New York, Oct. 9 .- The Tribune today says:

A tentative working plan has been adopted by the officers of the institute for medical research, founded by John D. Rockefeller, by whom it was endowed with \$200,000. It follows:

To expend \$20,000 a year, divided so as to provide for 40 scholarships. To make the appointments for one

choose only persons persuing or about to pursue investigations on some important subject in pathology, bacterogy or hygiene.

At the time the announcement was made that Mr. Rockefeller had given \$200,000 to found the institute, it was said that one of the things the institute would do would be to investigate the milk supply of the city, in co-operation with the board of health. This ask was completed some time ago It was said also that work of a more bitious nature involving original reearch and an effort to throw new light on problems which are as yet unsolved by medical science will be taken up in autumn. The board of directors which is assisting and directing thes investigations in their work comprise. William H. Welch, professor of path Johns Hopkins university, pre logy, sident; Dr. T. Mitchell Prudden, pro fessor of pathology, Columbia univer sity, vice-president; Dr. L. Emmet Holt, clinical profressor of diseases of children, Columbia university, secre-

tary; Dr. A. Horter, professor of path-ological chemistry, university and Bellevue hospital medical college, treas-urer; Dr. Theobald Smith, professor of comparative pathology, Harvard uni-versity; Dr. Simon Flexner, professor of pathology, university of Pennsyl-vania, and Dr. H. health.

New York, Oct. 10 .- Interesting experiments of much importance to the public health are being made at the bacteriological laboratory of the board of health. They are being held to test Prof. Koch's theory that human tuberculosis bacilli will not readily infect cows or calves.

So far the experiments have shown the theory to be correct, it is said. All the calves reacted, however, to a tu-berculin test, but the reaction was very slight, and it may have been due, it is said, to inflammation or other uses considered by the investigators the laboratory to be of minor im-

Suit for Beanmont Oil Fields.

Montgomery, Ala., Oct. 10.-W. A. Humphreys, of Wacco, Tex., Marcus and G. M. T. Humphreys, of Anniston, Ala, and their relatives have begun suit for the possession of oil fields at Beau-mont, Texas, upon which are situated fourteen oil avells. In the suit that has

been brought against the capitalists now controlling the property it is claimed that when the oil fever struck Texas, Capt. G. M. Lucas, J. M. Mc-Fadden and 23 others took possession of 5.670 acres of oil land south of Beaumont. The value of the land is said to be \$25,000,000. This property, accord-

ing to the papers, rightfully belonged to the Humphreys and estate and sull entered against the capitalists for \$25,000 per year from each defendant for trespass upon the land besides \$5 cents per barrel on 5,000,000 barrels of oil shipped out of the state.

that it was the work of irresponsible Bulgarian brigands who were moved thereto solely by a desire to extract ransom, and who had no political end of any kind to serve by their nefarious actions. Mr. Strauss thinks both the governments of Turkey and Bulgaria will do all they can to bring the rascals to judgment. No menace of war will be allowed to arise out of the incident, in Mr. Strauss' opinion. Tomo Sargentich, an Americanized Montenegrian, who is connected with a bank, knows a great deal from personal observation about the district where Miss Stone is held captive and about the people who inhabit it. He told a Tribune reporter yesterday that the native Bulgarians were, in his opin-ion, in no way implicated in the abduction of the American missionary. He believed that to be the work of Turks but he thought the peasantry in the country surrounding the scene of the abduction could easily be induced the offer of cash rewards for the heads of the brigands, to undertake a war upon the rascals which would end in their extermination. If rewards were placed upon the heads of Miss Stone's captors, he said, the heads would be fortheoming sooner or later. NO MORE STATEMENTS.
