KENDALL'S SPAVIN CURE.

The most Successful Remedy ever discovered, as it is certain in its effects and does not blister.

READ PROOF BELOW from

Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

St. Albans, Vt., Jan. 20th, 1880.

DR. B. J. KENDALL & Co., Gents—In reply to your letter I will say that my experience with 'Kendall's' Spavin Cure' has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming. I procured a bottle of Kendall's Spavin Cure and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargements, such as spavins, splints, curbs, callous, sprains, swellings, any lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. ALL Druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors. DR. B. J. KENDALL & CO., Enosburgh Falls, Vermont.

EVENING NEWS.

Thursday, . August 10, 1882.

OUR WASHINGTON CORRESPONDENT.

THE SIGNAL SERVICE—FORT MYER SIGNAL SERVICE RECRUITS—CONGRESSIONAL BUSINESS—THE VETO—FABRICATIONS ABOUT UTAH—UNAUTHORIZED USE OF MR. CANNON'S NAME BY REPORTERS.

WASHINGTON, D. C.,
Aug. 4, 1882.

Editor Deseret News:

During my residence in Washington I have made the acquaintance of several members of the Signal Corps, U.S.A., and it has been with pleasure that I listened to a recital of its usefulness to the country.

The other day, having occasion to visit a friend of mine who resides on the Virginia side of the Potomac, and being near Fort Myer, the headquarters of the signal corps, I expressed a desire to visit the Fort in question. We started upon our walk just about sundown. The day had been extremely hot, but the walk through the woods, resonant with the music of innumerable birds, was very delightful indeed. True, the pathway which we were compelled to follow was the reverse of smooth and straight. It was up hill and down dell. Yet the luxuriance of the arbor was more than a recompense for any and all of the discomforts we encountered on our way.

Fort Myer is in close proximity to Arlington Cemetery. It is pleasantly situated—say 150 feet above sea level—and commands as fine a view of Washington City, and of the Washington monument in particular as can be had anywhere. At the Fort I was introduced to Sergeant Mahaney, the first sergeant of the corps, who kindly conducted me through the buildings. The interior arrangements call for no special comment. They are such as are to be found in all military barracks—everything scrupulously clean and tidy and nothing out of order.

Upon enquiry I found that at the Fort were located a number of recruits who were going through a course of instruction preparatory to employment as observers, etc., on the Signal Service stations scattered throughout the United States These embryo meteorologists, I was informed, are required to pass a mental and physical examination, and if successful, are enlisted into the signal corps, sent to headquarters for instruction, and thus become subservient to military discipline. The first two months is devoted to military duties; the latter four months to the study of meteorology, electricity, telegraphy, signals, etc. Lectures on astronomy, mathematics and miscellaneous subjects bearing upon their prospective profession are given by officers and employees detailed from the chief office of the signal officer. The six months' course, I understand, is what may be designated stiff, and those of the boys who do not wish to be "left" or "plucked" must not waste their time.

The Fort is commanded by Capt. Strong, a very energetic officer, of long standing. Gen. Hazen, the chief signal officer of the army, has taken great interest in the post since his appointment, and when all the improvements are made that are now in hand and in contemplation, the Fort will be not only an excellent place for the instruction of signal service recruits, but a pleasant resort for visitors *en route* to Arlington Heights and cemetery.

In the Fort is an observatory in which the boys are instructed in practical meteorological work, such as reading of instruments, recording of observations, making out of the various forms, and general station work. When this preparatory work is finished, the men are sent to meteorological stations as assistants, nearly all military business being laid to one side. By close attention to work a private may attain to the rank of sergeant; occasionally second lieutenants are made from the sergeants.

There are about 208 meteorological stations in the United States, besides which there is a considerable number of river and cautionary signal stations. One hundred and sixteen of these meteorological stations are required to telegraph to the chief office at Washington their 7 a. m., 3 and 11 p. m. observations, daily (Washington time). Arrangements are made so that the wires of the telegraph companies are at the disposal of the chief signal officer at certain hours, and during this time reports are received from the farthest parts of the United States. As received, they are translated from the cipher words and the various maps filled up. The indication officer then makes his predictions, which are at once notified to the various stations. These stations furnish the press, railways, postoffices, etc., with copies, and thus in a wonderfully short time the whole business is collected, concentrated and the result flashed back throughout the entire country. The collection of meteorological date, the predictions as to weather, the warnings of approaching storms etc, etc, important as they are, form but a small portion of the work of the service. It furnishes the cotton beet districts with meteorological information for the benefit of their crops, the manner of approaching danger by means of cautionary signals, and I am informed that General Hazen intends to introduce further schemes and improvements for the benefit of the country. The signal service corps is not the "fifth wheel of a coach," that some people try to make out.

As your dispatches will have informed you, President Arthur vetoed what is known as the River and Harbor bill, and notwithstanding that both Houses of Congress next day passed the bill in spite of the veto, yet the press of the country is largely of the opinion that President Arthur did right in not giving his sanction to one of the largest jobs on record. Out of this manly veto Arthur has made a great many more friends than if he had put his signature to the bill, and while I do not believe in autocracy, yet I am sorry that some well known Democrats should have voted with the Republicans to pass the bill over the veto. By this action—notwithstanding the bill may contain items which affect their districts—they have lent their influence, in this instance, to well known corruptionists, and perhaps their constituents will take them severely to task for such action.

The Naval and Sundry Civil Appropriation bills have passed the Senate and are now in the hands of the conference. Matters of difference between the two Houses will have to be fixed up in some shape or other. Members are very sick at the protracted length of the session and it is confidently expected and sincerely hoped that an adjournment will be had by Monday, the 7th inst. The only thing that can prevent this is the discussion upon the tax bill, which the Senate has again taken up, and it is said that the House, in its anxiety to adjourn, will shelve the question for this session. Thus the whole thing will end in talk of which there has been more than enough.

But leaving these appropriation matter for the present, let me refer to something in connection with Utah affairs. As is well known considerable curiosity is manifested by newspaper men and others to know what course of action the people of Utah intend to take to meet the Edmunds law. Delegate Cannon, from his long residence in Washington, is known by every correspondent in the city, and scarcely a day passes over but he encounters one or other of the fraternity on the street, in a street car, in the House, or somewhere else. Utah affairs are always a subject of enquiry. No end of questions are propounded upon the subject to learn, if possible, what policy will be adopted by the "Mormon" people under the recent legislation. Of course it has been impossible for Mr. Cannon or any one else to answer these questions for the simple reason that no one can tell what shape matters will take until the Commissioners reach Utah and commence operations. Now from my personal acquaintance with Mr. Cannon, and having been present when a great many conversations such as I refer to have taken place, I know that his replies have invariably been that it was no use to pretend to have knowledge upon subjects of which he and others, under the circumstances, are entirely ignorant. But it seems that some people are not satisfied without circulating unfounded stories concerning the intention of the people of Utah. As an example, let me reproduce the following dispatch which reach this city and appeared in the papers of the 27th ult:

MORMONS BENT ON RESISTANCE.

"OGDEN, Utah, July 26.—A wholesale persecution of the Gentiles has been inaugurated, and arrangements have been made for testing the constitutionality of the Edmunds act in the Supreme Court of the United States. If the decision should be adverse the Mormons have determined not to submit at any cost. The polygamists from President John Taylor down, with the apostles, bishops and elders in the most extreme part of their domain have separated from their wives and are living openly with one only. All polygamists have under orders resigned from all municipal offices, and monogamists, as strong in the faith as those deposed have been selected and commissioned in their places. Every effort will be made to beat the Government on all the sections of the Edmunds act."

Now, it is a remarkable coincidence that almost the same matter was telegraphed back under the date of the 27th ult., as coming from Washington and which appeared in the NEWS on the 28th ult. under the heading of "Gossip about the Edmunds law," from all of which it would appear as though dispatches of this nature had a common origin. In the dispatch of the 27th, Mr. Cannon's name is used as authority for some of the statements made therein, than which nothing could be more false. He has always been most cautious in all his statements; but fragments of conversation are frequently used by correspondents, written to suit the writers own opinion and the opinion of the paper on which he is employed. The statement in the dispatch which came from Ogden respecting the action of leading polygamists is precisely similar, it will be noticed, to the statements which Mr. Cannon is credited as having made. I know, however, that so far as all these statements are concerned, they are entire fabrications. I know how Mr. Cannon has talked, and it is simply an unwarrantable liberty to use his name as authority for the statements referred to. It is one of the most remarkable features, however, connected with Utah and its people, that there is a never dying curiosity to write about them, and to read every statement that is published, and the credulity of the public upon Utah matters is unbounded. I encounter this every day, and fair-minded people seem never to tire of listening to the history of the "Mormons." Still it is very annoying to have statements which are false circulated as coming from responsible sources.

J. I.

O'Donovan Rossa's reputation as a humanitarian is too well established to require any references concerning it; yet his indorsement of St. Jacobs Oil for the ills of humanity is in keeping with his principle—establish the good, remove the bad. Speaking of the Great German Remedy to a friend he said "Mrs. Rosse has been cured of a very severe attack of neuralgia by St. Jacobs Oil as she will gladly tell you if you call at my residence, 879 Bushwick Ave., Brooklyn N. Y."

TUTT'S PILLS!

AS AN ANTI-BILIOUS MEDICINE, are incomparable. They stimulate the TORPID LIVER, invigorate the NERVOUS SYSTEM, give tone to the DIGESTIVE ORGANS, create perfect digestion and regular movement of the bowels.

AS AN ANTI-MALARIAL

They have no equal; acting as a preventive and cure for Bilious, Remittent, Intermittent, Typhoid Fevers, and Fever and Ague. Upon the healthy action of the Stomach and Liver depends, almost wholly, the health of the human race.

DYSPEPSIA.

It is for the cure of this disease and its attendants, SICK-HEADACHE, NERVOUSNESS, DESPONDENCY, CONSTIPATION, PILES, &c., that these Pills have gained such a wide reputation. No remedy was ever discovered that acts so speedily and gently on the digestive organs, giving them tone and vigor to assimilate food. This accomplished, the NERVES are BRACED, the BRAIN NOURISHED, and the BODY ROBUST. Try this Remedy fairly and you will gain a Vigorous Body, Pure Blood Strong Nerves, and a Cheerful mind.

Price 25c. 35 Murray St., N. Y.

1882!

VICTORIOUS!

—o—

OSBORNE

SELF-BINDER,

Master of the Harvest.

—o—

IT HAS NO EQUAL!

—o—

READ THE VERDICTS:

July 26th, 1882.

We, the undersigned, farmers of Alpine, Utah Co., having this day witnessed the operation of the **Osborne Twine Binder,** in Wheat and Oats, do affirm that it did the most perfect work we ever saw done by any Self-Binder. The cutting was absolutely clean and the grain was tightly bound.

We do not see that any imperfection exists in this machine.

THOMAS CARLISLE,
W. T. BROWN,
STEPHEN MOYLE,
C. M. BECK,
HYRUM HEALY,
GEO. MYERS,
J. S. BECK,
GEO. BODDISON,
EDWARD WINN,
W. O. ADAMS.

ALPINE, Utah, July 26, 1882.

We proposed to D. M. Osborne & Co., that if they could, by actual field trial, demonstrate to our entire satisfaction that their Twine Binder would do better work and tighter binding than the Wood or McCormick Binders are doing, then we would purchase an Osborne.

This proposition was readily accepted by D. M. Osborne & Co., and we are pleased to state that their Machine has demonstrated its superiority to our fullest satisfaction and we have purchased an Osborne through L. P. Lund, Agent at Pleasant Grove.

C. M. BECK,
W. T. BROWN,
HYRUM HEALY,
J. S. BECK.

At the trial above mentioned three Osborne Binders were sold on the field, two of which were purchased by parties who had taken McCormick Binders on their merits, and condemned them on account of the very bad work performed.

SALT LAKE CITY, UTAH,
July 24th, 1882.

We started our Osborne Twine Binder to-day in heavy oats on the farm of Fredk. Reich, and after testing it thoroughly we find it without a single defect. The cutting is clean, binding tight, and the knot perfect. It does the best work we ever saw.

B. ADAMS,
DANL. ADAMS.

We witnessed the working of the Osborne Binder above referred to, and freely bear testimony that we never saw its equal. The bundles are tightly bound and every knot perfect.

FREDK. R. REICH,
LOUIS REICH,
CHAS. REICH,
J. GIBSON,
JOHN RICHES,
ROBT. REICH,
D. REICH.

LAURIN, Montana,
July 25, 1882.

I have twenty-eight positive orders for Orborne Binders, and prospect for more. The whole troop of other binders set on fire, and don't you forget it. Do not fail to supply my orders.

LEE GOETSCHINS.

The following telegram was received by Farr Bros., agents of Osborne Machines at Ogden:

COLLINSTON, Utah,
July 26, 1882.

Osborne Twine Binder grand success. Twelve acres cut and no bundles missed.

C. W. ORTH.

COLLINSTON, Utah,
July 26, 1882.

We have cut and bound about twelve acres of heavy rye with our Osborne Twine Binder, and during all this time it did not miss a bundle. The cutting, elevating and binding are without defect. Our neighbors who have seen it work say they would have no other machine.

WM. TWITCHELL,
HARRY G. JEMMETT.

WILLARD, Box Elder Co,
Utah, July 28th, 1882.

My Osborne Twine Binder started to-day in heavy green wheat. It works to my entire satisfaction and more that fills the warranty.

PETER A. NEBEKER.

"We have seen Mr. Nebeker's binder work and fully indorse his statement, we could not ask for anything better.

S. WARNER,
THOS. WOODLAND,
THOS. BUDER,
J. W. HUBBARD.

CHERRY CREEK, Oneida Co.,
Idaho, July 27th, 1882.

I am well pleased with the work done by my Osborne Twine Binder and can honestly recommend it to the farmers of Idaho.

BISHOP J. D. JONES.

After thoroughly examining the work done by Twitchell & Jemmett's Osborne Binder, we cannot speak of it in too high terms. It does not miss a bundle and is a complete success.

W. H. BOOTH,
EPHRAIM HANSON,
JAMES HANSON.

MILL CREEK, Salt Lake Co.,
Utah, July 29th, 1882.

Our Osborne Binder works to perfection. We never saw its equal.

JOHN C. HAMILTON,
of Hamilton Bros.

The foregoing are merely samples of a host of testimonials and letters we receive by almost every mail.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary pre-disposition, all turn the hair gray, and either of them incline it to shed prematurely.

AYER'S HAIR VIGOR, by long and extensive use, has proven that it stops the falling of the hair immediately; often restores the growth; and always surely restores its color, when faded or gray. It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus brashy, weak or sickly hair regrows with lively expression; falling hair is checked and established; thin hair thickens; and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

As a Dressing for Ladies' Hair,

the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

Notice No. 685.

UNITED STATES LAND OFFICE,
Salt Lake City, Utah, July 12, 1882.

NOTICE IS HEREBY GIVEN THAT Joseph H. Jennings, Joseph G. Jennings, Horace Lindsley and Winslow Anderson, whose postoffice address is Salt Lake City, Utah, have made application for a United States patent for the Carrie mining claim situated in Big Cottonwood Mining District, Salt Lake County, Utah Territory, consisting of 1,500 linear feet of the lode, and surface ground 600 feet wide, being Lot No. 124, and described in the field notes and plat of the official survey on file in this office, with magnetic variation of 17 degrees 45 minutes east, as follows: Commencing at the discovery monument, thence north 68 degs. 58 min., east 1,818 feet to the centre of the north end line of said claim, thence south 26 degs. east 300 feet to post No. 1, thence north 25 degs west 600 feet to post No. 2, thence south 69 degs. 58 min. west 1,500 feet to post No. 3, thence south 25 degs. east 600 feet to post No. 4, thence north 69 degs. 58 min. east 1,500 feet to said post No. 1, the place of beginning, containing an acre of land more or less, the amount therein applied for. Excluding conflict with the "Little Fred" lode, being lot No. 55, and excluding conflict with "Queen Bee" lode, lot No. 54.

And in connection therewith application is made for a United States patent for the Carrie Mill Site described as follows: Commencing at post No. 1 thence south 51 deg. 45 min. W, 438 feet to post No. 2, thence south 24 deg. 15 min. East 465 feet to post No. 3, thence north 61 deg. 45 min. East 438 feet to post No. 4, thence north 28 deg. 15 min. West 465 feet to said post No. 1, containing an area of 4,675-1000 acres.

The said mining claim and mill site being of record in the office of the recorder of said mining district at Argenta, in Salt Lake County, Utah. The nearest known locations being the Little Fred mining claim.

I direct that this notice be published in the DESERET NEWS, the newspaper published nearest to the said mining claim for the period of sixty days. H McMASTER,

Register.
