GEO. GOULD PLANS ROAD TO PORTLAND

J. H. McClement, Now in Salt Lake En Route to Look Over Situation.

PLANS FOR LINE IN TEXAS.

To Connect in Colorado With the Rio Grande Affording a Big Saving in Mileage.

J. H. McClement, right-hand financial man of George Gould, the railroad magnate, is still here in private car "A-1" and tomorrow will leave for Portland, Or., where, he affirms, he is going on a pleasure trip.

Regarding his trip the Denver Times affirms that Mr. McClement is on his way to Pertland to look into the situation there a little closer from a financial standpoint.

The Goulds have long had an eye on the Oregon country and last fall agents of the Goulds were in Portland trying to secure a right of way from the city council for what was on the face a street railway, but which was in reality, it was afterward learned, an en-

trance for the Goulds into Portland. The plan was to build an interur-ban railway up the Willamette valley, which would ultimately connect with a Gould line that would leave the West-ern Pacific, near Winnemucca. Nev.

CUT-OFF IN TEXAS.

In connection with the Gould scheme for an ocean-to-ocean line the Asso-ciated Press today under a Fort Worth, Tex., date line says:
"It was stated yesterday by Vice
President and General Manager P. E.
Bock, of the Mineral Wells and Northwestern railway, that the Gould interests plan extending the line northwest through Texas with a view to shorten-ing the trans-continental line, thereby ayolding the desert about El Paso.

The supposition is the line will con-nect in Colorado with the Denver and Rio Grande. Mr. Bock stated that surveyors were out with sealed in-structions and that he could not say at this time what the final destination would be."

FRANK HANSEN RESIGNS.

R. G. W. Special Agent Goes to Oregon Short Line Claims Dept.

Frank E. Hansen, special agent for the Rio Grande Western, has resigned and accepted the position of chief clerk of the claims department of the Oregon Short Line with headquarters in the Deseret News building. Mr. Han-sen has been connected with the Rio Grande secret service department for two or three years past and has done good work in trailing car robbers, ad-justing claims against the company, and generally looking after things con-nected with his department.

SOME HINTS FROM EXPERT.

Prest. E. F. Colborn of the Salt Lake Real Estate association has received a letter from S. K. Hooper, general pas-senger and ticket agent of the Denver the manner of distributing the adver-tising brochure, "From Our Point of View," which is being issued by the as-sociation. The letter says:

"A supply of these pamphlets was sent out to our general offices at Kansas City, Chicago, Milwaukee, Pitts-burg and New York, and our city offices at Denver Colorado Springs, Pueblo and Manfiou are also supplied. Some of our largest stations are also in the list. We still have some on hand and I am ordering an additional supply to be sent to our eastern offices."

REDUCTION IN RATES.

Ten Classes Between Utah and Colorado Common Points Announced.

A reduction in rates on 10 classes of freight between Colorado common and Utah common points is announced. While the reductions are not startling still "every little bit helps." The rates which are now in effect are as follows: Old New First class\$1.85 \$1.80 .00

Second class 1.60 Third class 1.36 Fourth class 1.15 Fifth class Class E50

TEACHER VAN COTT ON THE DEFENSE

To Return "Not Guilty" Verdict.

Principal Admitted That He Punished The Pupil With a Strap on Three Occasions But Denied Malice.

Judge Armstrong today denied the motion of the defense for a peremptory instaction to the jury to return a verdict of not guilty in the case of Salt Lake City against Morlan Van Cott, upon Dunne Walker, one of his pupils. The lestimony in behalf of defendant was then commenced.

Principal Van Cott, the accused, was the first witness called for the defense. He told how he had talked with the boy about studying his lessons and minding his teacher and stated that the talking dld no good and he was compelled to punish the lad. He whipped him with a strap and the boy fought back at him so he gave him another whipping. He said that the boy then ran away and he ran out into the street and caught him. After bringing him back into the school building Mr. Van Cott said that they sat down a short time, as he did not want to whip him while in the heat of passion. The third whipping, he

said, was more severe than the others.

The punishment had the desired effect and the lad studied his lesson in a highly satisfactory manner. Mr. Vat. Cott said that at no time did he punish the boy because of malice and that he regreited very much that he had to

During the afternoon session vesterday the mother of the boy and Mrs. Woodmansee, Mrs. Norrell and Miss McClelland testified in behalf of the prosecution, after which the prosecution rested its case. It is believed that the case will be concluded today.

WHAT HUSBAND SAYS.

Declares Divorce-Seeking Wife Hurled Divers Epithets at Him

Richard L. Williams, in his answer filed in the district court today, al-leges that his wife, Edith N. Williams, who is suing him for divorce, has fre-quently called him vile and abusive names, charged him with infidelity and has beat him with her fists and attempted to strike him with a butcher knife. He denies the charges made knife. He denies the charges made against him by his wife and alleges that he has always been a faithful and affectionate husband. He claims that his wife has falsely accused him of infidelity on numerous occasions and has struck him with her first and called him vile names such as "thief," "dirty dog" and "beast." The assault with the butcher knife was made he alleges on Aug. 24, 1906. By reason of violent temper and profane language Williams alleges that she is not a fit person to have the custody of their two children. He therefore asks that he be granted a divorce and the custody of the children. custody of the children.

James Gordon, a convict at the state prison, who killed a fellow con-vict in a fight on May 5, 1906, today pleaded guilty to the charge of voluntary manslaughter in the criminal di-vision of the district court and was sentenced by Judge Armstrong to one years in the state prison. Gordon hit Joe Petelen over the head with a club inflicting injuries from which the latter died

SUPREME COURT OPINION.

Judgment of Lower Tribunal Was Affirmed-Favors Defendant.

The supreme court has rendered an pinion affirming the judgment of the lower court in the case of W. E. Johnson, appellant, and the Bank of Commerce, respondent, vs C. Frank Emery, E. G. Hines and T. J. Nipper, respondents. The cation was brought in the Third district court to recover \$5,000 ents. damages for an alleged illegal attachment of property belonging to Johnson and located in the Ford hotel along with goods belonging to T. R. Norris against whom Hines and Nipper had secured judgment. Judgment was renderen in favor of defendants in the lower court and this judgment is now affirmed by the supreme court which holds that where an attachment is levied upon property belonging to more than one party, the party whose prop erty is not intended to be attached must at once set up a claim to his property and identify the same. A failure to so claim his property is fatal to his right

SALVATION ARMY HARVEST FEAST

Judge Refused to Instruct Jury Local Organization Will Celebrate It Next Week With Due Ceremony.

GAVE BOY SEVERE WHIPPING. IT IS A BIG ANNUAL EVENT.

Salt Lake Organization Desires Not Only Cash But Articles That Can Be Sold For Cash.

The good that the Salvation Army does for mankind probably will never be fully appreciated. The work in Salt Lake is as well done as anywhere in the world. Just now the local army principal of the Waterloo school, who is making preparation for its annual is charged with assault and battery harvest festival which has come to be an important event in its usefulness. In conjunction therewith it has issued the following Have you ever heard of a poor, trou-

bled, sorrowful, perpiexed, hopeless man or woman appealing fruitlessly to the Salvation Army? Do you know that something like 3,000,000 just such people are upheld by this wonderful organization? Do you know that in twentythree different homes fallen women are each year restored by the score to honor and a life of useful purity? Do you know that in three different havens little children, all the way from nursing babes to sturdy boys and girls, are being succored? Do you know that scattered over the country are seventyeight shelters in which nightly some 9,000 homeless, often hopeless, men or women are cared for? Do you know that these institutions represent but a mere fraction of the charitable work successfully carried on by the Salvation Army in the United States?

How is this enormous expense to be met? Fools and ignorant know-alls will perhaps explain to you that the Army is in and of itself a sort of bon-anza class-corporation, and of truth it would needs be if out of its own re-sources it carried on the stupendous undertakings it dares. But the intelligent man or woman of today knows too well the Salvation Army under too many conditions, and through too many seasons to listen to such folly.

The Army just now is making a special effort to raise funds, and they are asking for not only cash, but articles that can be converted into cash

No religious organization of history has depended more fully upon the good offices and charitable warmth of the public than the Salvation Army. Happily we are not an ungrateful people, not a people slow to realize or appreciate great deeds. That is why we have a tight to feel a sincere interest in evtakes, and that is why we all now take an interest in the Army's approaching annual harvest festival, Sept. 15 to 18. Anything and everything of any acat this festival, for what may not be locally useful may be of high practical value in less favored parts in the Army's national field. There is, in fact, a saying, humorous, but true, that the

Salvation Army can find good use both for people and things that no other ody in creation would consider. Remember the dates, and remember the cause to be furthered; be generous and you will nurse no regrets.

Novel Electrical Project in England.

According to Consul F. W. Mahin. of Nottingham, Arnold Lupton, mem-ber of parliament for one of the Lincoinshire districts, has conceived a giant project, of which the result would be to rid London of its smoke fog and make it one of the sunniest cities on the globe. Mr. Lupton is quoted as confident that it "would be the most beautiful city in the world."

Lupton's plan contemplates the use of electricity for power, lighting, heating, and cooking in London, and bringing the electric energy from the coal fields of the Midlands, thus doing away with the smoke producers in the metropolis. It is stated that Mr. Lup-ton "took an active part in the preparation of a plan for harnessing the waters of Niagara to the extent of 120,-000 horsepower," and that his present project is backed by engineers of dis-tinction. He estimates that the smoke nuisance damages London every year fully \$10,000,000, not to mention the incalculable personal discomfort which it

THREE CROWN

RED AND GOLD CARTONS ORDER FROM YOUR GROCER

would not only abate this intolerable nuisance, but would also, it is calculated, furnish a cheap substitute for the present source of light, heat, and power. Mr. Lupton is thus quoted:
"What I propose is to use a high-tension current of 60,000 volts and to bring the electric energy from the Midland coal fields, 120 mlies away. If London were supplied with electric generators of, say, 1,000,000 kilowatts average load, the greater part of the railways, trainways, and factories could get their electric lighting and power, and the bulk of the houses be warmed and the cooking done by electric energy. The current could be delivered in London in bulk at 1 farthing (half a cent) per unit, and therefore it could be sold at 1 penny (2 cents), and even

less for large quantities."

It is proposed to construct a plant, as a beginning, to be enlarged when needed, to cost about \$17,000,000. The railways may oppose this project, for it would mean a heavy annual loss to them in freight receipts from carrying coal to London. But manifestly the Midland coal fields would offer it every encouragement.
