CRITICAL ANALYSIS.

Salt Lake City, June 8th, 1887.

By carefully examining DeLand's Chemical Baking Powder with the microscope and with chemical reagents, I find that it is free from Alum, Starch, Flour, Bone Ash, Ammonia and White Earth; and that it consists essentially of Cream of Tartar and Bi-s arbonate of Soda.

The Baking Powder examined I purchased at Barnes & Davis, in this city.

J. T. KINGSBURY, Chemist.

MR. JOSEPH BEACH. EVENING NEWS.

Saturday, - April 28, 1888. TELEGRAPHIC NEWS.

Continued from First Page. 1 FIFTIETH CONGRESS.

HOUSE. WASHINGTON, April 27 .- Dunn, from the committee on Merchant Marine since October 18th, 1874, from the presence and Fisheries, reported, and the of Calculus or stone in the right kidney. No Bad breath, bad taste in the mouth, and House adopted resolutions calling on less than seven physicians were employed the Secretary of the Treasury for in- at different times, to whom Mr. Beach paid a furred tongue. Constipation, with occasional attacks of formation relative to the seal fisheries Headache in the front of the head nausea, dizziness, and yellowness of After a short discussion as to whether it was competent for the House to proceed today to the consideration of private business, the House went into committee of the whole on the tariff Heartburn, loss of appetite. Distention of the stomach and bowels by wind,

Brewer (Michigan) gladly welcomed the issue presented by the pending measure. In times past the democratic party has sought to evade the issue. In its platform of 1884 it had declared fer protection, free trade, incidental protection, for tariff for revenue only, and for tariff only for revenue only, and for tariff only for revenue, so that the voter could construe the platform to suit his own convictions. In Kentucky the platform meant free trade, and in Pennsylvania, New York, Connecticut and New Jersey, the gentleman from Pennsylvania (Randall) was able to make the voters believe it meant protection. By reason of fraud and intimidation practiced in one section of the country, and n one section of the country, and

by means of deception practiced by the democratic leaders in another section, the democratic candidate for the pres-idency had been elected. For three years of democratic administration, the years of democratic administration, the democratic party in the Heuse had played fast and loose on the great tariff question, while the necessities of the government had compelled the administration to take some decided position, and he honored the President for having forced the party to stop double dealing and define its attitude. He then advocated the protective system as one which tended to increase the wages of labor, and in support of his wages of labor, and in support of his proposition he cited various statistics prepared by Commissioner Wright. He was especially earnest in his opposition to the free wool clause, which he said would ruin an industry which was national in its importance. He contrasted the condition of the coun-

contrasted the condition of the country under free trade and protection. The former, he said, had brought the government to a state of bankruptcy, while the latter had rendered the country presperous and glorious.

Ford (Michigan) said the question presented now was one of tariff reduction, not abolition. Congress was asked to take the part of a few manual condition. try presperous and glorious.
Ford (Michigan) said the question presented now was one of tariff reduction, not abolition. Congress was asked to take the part of a few manufactures. facturers against the great body of consumers. But that was just what had been done. The war tariff declared for high prices for the producer of iron, low prices for the producer of corn, high prices for the producer of glass, low prices for the producers of wheat. He ridiculed the position taken by the protectionists, that high tariff increased the wages of American increased the wages of American workmen. No industries, he said, showed more poverty, more destitu-tion and more strikes among their

and secured the services of A. S. Geddes to assist in the management of the business; so that we now can suit all. Our lines in men's, boy's and children's CLOTHING, FURNISHINGS, UNDERWEAR, HATS, CAPS, etc., are complete, and will be sold at prices that will compare with the lowest. Mr. Geddes is a member of the Firm, but has been employed, for the last four years, as principal of the 16th District School.

We kindly fryite our many friends and the public generally to give us a call. workingmen than those so-called pro-tected ones. There was not a hod-carriertin the United States but who earned more wages than the average person employed in the industries benefitted by the war tariff. Referring to the claim that the home market was the best market, he said, the result of this home market swindle is that the farmer was most beautifully deluded.
The high tariff party gets his vote, the high trasts and monopolists get his money and the farmer gets the hot end of the poker.

Goff (West Virginia) said the reduction of tariff should be made by the friends of the protective system and not by its avowed enemies. President Cleveland's cold-blooded indifference to the benefits of the people was en-

to the benefits of the people was en-titled to pricedence over all emana-tions from the Executive Mansion in all our history. From such a spirit as President Cleveland exhibited, domin-ating almost with a single impulse the dem cratic side of the ficuse, he (Goff) would save our industries and our homes. The Mills bill was concluded by minds impregnated with c ived by minds impregnated with economic viciousness. Its passage would be the death knell to protection. If it succeeded now, they proposed next year to take another step and gra lually but surely the people were to be marched into the camp of thosa... Phant of the same of the sa

truction of the protection system. The people had been deceived in the last presidential campaign by the declaration that Cleveland was a protection ist. The hand of Esau would be offered again, but the people would not again be deceived. He did not believe in free raw material. There was no such thing as raw material in the sense in which it was used in this disoussion. Coal unmined was raw material, but when it was mined it was the miner's fluished product, and entitled to protection the same as iron ore. It was as much entitled to protection as the rice fields of the south and the sugar plantations of the Mississippi Valley. Wool clipped from sheep was not raw material; it was the farmers' fluished labor, and the farmers had made up truction of the protection system. The venience. I send you this without solicitation.

Mr. E. Woehl. 211 North Avenue, Chicago, under date of June 12, 1887, writes: "I deem it my duty to thank you for the cure I received from your excellent medicine. I contracted a very severe case of blood poisoning about two years ago. Hearing of your medicine, I went to a drug store, the propietor of which persuaded me to buy a preparation of his own, which he said was a sure cure. I used six bottles of his stuff and grew worse all the time. At last lgot disgusted and despaired of a cure. I met a friend who told me that your medicine had cured him. I went to the same druggist again and demanded your medicine had explicated in a metal to the same druggist of a friend who told me that your medicine had cured him. I went to the same druggist again and demanded your medicine. He reluctantly sold me twelve bottles, and I am now perfectly cured. I write this for the benefit of sufferers, to prevent their being deceived by false representations. I thank you again for the benefit derived from your medicine."

material; it was the farmers' finished labor, and the farmers had made up their minds that it had to be protected. The duty of 1867 should be restored, and an industry as essential to the prosperity of our people as is our independence as a nation, should be stimulated. In the discussion he said the protective system enabled the government to perfect a system of finance which was the marvel of the age. It nad fostered industries, built up man ufactures, and opened up vast wildernesses. It had dignified labor and educated the people. It had made the flag of the country typify all that was grand in human action, all that was grand in human thought, and God only knew what it would do for our land if the democratic party would let it the democratic party would let i

Landes (Illinois) submitted an argument in support of the bill and in opposition to the protective theory. While heartly advocating the bill, he regretted that it touched whisky and tobacco taxes, which, instead of being reduced, should be, he thought, increased. The committee then rose and the House took a recess until 8 p. m.; the evening session to be for the consideration of private pension bills.

LONDON, April 27.—The Australian Lees who had been talking about a match with Jake Kilrain desired that the latter should fight at 154 pounds. As Kilrain now weighs 220 pounds the possibility of so greatly reducing himself is out of the question, and the match is off. Lees boasts he intends to challenge Jack Dempsey.

BRIEF TELEGRAMS. Mon'real dispatch: E. A. Whitehead, trader, has made an assignment. Lia-bilities, \$279,600.

Prince Bismarck has declined the title of duke on the ground that he is not in a position to support the dignity.

Vienna dispatch: The Lower House of the Reichsrath has passed a bill giving the government power to summon reserves and to supplement the reserves in times of peace under certain circumstances.

Sofia dispatch: Prince Ferdinand, accompanied by M. Stambuloff, Minister of the Interior, and M. Nat-Sofia dispatch: Prince Ferdinand, accompanied by M. Stambuloff, Minister of the Interior, and M. Natchovitch, Minister of Finance, has left Sofia on a northern tour. He was cheered enthusiastically by the troops and the populace as he departed. A Pi tsburg dispatch says: The reported flint glass workers' strike was settled at a conference today and fires have been started in all the factories and work will be resumed next Monday. The settlement will give employment to several thousand men, who have been idle since last September.

A Paris dispatch says: Notice has been given in the Chamber of Daputles of the proposed introduction of a resolution signed by 112 members, representing the necessity for amending the present system of international law and expressing a particular wish for an understanding between France and the United States with a view to obtaining a definite acceptance of the principle of arbitration among the civilized nations.

Remedies.

I am going to tell you of the extraordinary change your CUTICURA REMEDIES performed on me. About the lst of April last i noticed some red pimples like coming out all over my body, but thought nothing of it intil some time later on, when it began to ook like spots of mortar spotted on, and which came off in layers, accompanied with itching. I would scratch every night antil I was raw, then the next night the cales, being formed meanwhile, were cratched off again. In vain die I consult di the doctors in the country, but without did. After giving up all hopes of recovery, i happened to see an advertisement in the newspaper about your CUTICURA REMEDIES, and purchased them from druggist, and obtained almost immediate relief. I began to notice that the scaly cruptions gradually dropped off and disappeared one by one, and have been fully cured. I had the disease thirteen months before I began taking the CUTICURA REMEDIES, and in four or five weeks was entirely cured. My disease was eczema and psoriasis. I recommend the CUTICURA REMEDIES to all in my vicinity, and I know of a great many who have taken them, and thank me for the
