One Schoolbert will blodly neitly J. T. Douber, structure), of only unequiarity in list delivery of

PRISIDENT BEKINLEY WANTED.

It is suggested by a country colem porary of intense Republican procisivities that President McRinley should not visit Unto during the Prosver Judies for the research that the State gave such a great majority against him let state. This is queer logic, or rather a queer pervention of logic, and shows that ourmeitlied realty to political organizations leads at times to utterances and actions insta are not in harmony with the gentics of American institutions. Mr. McKinley is President of the United States, and of the Republican party; one of these states at Ulab, and it constitutes a political piliar of any sther sheetin does not after the Important fact in the least not does ine hoefile majority show of tent it show that the propie thomselves are health or even suggest in the faintess manner that the President would not be an warmly welcomed and hoepitably enterfained as Ihough his name were William J. Stryan instead of William McKinley; for personally Mr. McKinley in presenting Mr. McKinley in presenting Mr. McKinley in presenting the name were with an J. Stryan instead of William McKinley; in presenting the name were within an J. Stryan instead of William McKinley; in presenting the lease beauties the for executive will be able to stand our celebration. He has been been thefore and nothing occurred at that time the outer of the street would not be substanting the properturally. Such opportunity, such opportunity has not yet been presented, but it will be forthful or reasonable Unes before the Judice begins the President that constitute in the limited of the processor. It is already as much of the processor.

UNITED STATES AND CUBA.

The message of President McKinley, salting for funds to relave A mericans in Cuba, and the wastness men's petition to the government, requesting that this saiton "determine upon the expediency of taking measures which may facilitate an honorable reconciliation between the contending parties" as the island, may not cut any immediate figure in the settlement of the dispute that is new causing such feerful have and suffering on the "genu of the Antilley" yet their effect certainly cannot be of a character extensity favorable to a continuation of Spanier insatility for meintain her confrol on the island for very long, and also formish a congestion for farither action by the United States.

The headures is like the Sanzine The Sanzine of The Sanzine Tax.

in refining to consider them favorably.

Up to the present this government has had no real reason for an action undrisedly to Spain, such as nations and to tening elamored for. But it has had cause to limit of friendly intervention, sout the demand for this cow seems to be imperative in the force events have taken. Then, if figure and the control of the company of the control of the company of the control of

AN AZTEC MANUSCHIPF.

A valuable arctive logical find in the shape of an Ax so manuscript has been made by a laboring man of Fairfield, lowa. While sungaged in excavating for the wederworks of that city he discovered what appeared to be an ordinary chunk of wend, the surface, it eithensions being one foot in length, sight inches in width and diver set is faches in thickness. When it was bricken copue, it was lumid a contain a rich of high that covered in our side with a hieroglyphics. The character will of brick lark coverad in one side with a hieroglyphic. The character will of brick lark coverad in one side with a hieroglyphic. The character of the hart of signantial excatals are made with red signantial contain red in the character of the hart of signantial the character of the hart of the arctive cinquial massum of the Ohie state intivarily.

All doubt is set at rest as to the character of the hart of the arctive cinquial massum of the Ohie state intivarily.

All doubt is set at rest as to the character of the hart of the arctive cinquial massum of the Ohie state intivarily.

All doubt is not at rest as to the character of the hart will be also the character of the hart will be an to the outside of the south familiar with the signatural to appear that the record originally was considered of mire than continuous turportance. Unfortunately no key to the interpretation of the Artee hieroglyphics at the two distribution of the Artee hieroglyphics at the two distribution of the Artee hieroglyphics will be record for unvalled by the ordinary resources at the service of sciences?

The advance in printing machinery the past few years has been very marked, until new not only wentlerful web-presses turn off their thousands of completed passes per hour, but more wonderful type-etting or casting machines take a field that formerly was believed by many to be unapproachable with machinery. In the type-etting or casting machines take a field that formerly was believed by many to be unapproachable with machinery, in the type-etting or casting law there have been very many inventions, some of most excellent charactery and of those perfectly to the present the linolype leads all others for newspaper work. Efforts are guite on is surpass it, but when these will be successfully set remains for the future to develop.

But while newspaper work. Efforts are guite to consecutely set remains for the include of the work, where longer times of malica are to common use, it yet for from being well accounted by any machines as a leafed by general use. It is because of this that continued of the law to the l

whatever, toryour the potting on acut taking off of the galloys containing the column of matter. The beckming description of the mechine's operations are interesting only to those specially concerned in that besiness. But the executation arrived at, that it the Justice of the concerned in that besiness about a partie mechine secure absolute, making no room for carelessues of bed judgment, so distort, so discover, if correct, it makes another long sixted in the act of predoming good beckwick comply to meet the demands and meets of the reading potter.

### ANDREES POLAR EXPEDITION.

Professor Andree, the Swedish ex-dorer, the again completed his prepar-tions for an Artille trip in his balloon, and annumous that he is really, to tast for Spirzoergou on the 20th of and anisomous that he is ready to mart for Spirzenegue on the 20th of Jans. His balloon has been unlerged and further improved or means of a varieth expectally invented for his mid conveyance. He has also an inguistry control of the mid conveyance. He has also an inguistry existe not a security on the ground and arrest the progress of the balloon. This device consists of a cylindrical melal case white not be made and in the first of the case are two sharp knives driver forward through the explosion of gun-powder, thus cutting the line. It is bonived that the winder at Spitzbergen has been mids, and that the exploration will find the sea free from ico.

Probesor Addes believes that the conditions for Antile explorations as more favorable this year, as the bolieves the plan unittedly to succeed. Mr. Hifmidberg, an amantismits at the university of the calmon, and Mr. Finckes, a civil engineer, are to be the companion this time.

"Y Dryon," the Weins Accertees newspaper, published at Uries, N. Y., has an article on the coming Jaulies from the pen of Ivan as 1 stop of the City (first vice president of the Camerian acceptance) and the propositive visit of President McKinley to Urst, and expressing the bops that he will neste the trip.
