TOFARMERS, STOCK & PORK GROWERS.

LAST year I introduced into these valleys a prolific
 tuberous root called the Jerusalem Artichoke,
 which from the product of four stalks last year, I am
 enabled to furnish a limited number seed sufficient to
 make a fair commencement. This root is exceedingly
 prolific and under favorable circumstances will pro-
 duce one thousand bushels to the acre, and it is readi-
 ly devoured by horses, cattle, sheep, hogs, and even
 fowls, and makes an excellent pickle. It is perfectly
 hardy, standing out all winter, grows on all kinds of
 soil, is subject to no disease, and never fails to make a
 crop.
 Seed may be obtained at my residence, or of D. E.
 Le Baron, 15th Ward, Salt Lake City.
