

is completed to the square, two sets of tower windows remain to be constructed. The projected height of the Temple, it will be remembered, is 200 feet. Of late a variety of changes in the machinery have been necessitated, on account of the advanced stage of operations. The hoisting derricks have been raised and the cables which hold them securely anchored to two massive granite pillars, recently built on the eastern side of the street near the northernmost gate of the Tithing Yard. Rock is now hoisted a distance of about 35 feet. There is a constant stream of visitors to view the Temple. The work is progressing steadily and already the noble structure begins to assume the impressive grandeur which is destined to make it the most remarkable building on the continent of America.

Campbell vs. Cannon.—A suit entitled *The United States ex rel. Allen G. Campbell plaintiff, vs. Geo. Cannon, defendant*, has been instituted in the Third District Court, the papers of which were filed with the clerk of the court on the 8th inst., by P. T. Van Zile, United States District Attorney, and Messrs. Sutherland and McBride, attorneys for the plaintiff. After a series of negotiations, the plaintiff prays as follows:

"That this Court adjudge and decree that the said defendant George Q. Cannon, is not a citizen of the United States, and has not hitherto been, or ever was naturalized according to law as such.

Second—That the certificate of naturalization or pretended naturalization now held by said Cannon, dated December 7th, 1854, as set forth in the complaint, be adjudged fraudulent and void, and be annulled.

Third—That the said George Q. Cannon be enjoined and commanded to desist and refrain from demanding, accepting or receiving from the Treasury of the United States, through its disbursing officer, the Sergeant-at-arms of the House of Representatives of the Congress of the United States or any other person, directly or otherwise, the salary and compensation pertaining to the office of Delegate to the 47th Congress from the Territory of Utah, pending this action, and upon the final hearing the injunction be made perpetual.

Four—For such other and further relief as the justice of the case may require, and for costs of this action.

P. T. VAN ZILE,
U. S. District Attorney, and
SUTHERLAND & MCBRIDE,
Plaintiff's Attorneys.
Then follows the verification of the Plaintiff, etc.

FROM SATURDAY'S DAILY, JUNE 11.

Hotel at Soda.—The Idaho Enterprise says that the U. P. R. R. company have purchased, for \$10,000, a half interest in the townsite of Soda Springs, and that Hon. W. L. Hooper and his friends propose to put that amount into a hotel, provided the railroad company will furnish a like amount for the same purpose. It is hinted that the Captain's late visit to Soda had this as its main object, and that a \$20,000 hotel will be the result.

Returned.—Elder Henry Marrett, of Paris, Bear Lake, returned some last evening from a mission to Great Britain, upon which he departed two years ago last May. He labored at first as traveling elder in the Manchester Conference, and afterwards presided over the Sheffield Conference until released to return. He had a prosperous mission and returns in good health. His voyage home was pleasant, with the exception of a delay of 18 hours at Cedar Rapids, on the Chicago and Northwestern Railroad, caused by a late collision at that place. We welcome him home, heartily. He is to-day for the north.

Elder John Hansen, of South Jordan, returned at the same time from mission to Denmark. He has been eight months, and was traveling in the Aarhus Conference during that time. About the beginning of this year he was attacked with illness and fever, and laid up for about two months. He afterwards resumed his labors, but finding that his health could not stand the climate, the officers of the Conference and President Wilhelmsen granted him a leave.

Terrific Hail Storm.—Mr. N. P. Anderson, of Bear River City, writes a spirited account of a terrific hail and hail storm which swept over that settlement on Tuesday

last. The morning was pleasant, though the sky was slightly obscure. One cloud lingering near the southwest horizon attracted most attention, as it presented a gloomy aspect, but none suspected the destruction it carried in its wings. It kept working up above "Promontory" and across the Lake, and as it drew nearer, made its fury apparent by the great amount of sand it whirled into the air. The temperature rose a little, a few drops of rain sprinkled the ground, and the people rejoiced in the prospect of a good shower. A little later, a tearing wind passed through the town, with such force as to carry lumber several rods into the air, and hailstones of an uncommon size commenced to bombard the roofs. The wind retained its fury, and now mixed with hailstones, many as large as three quarters of an inch in diameter, spread destruction far and wide, to young poultry and windows facing the storm; but worse than all, to nearly all the grain possessed by the people of the settlement. Ten minutes later, the storm had passed, but the trees were badly stripped and the grain knocked to the ground, much of it so badly chopped that it could not even be mowed for feed. Some of the hailstones moved with such velocity that they passed through window panes, making a hole large enough to admit them without shattering the glass. The damage sustained by the settlement will aggregate between \$6,000 and \$8,000. The season was very promising, compared with several previous years, and the loss is heavily felt. Still, the people are not disheartened, but feel determined to trust in the Lord and bear with patience their misfortune.

Powder Explosion.—About half past three o'clock yesterday afternoon, Mr. Harry Heywood, a young gentleman from the east, who has been residing at times in this city for several years past, met with a shocking accident at Pascoe's lime kiln, while making an experimental powder blast. He had put some powder into the rock, when one of his assistants, of whom there were several standing by, asked him if he had put in enough. He answered that he would use what he had in his hand, (a stick of the material,) and was leaning over in the act of placing it in the rock, when the blast went off in his face. He was hurled backward several feet and terribly injured; his left arm being badly broken, a large gash cut in his cheek, several of his teeth knocked out, his nether lip severely cut, his arm and face burned, and what he himself lamented most, his eyes filled with powder, and, it was at first supposed, burned so seriously as to leave little hope of his ever regaining their use. His first question afterwards, for he retained entire consciousness, was, if anyone else had been injured. The answer was in the negative. He was taken home to the residence of Mrs. S. M. Heywood, his aunt, in the 17th Ward, where he now lies. He bled profusely last evening, and presented a pitiable sight. Dr. Benedict, who attended him, with assistance, set the broken arm and dressed his other injuries, last evening, considered the case very serious and did not believe that the patient's eyesight could be saved. We are pleased to be able to state, however, that to-day the symptoms are more favorable and that the physician now thinks, if inflammation can be kept down, the injured man will regain the use of his optical organs. We sincerely hope so, and deeply sympathize with Mr. Heywood in his affliction.

FROM MONDAY'S DAILY, JUNE 13.

Jaw Dislocation.—Jacob Cloward, of Chester, Sanpete County, writes on the 10th inst., that his wife Susan has lately suffered from the dislocation of her jaw. The case was of an aggravated character. Dr. Higgins Davis, of Manti, was employed and soon relieved the afflicted lady.

Gamblers Fined.—Officers Phillips and Pratt made a raid on a gambling den Saturday night, and arrested eight persons; two of them proprietors of the place and the others inmates, caught in the act of practicing their business. Five of the inmates were to-day fined \$10 each and another was fined \$25. One of the proprietors was fined \$50, and the other \$25. All paid their fines.

Awkward Predicament.—The other day Bishop Taylor, of Harrisville, Weber County, was on his way with his family to a strawberry festival at Plain City, when in crossing

a large creek, the king-bolt of his wagon came out, and the horses walked off with the front wheels, leaving the horrified family in the box with the hind wheels, in the middle of the stream. No one was hurt, however, and the frightened folks now laugh heartily over the mishap.

Information Wanted.—G. Y. Roberts, of Temperance Hill, Monroe County, Mississippi, would be pleased to hear from his brother, John Roberts, or John Sparks, or any of their kindred, if living. They joined the Church in Monroe County, Miss., and emigrated to Nauvo in 1845, and went from thence to Utah with the Saints.

Also S. A. and C. M. Jones would be pleased to hear from their brother, John L. Jones, who joined the Church in Monroe County, Miss., and emigrated to Utah twelve years ago. Address, Aberdeen, Monroe County, Miss.

Fire at the Reef.—A special from Silver Reef, received on Saturday evening, states that at daybreak that morning a fire broke out in the rear of a lodging house kept by Mrs. Bush, and before it could be extinguished, had spread to several adjoining frame buildings which were soon enveloped in flames and burned to the ground. A light breeze from the north excited the apprehension that the whole town was doomed to destruction, but the flames were finally subdued, after five dwelling houses had been consumed. The house of Mrs. Bush was insured for \$1,500. The entire loss will aggregate \$5,000. Cause of fire not stated.

Pleasant Affair.—Brother Edward Cliff, of Mount Pleasant, writes an interesting account, which we cannot publish in *extenso*, of a party given to Sister M. F. C. Morrison, president of the Relief Society of that place, by her sisters of the organization, on the 58th anniversary of her birth. The happy event took place on the 5th inst. The Bishop and Counselors and other prominent citizens were in attendance. Speeches were made, and a present of a beautiful black silk dress pattern given to sister Morrison, as a slight token of the respect and esteem entertained for her and her many faithful labors in the cause of righteousness. An address was also read signed by Caroline Madsen, Christiana Peel, Caroline Simpson and Louise Hasler.

Wants to Emigrate.—William Millgate, of No. 11 Partridge Lane, Faversham, Kent, England, who has written to the News before in relation to his desire to emigrate to Utah, and his willingness to enter into an agreement to labor for his cost of emigration, renews his proposition in a letter dated May 25th. He is a cement worker by trade, of 13 years' experience, but will do any kind of labor in order to emigrate himself and family. It appears that his former communication was answered by parties in this city, but his replies to them were either never received or elicited no response. He mentions, as references, W. Driver, W. Paxman, C. W. Smith, L. Linden, and G. H. Taylor. For information of him, President A. Carrington, or Elder Roskelley can also be addressed.

Union Pacific Surveyors.—The Logan Leader says:

"Ten surveyors in the employ of the U. P. put up at the Cache Valley House last Friday night, and on the following day went on a special over the U. & N. to a point near Summit, where they left the road and proceeded to the 'narrows,' Bear River Canyon, where they commenced to lay off a grade. They seemed to be in a hurry to get on the ground. Our county surveyor, Edward Hanson, Esq., had been sent to the locality by the same party some days before the latter arrived, so as to make a show of surveying the road until the party should arrive and fix its location.

This move is doubtless intended to forestall the C. P. and the Utah and Wyoming, as both these companies had talked of running a road through Bear River Canyon, and is one of a series of maneuvers by which these companies are trying to out-general each other."

Killing Bugs.—On Friday night, the 3d inst., says the Logan Leader a lady named Jardi, wife of John Jardi, of the Fifth Ward of that city, being tormented with that species of animated afflictions known as "bed bugs," arose from her couch for the purpose of

making a raid on them. Their hiding places were the crevices of the walls of the house which is a frame building filled in between the studding with saw dust; she lighted her lamp and endeavored to roast them out. After searching some time she retired to bed for the remainder of the night; but was shortly aroused by finding that the house was on fire. The family made their escape from the building in their night clothing. The house was burned down, also a corral, in which were some chickens and a calf, all of which were destroyed. Mr. Jardi was away on the railroad at the time of the disaster. On Sunday night at the Fifth Ward evening meeting there was a donation raised to assist the sufferers, who are very poor and need the attention of the charitable. The pathetic side of the occurrence is almost equalled by the amusing absurdity of its origin. It reminds one of the woman who set her boy's hair on fire, and while he was yelling vociferously under the torture of the operation, consolingly said: "Grin and bear it my boy; there's no other way to kill 'em."

FOR SALE.

UNIVERSITY LETTER PAPER AT DESERET NEWS OFFICE.

ONE TWO-TON WAGON OR HAY SCALES, new. Apply at this office. One 800-lb. Platform Scale. Apply at this office. d95

Mitchell Wagons.

The large number of Mitchell Wagons to be seen going out daily is the best evidence of the great popularity of the old reliable Mitchell Wagon; a large stock on hand.

L. B. MATTISON,
Half block south of Theatre.

BURNETT'S COCAINE.

The best of all Hair Dressings. It allays irritation, removes all tendency to dandruff, and invigorates the action of the capillaries in the highest degree, thus promoting a vigorous and healthy growth of hair. Its effects upon the glossiness and richness of the hair is such as cannot be surpassed.

Burnett's Flavoring Extracts are the best.

Wood's Twine Binder.

I am now prepared to furnish a perfect twine binder; sample at my wagon yard in full blast.

Half block south of Theatre. s&w L. B. MATTISON.

SEE John W. Lowell's fine "Ad." in this issue of the NEWS.

Wood's Enclosed Gear Mowers.

I would call special attention to the new Enclosed Gear Mower. It has less machinery, easier draft, higher drive wheels, wider on axles, noiseless in operation. Ninety farmers can testify to the above who used them last season; no farmer should purchase a mower until examining the above.
