SOUTHERN CONFERENCE.

SEMI-ANNUAL CONFERENCE OF THE SOUTHERN MISSION.

> Sunday, November 6th, 10 a.m.

Prayer by Elder James G. Bleak.

Singing. Elder James G. Bleak spoke of the object of the gathering of the people to Utah and of the necessity of their continuing to show the character of their faith by increased good works. He taught them in relation to the law of tithing, and concluded by exhorting

them to elevate themselves socially and

morally, as well as religiously, according to the spirit and requirements of the gospel. Patriarch William G. Perkins follewed and expressed his gratitude for, and appreciation of the privilege of hearing the will of God as revealed in this our day, and exhorted the people to be diligent in serving the Lord of

Hosts. Singing. Benediction by Elder Joseph W. Young.

New Improved Silent

The Best in the World,

THE SINGER FAMILY MACHINE

Has been brought to perfection, regardless of time, labor or expense and is now incompar-ably the best Sewing Machine in existence.

It is simple, compact, durable, beautiful, quiet, light-running, and capable of performing a range and variety of work never before attempted upon a single machine; using either Silk, Twist, Linen or Cotton Thread, and sewing with equal facility the very finest and coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner.

Sen., John Taylor, Wilford Woodruff, Charles C. Rich, Lorenzo Snow, Erastus Snow, Franklin D. Richards, George Q Cannon, Brigham Young, jr., Joseph F. Smith and Albert Carrington members of said Quorum.

a.m. and 2.45 p.m.: arrive at Ogden 7. a.m. and 5.8 ming, (any width) Braiding, Embroidering, Magic Ruffling, Gathering and sewing on (at the same time) Self-Sewing, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are novel and practicable, and have been invented and adjusted especially for this Machine.

Folding Tops and Cabinet Cases. New designs of the unique, use'ul and popular Folding Tops and Cabinet Cases, peculiar to the Singer Machine, are in every variety of Wood, such as black Wainut, Mahogany, Rosewood, Satinwood, and from the plainest to the most elaborate pattern and finish. The Machines themselves are plain or highly ornamented with pearl and gold to correspond with their tables or cabinets.

In the Singer the work is fed or passed through the Machine in the natural direction, namely, from the operator, permitting her to sit in a natural and healthy position. In many other Machines the work passes from right to left, or the reverse, compelling the operator to sit in a bent and unhealthy position, and thus causing the bent and unhealthy position, and thus causing the left of the back significant of the same was greater in amount than that of any other Company in the world.

Sum Assured, New Business, 1869:

The Singer uses a SHORT STRAIGHT
NEEDLE, which is not liable to break or miss
the stitch. Many ether Machines use a long
crooked needle, which is liable to break and
which have rendered it the choice of all think-

On the Singer, the Tension on both the upper and lower threads is absolutely under the ready control of the operator, thus rendering the Machine always available for good sewing, which is not the case with any other. Many so-called cheap Machines are really worthless, and so are many of their new peculiarities and supposed advantages. supposed advantages.

The SINGER is the Oldest Practical Sewing Machine,

Being about twenty years in the market. Having been constantly improved by the employment of the most skilled ingenuity of the age and unlimited capital, it is now divested of all unnecessary parts and possesses All the Very Latest Inventions and Improvements, It is the only Machine sold on Honest Claims, as all its parts are Practical and will do all that is claimed for them. Some other Machines are Greatly Compilested, to do Useless and Billy things, and thus are rendered Liable to Constant Derangement. The Singer Seldom or Never gives trouble, but is readily and easily managed by those who utterly fail on other Machines.

SINGER'S

New Manufacturing Machines Claim the same advantages over others of their class as the new Family Machines. These old and well-tried Sewing Machines are applicable to all kinds of heavy and light manufacturing in Cloths, Leather, etc., and run in the most perfect and reliable manner without trouble to the

Without any previous advertisement, the Demand for the Singer Machine is so Great that we have been unable to retain even one Machin: to exhibit. All sold, but a large number are now on the way from New York, and WILL ARRIVE IN A FEW DAYS.

They will consist of the Different Varieties made by the Singer Manufacturing Company and we shall sell at Eastern Prices, with addi-tion of Freight only. To accommodate parties who cannot pay all down, we will sell on

So that all may possess one of these Blessings.

For the convenience of our Patrons we have engaged the services of a gentleman who has had twenty years experience and is one of the most skillful experts in the world in repairing and adjusting Sewing Machines. He will put each Machine in complete and practical running order before it leaves the Institution and will also impart to purchasers all needful instruction, so that they can at once commence work.

work.

We resort to no trickery whatever to sell Sewing Machines, but allow their Great Merits to recommend them. We can do this, as the demand for them is so great that although the Singer Company make more than all other first-class companies combined, they cannot nearly fill their orders, and are compelled to still extend their Gigantic Works.

We having been so fortunate as to secure the General Central Agency,

For this Territory, we extend a cordial invita-tion to all to come and see the Machines, whether they wish to buy or not. See all others, but do not buy without you ex-amine the Singer.

We Guarantee every Machine we sell to give entire satisfaction.

THE FOLLOWING STATEMENT made by the FIRST purchasers of FLORENCE SEWING MACHINES on the Pacific Coast, including ALL who bought in 1863, whose present residence is known, is conclusive evidence of the great superiority and unrivaled excellence of the FLORENCE, and is the best testimonial ever given in favor of any Sewing Machine:

Statement made May, 1870:

"Our Machines sew as well now, and are as good for use in every respect, as they were when pur-chased nearly SEVEN years ago, and they HAVE NEVER COST US ANYTHING FOR REPAIRS. We ecommend the Florence as being without ex-option the very best, most reliable and least complicated Sewing Machine in use.
