The Railways.

SAN FRANCISCO, August 4.—Daniel W. Strong, of San Diego, testified before the Pacific

RAILWAY COMMISSION

to-day, that he was one of the original stockholders and a member of the first board of directors of the Central Pacific. He stated that Huntington, Hopkins, Crocker, Stanford and Miller really composed the board, and that they managed the road regardless of the opinions of the majority. Witness stated there seemed to be a disposition to take advantage of the stock subscribers, and finally he concluded to resign from the board and made an application for his stock, but did not receive anything for it and never made efforts through the courts to recover, though strongly advised to do so. A letter written by Strong was also produced before the commission, in which he stated that during the construction of the road through the Sierras,

STANFORD AND CROCKER

swore to an affidavit that the foot hills commenced at Arcade Creek instead of Dry Creek, as laid down by T. D. Judah and himself, who was chief assistant. Witness also claimed the subsidy was $16,000 per mile for the foot hill section, a distance of 22½ miles. Huntington's affidavit which Judah refused to sign, as well as himself, gave $32,000 per mile, while there was not a cut or filling of three feet the whole distance. Strong stated further in regard to his refusal to sign the affidavit concerning the location of the foot hills: "I did decline to sign that affidavit. I think either Huntington or Crocker asked me to sign it. I was asked to sign it shortly before construction was commenced. It was while I was a director. When I was asked to testify that the land was a foot hill, when I had already testified that it was valley land, I

SIMPLY REFUSED."

Strong was asked for papers to verify these statements, which he promised to produce. Strong also denied having received several sums of money, amounting to nearly $10,000, payment of which was credited on the company's balance sheet in 1883.

SAN FRANCISCO, August 4.—Competition among the railroads having resulted in the whittling down of rates on canned goods to a very low figure, California shippers are now sending large shipments of canned fruit to Chicago, St. Louis and other eastern points. The rate to Chicago, St. Louis and Missouri River is seventy-five cents per 100 pounds. To New York the rate is $1, while to Ogden, where there is no competition by rail, the rate is $1.28. It is estimated that

THE SHIPMENTS

will be nearly double those of any previous year.

WASHINGTON, August 4. — Liebes Bros. & Co. of San Francisco, complain to the Inter-State Commerce Commission that the Texas & Pacific and Southern Pacific railroads charge $2.25 per hundred on freight to Houstor or Galveston, Texas, while to other points much nearer San Francisco they charge $4. Complainants are consequently compelled to ship to Houston or Galveston, there to be shipped back to destination. They ask for investigation and relief.

LONDON, August 4.—Four thousand employes of the Midland Railway threaten to strike against an edict of the directors placing them on time wages.

POLITICAL POINTS.

Kentucky Republicans Badly Defeated—Texas Defeats Prohibition, Etc.

LOUISVILLE, August 4.—The *Courier-Journal* has reports from 74 counties out of 119. These cast 77 per cent of the entire vote in 1884, when Cleveland's majority was 34,839. In these counties the reduction of Cleveland's vote has been 9,228. Applying the same ratio to the remaining counties the reduction in Buckner's vote will be 11,984. This will leave a democratic majority of 24,851. The returns during the past 24 hours show that the republicans do not maintain their previous gain.

VIRGINIA DEMOCRATS.

ROANOKE, Va., August 4.—Chairman Barbour, as chairman of the democratic state committee, was not willing to take the responsibility under the circumstances of conducting a campaign of so much importance without a convention. He eulogized President Cleveland and said he was the best President we had had for a quarter of a century.

The speech was loudly cheered. After quiet was restored, Barbour nominated Samuel H. Moffit, of Rockingham, temporary chairman.

Moffit, upon taking the chair, eulogized the administration of President Cleveland, and the cheers were so great the speaker was interrupted several minutes. He created the greatest enthusiasm when he said Cleveland's administration was the most American and the

MOST HONEST

the country had had during the last half century.

John Bell Gigger was chosen secretary, and the convention temporarily adjourned.

Hon. John Goode, of Norfolk, Virginia, was made permanent chairman and addressed the convention, declaring in favor of the Riddleberger bill as a finality in the settlement of the state debt.

The platform endorses the administration of President Cleveland, demands the repeal of the internal revenue system, favors the raising of a revenue requisite for the support of the government by tariff on imports, limited to the necessity of economic administration and equitably adjusted in its application; approves the action of the special session of the legislature, in its negotiations with the British holders of the

STATE BONDS,

and pledges the party not to concede better terms than those offered. The party pledges itself to urge upon Congress the justice of its practical recognition of Virginia's equitable demand for compensation for her past munificent concessions of territory to the federal government, and also for the loss to Virginia by the dismemberment of her territory, and the consequent reduction of her taxable value. The platform reasserts the determination of the party to "liberally provide for our disabled soldiers," and declares the state should provide for the widows of soldiers who died in the defense of the state. The party is pledged to support the public school system, foster agricultural pursuits and protect labor as far as practicable against convict competition and against

PAUPER IMMIGRATION.

It protects against granting lands to railroads, and asks legislative action against the unnecessary absorption into the treasury of the United States of the currency of the country in the shape of revenues collected and withheld from circulation as unjust, unwise and dangerous to the continued prosperity of the people.

FORT WORTH, Texas August 4.—The prohibitionists admit their defeat in the State by 15,000 majority. The anti-prohibitionists claim 50,000 majority. Sixty-one towns give 4,017 majority against prohibition.

Casualties.

GREEN BAY, Wis., August 4.—A beer kettle in Raper's brewery exploded last night scalding seven men, six of whom died during the night. They are August Delforge and two sons, J. B. Haibe, John Blemeret and George Haibe. Delforge and Blemeret leave families. The kettle had 700 barrels of boiling water which poured over the victims, literally cooking their flesh.

CALUMET, Mich., August 4.—The Calumet and Hecla mine is on fire at the 16th level. Immense volumes of smoke are issuing from No. 3 shaft. In the Hecla branch of the mine, the miners have gone down to shut off the fire from the Black Hills portion of the mine. No lives are lost.

CINCINNATI, August 4.—A wind storm visited Corraville late this afternoon and blew down a building on which carpenters were working, injuring ten of them, some fatally.

DAYTON, Ohio, August 4.—In the parade of the Ohio brigade of the Knights of Pythias to-day, six officers and twenty one Knights were prostrated by the heat.

Foreign Facts.

LONDON, August 4. — Sir Michael Hicks-Beach has returned to England. His eyesight is slowly improving.

The Krupp firm at Essen, will institute actions against several Italian journals for having alleged that the firm had failed.

A dispatch from St. Thomas says: Letters received at Stanley Pool from Henry M. Stanley, announce that the expedition arrived at Aruwimi Wells on June 18th; that all the members of the expedition were well, and that preparations were being made for the overland march.

A Sofia dispatch says: The government has ordered that the state yacht, which is devoted to the use of the reigning princes, which is at present moored at Rustchuk, be prepared for the reception of Prince Ferdinand, of Saxe-Coburg-Gotha. Prince Ferdinand will go on board at Arasona, as he does not wish to touch at any place in Roumania.

Crown Prince Frederick William underwent another operation by Dr. Mackenzie for the growth in his throat yesterday. The results of the operation were good. The crown prince goes to Cowes to-day. His general health is excellent and his voice is improving. Dr. Mackenzie has advised the German Crown Prince to postpone his visit to Ems in order to enjoy the bracing air of Scotland. The Queen has urged the prince to stay at Balmoral and the prince has sent an agent to select a residence for him in the Highlands.

Washington Notes.

WASHINGTON, August 4.—G. H. Mendell, United States engineer, in his annual report upon Oakland harbor improvements in California, asks for an appropriation of $500,000 for expenditure during the next fiscal year. He proposes to devote the money to the repair of the north jetty and to finish the tidal prison by dredging the basin and cutting San Leandra Bay. The increase of commerce, he says, causes applications to be made for speedier accommodations than can be expected from the project if carried out according to the authorized preject. Already a considerable departure has been made from the

ORIGINAL PLAN

in dredging the channel between the jetty. The channel in front of Oakland is only 100 feet wide, and it would, Col. Mendell says, certainly be an advantage to have this width doubled if sufficient appropriations are made. Some immediate relief might be given while yet following the original plan. He submits the following revised estimate for completing the improvement: To finish the jetties, $38,886; dredging the channel between the jetties to the width of 500 feet and a depth of 22 feet lower water, $356,940; San Leandro Canal, $413,442; San Leandro dam, $16,267; excavation of tidal basin, $15,000; dredging channels in inner harbor, 300 feet wide, 20 feet at low water, $129,585; bridges over canal, $200,000; the extension of south jetty is necessary for 2,000 feet, $150,000, contingencies, $132,000. Total, $1,590,024.

COLONEL MENDELL

asks for $400,000 for next year's expenditures on Redwood Harbor, California, to complete the projected improvements.

The Siamese princes and suite reached Washington at 8 o'clock this morning. They visited the public buildings and places of interest in the city to-day, and will pay their respects to the President to-morrow.

Nothing can be learned at the State Department with regard to the Toronto dispatch asserting that the proposals for a settlement of the fisheries dispute have been recently submitted by the Washington authorities. Governor Porter, acting Secretary of State, refused either to confirm or deny the story.

The Mooney Man.

NEW YORK, August 4.—Mooney's effects were found in a zinc-covered, oak-bound trunk, and two valises all carefully packed as though the man had made preparations for a hasty departure. In the trunk were found two pieces of gas pipe, a package of powder, sulphur, phosphorous crystals of chloride of potassium, several glass tubes and some blasting caps for Atlas powder, besides clothes and a note book. There were pictures of

DR. M'GLYNN

and a few personal letters; several yards of fuse and a box of draftsman's instruments completed the list. The pipes were of heavy brass, of unequal lengths and about one-third of the distance from one end of each was a cock which the police did not attempt to turn to-day. The shank of the cock was of a soft material that could be eaten away by acid placed in the smaller end of the chamber and thus explode the contents of a larger. Captain Jostlyn, who made the examination, remarked: "Mooney was ready to blow up a fleet."

Mooney was arraigned in the court to-day and took occasion to say he is is not an ex-convict. The police showed the chemicals and

INFERNAL MACHINE

and told how search in the bath room of the house where he lodged revealed the corrosion produced by acids that he had used in his laboratory. Mooney said he was an inventor, that these were part of his experiment materials. That he is now engaged on a torpedo boat and had received letters from the Secretary of the Navy about it. He had, he said, also been in communication with the secretary of the French navy. He had not yet secured a patent and did not want his business exposed. He was remanded for examination as to his sanity.

The Criminals.

CHICAGO, August 4.—The *Daily News* has the following dispatch from Justice A. M. Craig, of the supreme court of Illinois:

"ORCHARD, Mass.

I have made no statement to any person in regard to the result of the anarchist case now pending in the supreme court.

(Signed) A. M. CRAIG."

MONTREAL, August 4.—A detective, who is after

M'GARIGLE,

telegraphed from St. Catherines to-day that the judge there refuses to endorse the warrant issued from here. He is now on his way home. The attorney-general of Ontario, it is said, has also refused to sign the warrant, and a mandamus will be asked for to compel the judge to sign the warrant.

JERSEY CITY, N. J., Aug. 4.—Detectives to-day arrested George Farth, the noted burglar, who is wanted for the burglary of Fairchild & Co.'s jewelry store in Bridgeport, Connecticut, on July 7th. The safe was broken open and $15,000 worth of diamonds and jewelry stolen. He returned recently from a

PROFESSIONAL TRIP

to Europe, which is said to have been very successful. In his lodgings a startling array of burglars' tools were found, including jimmies, wedges, lockpicks, saws, braces and bits of all kinds, over 500 keys of various shapes, wax impressions of keys and books containing cipher entries. Ten pounds of dynamite cartridges were found buried in the yard. The detectives say it is the most complete burglar outfit they ever saw.

ST. LOUIS, Aug. 4.—The *Post-Dispatch* has a dispatch from Black Island, Long Island Sound, which states that P. W. Fountleroy, one of the attorneys of Hugh M. Brooks

ALIAS MAXWELL

presented to-day the case of his client to Justice Miller of the United States Supreme Court, who is stopping at the Ocean View Hotel, and obtained from him a writ of error in the case.

CHICAGO, August 4.—Sarah Wheeler, the noted woman horse thief, who has been in jail here some time waiting trial for failing to return a livery rig, was convicted to-day and given a sentence of three months imprisonment. She has had an exceptionally adventurous career, having been at one time a participant in the exploits of Charley Mead, the notorious horsethief in the northwest.

Temperance Catholics.

PHILADELPHIA, August 4.—Solemn requiem mass for the souls of deceased members of the Catholic Abstinence Union of America was celebrated this morning in the cathedral. At a subsequent meeting, a committee composed of one member from each subordinate union was appointed to prepare a plan of celebration of the jubilee of Pope Leo XIII. The most important business of the day was the reading and the adoption of the report of the committee on resolutions. It is quite lengthy and contains mostly a pledge to put forth further exertion in the cause of temperance. Reference is made to Ireland in the following resolution as part of the report:

Resolved, That while we welcome as true citizens the coming anniversary which commemorates the

CHERISHED TRADITIONS

and the hallowed memory of American liberties forever associated with Philadelphia's independence, we also hail beforehand as lovers of liberty the world over and of the children of the still divided Gaels, the coming declaration of Ireland's independence, and pledge anew to aid its coming with our unceasing efforts, our resources unfailing and our undying devotion.

The report concludes with this resolution:

Resolved, As an additional means of furthering our grand and noble and holy undertaking, that the union recommends to the societies the formation of a cadet corps and semi-centennial celebration in April, 1888, of the signing of the pledge of our national temperance apostle — Father Theobald Mathews.

The Commons.

LONDON, August 4.—In the Commons this evening, Thomas M. Sandys, conservative, asked whether the government was aware that the object of Mgr. Persico's investigations in Ireland was practically to make a political, though nominally a religious inquiry into the condition of the country.

W. H. Smith said he wasn't cognizant of the papal mission, having had no communication from the Pope on the subject.

King-Harmon, under secretary for Ireland, In reply to a question by Patrick O'Brien, denied that Collins, of Boston, had been watched. In accordance with the existing practice, the luggage of Collins upon his arrival in Ireland was searched in common with that of other persons.

COLORADO NOTES.

Specials to the Denver *News*.]

Accidents at Leadville.

LEADVILLE, Colorado, August 2.—The boiler in the shaft house of the St. Kervin mine exploded this morning, doing much damage and fatally scalding the day engineer, A. H. Smith. The unfortunate man was blown between one and two hundred feet. He died in great agony this evening.

Engineer Marton slipped on his switch engine this afternoon, and had his foot cut off by the wheels.

No Strike Thought Of.

PUEBLO, Colorado, August 2.—Locomotive engineers here state that there is next to no truth in the reports telegraphed from Denver last night that a strike among engineers on the Denver and Rio Grande Railway is imminent. There are no grievances and Chief Engineer Arthur is not coming and nobody expected him to come.

A Coal Miner's Strike at Gunnison.

GUNNISON, Colo., August 2.—This morning the coal diggers at the South Park coal mines at Baldwin, to the number of 150, quit work on account of a difficulty with the superintendent. It seems that the miners made a demand upon the superintendent that he should instruct the car pushers to place the empty cars in the chamber where the miners were at work instead of leaving them at the entrance as has been the custom heretofore. The superintendent refused to accede to this demand, saying that no mine in the state was required to do this. The men refused to go to work this morning, and all operations are suspended. Some 250 in all are thrown out of work.

A report reached here this afternoon that a four foot vein of anthracite coal had been discovered at Pittsburg, six miles north of Crested Butte, in a claim which is owned by a wealthy Topeka, Kas., company. The manager of the company, a Mr. Pierce, is now on the ground, and he says that the company will build a railroad to a distance of three miles to connect their property with the Rio Grande at Anthracite, and also extend the line over to the marble ledges on Crystal creek, in which they are interested, if such a thing is possible.

The county commissioners to-day let a contract for the building of a road to Paradise Gulch, in that vicinity, at which point some wonderfully rich mines have been opened in the past year, and which now have some ore to ship. The people of the northern part of the county are jubilant to-night over the many substantial improvements which are contemplated in that section.

CRITICAL ANALYSIS.
UNIVERSITY OF DESERET,
Salt Lake City, June 8th, 1887.
By carefully examining DeLand's Chemical Baking Powder with the microscope and with chemical reagents, I find that it is free from **Alum, Starch, Flour, Bone Ash, Ammonia and White Earth**; and that it consists essentially of Cream of Tartar and Bi-Carbonate of Soda.
The Baking Powder examined I purchased at Barnes & Davis, in this city.
J. T. KINGSBURY, Chemist.
