## LAST INCH OF THE SPACE SNAPPED UP.

Display of Utah Manufactures at State Fair Will be a Hummer This Year.

## EXHIBITS NOW BEING MOVED.

University of Utah, Agricultural College and State Arts Secure Locations in the Gallery.

That the display of Utah manufactures at the state fair of 1905 that begins Oct. 2 will be the most interesting thing of the kind that has ever been seen in Utah, is the opinion of Lester D. Freed, director of the Deseret Agricultural & Manufacturing society and supervisor in charge of the manufactures and liberal arts building.

Freed said today that the last inch of space in the big new building had been disposed of, and that the installation of exhibits had already begun.

Freed said that the exhibits of the manufactures and liberal arts building will be displays of trunks, knifing, boots, shoes, overalls, gloves, plaster, condensed milk, woolen goods, house cases, office fixtures, soda water and ginger ale, canned art glass, coal, butter, cheese, flour, paint, wire work, crucibles, crackers, boilers and other articles. Every one of them will be the product of a Utah manufacturer.

## MAIL WAGON TROUBLES.

Four Elephants Pulled One Out Of Mud Hole In New York.

New York, Sept. 20.—But for the strength and courage of four huge elephants, a two-ton batch of mail stuck in the mud at Sixth Avenue and Forty-second street, would have missed its train at the Grand Central depot last night.

The trouble began when a large mail wagon, loaded to the top, swung down Sixth Avenue and ventured a sharp turn at the corner where street cars and taxicabs were waiting. A new driver, employed in place of a striker, was on the wagon and was accompanied by a policeman. He urged the horses to get out of the mud, but they sank to the hubs. A crowd gathered and broke three heavy wheels in their efforts to help the horses.

The policeman had a happy thought. He sent a messenger to an amusement house nearby and asked for the services of the performing elephants. Four were brought to the scene. A charge of their keepers. They were harnessed to the sides of the wagon and jerked it out of the mud with indescribable ease, while the crowd cheered.

Early in the evening a crowded Madison Avenue electric car crashed into a large mail wagon at Fifteenth street and broke down. The car was stuck in the mud and the driver was unable to get it out. A policeman was on the scene and urged the driver to get out of the mud, but they sank to the hubs. A crowd gathered and broke three heavy wheels in their efforts to help the horses.

## BAD COLLISION ON SOUTHERN PACIFIC

Two Freight Trains Run Into Each Other, Followed by Rear-End Smashup.

## TWENTY-FIVE PERSONS HURT.

One Man Killed—Many More Deaths Are Expected—Cause Was Disobeyed Orders.

Reno, Nev., Sept. 20.—Twenty-five persons at this hour (1:30 a. m.) are reported injured and one man, George W. Warren, is dead, as the result of a terrible head-on collision between two freight trains, followed by the rear-end collision between two passenger trains of a point nine miles west of Reno, between 6 and 7 o'clock last (Tuesday) evening.

The wreck, from the reports given out, was caused by one of the engines on the freight trains running past his orders. An effort was made to stop the incoming passenger train with success, for the first section of No. 2, though a moment later the second section, said to be in charge of Engineer Ross and Fireman Thiville, plunged full speed into the first section, which was stopped. The result was among those injured, though this is not positively confirmed. Many more deaths are expected when complete details are in.

Physicians, nurses and supplies in addition to three wrecking trains are now either at the scene or rushing to it to render aid to the suffering. The wrecking train, which was sent out at 8 o'clock, has not yet given out any definite details. The railroad has just started a special train said to contain four badly injured passengers for the railroad hospital at San Francisco.

This is the first wreck to occur on the Southern Pacific between Sparks and Ogden since that portion of the system was placed under the jurisdiction of the Oregon Short Line.

General Supt. E. Buckingham this morning stated that Supt. Mason happened to be two stations away at the time the accident occurred and he lost no time in getting to the scene and picking up doctors and nurses on the road. The result was that the injured were in the hands of the surgeons within one hour from the time of the accident.

Those who were badly hurt were sent to Reno for treatment. While stating that he was not in a position to discuss the cause of the wreck, Mr. Buckingham ventured the opinion that it seemed to be a clear case of disregarding orders.
