Thirty-five miles above Port Arthur lies the city of Dalny, built up by Russia in the past few years. While not so difficult of approach as Port Arthur, the great Russian naval base at the end of the Liautong peninsula, Dainy is splendidly protected from sea attack, as a view of the jutting promontories shown in the cut readily demonstrates. The harbor is in full view in the picture, and the town, which literally came into being at the czar's order, lies back of it.

New York, March 10 .- Thomas J New York, March 10.—Thomas J. Maguire, treasurer of a theater here and widely known in the profession of the stage, has said farewell to his friends in preparation for a surgical operation, which will deprive him of ever speaking again, if, indeed, he survives with his life.

Maguire came here in 1881 from San Francisco, where he had been treasurer of two leading theaters. For years h has smoked 25 or more cigars daily and this, it is supposed, started a cancerous growth at the roots of his

tongue. Thinking little of the irritation, Maguire neglected consulting a doctor until recently and then it was found that the removal of his tongue would be the only means of saving his life Maguire, after long deliberation, decided to undergo the operation, but so greatly has it preyed upon his mind that his hair is said to have turned snowy white in the past six weeks.

BIGELOW CARPETS

The Carpets made by this Comanpy have received the highest award wherever exhibited, including Gold Medals at the Paris Exposition, 1878, and at the Centennial, 1876.

Their deserved reputation for excelience of fabric, richness and durability of color, novelty and beauty of design, has led to frequent infringements, and inferior goods have often been paimed off in their stead. For the protection of the public the Company has adopted as a trade-mark the word "BIGELOW," which will be woven (at every repeat of the pattern) in white capitals into the back of the fabric. Customers will therefore have merely to examine the back of a carpet to be certain that they are getting the genuine Bigelow Carpets.

These Goods can be obtained from all first-class dealers. BIGELOW CARPET COMPANY. NEW YORK.

MAP SHOWING POINTS OF PROBABLE EARLY RUSSO . JAPANESE ACTIVITIES.

Japan is manifestly carrying on a triple campaign against Russia, with isolation as the keynote. The first and elash of great importance is likely to occur between Pingyang and Wiju, Korea, but no matter how serious the engagement much how the broad strategic plan. the engagement may be it will be, from the Japanese standpoint, but a preliminary in their broad strategic plan. Their dealer is to isolate the Liautong peninsula, on which are located Dainy and Fort Arthur, both of which points, it is expected which are 100 million be reduced by a long siege if not by assault. The troops now north of Pingyang and those which are 100 million be reduced by a long siege if not by assault. these which are 100 miles or so south of Viadivostok will try to cut off Viadivostok and nearby towns by de-stroping the railroad miles or so south of Viadivostok will try to cut off Viadivostok and nearby towns by destroping the railroad to the west. This done, it is the purpose to march against Mukden, a large number of the itray in Korea being detached for that purpose and forming a junction with as many of the Liautong investing division as can be used to that purpose and forming a junction with as many of the Liautong investing division as can be spared. With this end in view, the Japs are said to have siready landed a large body of men at Saddle bay, which it is almost midway between Mukden and at Saddle bay, which is a point of particular strategic advantage, as it is almost midway between Mukden and Fort Arthur. Then is a point of particular strategic advantage, as it is almost midway between Mukden and Fort Arthur, Then, too, a short march inland will bring the troops to the railroad, and it may be the policy of the Japanese to door too, a short march inland will bring the troops to the railroad, and it may be the policy of it the Japanese to destroy it in both directions, provided they should be unable to make any appreciable use of it for the transportation of the north and to Port Arthur for the transportation of their men and supplies a portion of the way to Mukden on the north and to Port Arthur en the south. It appears their men and supplies a portion of the way to Mukden on the apparently triumphant en the south. It appears now to be the policy of Russia to continue falling back, leading the apparently triumphant Japa to a strongly intrenched point, where an overwhelming force will be awaiting them. In accord with this plan is the off repeated plan is the off repeated statement that the Russians will temporarily make Mukden their base, falling back if accessary upon Harble scessary upon Harbin, where it is believed they are devoting their entire energies to getting ready for a de-citive battle. The breakting of the projected camclaive battle. The breaking up of the ice in Chinnampo harbor will lessen the difficulties of the projected campalga against Vladivostok, as it is very much farther north than Chemulpo, where the Japs have hitherto been obliged to land their costs, as it is very much farther north than Chemulpo, the plan of the mikado's biliged to land their armies of invasion primarily destined for service in Korea. The plan of the mikado's board of strategy to sinhes of invasion primarily destined for service in theory, and the events of the pext few being of strategy to tighten simultaneously the three strings is good in theory, and the events of the next few weeks are likely to demonstrate its value, or otherwise, in practice.

Proper Treatment of Pneumonia. Pneumonia is too dangerous a dis-ease for anyone to attempt to doctor himself, although he may have the proper remedies at hand. A physician should always be called. It should be borne in mind, however, that pneu-monia always results from a cold or from an attack of the grip, and by the proper treatment of these discases a threatened attack of pneumonia may be warded off. There is no question whatever about this, as during the 30 years and more that Chamberlain's Cough Remedy has been used, we have yet to learn of a single case of a cold or attack of the grip having resulted in pneumonia when this remedy was used. It is also used by physicians in the treatment of pneumonia with the best results. Dr. W. J. Smith, of Sanders, Ala., who is also a druggist, saya of it: "I have been selling Chamber-lain's Cough Remedy and prescribing it in my practise for the past six years, I use it in cases of pneumonia and have
