

ARMOUR'S CHIEF AID ARRESTED.

Federal Grand Jury Returned an
Indictment Against Thomas
J. Connors.

INTERFERING WITH A WITNESS.

John Edward Shields of Brooklyn
Was Approached, Favored and
Entertained by Him.

Chicago, March 28.—The federal grand jury tonight returned an indictment against Thomas J. Connors, general superintendent of Armour & Co., on a charge of interfering with a witness summoned to appear before the jury now investigating the so-called beef trust. Mr. Connors, who is J. Ogden Armour's most confidential employee and the active head of one of the largest packing companies of the world, was arrested on a bench warrant by a deputy United States marshal and brought to the grand jury room, where he was released on \$5,000 bond after his release Mr. Connors refused to discuss the matter.

The indictment charges that John Edward Shields of Brooklyn, a former employee of Armour & Co., who testified before the grand jury, was approached, favored and entertained by Mr. Connors, and specifically states that on March 15 the offense upon which Mr. Connors was indicted occurred. It is also charged that Shields was given the use of Armour & Co.'s offices at 205 La Salle street to transact his business while in Chicago and also the use of a private telephone wire in the office of the packing company. Another allegation is that Shields was entertained by Connors and that Connors suggested to the proposed witnesses that he should testify favorably to Armour & Co., and not to tell all that he knew concerning the matter under investigation.

The second count of the indictment charges that Mr. Connors did not limit his attempt at influencing witnesses to Mr. Shields, but that other witnesses who have not yet appeared in Chicago have been approached by him and attempts made to induce them as to the nature of the testimony they would give before the grand jurors.

When the special grand jury convened last week Shields was one of the first witnesses to appear. He came to Chicago from New York. He had testified before a grand jury sitting in New York and there is said to have divulged facts which led the federal officials to believe him in possession of many other details concerning the question under consideration.

He was requested to come to Chicago and the federal officials were instructed to watch the man closely. Two men were detailed to watch Shields. One of these secret service men obtained Shields' confidence and thus learned facts which doubled the precautions of the government to prevent any of the witnesses from being coached. Shields was followed by these detectives and it was learned that he frequented the offices of Armour & Co., having a private wire at his disposal and answering all his private correspondence there. Every move of Shields was closely watched. The matter reached a climax yesterday when one of the secret service men

DEATH LURKS IN SICK KIDNEYS

The kidneys are the weak link in the chain of life, and are daily carrying thousands of victims to untimely graves. Nine-tenths of the diseases of the human body are caused by kidney trouble. It is because it is only when the trouble reaches an advanced stage that it is recognized as kidney disease.

We imagine we have dyspepsia, heart disease, nervous prostration and a hundred and one ills, but nine times out of ten the real trouble is that the kidneys are so weak and diseased that they are utterly unable to carry the waste matters out of the body, and the uric acid accumulates in the system, and slowly but surely poisons the way for Bright's disease, diabetes, blood poisoning and a horrible death in convulsions. Ask your doctor if this is not good, solid, common sense.

EXAMINE YOUR URINE

It is the infallible test of kidney trouble. If your morning urine, on standing still 24 hours, contains a sediment, is cloudy, or shows floating particles, your kidneys are seriously diseased and must be treated at once.

There is only one remedy that can be used with absolute safety and confidence. It is the famous "Safe" Pills, sold at all drug stores. It is the only medicine that cures the liver, bladder and blood—the remedy that cures when all else fails, and leaves no bad after effects. Get a bottle today. It will save you years of suffering to-day. "Safe" Pills move the bowels gently and aid a speedy cure.

A SHOOTING AT RENO.

Joe Reynolds, a Gambler, Shot
Down by Harry Butts.

Reno, Nev., March 28.—Joe Reynolds was shot and perhaps fatally wounded this morning by Harry Butts. Butts made his escape, but during the day went to the sheriff's office and surrendered. He is now being held pending the outcome of Reynolds' injuries.

The shooting, so far as can be learned, is the result of a long feud. While Reynolds was overseeing his gambling games Butts called him to the sidewalk. An argument followed, and then the shooting took place. Reynolds was shot through the leg, so close to the knee joint that amputation will be necessary. It is thought his physical condition will not withstand the operation. The affair has caused considerable excitement among the gambling fraternity because of the prominence of the parties concerned.

ROBBER'S NERVE FAILED.

Had Family at His Mercy but He
Took Nothing.

Portland, Or., March 28.—After a pitched battle with C. G. Santesson, Mrs. Santesson and their daughter, a masked and armed robber lost his nerve, although he had felled all three to the floor Monday night, and departed from Santesson's home at Hillsdale, a remote suburb of this city lying back of Fortuna Heights, without attempting to secure any booty.

Santesson and the two women were seated in their parlor when the robber entered with a demand for their money. Santesson jumped to his feet and grappled with the fellow, who knocked Santesson to the floor, discharging his gun as he did so. Miss Santesson went to her father's rescue, and the robber turned on her with the gun and fired at her point blank, his gun, however, being knocked up by the father, who had rushed to her aid. The robber fled, the deflected bullet struck Santesson's

The Mammoth and the Mosquito

What has come to pass in thousands of years seems hardly credible. Primitive man, a weakling in comparison to modern man, was able to conquer the huge monsters of thousands of years ago, such as the mammoth, and today they are dead, never yet the mosquito and fly have been conquered. It is now time for the scientist to devise methods for killing the mosquito and fly, so that they will go to join the mammoth and the monster lizards. The mosquito often carries the germ of malaria with its bite. The housefly spreads germs of disease over our food. These bacterial germs, ever hunting for the weak spot, find a place in our blood, and then we suffer from grip, catarrh, consumption, or malaria.

Dr. R. V. Pierce, chief consulting physician to the "Invalide" Hotel and Surgical Institute, at Buffalo, N. Y., says: "There would be no grip epidemics, no cases of consumption, or malaria would find no place in the human economy, if the blood were pure, if the lungs, heart and other organs were fed on good blood. Poisons should not be allowed to accumulate in the body, to be safe it is best to take a gentle laxative at least once a week. Such a vegetable laxative as Dr. Pierce's Pleasant Pellets contains nothing which could harm the system."

For putting the blood in order, and as a tissue-builder and tonic for the weakened by coughs, colds, catarrh, grip, nothing will build one up quicker than Dr. Pierce's Golden Medical Discovery. This is a medicine made entirely of roots and herbs, without the use of alcohol.

Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for paper covered, or 11 two-cent stamps for binding, to Dr. R. V. Pierce, Buffalo, N. Y.

glancing blow on the head, which stunned him. The desperado then turned to the sheriff's office and surrendered. He is now being held pending the outcome of Reynolds' injuries.

With the entire family at his feet the burglar's nerve evidently left him, for he left the house without ransacking it.

The account of the attempted robbery was brought to the police late today by a son of Santesson's, who was not at home when the crime occurred.

Socialist Demonstration in Madrid

Madrid, March 28.—A Socialist demonstration at the funeral of a laborer who was accidentally killed, led to disorders today in the course of which a lieutenant and a couple of the guard were wounded. Col. Elias, chief of police, had a narrow escape from being killed by a man who fired two shots point blank at him, but fortunately without hitting him.

Banker Adrian Iselin Dead.

New York, March 28.—Adrian Iselin, the banker, died at his home tonight, aged 92 years. Mr. Iselin was the founder of the banking firm of A. Iselin & Co. of New York, and the father of C. Oliver Iselin, the yachtman. He was a native of Basel, Switzerland, and came here 50 years ago.

Lord Norton Dead.

London, March 28.—Lord Norton, who, as Charles Adair, took an active part in the establishment of the royal self-government, is dead, aged 90 years.

IDAHO RANCHER MURDERS HIS WIFE

In a Fit of Jealousy H. Megordon,
Living Near Nyssa, Killed
His Helpmeet.

AND THEN HE SHOT HIMSELF.

Only Inflicted a Slight Wound.—Their
Relations Had Been Unhappy
For Some Time.

Boise, Ida., March 28.—A special to the Statesman from Nyssa, Or., says: H. Megordon, a prominent rancher living near Nyssa, shot and killed his wife at 6:30 o'clock this evening in a fit of jealousy. For a long time Megordon has been addicted to fits of intense jealousy. His frame of mind had led to many scenes between the couple, and the relations had latterly become so strained that it had, it is said, been mutually agreed that the divorce court should be invoked.

Megordon was on the streets of Nyssa this afternoon at 5:30 o'clock, and seemed in a normal mood, chatting pleasantly with friends upon different topics. A little later he returned to his home and, according to the account of the tragedy given by the children, at once began a quarrel with his wife. In the course of the altercation, the second son, Robert, aged 15, interfered in his mother's behalf. Megordon drew a gun and shot at him, but missed the boy, who at once took flight. Meanwhile Mrs. Megordon had left the house and started for a neighbor's. When the boy disappeared Megordon turned again to the woman, pursued her and shot her four times at close range. One shot took effect in her side and, it would appear, proved almost instantly fatal.

When Mrs. Megordon fell Megordon turned the gun on himself and inflicted a wound that is trifling. He came back to Nyssa at once and asked surgical attention. He was at once placed in custody.

REPORT ON HEALTH CON- DITION ON THE ISTHMUS.

Washington, March 28.—The following cablegram from Panama was made public at the war department today: "Secretary of War, Washington.—The following is the substance of the report of Col. William C. Gorgas, medical corps, U. S. army, chief sanitary inspector, for the month of February, 1905:

"Sick in hospitals, 151—the entire force on the rolls for the month of February, 7,700; percentage of sick in hospital, therefore, less than 2 per centum. Number of deaths, 9, which is equivalent to rate of 14 per thousand per annum.

"The French commenced work in 1881, during which year their entire force averaged 523 and their deaths in the Ancon hospital only were 72, or at the rate of 67 per thousand per annum, nearly five times the American rate.

"The deaths from yellow fever in the Ancon hospital only during the year 1881 were 25 in an average force of 928; while the deaths from yellow fever during the last 10 months of a force averaging 3,500 were only 6. The French statistics only relate to the Ancon hospital.

"If all deaths among the employees under the French during that time along the entire line were included the mortality would be much higher. The last case of yellow fever to occur in Panama was on March 8 and the last case from Colon on March 15. The total number of cases among the entire population on the isthmus during January was 19; during February, 13, and during March to the date of this cable, 9. The present sanitary force consists of over 1,000 employees, costing over \$25,000 monthly.

"This report, together with Col. Gorgas' letter of Feb. 1, sent you Feb. 3, is, in my opinion, sufficient reply to Dr. Reed's frenzied report.

"DAVIS."

TWO MEN SUICIDE.

Both Took Their Lives in Hol-
lenden Hotel, Cleveland.

Cleveland, O., March 28.—Henry L. Woodward, an attorney of New York City, and Charles A. Bruneau of Wadsworth, O., a traveling salesman, committed suicide in their rooms at the Hollenden hotel during last night or today. The bodies of both men were found this afternoon. The coroner's verdict in each case gives despondency over domestic and business troubles as the cause of the suicide. Each man had used a pistol and had sent a bullet into his head in almost the same manner. In each case being instantaneous. So far as is known there was no agreement between the men to end their lives.

Coroner Siegelstein said that a number of letters had been found in Woodward's possession from his wife which showed that Woodward evidently had been suffering from despondency. The letters were affectionate in tone and pleaded for Woodward's return home and for a reply to the letters. Woodward was an attorney and had been in partnership with Robert P. Cummings at 315 Liberty street, New York, and the two formed the law partnership of Cummings & Woodward. The partnership had been dissolved some time ago and Woodward became a traveling salesman for a law publishing company. Woodward was a brother of Justice John K. Woodward of the New York supreme court, and a brother-in-law of Stephen A. Stranahan, collector of the port of New York.

BRITISH ARMY POLICY.

War Secy. Arnold Foster De-
fends it in the Commons.

London, March 28.—In the house of commons today Secy. of War, Mr. Arnold Foster, on a motion in the committee on army estimates, made his annual statement. He defended the policy of the war office and said the record for his administration showed that a number of changes had been made looking to placing the army on efficient footing. The regular army could not be reduced because Great Britain was the only country in the world which was obliged to maintain an army on a war footing in times of peace. The danger of an invasion was not real. The principal duty of the British army was to fight across the sea and defend frontiers. They must eliminate the idea of competition with great military countries of the world, and should merely apply their whole attention to supplying an army capable of defending the frontiers. The lesson of the Russo-Japanese war was that quality and not quantity produced success in modern warfare.

The secretary outlined the changes made and contemplated, and said it gave him great pleasure to be able to say that the Dominion of Canada had

Washes Clean
with half the usual rubbing and
wear on clothes.

Fels-Naptha Philadelphia

undertaken from a certain date to bear the cost of guardianship of the great imperial fortresses situated in that country. The war secretary added that it would take seven years to make an impression on the great problem of army reorganization. What, then, could be expected in seven months? He urged the house to deal with the question from a patriotic and not from a party or political standpoint.

Mrs. Maybrick as a Witness.

Washington, March 28.—Mrs. Florence Elizabeth Maybrick appeared before a notary here today to make deposition in a suit technically known as the Barones von Houten against David W. Armstrong et al., a case involving tracts of valuable land in Virginia, West Virginia and Kentucky. Mrs. Maybrick is a witness for her mother, the Barones von Houten, against David W. Armstrong et al., a case involving tracts of valuable land in Virginia, West Virginia and Kentucky. Mrs. Maybrick today acknowledged signing while in prison some papers brought to her by the United States consul who told her that they related to the conveyance of certain Kentucky lands in which she was interested. She was asked if her mother and herself had received their share of the \$5,000 paid to Mr. Armstrong in March, 1899 by the Kentucky Land Union company and if that would have affected her trial. She replied that this money, which had not been received, would have enabled her to bring witnesses from Norfolk, Va., by whom she could have proven her husband's habits in regard to his use of arsenic and to have secured expert testimony that would have shown his death was due to natural causes.

TEA

Is there a better way to
keep the family longer at
table, to keep it together?

HOARSE COUGHS STUFFY COLDS

QUICKLY CURED BY

Foley's Honey and Tar

There is no case on record of a cold resulting in pneumonia, or other serious lung trouble, after Foley's Honey and Tar had been taken.

It will cure the most obstinate racking cough, and heals and strengthens the lungs.

Foley's Honey and Tar has cured many cases of incipient Consumption and even in the last stages will always give comfort and relief.

Foley's Honey and Tar gives quick relief to Asthma sufferers, as it relieves the difficult breathing at once.

Remember the name—Foley's Honey and Tar—and refuse substitutes that cost you the same as the genuine. Do not take chances with some unknown preparation.

Contains no opiates.

Cured of Terrible Cough on Lungs.

N. Jackson of Danville, Ill., writes: "My daughter had a severe attack of La Grippe and a terrible cough on her lungs. We tried a great many remedies without relief. She tried Foley's Honey and Tar, which cured her. She has never been troubled with a cough since."

Consumption Cured.

Foley & Co., Chicago, Dana, Ind. Gentlemen:—Foley's Honey and Tar cured me of Consumption after I had suffered two years and was almost desperate. Three physicians failed to give me any relief and the last one said he could do me no good. I tried almost everything, but nothing helped me until, until Foley's Honey and Tar was recommended to me. Its effect right from the start was magical. I improved steadily from the first dose and am now sound and well, and think Foley's Honey and Tar is a God-send to people with Throat and Lung Trouble. Yours very truly

MRS. MARY AMBROSE.

Three sizes—25c, 50c, \$1.00. The 50 cent size contains two and one-half times as much as the small size and the \$1.00 bottle almost six times as much.

House Work

Need Not
Wear Her Out

The drudgery of house work seems never ending to tired-out, dispirited women who suffer from female complaints or irregularities. Inflammation and ulceration of the womb and ovaries cause fearful bearing down pains which are aggravated by much standing on the feet, and lifting necessary in house work.

But let no woman despair of relief from this torture. That famous tonic reconstructer of diseased or disordered female organism,

Lydia E. Pinkham's Vegetable Compound

has cured more than one million American Women, and it will cure you. When monthly periods are painful or irregular, when backaches and headaches drive out all ambition, Lydia E. Pinkham's Vegetable Compound will bring back health, strength, and happiness.
