

## TEACHERS NEAR END OF SESSION

Lively Contest on for the Presidency of State Association.

### HOLD DEPARTMENT MEETINGS

Morning Taken Up by Specialists Who Enter Into Discussion of Pertinent Problems Before Educators.

With J. S. Welsh as a leading candidate for president of the Utah State Teachers' association, and F. M. Briggs, superintendent of the state school for the blind as his leading competitor, the teachers will this afternoon assemble for the final session of their fifteenth annual convention. This morning department meetings were held in the high school buildings.

Since Principal Eaton of the Salt Lake High school held this position, it has been held by Supt. Allison of Ogden, Supt. Eggertson of Provo, and Prof. George Thomas of Logan. Mathonihah Thomas of Salt Lake is also in the field.

**JUVENILE COURT WORK.**  
That they will work toward the legislature with a united front to secure better laws for the children of the streets and better supervision from the juvenile court was a decision arrived at by the members of the juvenile court section. E. G. Gowans was elected section president for next year, and J. Fred Anderson was selected as secretary.

The paper of most interest to those present was that by Judge Gowans on "The Mental and Physical Condition of Juvenile Delinquents." At its conclusion a lively discussion occurred in which George Snow Gibbs, J. Fred Anderson and Parker B. Pratt participated.

"The most serious fault of delinquent children," he said, "is a lack of—not health—but food. Badly nourished children are the rule. The great majority of delinquent children come from unsatisfactory homes, and nearly all unsatisfactory homes are presided over by women who lack the first qualification of parenthood—a knowledge of the science of nutrition."  
"Truancy," said Judge Gowans, "is the first step in delinquency, and almost all of the children who run away from school and are brought before the court, explain that they feel that the teacher has it in for them." As a result of his observations Judge Gowans favored building a detention home for mentally defective children.

**PLEA FOR AGRICULTURE.**  
Before the superintendents' section, Supt. Thomas McKay of Ogden made an extended plea for reaching the boys of the rural grammar school with an education in the rudiments of agriculture. He argued that only 2 per cent of the boys who leave the grade schools reach the universities, and that the remaining children go mostly into agriculture and the industries right from the grammar grades.

Papers were read before this session by Wm. Allison of Ogden, on "The Relation of the Superintendent to the School Board," by Supt. Eggertson of Utah county, on "What County Superintendents Can Do to Lead Patrons to Assist Educationally," and by John Sundwall on "Physical Defects that Retard Mental Development." A. C. Nielson was re-elected president of the section.

The school board section elected C. C. Crapo of Sandy, president, and W. Thayne of Carbon county, secretary. Papers were delivered by Carl R. Marcussen of Price, and Prof. Byron Cummings of the University of Utah.

At a meeting of the crafts section, Miss Althea Wheeler was elected president for next year, and S. R. Brown, secretary. In the grammar department, Oscar Van Cott was elected president, and Viola Sorensen, secretary.

### TWO INVESTMENT DEALS.

O. F. Peterson completed a deal this noon for the transfer from R. E. Miller and Hines W. Dixon to Fred K. Lyon for \$10,000, 49½ feet front by 155 feet, on Third South street, between First and Second West street, the purchase being made for investment. Mr. Peterson also completed last evening a deal for the transfer from C. E. Taylor to Fred K. Lyon for \$2,000, 165 feet front by 165 feet, on the west side of the above mentioned property which is opposite the Covey flats. The purchase in this case was also for investment, as property in that part of the city promises to materially enhance in value at an early day on account of the assurance of the new passenger station of the Rio Grande road.

### "SWITCH" ARTISTS SENTENCED

Word has been received here from Winnipeg that Philip Greenberg who, with his pals, Alfred and Sadie Copeland, got into the clutches of the law for diamond switching by working the "switch" game, has been sentenced to a term of eight years in prison. Nothing is said about what happened to the "Coplans." This pair were in Salt Lake several months ago, and tried the "switch" game here but were given "floaters" out of town.

## NO PROSECUTION OF EX-CHIEF VAIL

(Continued from page one.)

near killing me, and I made up my mind he would never touch me again. . . . I have some papers in my possession that shows where it went to, but I don't care what he does, but I feel that I have a right for him to at least give me some money to live on when I am sick, for I am willing to work when I can. I guess Mr. Bennett the best thing I could do would be to buy a six shooter and come to Salt Lake on the quiet and end it all. And now I will close, trusting you will do this for me, but don't tell him I wrote to you. Hoping for a speedy answer I remain as ever, Respectfully,  
"MRS. C. VAIL,  
"1141 West First street,  
"St. Louis, Mo."

Who got the money, if Chief Vail did not? Mrs. Vail claims to have papers which show.

**MEN "BORROWED" FUNDS.**  
Members of the Salt Lake fire department generally concede that the fund has gone for all time, and there is not much evidence of lamentation among them. Practically everyone assumes an attitude of indifference, all except Chief Vail, who feels that Vail should have turned the fund over to him as Bywater did to Vail and Devine to Bywater.

Some of the men have admitted that they "borrowed" money from the fund and while some paid part of it back, others did not feel called upon to do so. They argue that it was theirs and if they could get some of it, all well and good. One man stated that he got \$30 from Vail out of the fund and paid back \$15.

But the men who are complaining most are those who have seen years and years of faithful service on the fire fighting force, men who devoted the best part of their lives to the service and who were kicked out of the department for political and religious reasons by the crowd that controls, or tries to control, the destinies of the "American" party.

A few days ago an ex-official of the fire department held a consultation with County Atty. Hanson and Sheriff Emery with a view to filing a complaint against Vail and have him brought back to this city to make an accounting of the fund. It was admitted that they did not contemplate a conviction for embezzlement, breach of trust or any other crime, but were simply anxious to know what became of the money and stocks and when and how they were disposed of and to what use they had been put. Apparently nothing came of the conference, as Vail was released from custody at Reno.

**UP TO THE LEGISLATURE.**  
The women have in effect organized, but they can do nothing, they say, until they get legislative sanction for which they will work when the next legislature convenes. A committee composed of Salt Lake Ogden, Provo, Park City, Logan, Eureka and Murray firemen will work with the legislature to secure the backing of the state in the matter.

The fund was in Vail's possession when he was removed from the department and a large majority of the firemen signed a petition to make Vail the custodian of the fund until such time as their organization is completed and incorporated when he would be expected to make an accounting. A majority of the men signed the agreement and Vail got the fund but it is said that he did not get the signed petition.

**WHAT CHIEF GLORE SAYS.**  
"I saw Vail several times and demanded an accounting," said Chief Glore, "and he promised to attend to the matter and give me an accounting of the fund and cash in hand, but he neglected to do so. He said the fund was all right and then later told me that it was as much his as anybody's. That's why I asked him to council to sift the matter to the bottom."

It is rather significant that the council has done nothing in the case, especially in view of the startling declaration of Mrs. Vail to the effect that she had the names of "American" party officials who got some of the money and also the names of firemen who got some of it. Whether or not Mrs. Vail's statements are correct remains to be seen as the names, dates and amounts of which she claims to have a list, are not forthcoming.

But as stated before, some of the firemen are determined to probe the matter to the bottom and if it is possible Vail will be forced to make an accounting. They are of the opinion that a disclosure would reveal some startling facts and show that "American" party officials have dipped their fingers into the fund, hence the lack of frenzied interest on the part of certain councilmen.

## W. P. R. R. TO OPEN THROUGH TO WELLS

Clerical Force Under S. V. Derrah Now Busy Getting Out Freight Tariff Sheets.

The opening of the line of the Western Pacific railroad from Shafter, Nev., to Wells, a distance of 44 miles, is looked for nearly any day now, and the local clerical force, under S. V. Derrah, who has charge of the traffic affairs of the Western Pacific in this city, is working hard preparing tariffs for use on the extended line.

The roadbed has been completed and the rails laid between the two points, and some few trainloads of coal have passed over it. But regular traffic has not yet been instituted over the line. Everything is in readiness for the event, and according to Mr. Derrah will take place in a very short time.

This will give the Western Pacific a completed line west of Salt Lake, a distance of 205 miles, the first division of 161 miles between Salt Lake and Shafter having been placed in operation on Nov. 9. Two hundred and twenty-four miles of the western end of the road out of Oakland, Cal., is now under operation, leaving considerably less than half of the length of the road yet to be connected up in gaps under construction in Nevada and California.
