SENATE.
Land grant and Franchising Privilege.
In the Senate the bill relative to the land subsidy to the Central branch of the Union Pacific Railroad was discussed and Howard offered an amendment, agreed upon by both parties, which is to grant any lands in Nebraska to the Central Branch; the bill was then recommitted.
The bill abolishing the franking privilege was discussed till recess, and it is believed that the bill will go over till next session.

NEW YORK.
New Democratic Club—New line to the Falls—Reduction of Railway rates on cattle—Fisk and Drew have a satisfactory interview—Want rain.

NEW YORK.—The West Point examinations were progressing yesterday. President Grant is expected at the commencement of the week.

A new association of the New York Democrats opened new club rooms at No. 235, East Broadway, last evening, with a pleasant gathering.

Yesterday a contract was signed in the Erie office for the construction and completion of a new line to the Falls within ninety days.

Vanderbilt yesterday reduced his rates on cattle from Buffalo to Albany and New York via the Central and Hudson River lines, from one hundred and twenty dollars per car to forty dollars; the Erie people will, probably, make a similar reduction. It is reported that the Commodore has recently sold a large amount of his stock, and it is asserted in certain quarters that his rival Fisk has been the purchaser.

Fisk and Daniel Drew were closed together in the private parlor at the Erie office the forenoon of yesterday, and at the close of the interview it was manifest that a satisfactory arrangement had resulted therefrom.

The Master Car Builders' Association of the United States has been holding a secret business session at the St. Nicholas Hotel since Tuesday.

Reports from this State and from New England say that the crops suffered seriously for the want of rain until the beginning of this week, and that but little rain has fallen in Western New York for a month past.

ILLINOIS.
A warm session on the San Domingo Question—Davis' mansion offered to the Richmond Corporation.

CHICAGO.—The Tribune's New York special says the discussion on the San Domingo question is developing a great amount of bad feeling. The debate in the executive session, to-day, was for bitterness and excitement, such as few Senators ever before witnessed; the vote last Tuesday, on table 9 Shurz' resolution, was a tie, and the Vice President gave his casting vote in the affirmative. To-day an effort was made to obtain a reconsideration of the matter, when the Vice President was taken to task by several Senators, who declared it not decorous for him, as a part of the Administration, to stifle the debate, which he did last evening; three or four Senators got into a wrangle, almost without a precedent for the last few years, during which the tie was given and taken.

The War Department has sent a communication to the Richmond authorities and offers to surrender Davis' mansion, which the Government has been holding on the ground that it belongs to the Confederacy, if the city will relinquish all claims for rent or damages. The house was purchased by the city and presented to the rebel government as a residence for the President of the Confederacy.

VERMONT.
Some Particulars of the Rutland Railroad Accident.

RUTLAND.—The accident on the Rutland railroad is worse than was at first reported; only one man out of twenty-five escaped injury, three were killed outright, as previously reported, and two of the wounded—Douglas Flint, of New York city, President of the Boston, Saratoga and Western railroad, and A. R. Field, of Greenfield, Mass., Civil Engineer of the Greenfield and Hoosac Tunnel railroad—have since died. W. H. Emerson, of the Cambridge, Mass. canal line, and several others are horribly scalded, the flesh on their hands being literally cooked to the bone and falling off.

CALIFORNIA.
Corner Stone of the Nevada Capitol.

SAN FRANCISCO.—The officers of the California Pacific railroad deny the reported sale of the road to the Central Pacific Co. The State purpose building a branch through Santa Rosa and the Russian river valleys.

The corner stone of the State Capitol of Nevada was laid at Carson City, yesterday, under the auspices of the Grand Lodge of Masons, assisted by the Grand Lodge of Old Fellows.

FOREIGN NEWS.
GREAT BRITAIN.
Price of Provisions Rising—Charles Dickens' Death.

LIVERPOOL.—Flour, wheat, corn, pork and lard are rising in price.

LONDON, 6.—The London Globe in its last edition last evening startled the community with the announcement that Charles Dickens had been seized

with paralysis and was lying insensible at his residence at Gadshill, near Rochester, Kent; the news spread rapidly and created a most profound regard. The worst was still to come, as telegrams were subsequently received announcing the death of the great novelist at a quarter past six in the evening. Mr. Dickens was at a dinner on Wednesday, when he was seized with the fit. Dr. Steele, for many years the family physician, was immediately called in and remained till near midnight, when his condition becoming worse, and worse it was deemed advisable to summon physicians from London. Telegrams were dispatched and this morning several London physicians arrived; a consultation was held and the case at once pronounced hopeless. The patient sank gradually and died at fifteen minutes past six. Dickens had been ill several days, but not seriously; he had even visited Rochester and other points during the present week.

The Morning Post says, Charles Dickens did more than any contemporary to make English literature liked and admired.

The Telegraph regards the distinguished dead as a public servant whose task has been nobly fulfilled.

Another account says that Dickens was entertaining a dinner party at his house at Gadshill, when Miss Hogarth, who sat next him, observed faint signs of distress upon his face and remarked to him that he must be ill; to this Dickens replied, "Oh, no! I have only got a headache, and shall be better presently." He then asked that an open window be shut, and almost immediately became unconscious and fell back in the chair insensible. He was immediately conveyed to his room, and medical attention summoned. His son and daughter remained steadfast by his bed side until his death.

It is stated that Dickens has several times, of late, complained that he experienced difficulty in working, because his powers of application were becoming impaired; he said that his thoughts no longer came to him spontaneously as in former times. He had received medical aid, and called upon physicians, who warned him not to continue reading, because he was doing so at the peril of his life.

The death of Dickens has plunged the nation into mourning; all the London papers have obituaries. The Times says that ordinary expressions of regret are now cold, as millions of people feel it to be a personal bereavement. Statesmen, savants and benefactors of the race, when they die, can leave no such void; they cannot, like this great novelist, be an inmate of every house.

The News says that, without an intellectual pedigree, his writings form an era in English literature. He was generous, loving and universally beloved. He leaves, like Thackeray, an unfinished story.

Correspondence.
SALT LAKE CITY, June 11th, '70.
Editor Deseret News.—Dear Sir:—

Learning that a certain photographer in the city had succeeded in photographing a spirit from the other world, I called in and looked at it in company with some friends. He showed us a plate on which two pictures were faintly visible, yet we are convinced that no spirit had anything to do with it, unless it was the spirit of alcohol. This double apparition in photography is quite a common occurrence, as all experienced photographers can testify. It may be caused in various ways. We are satisfied that in this instance the apparition was the result of an imperfectly cleaned plate, upon which the likeness of Captain Storey had previously been taken, and when the likeness of the little girl was taken, it became re-developed. I deem it necessary to make this explanation, as an impression is beginning to prevail that the gallery is haunted by spirits from the other world, and such an impression might injure the business there. There are several photographers in the city who are prepared to furnish any number that may be required of such spirit photographs.

Respectfully,
SPECTATOR.

THE WONDERS OF COMPOUND INTEREST.—But few people have anything like an adequate sense of the vast cumulative power of compound interest. Some mathematically inclined person recently published in a New York paper the amount of a cent supposed to be out at compound interest at the birth of Christ and continued at interest up to 1870. The amount thus stated was expressed by forty-five consecutive figures, which, however, even at that, seems to be far from the mark. Professor Klinger, of the Hannum Commercial School of this city, has gone to the trouble of making the calculation, and finds the amount expressed in forty-eight figures, thus: \$2,098,785,469,721,770,280,517,336,007,361,941,519,962,773,447,38—or nearly three times the amount given by the New York paper. It is supposed that the New York mathematician discarded some of the decimals in the beginning of his computation, for it is evident that even the billionth part of a cent must produce an enormous sum at compound interest during 1870 years, if in that time a cent would produce an amount incomprehensible by the human mind, and which the mathematicians tell us would exceed the value of seven quadrillions of globes of pure gold, each of the size of our earth, and rating the gold at \$20 an ounce!

The amount of a cent at simple interest for the same time, 1870 years, would be but \$1.12.—The New Northwest.

CURTIN MODELS—PRICES REDUCED TO MEET THE TIMES!—The merits of this system for Cutting all kinds of garments worn by Ladies, Gentlemen and Children are known by scores of ladies in this City and Territory; but the sure way is to prevent for one's self which may be done without charge. This system removes all anxiety regarding the FIT of garments, as all its directions are absolutely positive. There will be no altering—no taking up or letting out, which not only injures the material but destroys the proportions and often ruins the garment. The system is very simple and can be learned in a few hours.
CASH and PRODUCE taken.

ELGIN WATCHES!
MANUFACTURED BY
The National Watch Company

All the grades of the Elgin Watches INCLUDING THE
"LADY ELGIN"
READY FOR
SPRING TRADE.

The company also call the attention of Watch buyers to the fact that the Elgin Watches now offered have an added improvement over all others, in a new

PATENT DUST EXCLUDER,
So constructed as to enclose the works, and form a protection against dust, enabling the movement to remain in order without cleaning double the time that a watch will ordinarily run without this protection.

The company feel confident, after having had their Watches three years in market, and selling many thousands of them in all parts of the country, that the Elgin Watches are the best time keepers now offered to the American public.

OVER FIVE HUNDRED DEALERS
In various parts of the land have unreservedly endorsed them. They are in use upon numerous lines of Railway, including the Union Pacific and the Pennsylvania Central, and officers of these roads, with other prominent R. R. officials, endorse them as the best watches for the use of R. R. employes and travelers yet introduced.

The following are presented as specimens of these testimonials:

TESTIMONIAL.
UNION PACIFIC R.R., OFFICE OF GEN'L SUPT, OMAHA, Dec. 16, 1869.
Hon. T. AVERY, President National Watch Co., Chicago, Ill.
Dear Sir:—During the month that I have carried one of your "B. W. Raymond" Watches it has not failed to keep the time with so much accuracy as to leave nothing to desire in this regard. For accuracy in time keeping, beauty of movement and finish, your Watches challenge my admiration, and arouse my pride as an American, and I am confident that in all respects they will compete successfully in the markets of the world, with similar manufactures of other nations. They need only to be known to be appreciated.

Yours most respectfully,
C. G. HAMMOND, Gen'l Supt.

OFFICE OF THE HUDSON RIVER RAIL ROAD, Gen'l Supt., New York, Jan. 17, 1870.
T. M. AVERY, Esq., President National Watch Co.
Dear Sir:—The Watch made by your company which I have carried the past two months, has kept excellent time. I have carried it frequently on engines, and have been on the road with it since daily. During this time it has run uniformly with our standard clock.

Truly yours
J. M. TOUCEY, Gen'l Supt.

The following dealers also, in various parts of the country, have certified that they consider the Elgin Watches to be all that the company have advertised them, as better finished, more correct and durable, than any in market of similar price, and that they have great confidence in recommending them to the public, on account of their general merit.
