THE PRESIDENT'S CONDITION.

He is No Worse.

Official Bulletin.

ELBERON, 10, 8 p. m.—At the examination of the President at 12 m. to-day, his temperature was 98.5, pulse 100, respiration 18. At 5.30 this evening his temperature was 98.7, pulse 100, respiration 18. The President has taken a greater amount of liquid with some solid food, and with more relish than for several days. His general condition is quite as favorable as yesterday.
(Signed) Bliss, Agnew.

Pulse 102.

At 2.50 the President's pulse is about 102 and temperature a little above normal, but less than this morning.

A Considerable Increase of Fever.

Blaine to Lowell:

LONG BRANCH, 10.

After my dispatch of last night, the President had a considerable increase of fever. Indeed, the rise of pulse and temperature every night, has become a significant feature in the case. Through the day, and especially this afternoon, he has grown more comfortable. A cold easterly storm has prevailed since early this morning, without evil effect thus far to his condition.

Very Favorable.

Weather has been stormy and disagreeable to day. So far as the President is concerned, it may be summed up as having been very favorable, reports to the contrary not withstanding. In the language of one of the immediate attendants, the President has been as much better to-day, compared with yesterday, as he was yesterday compared with Thursday. He has made a little gain, and has expressed himself as feeling better in every way.

Incidents of the Day.

Incidents of the day have been comparatively few. All the members of the Cabinet paid their customary daily visit to the President's quarters this afternoon, and about 6 o'clock, Secretary Windom was ushered into the sick room. The Secretary, upon entering, took the hand of the President, and informed him there was nothing in the Treasury Department requiring his attention, and after exchanging a few other remarks, withdrew. The President simply acknowledged the Secretary's statement without comment. Secretary Windom seems satisfied with the condition of the President, and is of the opinion that he is recovering. Col. Corbin says the febrile rise appears to be making its appearance later in the evening than usual, but not so severe as before the President left Washington. The Colonel thinks the President will remain here until the middle or latter part of October, and then perhaps go down the southern coast on the *Tallapoosa*.

Not so Bright.

Boynton said this afternoon the President had a little more fever last night, and during the febrile rise the pulse ran up comparatively high, but no serious apprehensions were caused by it. This morning the President was not so bright as yesterday, and in general condition not as favorable; but after the dressing he commenced to improve, and is now probably as well as he was at this time yesterday. There is no cause for alarm or unfavorable statement of the case. There will be some days which will not be as favorable as others. He cannot be expected to get along without some dull days. If he has no more serious trouble than he has had to-day, I shall be perfectly satisfied.

Best Day in three Weeks.

Colonel Rockwell said to-night that the President passed the best day he has had for three weeks. He says so himself. There is absolutely nothing unfavorable in the case to-day.

Special Improvement.

General Swain said the President is better to-day than yesterday; each successive day brings us special improvements. Reports that the President is worse are all nonsense, and without foundation. The discharge from the wound at the evening dressing was better than for weeks.

Reduced in Strength but Clear in Mind.

Secretary Windom had a brief interview with the President at noon. He found him much reduced in strength but clear in mind. He asked the secretary about the success of the refunding of the public debt.

Much Annoyance.

CHICAGO, 10.—The *Inter-Ocean's* Long Branch special says: There is a swelling the size of a hen's egg in the President's back, directly over the spine, in the center of the body. It has been lanced and a discharge of pus followed, and the abscess followed. It gave the physicians considerable annoyance on account of its size and the troublesome position in which it came. No mention of this abscess has been made by the attendant physicians.

Examining the Central Pacific.

WASHINGTON, 10.—Chief Clerk Pickerell, of the office of Commissioner of Railroads, Interior Department, who is now west, making an examination into the affairs of the Pacific railroads, will go over the Central Pacific, and will submit a report supplemental to that made up and submitted by Auditor French before the latter resigned. French's report omitted a number of details regarding the Central Pacific affairs which the Interior Department wants to file. French covered the finances and operation of the road, but probably Pickerell will thoroughly re-examine and review French's report. Since French's report was submitted the Central Pacific has paid in $144,000 toward the sinking fund.

An Indian Count.

The following was to-day received by the Indian Bureau from Arizona:
San Carlos, Arizona, Sept. 9.

A careful count of the Indians for rations show 4,105, all in, except the White Mountain band. This leaves 700 men, women and children, of which there are about 200 bucks. I will send full report by to-morrow's mail. Everything is quiet here.
(Signed) TIFFANY, Adjutant.

The interpretation of this dispatch by the Indian Bureau is that the absent White Mountain bands, who are suspected of having been engaged in the recent troubles, number 950 all told.

The Red War in Arizona.

SAN FRANCISCO, 10.—A dispatch from Tombstone, Arizona, says: The following telegram was received here to-day by Acting Governor Gosper:

Wilcox, Sept. 9.

Application has been made for arms to be sent from Benicia, Arizona, at once to Fort Lowell, Bowie, Grant, McDowell and Wilcox stations for sale to settlers. The war has so far been confined to the smallest possible limits, but I hope advantage will be taken of the emergency by the civil authorities to place the Territory in a state of self-defense, and I advise the organization of minute men and military companies everywhere, that they may be called upon when needed. The arms question is not in my hands, and for the few at the posts the officers are pecuniarily responsible, and most of the officers are now absent in the field. The Secretary of War and the Ordinance Department control thousands of arms and millions of cartridges lying idle in arsenals, obtainable, however, only under the laws of Congress. Acting Governor Gosper concurs with General Wilcox in this matter, and recommends an organization at the exposed points, to co operate with military. The Governor is doing all in his power to obtain arms and ammunition, to put the Territory in a state of defense. He goes immediately to General Wilcox's headquarters to consult with him on the state of affairs.

Gov. Gosper received the following from Anderson, at Prescott, to-day: The Indians killed four men 15 miles beyond Flagstaff, and one in Verde Valley, and also one on Ash Creek. Mayor Keeley has applied for 50 stand of arms and amunition for the town. He will give bonds for all arms from the Fort. We are left without weapons to defend this section of the country. He also received a dispatch from Gen. Arnold, at Wilcox, saying that the company stationed at Fort Grant would have to be withdrawn, and asking to organize a company of volunteers for self-defense. This, he says, was arranged for on the 8th of September.

The Governor received a dispatch from Florence, saying the San Carlos Indians have broken out. He has organized a company of 75 men.

Charges Against Thomas Sustained.

CHICAGO, 10.—The prosecution and defense in the Thomas trial were summed up to-day and the case went to the jury at a late hour. If they sustain the charges their verdict will send the case to the conference for trial, otherwise it will drop here. The verdict is expected to come in during the night. There was considerable excitement during the speech of the prosecuting counsel, Parkhurst, who made use of these words: "There are gray-haired godly men in this city; there are broken-hearted mothers in this city, who are weeping over the ruin of their sons whose downfall is the theatre-going, dancing and beer-drinking and card-playing which began with their accepting these views from Dr. Thomas. The speaker was loudly hissed at times and retaliated sharply upon the audience.

At midnight the jury brought in a verdict sustaining all the charges.

Significant Secrecy.

NEW YORK, 10.—The meeting of the Emperors at Dantzig was arranged with suspicious secrecy. The object of the interview is absolutely unknown. The pretense that it was family affairs is disproved by the presence of Bismarck. It is generally believed that the meeting is intended to lead to a restoration of a triple alliance, which was destroyed by the British rejection of the Berlin memorandum. The uneasiness of Austria, particularly of Hungary, at the cordial relations of Russia and Germany, is natural, for Austria prefers solid German friendship rather than the incorporation of Russia in a triple alliance. The English government is indifferent to these negotiations. The triple alliance might mean disarmament, but it would certainly mean maintenance of peace for some time. The fate of the German memorandum shows that British action will not be hampered, and whatever is done, England, under its present administration, will take little concern in continental jealousies, if only interests at stake being Belgium and Turkey, so far as she is connected with the route to India. She looks rather to the colonies and her share in the new world rather than to the remnant of the mediæval policy.

Another Visitation for Ireland.

The *Tribune* says: Ira D. Sankey leaves this city to-day on the *City of Berlin*. Moody will leave Quebec in a fortnight and join him in England, where they propose to hold a series of revival meetings, extending the work into Scotland and later into Ireland.

A Liberal Programme.

DENVER, 10.—It is announced, on good authority, that Lieut. Governor Tabor will, next winter, found an extensive library here to be liberally endowed, the building to cost $200,000 and to contain 100,000 volumes to start with. His opera House here, which was opened Monday by the Emma Abbott opera company, has a seating capacity of 1,500 and is one of the finest in the country. The entire building, when completed, will cost $400,000. The Opera House proper cost a quarter of a million.

Supposed Robbers Arrested.

ST. LOUIS, 10.—John Ryan, Samuel Wilkinson and John Hand, have been arrested to-day in western counties on suspicion of being train robbers. Wilkinson is in jail at Kansas City, the others at Independence. Ryan is a brother of one of the Glendale robbers. John Bugler, arrested last night, is a son of the sheriff who was killed lately in defending the jail against a mob. The Chapmans, Ryan and Hand emphatically deny any hand in the transaction. The officers claim to have good evidence.

Drouth and Fires in Ohio.

COLUMBUS, 10.—The extreme drouth is beginning to be seriously felt in this locality, and sparks from locomotives have destroyed miles of fencing and done considerable damage to grass and other crops.

A Sickly Climb.

DETROIT, 10.—About five weeks ago Thomas Green left his home, saying he would destroy himself. Yesterday his body was found hanging 30 feet high in a tree. His body was discovered by fragments dropped from the depredations of birds that had been eating it. The cause of suicide was probably family difficulties. He leaves 10 children.

FOREIGN.

The Imperial Interview.

DANZIG, 10.—Emperor William, Crown Prince Frederick William and Bismarck reached Neufahrwauer at one o'clock this afternoon, and were much cheered. The Emperor William proceeded on board the imperial yacht *Hohenzollern*, which steamed out of the harbor and was met by the Russian yacht with the Czar on board. The ironclad squadron fired a salute and the two yachts were run alongside of each other. At two o'clock in the afternoon the Czar went on board the *Hohenzollern*, and was cordially welcomed. The Czar's yacht was accompanied by two small men-of-war. At three o'clock the Emperors drove into Danzig amid the pealing of bells, salutes of artillery and great cheers.

Secret Police.

The meeting of the Emperors was most affectionate. They appeared to be deeply moved, and kissed each other several times. The greeting between the Czar and the Crown Prince was very warm. The Czar conversed with Bismarck for some time; the royal party then lunched. The movements of the Emperors throughout the day were enveloped in uncertainty. The Russian secret police were in the streets on the arrival of the Emperor.

Pacific and Satisfactory.

It is stated the conference between Bismarck and Geins has taken a very happy turn and promises to produce very satisfactory results for both empires. Emperor William left for Kontz to attend the autumn manœuvres. The Czar returned to his yacht.

Mysterious Murder.

ROME, 10.—A trag death, similar to the murder of Gold, in the Brighton railway express train, occurred on the train from Paris to Turin. A man entered a first class coupe occupied by a gentleman who was alone, and after wounding him seriously threw him out of the carriage window from the car. A card was found in the pocket of his victim, and it is believed he is Herr Niemack, German consul at Leghorn.

Medical Men in Demand.

PARIS, 10.—A dispatch says that the mayors have been instructed to send circulars to the doctors in their respective districts, informing them that the military medical service of Paris, in consequence of the number of army doctors now being sent to Algeria, may need civilian assistance, and desiring the names of those disposed to give it. The last time such a step was taken was during the Crimean war and it is construed as a sign of serious trouble in Algeria.

International Bitterness.

MADRID, 10.—Public feeling is running so high in Spain against France, that the approaching meeting of the Cortez and the financial question are forgotten. The irritation is almost unanimous in papers of every shade of political opinion, as it appears that France will not indemnify the Spaniards of Oran unless Spain consents to examine the French claim for indemnity for losses in Cuba and Spain. The cabinet may be forced by public opinion to recall Duke Fernandez from Paris, to signify the disappointment felt in Spain. The question will lead to violent debates in the Cortez, as the adversaries of Senor Sagasta, the Premier, want to make capital out of the popular grievance against France.

Turks and Muscovites.

CONSTANTINOPLE, 11.—Much satisfaction has been caused by the attitude of Russia towards negotiations for the settlement of the Turkish debt. It is understood that Russia intends calling attention to the convention, which prescribes that the expenses of the Russian occupation of Bulgaria must be paid before the Bulgarian tribute is diverted to any other purpose, and moreover Russia is opposed in principle to the Bulgarian tribute being assigned to Turkish bondholders before the settlement of the Russian war indemnity.

A Peaceful Cherub.

CAIRO, 10.—The Khedive made a speech accepting the demands of the troops appointing Cherub Pasha, President of the Council. The troops then cheered the Khedive and withdrew. It is thought in Cairo that the foreign occupation of the Countons will be found imperative.

Insurgent Victory.

TUNIS, 10.—The insurgents again successfully attacked, 20 miles from Tunis, baggage wagons destined to provision the camps of Ali Bey, carrying away everything. The Arabs have resolved to intercept Ali Bey if he attempts to retreat to Tunis. There is reported to have been an engagement between the French garrison of Hammell and the Arabs holding the village of Brisalta, which was destroyed. The report of the destruction of Hammet was probably exaggerated.

Vessels in Distress.

LONDON, 10.—The American bark, *Cyant*, Captain Hansen, from San Francisco for Vladivostock is ashore near Nicolaufsk. The Dutch ship *Utrecht*, Captain Mauliugo, at Dublin from San Francisco, is aground at the former port and it is feared, badly stranded.

The ship *Glory of the Seas*, Capt. McLaughlin, from San Francisco for Havre, put into Valparaiso on the 3rd inst. in a leaky condition.

Decrease of Trade.

John Bright, writing to a gentleman of Sheffield on the subject of free trade and reciprocity, says the recent bad harvests caused a general falling off in our home trade. It is the diminution of the wealth of the country and an unproductive soil.

£500 for the Irish Exhibition.

DUBLIN, 10.—The Viceroy has written the Lord Mayor subscribing £500 to the Irish exhibition of manufactures. He says: "We may look forward with reasonable, perhaps increasing hope, to the exhibition taking place at a period of tranquility and freedom from outrage and agitation."

BRIEF TELEGRAMS.

A New Orleans dispatch says: Policeman Reynolds, in attempting to quell a disturbance among rioters—striking men—was knocked down and beaten, when he shot a negro striker dead and wounded two others.

A Wilmington dispatch says: There was a gale approximating a hurricane here, this evening, the wind blowing 50 miles per hour. Serious apprehensions are felt for the rice crops now harvesting, and a large number of planters went to the signal office seeking information.
