

DRY CANYON TO BE DEVELOPED

Company Incorporates to Make It an Ideal Summer Resort.

HAS A COMMERCIAL VALUE.

Fire Clay Acetylene Rock, and Abundant Water Prove "Dry" a Misnomer for the Region.

A day or two ago a party of Salt Lake makers made a trip through Dry Canyon, east and north of the city, and discovered many new and interesting things. The entrance to the canyon is near Popperton, and about a mile farther, the canyon forks, one running almost due east and the other in a north easterly direction. The party went through the lower fork and then explored the upper fork.

In the lower branch of the canyon there is considerable land rich in grass and trees and making innumerable sites for ideal camping places. Although the canyon is called "Dry" it is anything but dry. There are numerous springs which when turned into one channel will make a stream nearly as large as city creek.

In the upper fork there is a mountain of silica, fire clay and an almost inexhaustible supply of acetylene rock, and the water supply the exploring party found could easily be made to flow into a reservoir of sufficient capacity to light up the canyon for a summer resort. It has been estimated that enough brick for facing can be manufactured there to furnish a city the size of New York. Some silicified brick has been made there, tested and found adaptable in every way. It is put through a steam process which, it is claimed, will stand a greater pressure than any other brick manufactured in the west, and is as hard almost as granite. The party found some of the brick at the entrance of a 400 foot tunnel and tested its hardness by pounding it against flint-like rock in the bed of the creek, and the brick stood the test.

ACETYLENE ROCK FOUND.
The canyon property was taken up many years ago by George F. Atkins and for many years he worked some of his property, making brick and digging out acetylene rock. The latter he came upon quite by accident. He had built a camp fire and when ready to leave threw some water on the blaze. The result was startling, as there was an explosion. He found that it was caused by some of the rock and later found it to be acetylene.

About two weeks ago a company was formed and incorporation articles filed by Salt Lake citizens and they propose to make Dry Canyon heard from, and that in the future the company is incorporated for \$100,000 and the work of development will be started about the last of July. The officers of the company are George F. Atkins, president; Dr. C. F. Wilcox, vice-president and director; Dr. E. B. Wilcox, treasurer and director; Atty. W. W. Little, secretary and director. These with George Adams, John C. Sharp and Atty. Bernard Stewart form the board of directors. The concern is called the Maplewood Manufacturing and Resort company.

The lower fork is to be used for a resort and can be easily reached from the Port Douglas street car line. From the mouth of the canyon up two or three miles there are acres upon acres of partially level ground, an abundance of shade and many springs of clear, ice cold water. There are at least 20 springs, one of them two and a half miles from the forks of the canyon is 40 square yards in size and furnishes a big quantity of water. The water supply in the upper fork is a little larger, but the canyon is not quite so wide.

PLANS FOR DEVELOPMENT.
The company owns 750 acres of land, taking in the two forks of the canyon, and it is proposed to make a resort of the lower and manufacture brick and develop the acetylene in the upper. Much of the land upon which maple wood grows in abundance will be cleared to make room for lots for summer cottages. The water from the various springs is to be run into one channel, but it is also planned to build two or three reservoirs and two fish ponds.

One of the first things the company will do is to build a road and this work is to be started at once. The plans are to make a road practically no limit to the supply. Another thing the company proposes to do is to make its own ice.

The party that visited the canyon found an abundance of clear, fresh water, waterfalls, acres of beautiful flowers, scores of ideal camping places and about the only things lacking are a good roadway and an abundance of fish.

"We are going to build a resort up there sure," said Mr. Atkins, "but we are not going to lose sight of the advantages we have in the way of manufacturing in the other fork of the canyon. We can get at least \$25 per 1,000.

TO REMOVE SUPERFLUOUS HAIR.
Dr. Almsworth, the prominent physician, says: "I can truly say that I consider De Miracle the only reliable preparation on the market for the removal of superfluous hair. I have used many preparations for that purpose, but none gave me satisfaction until I tried De Miracle, but in it I find a preparation that will do all that is claimed for it by the manufacturers and which gives perfect satisfaction in all cases. Before taking a doctor's advice, don't be deceived with false free treatment."

De Miracle is sold by Druehl & Frank, 27 South Main, Salt Lake City, and all good stores. Send for free booklet. Enclose 10c. Desk H. 10, 193 Park Ave., New York.

NERVOUSNESS AND CONSTIPATION.
ELECTRO-HERMO-DILATOR
SOLD ONLY BY DR. ELIOT

Are caused by poor circulation. Our home treatment combines electricity and dilation and permanently cures constipation, piles, or any intestinal, rectal or nervous disorder. There is just enough electricity furnished to be very beneficial. Our appliances are sold under a positive guarantee. Write for free booklet. Electric Surgical Appliance Co., 402 A. W. Helman Bldg., Los Angeles, Cal.

DR. ELIOT ELECTED PRESIDENT EMERITUS
Cambridge, Mass., June 29.—Former President Charles W. Eliot of Harvard University has been elected president emeritus of the Institution. It was announced tonight. There is a stipend in connection with the honorary office, but the amount was not made public.

Dr. Eliot's election as president emeritus is the first of the kind in the long history of the university, and is one of the few such complimentary actions taken by the higher educational institutions of the country.

Unconfirmed reports were current throughout the alumni meetings and class reunions today that Dr. Eliot will be presented with a fund of nearly \$500,000, contributed by graduates and undergraduates of the university.

THE REV. ULYSSES G. B. PIERCE
Pastor of All Souls' Unitarian church in Washington, has been appointed chaplain of the senate, succeeding the late Edward Everett Hale. Dr. Pierce is the author of a book, "The Soul of the Bible." President Taft attends Dr. Pierce's church.

ATTENTION, OLD FOLKS!
Don't go home until you go up Emigration Canyon on Modern Electric cars. A different way than the way of 47.

FOUGHT ALONG OLD LINES.
Mrs. Pankhurst Declared She Stood On Her Right as a British Subject To Enter House of Commons.

London, June 29.—The thirteenth vain attempt of the militant suffragettes to obtain access to Premier Asquith resulted in exciting scenes in Parliament square tonight and the arrest of more than 100 women.

The plan of campaign followed the lines previously employed by the suffragettes. The women's parliament assembled in Caxton hall and sent a deputation, headed by Mrs. Pankhurst, to see the prime minister, who had previously decided not to receive them.

Enormous crowds assembled in the vicinity of parliament house before the time set for the raid upon the house, around which several thousand police had taken up strategic positions. The first noteworthy incident was the arrest, after a great deal of trouble, of a woman equestrian suffragette, who tried to penetrate the police cordon to take a message to the premier. Next appeared the deputation under command of Mrs. Pankhurst, and it was received by the crowd with wild cheers. Escorting a deputation, the deputation arrived at the St. Stephens entrance to parliament, where it was met by Chief Inspector Scantlebury, who handed Mrs. Pankhurst a letter from the premier, expressing his inability to receive the deputation.

MRS. PANKHURST'S RIGHTS.
Angry throwing the letter on the ground, Mrs. Pankhurst exclaimed: "I stand on my rights as the king's subject to enter the house of commons," and she tried to force an entrance.

The police tried to induce the women to disperse quietly and then began to lead them away. To the surprise of the spectators, who were massed around the entrance, Mrs. Pankhurst slipped Inspector Jarvis in the face, knocking his cap in the mud. "There were cries of 'shame,' and several spectators told the suffragette leader she had no provocation to do such a thing."

A moment later another member of the deputation, Mrs. Saul Solomon, knocked off the inspector's cap a second time, while others made efforts to rush the cordon of police. Eventually the entire deputation was placed under arrest.

By this time a second deputation had left Caxton hall, accompanied by some hundreds of suffragettes and others, and tried to reach the house of commons through the underground passage leading from Westminster bridge. This too, was unsuccessful, but for two hours the police district was in an uproar, the police dispersing the crowd and arresting women by the wholesale. The windows of many of the government buildings were smashed with stones wrapped in paper.

Altogether 112 women were arrested, including Mrs. Pankhurst, Mrs. Solomon, the Hon. Mrs. Haverfield, daughter of Lord Alinger, Miss Margesson, daughter of Lord Haverfield, Miss Maud Joachim, niece of the violinist and many other prominent women.

GATHERING OF THE CLANS.
Probably 50,000 persons gathered to watch the attempt of the suffragettes to force Premier Asquith's hand. All avenues of approach were cordoned by police and ambulances were provided to deal with cases of accident. Within the cordon were a large number of members of both houses of parliament and society people watching the scene.

Among these were Lord and Lady Granard, Lord Morley, Lord Waverham and Lord Althorp.

Just before 8 o'clock the prime minister himself drove away from the house unobserved by the crowd. In Caxton hall were Mrs. Israel Zangwill, Miss Beatrice Forbes-Robertson, Miss Elizabeth Robbins and Miss Beatrice Harraden, besides all the well known suffragette leaders.

Great excitement was caused among the crowd by the movements of the equestrian suffragettes, Miss Vera Howe, who rode back and forth carrying messages between the different deputations, and which ultimately were arrested.

Throughout the demonstration the police behaved with the utmost forbearance, but the suffragettes in many cases forced them to some rough handling.

The great crowds indulged in considerable horse play, but generally no active sympathy was extended to the suffragettes. The police kept the peace and had orders to clear the whole vicinity of parliament and they gradually pressed the crowd back. One of the policemen's horses was stabbed by a man in the crowd and a constable was badly injured.

The first deputation comprised Mrs. Pankhurst, Mrs. Solomon, Miss Margesson, Mrs. Haverfield, Miss Joachim, Mrs. Mansell, wife of Col. Mansell, and granddaughter of the late Lord Wimborne, Mrs. Frank Corbett, sister-in-law of the late member of the house of commons, Mrs. Nellie, who is 72 years old. They were all arrested.

According to one report, Inspector Jarvis will bring a charge of assault against Mrs. Pankhurst.

Mrs. Solomon also struck him. Dr. Clifford, one of the supporters of the suffragette movement, in an interview afterward, said, he greatly regretted Mrs. Pankhurst's action. Such things, he said, helped to lock the lips of the advocates of women's rights.

"I have supported woman's suffrage for many years, but when I see such scenes as this, how can I say anything?"

DR. WILL L. ELLERBECK.

SCHEME FOR INTERCHANGE OF UNIVERSITY STUDENTS
London, June 30.—A scheme for the interchange of university students between the United States, Canada and the United Kingdom, rivaling in importance that established under the will of the late Cecil Rhodes, is in process of formation, with every prospect of success, it was announced yesterday.

The idea, which is supported by an influential committee headed by Prime Minister Asquith and Lord Strathcona, higher education commissioner of Canada, and includes the heads of the chief universities in the United Kingdom, and has also the endorsement of the presidents of the American and Canadian universities, aims at providing opportunities to students of the three countries to obtain some real insight into the progress and customs of other nations at the least possible expense. In the first place, the promoters suggest the
