# A PRELIMINARY **CONVENTION PLAN**

Between China and Combined Powers-Former Acknowledges Her Grave Fault and Liability for Indemnity.

Herald from Pekin says:

A preliminary convention between China and the combined powers has been proposed by Prince Ching and Li Hung Chang. It is as follows:

"Article 1-Laying siege to the legations of foreign ministers is a high offense against one of the important principles of international law. No country can possibly tolerate such a thing. China acknowledges her great fault in this respect and promises that it will never occur again.

Article 2-China admits her Hability to pay an indemnity for the various losses sustained on this occasion and the powers will each appoint officials to examine and present all claims for a final consultation and settlement.

"Article 3-As to future trade and general international relations each power should designate how these matters are to be dealt with, whether the old treaties should continue or new conventions should be made slightly adding to the old treatle's or cancelling the old treaties and negotiating new ones. Any of these plans may be adopted, and when China has approved them, further special regulations can be made in each case as required.

"Article 4-This convention will be made by China with the combined powers to cover the general principles which apply alike to all. This settled, the foreign ministers will remove the | Minister Conger.

then the Yamen ministers may go to the Yamen and attend to business as usual. And further, each power should arrange its own special affairs with China so that separate treaties may be settled in due order. When the vari-ous items of indemnity are all arranged properly or an understanding has been properly or an understanding has been reached about them the powers will successively withdraw their troops. "Article 5-The troops sent to China by the powers are for the protection of the ministers and no other purpose so when the negotiations begin for treaties of peach each power should first declare an armistice."

WITHDRAWAL OF TROOPS. Washington, oct. 24 .- Based on Gen. Chaffee's advice the war department officials are convinced that all the officers and troops included in the order of evacuation have not only left Pekin, but are now at Tien Tsin or near by. The quartermaster's department has

made all arrangements for taking them aboard ship, so there is no longer much aboard ship, so there is no longer much danger of the troops being prevented by ice from leaving North China. It is now said that in all probability Gen. James H. Wilson, the second in command in China, will soon be de-tached, and will not remain in Pekin, according to the original program. In-instead of having the negotiations for a fully organized commission in behalf of the United States government as at first proposed, it begins to appear that they will be conducted, if there are to be any formal negotiations, through the simple mechanism of the American

"Mary-jand, My Maryland." Salisbury, Md., Oct. 24.—In his speech at Preston, Md., Mr. Bryan in response to the inquiry, "How about 16 to 1?" said; "If you want to know about 16 to 1 1 will tell you. Sixteen to ono was the paramount issue in 1896, but the the paramount issue in 1896, but the Republicans have done so many mean things since then that we are kept busy on the new things. But if a Republican disputes the 16 to 1 doctrine, you tell him that we have a Republican President, a Republican Senate and a Re-publican House and they have never attempted to change the 16 to 1 ratio and Mr. McKinley is now coining sil-ver dollars at the ratio of 16 to 1, with-out waiting for the aid or consent of Any other nation on earth. ## BRYAN ON BROWN MEN TO BLACK MEN

Easton, Md., Oct. 4 .- The Democratic presidential candidate last night came down Chesapeake Bay from Baltimore to the hamiet of Claiborn, on the eastern shore of Maryland and this forenoon he spoke at St. Michaels, Easton, Preston, Hurlock, Vienna, Salisbury and Berlin. He left the boat at Claiborn and from that point travelled by special train.

At. St. Michaels, the first stopping place of the day, there were some colored people in the crowd and to them Mr. Bryan addressed himself to some extent.

On the race question, Mr. Bryan said: "It is one of the strange things we see in this campaign that the Republican party goes to a black man and urges that man to say by his vote that the brown American in the Philippine islands has not a right to a voice in this government, and it seems to me that before a black man votes in this government, and it seems to me that before a black man votes to disfranchise a brown man he had better find out upon what basis his own right stands.
