SALE OF OGDEN & NORTHWESTERN RY.

Ordered by Judge Howell to Clear Up Longstanding Indebtedness.

TIMBER FAMINE IMMINENT.

Forestry Instructor Thomas A. Mills Addresses High School Students—Big Grain Elevator.

Ogden, April 20.—Judge Howell has rendered a decision in the case of Ogden & Northwestern Railroad company and A. R. C. Smith, and in which the sale of the road is ordered to satisfy judgments against it and for the taking up of bonds. The court orders that the sum of \$20,000 be expended from the receipts of the sale in taking up an issue of \$20,000 worth of bonds of the second issue and which were paid for at the rate of 90 cents on the dollar. A judgment held against the company by A. R. C. Smith is also ordered paid and the remainder of the proceeds to be used in taking up other outstanding bonds. In the decision the court states that in the first issue of bonds amounting to \$40,000 that there was nothing on the books to show that there was ever any consideration given for the same. The Ogden & Northwestern road extends from the city limits to the Utah Hot Springs and is now known as the Ogden Rapid Transit company. It was purchased in 1902 by David Eccles from W. A. Paxton for \$200,000, which included the Hot Springs and hotel. Local capitalists organized two distinct companies, one for the railroad and one for the Hot Springs, so that the latter is not affected by the order of the court. The formal sale of the road will be made to clear the title and wipe out the indebtedness against the line, which has been decided by the Ogden Rapid Transit company since it obtained control.

TIMBER FAMINE IMMINENT.

Thomas A. Mills, forestry instructor of the United States forest service, with headquarters at Washington, D. C., in an address to the students of the Ogden high school, stated that within 20 years there will be a timber famine in the United States at the present rate of usage of the forests of the country. The speaker gave these startling figures in an address upon the benefits to be derived from the forest service. Most of the first settlers landed upon the Atlantic coast first cut down the trees and used them to build houses.

The speaker then referred to the fact that the first settlers who went to the pioneers in any state and territory used wood freely for almost all purposes. The development of mines was made possible by the use of timber in tunnels and shafts. While there have been found many substitutes for wood, there have been equally as many new uses discovered which continually increase the demand for lumber. In conclusion Mr. Mills stated: "At the present time approximately 100,000 acres of forests are cut and used every 24 hours. Most of this timber is well cared for. It is used to develop the country and sustain the industries. But the unfortunate thing in connection with timber, or the forestry, question at present is that at the present rate of usage the forests of the United States will be exhausted in less than 20 years. In other words, a timber famine is near, and a timber famine will have devastating effect upon those industries that are dependent upon regular supply of wood; and as wood is so generally and so largely used this timber famine will probably mean almost a calamity for the entire people of the nation. To meet this serious situation, forestry ought to be at once extensively practiced upon the woodlands of the United States."

The Great Spring Medicine

In thousands of homes, for more than thirty years, Hood's Sarsaparilla has been taken, as a Spring Medicine, by every member of the family. Peculiar to itself in what it is and what it does, it combines the best blood purifiers, appetizers and tonics, and effects complete cures of Spring Ailments—all blood diseases, pimples, eruptions, eczema, scrofula, all stomach, liver and kidney complaints, loss of appetite, that tired feeling, all low or run-down conditions of the system. Hood's Sarsaparilla effects its wonderful cures, not simply because it contains sarsaparilla, but because it combines the utmost remedial values of more than 20 different ingredients, each greatly strengthened and enriched by this peculiar combination. These ingredients are the very remedies that successful physicians prescribe for the same diseases and ailments. There is no real substitute for Hood's Sarsaparilla. If urged to buy any preparation said to be "just as good," you may be sure it is inferior, costs less to make, and yields the dealer a larger profit. Begin taking Hood's Sarsaparilla today, in the usual liquid form or in the chocolate tablets known as Sarsatabs. 100 Doses One Dollar.

HAIR REMOVERS ARE DANGEROUS

Dr. Wertenbaker Says—"Don't Use Poisonous Depilatories."

In treating superfluous hair, it is of vital importance that the agent to be employed should be absolutely non-poisonous, antiseptic and germicidal, because if it is not so with frequent use it will result in the most serious of diseases, the trouble with the majority of ladies is that they don't do a little thinking for themselves. When an agent takes it as gospel truth they never consider the reliability, neither do they consider the quality of the preparation. They seem to think that the bare word of a manufacturer is sufficient. To the contrary, ladies should be most particular in choosing a hair remover and learn from what reputable authorities know about it.

Dr. Wertenbaker, the prominent physician, says—"For several years I sold to my patients. Don't use poisonous depilatories, because they are bound to do harm. I have found Dr. Wertenbaker's to be absolutely non-poisonous, antiseptic and germicidal, therefore, as a result of my long experience, it is distinctly beneficial to the skin and under no circumstances can it produce cancer or blood poisoning. I have used the preparation in my practice for a number of years, and find that the principle of its chemical and physiological action is correct. I consider it the only satisfactory method for the removal of superfluous hair."

Better take a doctor's advice. Don't be deceived with the cheap depilatories which are advertised so extensively in the newspapers. Remember, after you have used Wertenbaker's hair remover, it is better to investigate all hair removers first, before you try any of them.

We will send you absolutely free, in plain sealed envelope, containing the testimonials, the remarkable information concerning the scientific basis of Wertenbaker's depilatory, and the principal ingredients. You should read this booklet before you try anything. It treats the subject exhaustively, and is the only booklet of the kind. It is sent to you absolutely free, and you should read it before you try anything. It is sent to you absolutely free, and you should read it before you try anything.

Write to Dr. Wertenbaker, 100 E. 1st St., New York, N. Y., and you will receive this booklet, and it will be mailed, sealed, at once.

NEGRO COMMISSIONER AND SHIP, SUBJECTS OF GOSSIP IN NAVY

Three new warships will be used in taking the United States commission to Liberia. These are the swift scout cruisers Chester, Birmingham and Salem. The commission consists of Mr. Morgan Shuster of Washington, Emmett J. Scott of Alabama and George Sale of Georgia. Mr. Shuster was formerly a member of the Philippine commission. Emmett J. Scott is private secretary to Booker T. Washington, and Dr. Sale is superintendent of the Baptist home commission of negro schools. Considerable gossip has been aroused in naval circles because of the fact that Commissioner Scott, who is a negro, has been assigned to make the trip aboard the Birmingham. Many of the officers of that vessel are southern men, and it has been stated that some of them will ask for transfers from the ship before the cruise begins.

MOUNT PLEASANT.

FOR PROHIBITION IN SANPETE.

City and County Officials Hold Convention May 15—Mixed in Live Wire.

Special Correspondence.

Mount Pleasant, April 16.—On Sunday evening August Larson of this city, while driving a team on state and Seventh street, ran into a live wire. The horse running into the wire dropped as if it had been shot. Mr. Larson endeavoring to free the horse received a shock which rendered him unconscious. It appears he fell on the wire and was moved from it in some way by the animal still standing. On getting free he revived and started pumping the water from the Green river, at a cost of \$17.00. He has already shipped a car of stock and supplies, and work will commence at once.

HEBER.

PROMISE OF BUILDING BOOM.

Prohibition Not a Failure in Heber—New Arrivals.

Special Correspondence.

Heber, Wasatch Co., April 17.—At Heber, farmers are busy plowing and sowing.

There is every prospect of a building boom here this summer. A Hatch & Co. already have the foundations laid for a \$10,000 fireproof building. A \$2,500 high school building is on the program. There is also talk of erecting shops in the town. Many private residences will also go up.

PROHIBITION NOT A FAILURE.

Certain interested parties have been circulating the reports that prohibition in Heber is a failure, that "there are more drunks than ever." The "News" correspondent asked the city marshal recently how many drunks since New Year's, and he replied that he could point them all on his fingers. This despite the fact that there are many saloons at Park City, a few miles distant.

The district schools will close in one week. The high school continues for a month.
