ALL New York companies, however, find it hard to make a will of their own money, and all of them are in a state of financial confusion. Their cash is all tied up in the stock market, and it is not likely to be cut down, and a number of the smaller institutions are in a state of financial liquidation. It will leave the field open for some daring speculation. The companies are not yet, except the first, in a position to make a will of their own money, and they are all in a state of financial liquidation. DESERET WEEKLY.

The sixth volume of the **DESERET WEEKLY** in this present form is now bound. A limited number of copies of these six volumes can be obtained at the **DESERET NEWS** office, Salt Lake City, in bound form at \$1.00 per volume. It is the last history of current events to be compiled, and by far the cheapest, and one time is not so distant when they will be eagerly sought after by students of history, who can be so informed of the striking events which have transpired within the past three years—his most interesting period of the history of the Latter-day Saints. Every person who can afford it should know these volumes while they are to be had for future reference, and especially should they be obtained for every Sunday School, Improvement Association and Ward Library, simply as a means of securing them.
