The train left Old Colony at 3.11 a.m. with Mr. Martin and thirty reporters on board, and arrived at Scituate at 4:15. Then the party tramped through three miles of suowdrifts to the beach, where, the sun having risen, a clear view of a long stretch of the coast was obtained. ORIGIN OF THE RUMOR.

BOSTON, April 3 .- The origin of the rumor to the effect that the Cupard steamship Scythia had been wrecked on the coast at Scituate, is still a mys-tery. It appears that the officers of police boat Protector reported at police neadquarters that they had learned the fact of the disaster at theCunard wharf when in East Boston. The reporters, ol course, heard the story at the police neadquarters and made a rush for the office of the Cunard Company on State Street. Here Agent Martin was found in a state of nervous anxiety, having been summoned from his residence by an employe who had heard the story at the wharf, where it may have been circulated by the barbor police. The latter do not know who gave them the alleged information at the Cunard wharf, but supposed at the time it was the nightwatchman on the wharf. This is as far as the report

by Wm. [Kissane, Among Mrs. Bow-man's papers are several interesting letters, one from General Francis J. Darr, of San Francisco, bearing date July 22, 1886. General Darr says: "I am a native of Cincinnati and of the old firm of Gross & Dietrich; our factory (candles, soaps and clis) was de-strojed in 1881 by the incendiary act of William Kissane. While we were preparing proofs, other crimes came to light. Kissane has become rich and prominent and his intimates know nothing of his crimes. He was born in Ireland, emigrated to Canada, and thence to Cincinnati in the forties, thence to Cincinnati in the forties, finally be escaped the halter by the death of your father by poisoning."

Another letter is from John Eddy of Providence, R. I., a former officer of the Chemical Bank. It hears date November 29, 1886, and in it Mr. Eddy says: "Kissane was pardoned after your father's death. He went to Nicaragua and returned during the war and held some prominent positions. He now

San Francisco, April 3—There seems to be no doubt among those in this county will be suspended interintely. The leaders of the carpenters who, after a long struggle last summer failed to carry out their demands for eight hours and an increase of wages, decided then to renew the contest and think that now, when building enterprise is reviving and carpenters are wanted, the time has arrived to make the employers yield. seems to be no doubt among those in a position to know, that the statement published yesterday in the California Demokrat (German paper of this city) regarding Kissane telegraphed east last night is strictly correct, and that Wm. Kissane and Col. Wm. K. Rogers, a wealthy citizen of this state living at Sonama, is one and the same person. The Texas Brought.

GALVESTON, Texas, April 8 .- Special telegrams to the News, Houston Post and Ft. Worth Gasette, during the past week, from heariys every county in Texas, indicate the prevalence of serious drought throughout the state, affecting, in a large measure, its agricultural as well as its live stock interests. The drought may be said to be a continuation of last year's destanding the interior side last. September, while local showers have been few and inadequate during the past six months. The drought now extends over the great count belt, jeopardixing the outlook for the coming crop by retarding and preventing planting, which is usually in full progress at this season, but this can be scarcely said to have commenced, except in the coast counties, owing to the extreme dryness of the earth. Along the coast cotton is up and reports from several points speak of some damage by frost the last few nights.
