The local merchants have contracted for 1,000 umbrellas made of the lodge colors, black, white and gold, to be used during the convention. It was decided to decorate the Union depot building for the occasion. An invitation was received from the Becker Brewing company to give their large plant, with a guarantee of a daily lunch. The local baseball team is getting in good shape for their game. They will have a practice game tonight at the Glenwood park. One of the special features of the entertainment will be a musical selection. The speakers will be President C. F. Middleton, Bishop Moroni S. Marriott, Joseph Hall, T. A. HUMORS IN THE BLOOD

Coming of Warm Weather Forces Them Out, Causing Itching, Burning Skin Eruptions.

The blood and skin are so closely connected that whatever affects the one has a corresponding effect on the other. When the blood is pure and healthy the skin will be soft, smooth, and free from all eruptions; but when the blood becomes infected with some unhealthy humor the effect is shown by rashes, eruptions, boils and pimples, or other disfiguring and annoying skin disease.

The skin is provided with countless pores and glands which act as a drainage system to rid the body of impurities through the perspiration that is constantly passing through these little tubes. There are other glands that pour out on the skin an oily substance to keep it soft and pliable, otherwise it would become hard and dry from constant exposure to wind and sun. When the blood becomes filled with humors and acids these are thrown off through the pores and glands, burning and irritating the skin and drying up the natural oils so that we have not only Acne, Eczema, Salt Rheum, etc., but such dry scaly skin eruptions as Tetter, Psoriasis and kindred troubles.

These humors find their way into the blood through a disordered or deranged condition of the system. There is a certain amount of waste or refuse matter collected in the body every day. This is useless in nourishing or keeping the system in health, and nature intends that it shall find an outlet through the channels of bodily waste. As long as these members perform their duties properly the blood remains pure and free from infection; but when from any cause they become dull and sluggish, this refuse matter is left to sour and be taken into the blood in the form of humors and poisons. The skin is a perfect index to the blood; when we see one afflicted with a skin disease, or pimples, rashes, eruptions, blotches, etc., constantly appearing, we know that deep in the blood a humor has taken root, and instead of supplying nourishment and strength to the fine, delicate tissues of the skin, it is pouring out its acid and unhealthy accumulations.

The skin is not only affected by the humors generated within the system, but poisons from without, such as Poison Oak and Ivy, Nettle Rash, etc., as well as poisons from metals, acids, etc., enter through the open pores and glands, and so thoroughly do they take root in the blood that they are ever present, or return from year to year to annoy the sufferer.

The treatment of skin diseases with salves, washes, lotions, etc., is along the wrong line. True such treatment relieves some of the itching and discomfort, and aids in keeping the skin clean, but it does not reach the real cause of the trouble, and at best such things are only palliative and soothing.

A thorough cleansing of the blood is the only cure for humors in the blood. S. S. S., a gentle acting, safe blood purifier, made entirely of vegetable ingredients from nature's forests and fields, is the proper treatment. S. S. S. goes down into the circulation and neutralizes the acids and humors, thoroughly cleansing and purifying the blood, and curing skin diseases and affections of every kind. It supplies to the blood the fresh, nutritive qualities necessary to sustain the skin and all other parts of the body, and rids the blood of any and all poisons. S. S. S. cures Eczema, Tetter, Acne, Psoriasis, Salt Rheum, Poison Oak and Ivy, Nettle Rash and all troubles of the skin. Special book on skin diseases and any medical advice desired furnished by our physicians without charge to all who write.

The commission did not have instruments along with which to take the measurements and did not agree in their estimates of the lake level. They did agree, however, that there was no need of immediate action. The lake is not yet at the point reached during high water of last year, the late spring, and spells of cold weather having kept

Girlhood, Womanhood, Motherhood.

The first lesson that the young girl as womanhood is usually a painful one. She learns to know what headache means, and backache, and sometimes is sadly borne down by this new experience of life.

All the pain and misery which young girls commonly experience at such a time may, in almost every instance, be entirely prevented or cured by the use of Dr. Pierce's Favorite Prescription. It establishes regularity. It tones up the general health, and cures headache, backache, nervousness, chorea, or St. Vitus's dance, and other consequences of womanly weakness or disease.

MOTHER OF THE FAMILY.

The anxious mother of the family sometimes carries the whole burden of responsibility so far as the home medication of common ailments of the girls or boys are concerned. The cost of the doctor's visits are very often much too great. At such times the mother is invited to write to Dr. R. V. Pierce, of Buffalo, N. Y., for medical advice, which is given free. Correspondence is held sacredly confidential.

IT STANDS ALONE.

"Favorite Prescription" is the only medicine for women the makers of which are not afraid to print just what it is made of on every bottle wrapper. It is the only medicine for women every ingredient of which has the unanimous endorsement of all the leading medical writers of this country, recommending it for the cure of the very same diseases for which this "Prescription" is advised.

A MOTHER'S LOVE.

A mother's love is so divine that the toughest man cannot help but appreciate it as the crown of womanhood. However, motherhood is often looked forward to with feelings of great dread by most women. At such times a woman is nervous, dyspeptic, irritable, and she is in need of a uterine tonic and nerve, a strength builder to fit her for the ordeal. No matter how healthy or strong a woman may be she cannot but be benefited by taking Dr. Pierce's Favorite Prescription to prepare for the event. It makes childbirth easy and often almost painless.

Dr. Pierce's Favorite Prescription is a powerful, invigorating tonic. It imparts strength to the whole system and to the womb and its appendages in particular. For overworked "workmen," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, shop-girls, housekeepers, nursing mothers and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

A STRENGTHENING NERVE.

"Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, prostration, neuralgia, hysteria, spasms, chorea, or St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the womb. It induces refreshing sleep and relieves mental anxiety and despondency.

A SCIENTIFIC MEDICINE.

Dr. Pierce's Favorite Prescription is

a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate organism. It is purely vegetable in its composition and perfectly harmless in its effects in any condition of the system. For morning sickness or nausea, weak stomach, indigestion, dyspepsia and kindred symptoms, its use will prove very beneficial.

CURES OBSTINATE CASES.

"Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhea, excessive flowing, painful menstruation, unnatural suppressions and irregularities, prolapsus or falling of the womb, weak back, "female weakness," atony, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness of the ovaries, accompanied with "internal heat."

HOW TO LOOK BEAUTIFUL.

Young women or matrons should not allow themselves to look sorrowful and wrinkled because of those pains and weaknesses which become chronic and are the result of cold, tight lacing, and the imprudent care of the womanly system. Many a woman would look beautiful, have healthy color and bright eyes if it were not for those drains on her strength and those weaknesses which come all too frequently and make her life miserable. There is a ready-to-use Prescription, used a great many years by Dr. R. V. Pierce in his large practice as a specialist in women's diseases, which is not like the many "patent medicines" on the market, as it contains neither alcohol nor any narcotic, or other harmful drug. It is purely vegetable. It is known as Dr. Pierce's Favorite Prescription and is sold by druggists.

DR. PIERCE'S PLEASANT PELLETS

cure biliousness, sick and bilious headache, dizziness, costiveness, or constipation of the bowels, loss of appetite, coated tongue, sour stomach, windy belchings, "heartburn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels.

Persons subjected to any of these troubles should never be without a vial of the "Pleasant Pellets" at hand. In proof of their superior excellence it can truthfully be said that they are always adopted as a household remedy after the first trial.

One little "Pellet" is a laxative, two are cathartic. They regulate, invigorate and cleanse the liver, stomach and bowels. As a "dinner pill," to promote digestion, take one each day. To relieve the distress arising from over-eating, nothing equals one of these little "Pellets." They're tiny, sugar-coated, anti-bilious granules, scarcely larger than mustard seeds.

HEALTH AND HAPPINESS.

How to live in health and happiness, is the general theme of Dr. Pierce's Common Sense Medical Adviser. This great work on medicine and hygiene, containing over 1000 pages and more than 700 illustrations, is sent free on receipt of stamps to pay expense of mailing only. Send 31 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers.
