GREAT BRITAIN Accidentally Poisoned-Proceed ings in the French Parlia-

LONDON, 11.-Edward Kendall the American theatrical manager, was accidentally poisoned yester-day, from an overdose of chloral. The Paris correspondent of the London Times says that yesterday's vote breaks up the majority of last week, and restores to the Bona-partists the ground they had lost; this vote makes the senate dependent on universal suffrage. The only modification possible is a res triction of the categories of citizens eligible to the senatorship. This will so obviously lead to the election of ex-imperial functionaries that it is expected the committee of thirty will withdraw the bill this p.m., and the consequence will probably be a dissolution of the assembly.

International Copyright. In the Commons, to-day, a bill amendatory of the international copyright laws was read the first

### FRANCE. An Important Amendment

Adopted. PARIS, 11 .- The Assembly to day took up the bill for the organization of a senate, and the amendment providing that the senators shall be chosen by the same electors as the deputies in the lower chamber was adopted, 322 to 310. The amendment was carried by the united votes of the Left and Bonapartists: fifty legitimists abstained from voting, but they hope to defrom voting, but they hope to defeat this and all other constitutional bills when they come up for final action. ## WASHINGTON NOTES. From the Washington Star, Feb

The Senate Committee on Indian Affairs have agreed to report a bill extending the homestead laws to Indians. This will confirm all entries that have already been made, and give an opportunity to all Inof civilization to do so.

Commanding officers of posts, in consultation with their medical officers, are ordered by the War Department to forward to the Adjutant General, through the regular channels, by March 15, 1875, or as soon thereafter as practicable, a re-port on the clothing and accourre-ments of the enlisted men of the army, with regard to their effects, if any, on the health of the wearers, with remarks and recommendations. Also, to report at the same time on the occupations of the enlisted men, the amount of drill and other military duties, and in general on the character and amount of bodfly labor and exercise incurred during the past year, with regard to its effects upon the health of the troops.

these unfortunate persons, regarding them in some sense as the wards of the government. Only a few hundred years ago they were not regarded as susceptible of receiving an education, and were virtually but little better than idiots. In this connection it may be stated that the institution has recently come into possession, through its president, Prof. Gallaudet, of a very valuable library of about three hundred volumes, the collection being unique and consisting of books printed in many languages relating to the instruction and treatment of the deaf and dumb. The library was formerly the property of Dr. Charles Baker, head master of the Yorkshire Institution for Deaf Mutes, in Lancaster, England, who provided in his will that the books should be sold to Prof. Gallaudet for the sum of two hundred and fifty pounds sterling, or about \$1,300, which, considering the rarity and variety of the books, is a moderate price for them. Some of the volumes date back to A. D. 1400. It is believed this is the largest library of the kind in the world.

## TESTIMONIAL

Editor Deseret News:

I had a son who appeared to be in ill heulth, being in a pining condition. I was unable to determine the nature of the disease which affected him. A few days since I placed him under the treatment of Dr. Plant, who, within a few hours, and without pain or inconvenience to the lad, freed the patient of a tape worm about forty feet long, since which time the boy has been improving. I wish you to publish this circumstance, as much for the benefit of people afficied similarly to my hoy, as to award credit to Dr. Plant, whose skill in that line or complaints can be relied on, besides his charges are moderate.
