROM.

SOME OF THE TREES THE PARK COMMISSION WILL LOOK AFTER.

## LAWYERS MEET IN LIVELY TILT

Easterner Says Westerners Know Little of Law and Need Teaching.

### BUT LOSES IN THE SKIRMISH.

One Mr. Allison of Salt Lake Shows Judge Martin a Few Points, For Fun.

An odd little tangle in Judge Morse's courtroom in the county court house this morning came about when E. M. Allison, Jr., of Van Cort, Allison & Ritter, attorneys for the Gould system in this city, sought to recover costs from Joseph Martin, an attorney and former judge of New York, who is attorney for Russell Sage Raphael in his suit against the Wasatch and Jordan Valley railroad. Mr. Martin interposed a motion to re-tax costs to the Gould legal department and then the little skirmish between the rival lawyers started.

### JUDGE MARTIN SARCASTIC.

Judge Martin is of the opinion that the western bar is in need of some eastern lawyers to teach them law and the right methods of court procedure. Mr. Allison was placed in the witness stand this morning by Mr. Martin and examined. Mr. Allison was very careful how he answered Mr. Martin's questions. When the proceeding was all over Mr. Martin won out to the extent of \$4.40 and Mr. Allison drew \$24.50.

### TOO MUCH EXPENSE.

Mr. Martin sought to have Mr. Allison declare that he knew but little about the entire matter at hand. Mr. Allison was careful not to let the record show this. He said that the bill of costs was assumed by his office to be correct and in accordance with that understanding he signed and verified the bill of costs. It developed that Angus J. Mullins, a special agent for the Rio Grande system and a deputy sheriff, had charged mileage three times to Bingham Junction, where it should have been charged only once. The excess of 22 miles at 29 cents per mile was re-taxed and this was the only point scored by Mr. Martin.

### VERY LIVELY TILT.

Two weeks ago Mr. Martin was before the court charged with contempt. There were many witnesses brought in to court by the Gould attorneys as "friends of the court," and the costs were incurred in this connection. In his examination of Mr. Allison, Mr. Martin several times argued his case in asking the questions. He had to be warned by the court several times as to the relevancy of his questions. Mr. Allison's opinion on questions of law, and Mr. Allison would urge that Mr. Martin leave the determination to the court.

### MR. MARTIN BOMBASTIC.

When the question of costs had been decided, Mr. Martin declared that he would be glad when the entire matter was at an end. Judge Morse was in hearty accord with this sentiment. After the question was entirely decided, Mr. Martin insisted on arguing with Mr. Allison with regard to the person who should receive the costs. Judge Morse had to tell Mr. Martin several times that the question was all decided. Other attorneys were waiting for the attention of the court, but Mr. Martin's oratory kept flowing to the court in the regular calendar. Mr. Martin finally quit talking and promised to pay Mr. Allison on Monday. Then the other matters were taken up by the court in the regular calendar. Mr. Martin gave the court notice that he would appeal from his decisions in the entire case so far as the proceedings have gone.

### CUNARD REDUCES RATES.

Liverpool, Jan. 11.—The Cunard Steamship company has made a further reduction of \$3.50 in its stevedore rates to meet the White Star line's second cut. The Cunard company has also followed the White Star line in its reduction in the second cabin rates.

are supported in their assertions by real estate men, that realty values will climb upward and with the increased cost of homes in this city there will be a demand for them that will be even greater. The fame of the city for its beauty will attract to the city a class of people wishing to establish themselves in homes and the population will increase with a class of people that will be home builders and who come to stay.

## Alleged Murderer of Officer Ford is Identified.

Picture of Suspect Arrested in Portland Arrives and a Dozen Officers and Guards at State Prison Promptly Recognize the Features of Desperate Criminal—Detectives to Bring Him Back.

That the man "Howard" arrested at Portland several days ago, is Joe Sullivan, one of the alleged murderers of Policeman Charles S. Ford, there is not the slightest doubt in the minds of police officers, detectives and others who knew the criminal.

This morning Chief of Police Tom D. Pitt received from the chief of police of Portland two pictures of the man under arrest there. The photographs show the man from side and front views. There is also a letter in which it is stated that the prisoner was arrested on the charge of carrying a concealed weapon. He had on him at the time of his arrest a Colt's revolver, 45 caliber. He gave the name of Howard and declared that he had never been in Salt Lake in his life. The letter states that the man answers the description of Sullivan "to a T" and that he was sentenced on the 6th of the month to 15 days in jail for carrying a concealed weapon.

Immediately upon the arrival of the photographs there was considerable commotion about police headquarters. The photos were shown to several of the officers and one and all immediately and unhesitatingly declared the man to be Sullivan. Detectives Janney and Schultz, who were guards at the Utah state prison during the time Sullivan was serving a 10-year sentence for a burglary committed at Ogden, said there was absolutely no doubt as to the man's identity.

Pictures of Sullivan taken here, were shown to Detectives Collins and

Ditch, two New York sleuths, who are visiting the city, and when these experienced men compared the photographs with those sent by the Portland authorities, they at once said they were of one and the same man, Captain Burbridge is also quite certain the Portland prisoner is Sullivan.

In the letter it is stated that the prisoner has a scar over the right eye, and that his teeth are bad. "Two upper teeth are missing and this tallies perfectly with a description of Sullivan. The hair has the appearance of having been dyed and there is a slight difference in the eyes. These facts caused Chief Pitt to be a bit skeptical.

This afternoon Detective Schult took the photographs of the Oregon prisoner to the state prison and showed them to Warden Pratt, Deputy Warden Lee and Guard Taggart. These men were intimately acquainted with the desperate thug and the moment they saw the photographs they one and all identified them and declared the man to be Sullivan.

These officers saw Sullivan several times each day for years. "There is absolutely no doubt about it," said one to the "News." "The man is Sullivan." Chief Pitt is no longer skeptical. A man will be sent this evening to Portland, if requisition papers can be made out in the meantime, and Sullivan will be brought back here as quickly as possible. He will be charged with the murder of Patrolman Charles S. Ford and, in all probability, one of the witnesses against him will be John Owens, a pal of Sullivan's, who is now doing a term of 20 years for robbery. The crime for which Sullivan is wanted was committed on the morning of Dec. 14. Sullivan and Joe Garcia, an Indian-Mexican, accompanied by John Owens, went to the Albany bar on west Second South street, held up four or five men in the barroom, robbed them,

cleaned out the cash register and fled. Owens stood outside acting as guard. As Sullivan and Garcia fled from the scene of their crime, they encountered Police Officer Charles S. Ford, who was patrolling his beat. One of the men yelled to him, "Hands up," and the next instant fired upon the officer, who in the meantime was drawing his weapon. Officer Ford shot twice at the murderous thugs but he received a fatal wound and died at the hospital the same day.

Owens was captured within an hour after the shooting. At first he denied all knowledge of the affair, but finally broke down and confessed that he, Sullivan and Garcia planned the Albany hold-up and robbery. In the district court he pleaded guilty to robbery and was given 20 years. That he will testify against Sullivan there is no doubt.

The chief of police and the men under him are highly elated over the capture of Sullivan. It is the result of their prompt action in sending out photographs and descriptions of Garcia and Sullivan. As to Garcia there is reason to believe that he will be captured before many days elapse. "The police admitted to the 'News' this morning that they 'have a line on him' and unless the man gets wind of Sullivan's capture and succeeds in hiding himself, he is almost certain to find himself in the clutches of the officers before long.

A telegram was hurriedly sent to the Portland authorities as soon as the identity was established, to hold Sullivan at all costs. His time will not expire until the 20th, but the officers do not propose to take any chances with such a desperate criminal. Chief Pitt said this afternoon that he would send a man after Sullivan at once, but just who would be detailed on the case he could not say at this time. The officer who goes will be one who knows the man.

## PREFERS DEATH TO BLINDNESS

Because He Was Losing His Eye Sight Robert Lynch Sui-cides Today.

Robert Lynch, a negro, formerly a porter in a Butte hotel, shot his brains out this morning. The case is a pitiable one as Lynch has been going blind gradually. Knowing this he had become despondent. He was staying at a negro rooming house at 212 west First South street, and shortly before 11 o'clock asked if any mail had come for him. Upon being told no, he returned upstairs, stole a .35-caliber Colt's from another room, and going into his own quarters shot himself in the head. The shot brought others to the side of the man. He was dead, death being instantaneous. The body was taken to O'Donnell's undertaking establishment and the police are waiting for word from a sister in Butte, who has been notified of the occurrence.

### SECRET SOCIETIES.

Will be Abolished in the High Schools Of Chicago.

Chicago, Jan. 11.—The school management committee of the board of education voted yesterday to abolish secret societies in the Chicago high schools. This means an end to the fraternities so far as the official tolerance of the school authorities is concerned.

The action of the committee must be sanctioned by the board at its meeting next Wednesday, and the new rule must withstand a storm of legal attacks which it is expected will be made upon it, but the approval of the board is looked upon as practically certain, and the score of more of court decisions by which similar rules have been upheld in various parts of the country are said to be more than enough to insure the rule's validity.

### ORDER IN BERLIN.

Berlin, Jan. 11.—Order prevails throughout Berlin today, and there has been no recurrence of the demonstrations of yesterday for ransomed suffering in Prussia. The police, however, are still disposed in force at the strategic points of the city—the neighborhood of the palace and various public squares—or they are being held in reserve at the station houses. The police don't permit the people to form in groups and consequently it has been impossible to assemble and start a demonstration. Most of the men arrested yesterday were released today.

## SPENCER HELD TO DISTRICT COURT

Judge Diehl Renders Decision to That Effect This Morning.

"The clerk will let the record show that there is probable cause to believe that a crime has been committed, and that the defendant is guilty. The accused will be held to answer to the district court."

Such was the decision of Judge C. B. Diehl, when the case of Samuel G. Spencer was called this morning in the criminal division of the city court.

Attorney Adam A. Duncan, counsel for the accused, asked for a stay of execution, alleging that the complaint did not sufficiently set forth a public offense. In support of his motion he argued that the complaint alleged an attempt at assault on the part of defendant, which must of necessity be accompanied with specification of intent. The latter feature, counsel said, was lacking in the complaint, thereby rendering the document invalid. Authorities were read by Mr. Duncan, covering the points of his argument.

Assistant County Attorney Meyers opposed the granting of the motion of the defense, on the ground that it was too late for any such action.

### MOTION IS DENIED.

Judge Diehl said: "The motion so far as this court is concerned, has been taken at the proper time. Whether the question raised by the defense is well taken or not must now be considered by the district court. The motion will be denied." An exception was noted by the defense. \$3,000, furnished by the Utah Savings & Trust company, was continued.

### NERVE OF THE BURGLAR.

Chairman of the "American" Party Visited Over a Week Ago.

The burglary of J. E. Darmer's home on Sixth East a week ago Tuesday has just come to light. The burglary was reported at the time but nothing came from it. Judge Darmer, who is chairman of the "American" party, is thinking seriously of hiring a private detective. The burglar got a lady's watch engraved J. E. D. on the inside of the case; six silver spoons; a pair of link cuff buttons; a child's bank containing between \$5 and \$12, and numerous other articles.

## UNITED STATES STATUTES REVISION

Sen. Sutherland Working Hard To Secure Accomplishment Of Work Engaged On.

(Special to the "News.")

Washington, D. C., Jan. 11.—Senator Sutherland says that he hopes during the present session to secure action, upon which he has been at work for the past two years, on revision of the laws of the United States. There has been no real revision since the adoption of the revised statutes something like 35 years ago, and during the past three decades the statutes at large have grown to such enormous proportions that it has become almost impossible to keep posted upon changes in the laws. Senator Sutherland has devoted a great deal of his time since his election to the senate to a careful consideration of these statutes, and he is of opinion that the time is ripe for a revision of the revised statutes down to date. In his opinion he is endorsed by a great majority of the lawyers of the country, but a difficulty arises over the wording of the new code proposed by the senator's committee. Senator Sutherland is regarded by his colleagues as eminently qualified to perform this great task, and should he be successful, his term of service in the senate will be marked by a revision of the code of laws which will settle him to rank among the foremost legal authorities of the senate.

## HUSBAND AND WIFE FIGHT A DEATH DUEL.

Oakland, Jan. 11.—Pietro Sarocchi, an ironworker, and his wife Reina, fought a duel to the death this morning in their little four room cottage in the Montgomery tract. He was endowed with a large butcher knife and she with a razor. After battling for 15 or 20 minutes the husband finally slew the wife and cut his own throat from ear to ear expiring on her dead body.

### PUNJAB DROUTH BROKEN.

Lahore, India, Jan. 11.—The drouth which has prevailed here for the past six months has been broken by copious rains throughout the Punjab and the threatened repetition of an acute state of famine, which had caused such terrible mortality in recent years, has thus been averted.

### BOSTON RETIRING CHECKS.

Boston, Jan. 10.—The Boston banks began today the retirement of the clearing house certificates.

## PROCLAIM MULAI HAIFID SULTAN

Moslem Doctors Who Interpret The Koran, Principals in The Movement.

### HOLY WAR BEEN DECLARED.

French Government Considerably Disturbed—France and Spain Must Recognize Abd-El-Aziz.

Tangier, Morocco, Jan. 11.—Mulai Haifid, was on Jan. 4 proclaimed sultan at Fez, one of the capitals of Morocco and holy war has been declared.

Unverified reports to this effect have been in circulation for a day or two, but today official confirmation of them was received. Mulai Haifid, who some months ago was proclaimed sultan at Morocco City, was not present at Fez, and his uncle, Mulai Sarhami, was made vice regent, pending his arrival there. Abd-El-Aziz, the sultan of record, was formally deposed from the sultanate.

The proclamations were issued at the principal mosque and all the Moorish formalities attending such ceremonies were scrupulously observed. The ulama, or body of Moslem doctors, who interpret the Koran, of the Chofas tribes and the city, were the principals in the movement. Abd-El-Aziz was represented as having sold himself to the Christians, and having conspired at the invasion of the sacred soil of Morocco by Europeans, and as being ready to turn the country over to the foreigners.

### FRANCE DISTURBED.

Paris, Jan. 11.—The government is considerably disturbed over the unexpected declaration of Mulai Haifid, as sultan of Morocco. It is now anxiously awaiting information from the number of tribes who will follow the rebel sultan. Everything will depend, it is explained, upon the strength which Mulai Haifid develops. It is pointed out also that France and Spain, holding a mandate from the powers, have no option but to recognize Abd-El-Aziz as the legitimate sultan. He signed the Algerias act for Morocco and France and Spain will have to long as the official government remains in his hands.

Should the rebel sultan become formidable it is conceivable that the country might become divided, Mulai Haifid being supreme in the interior and Abd-El-Aziz, with the support of France and Spain, ruling on the coast. Such a situation might readily produce international complications. The immediate effect of the proclamation of Mulai Haifid as sultan is certain to be the indefinite prolongation of the stay of the French and Spanish troops in Morocco, which soon were to have been withdrawn, as it would now be impossible to confide the policing of the ports to Abd-El-Aziz without the safeguard of European troops. Pending further developments, however, the governments of France and Spain will proceed with the installation of a police force at Tangier and Rabat while Gen. D'Armaud, the commander of the French force in Morocco, will proceed vigorously with the work of pacifying the country around Casa Blanca.

### TO INVESTIGATE DEATH.

Horace M. Johnson Will Look Into Circumstances of Father's Demise.

It is expected that Horace M. Johnson of Chicago, will arrive in Salt Lake today, to begin an investigation of the circumstances surrounding the death of his father. The latter, Richard M. Johnson, was found dead in his room at the Hotel Utah, early this week. It seems that Chicago relatives are suspicious that there was something unnatural in the death of deceased, hence the proposed investigation.

### COLORADOAN TO SPEAK.

John F. Moore Will Address Horticultural Convention.

At the horticultural convention to be held here Jan. 2, John F. Moore will be a principal speaker and his theme will deal with experiences as a horticulturist in Colorado. Mr. Moore has been for 20 years manager of the Grand Junction Fruit Growers' association. B. T. Galloway, chief of the United States bureau of plant industry, has been invited, but sent his regrets.

## SKYSCRAPERS ARE A GREAT DANGER

Parker Building. Considered to be Fireproof. Burned Almost Like Tinder.

### WATER COULDN'T REACH TOP.

New York Fire Department Had Been Dreading Just Such A Conflagration.

Shows, Says Deputy Chief Binns, That Water Towers Cannot Reach Above Eighth Floor.

New York, Jan. 11.—With the first streaks of day when this morning, scores of firemen began the task of searching in the ruins of the Parker building at Nineteenth street and Fourth avenues for the bodies of the three firemen who were reported missing after the calling of the roll of the companies that took part in fighting this particular fire that destroyed the 13 story building last night, caused a loss variously estimated at amounts reaching \$5,000,000 or \$7,000,000. Although accounted fireproof the great building burned almost like tinder, the fire in the upper stories gaining great headway unchecked, as it was far beyond the reach of even the fire department's great water towers. Sensational rescues were the feature of the fire. Five men who were at work on the top floor of the building were cut off from rescue from below and sought the roof where they stood silhouetted against the flames which had broken through the roof. From the top of an adjoining building, several ladders were lowered, one a line was shot up from a mortar and with this line the beleaguered men drew up a stout rope which they fastened to a chimney, sliding down to the lower roof in safety.

### DREADED SKYSCRAPER FIRE.

For months the fire department has been dreading a fire in a skyscraper and although the Parker building was only 13 stories in height, the fate of one of the modern buildings of twice that height is easily imagined from last night's experience. The water pressure, even when augmented by the force of the largest engines in the department, was not sufficient to raise the water to a point anywhere near the top of the building. When the new salt water high pressure mains are completed, officials say this fault will be no longer so prominent.

At an early hour this morning orders were issued closing the subway which runs past the burned building. No trains were allowed to run in the block between the Fourteenth street and Twenty-third street stations. The Eighteenth street station being opposite the burned building. Shuttle trains ran between the Twenty-third street and south of Fourteenth street to the next station provided with switching facilities.

### FIRE UNDER CONTROL.

The fire was officially declared to be under control soon after 7 o'clock, the Deputy Chief of the Bureau of the police to keep crowds as far away as possible from the wrecked building as there was great danger that it might collapse as a result of the traction of the steel girders as they cooled. This resulted in a complete tie-up of the Fourth avenue trolley line and it was not expected that any cars would go through the Eighteenth street crossing during the day.

The subway service which had been resumed during the early rush hours, was suspended shortly after 9 o'clock owing to fear that the collapse of the wreck of the Parker building might collapse and crash through into the underground tube. After that hour no trains were run between Grand Central station at Forty-second street and Fourth avenue and Fourteenth street. During the forenoon it was not at all certain when the great underground highway would be reopened to traffic. The chief of the Interborough Rapid Transit company said they had acted upon a suggestion from the fire department.

From information given by the occupants of the surrounding buildings, it is believed that the fire was in progress fully an hour before it was discovered. Supt. Fullerton of the American Lithographic company, directly across the street from the burned building, said today that fully an hour before the alarm was given, he smelled smoke and had a thorough search made over the floor of his building. An hour later the firemen were in possession of one of the upper floors of the American Lithographic company turning a flood of water on the Parker building.

### DEPUTY CHIEF TALKS.

Deputy Chief Binns said: "The fact that the fire gained great headway was due entirely to the lack of water. There are two 12-inch mains on Fourth avenue. There is no pressure whatever in the side streets, there are 6-inch mains and on Broadway there is a 36-inch main. But the pressure from the Broadway main was more than half lost as a result of the distance and the fire.

"Many of the engines worked under a five-pound vacuum instead of 15 to 20 pound pressure, which is ordinarily found in the street hydrants.

"It shows that at the present time in New York," continued the deputy chief, "the water towers cannot reach above the eighth floor. Because of the poor water pressure, the three water towers responding to the five alarms had to be laid aside."

Mrs. Kitzler who lived on the third floor had to be taken out of a third story window by firemen. Coming down the ladder she fell 20 feet to the sidewalk and the fire.

A number of other persons were overcome by smoke, while several were more or less burned before they were carried out of the building.

## SIXTEEN PEOPLE KILLED IN ENGLISH THEATER PANIC

Barnesley, York, Eng., Jan. 11.—The senseless stampede of a crowd of people in a theater of this city resulted today in a shocking disaster. Sixteen persons, including a number of children in arms, were crushed to death by the frantic efforts of the crowd to get clear of the building and many others were injured, and for no other reason. There was no danger, no fire, only the unaccountable panic of the crowd that found its egress from the theater hampered by its numbers.
